BULBS

EVERY experienced Greenhouse operator fully realizes the value of A-No. 1 quality bulbs for forcing, and for this purpose we know of no better or more economical quality than the bulbs we offer you in this list.

We have made arrangements with the General Bulb Company of Holland to sell their products in this country.

Our many years' experience as bulb growers and bulb salesmen put us in a position to judge the growers in Holland and to select the best house with which to deal. The General Bulb Company has always been a producer for the Holland market, but only for the past few years have they sold bulbs direct to the trade. They grow more bulbs than we can sell for several years to come—which means that the very best of everything will be shipped.

All orders will be shipped early, which will be a great advantage to you as long as the transportation is so slow. But, in order to put us in position to get your goods to you at the right time, please send us your order for next Fall delivery **AT ONCE**.

Terms: 90 days net, 2% 30 days. All goods f.o.b. farms in Holland. Packing material at cost.

NATIONAL BULB FARMS

Benton Harbor, Michigan

(Prices on all varieties not quoted in this list on application.)

Price List

100 Bulbs at 1000 rate.
