Narcissus Notes

Midwest Region American Daffodil Society Fall, 1996

Midwest Regional Vice-President:
Linda Wallpe 1940 Gregory Lane Cincinnati, Ohio 45206 (513) 221-4140

Any day now bulbs will be arriving by mail for planting season to begin. Now if I can just get them all in the ground before leaving for the Board Meeting in Albuquerque!

We've not been blessed with much rain lately and the ground is a rock. We planted 3 trees last Sunday and thank goodness for a husband with a pickaxe and good muscles (now sore). Hopefully, the soil condition will improve.

The ADS has a new committee for Membership. They are looking for ideas to increase our numbers. I'm on the committee and would appreciate any ideas or suggestions.

Looking forward to seeing you at the Regional Meeting,

Linda Wallpe, RVP, Midwest Region

Folks,

Each year the American Daffodil Society awards two medals for distinguished service. The Gold Medal is for attainments/service for the betterment of the flower. The Silver Medal is for service/attainments in support of the ADS. Any ADS member can nominate person for consideration for one of the medals. Just write a brief (~200 words) letter outlining the person's qualifications and attainments and send by December 31 it to the ADS President;

Ms. Jaydee Ager
344 Bear Branch Road
Kathleen, GA 31047

Seconding letters are also valuable. Ask others to support a nomination by sending a supporting letter.

Nominations are evaluated by the Gold and Silver Awards Committee, composed of the three most recent ADS Past-Presidents. Their decision must be unanimous, so some years even though nominations are made, one or both medals may not be awarded.

The medals are not awarded posthumously. It's my feeling that there are many persons deserving these recognitions, and that the Committee should never fail to award one of the Medals for lack of nominations. The list of previous Medals recipients is forwarded.

Any candidates?

Bob
(Bob Spotts)

From: ramsay@waikato.ac.nz (Peter Ramsay)

Daffodil growers are perpetual moaners. There is never a "just right" season. It's always too late, to cold or as in this year too dashed early. With the World Convention at the tail end of our season we had hoped for a latish season. No way, we're a month ahead of last year. We will peak for the NI national which is good news for those people coming to Hamilton. We will struggle for the World Convention, and hope our coolers don't break down!!!! Now, the good news - our early flowers are very good. We are thrilled with the seedlings, and got most of the awards at our first show with Koanga breds. This included best in show with a lovely cool lemon shaded seedling 23 - 92. It would have won anywhere he says modestly. The competition wasn't great especially as Graham Phillips flowers were nowhere near his best standard; we got 11 of the 13 premiers with nice flowers. Some of the flowers were a little on the small side, but those in flowe now have size and good substance. Some good Aussie breds are showing up now - Rheban Red, Redlands Too and No Peer excellent, and there are good flowers on Compute, Chaos and Comal. Max has some splendid Demand and the best Grand Prospects I've yet seen. The mud must suit them - he is nearly under water.

There are plenty under cover readying themselves for our next show, and lots coming along for the National. My four fridges are nearly full already with I suppose well over 150 quality flowers. A big sort out will be required this weekend. I hope they last for you to see. The NI national should have record entries. Looking forward to meeting the visitors in two weeks time. Peter.

From: "J Russ" <gator@together.net>

HI

First me and my wife don't know anything about growing daffodil, but we do know we like them and want they in our garden. Our problem is this, we now live in Vermont and we have 12 bulbs (I don't know the type) that last flowered over three years ago in N. Caroline. In that time they have been resting comfortly in a large paper bag. They have been kept dry and I don't notice any mold or fungus on them (for whats that worth). What we would like to know is there anything we should do to prepare the bulbs before we plant them and when would be the best time to plant them. Also could anyone recommend some good books on daffodils. Thanks for you time.

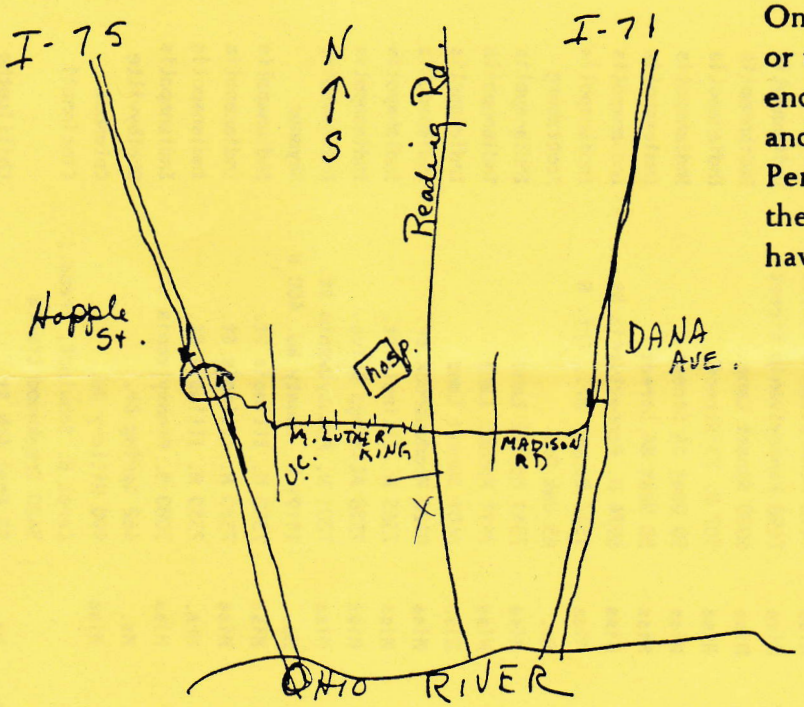
CYBERSPACE

REGIONAL MEETING
OCTOBER 6, 1996 10:00 A.M.

CIVIC GARDEN CENTER
2715 Reading Road
Cincinnati, Ohio 45206

AGENDA
9:30 Local Society Meetings
10:00 Regional Meeting
Lunch
12:00 Program
Bulb Exchange



PROGRAM

Tom Stettner is the new chairman of the ADS Slide Program. Taking advantage of his possession of the slides, we have been viewing the different programs. We particularly enjoyed the one on doubles and thought you might like to see it, too.

Suzy Wert of Indianapolis will also give us a brief presentation on The Junior Daffodil Grower's Club. This was Suzy's brainchild and I'm sure you will enjoy her bubbling style as much as I do.

Once again, anyone who has an odd slide or two that they would like to share, is encouraged to bring them. A carrousel and projector will be available for use. Perhaps some of those returning from the New Zealand World Convention will have a few to show and a few words to say.

As this 'went to press', the Highway Dept. Decided to close the ramps from I-71 to Reading Road.

....So....

From I-75 North or South, take the Hopple Street Exit and go East (toward U.C.). This street changes names - first Dixmyth (as you go up the hill) then to Martin Luther King Drive (at the top of the hill). Just continue straight till you reach Reading Road and make a right. The Civic Garden Center will be on your right in about 3 blocks. Turn right on Oak St. And immediately left into their parking lot.

From I-71 (coming from the North) take the Dana Ave. Exit. Make a left. Go about ½ mile to Madison Rd. And take a right. Continue on Madison Rd., go thru O'Bryonville, continuing on Madison Rd. To Reading Rd. Make a left onto Reading. (You will be on Madison Rd. For appx. 3 miles, maybe a little more.) The Civic Garden Center will be on your right in about 3 blocks. Turn right on Oak St. And immediately left into their parking lot.

NEW MEMBERS, MIDWEST REGION

As evidenced by this list, Indiana has been busy! If only all the states showed this kind of increase in membership. Don't forget to call and invite our new members to any planned events.

Dear Daffodil Friends:

CODS is in the fourth and final year of the rejuvenation of the garden and we need over 300 extra cultivars to add to what we already have.

In the process of rejuvenating the garden, we are adding many amendments to the sand, topsoil, and mushroom compost that make up our now - raised beds. The flowers never looked lovelier, but in order to finish the job, we need more bulbs. Please, won't you help out and keep this garden the largest display garden in the U.S.?

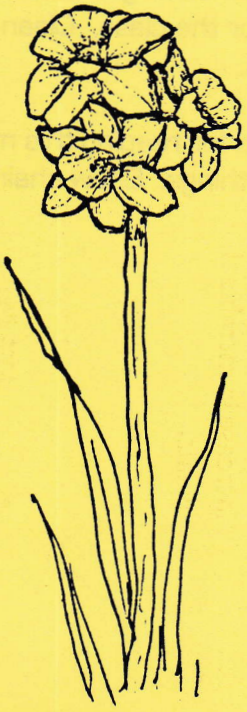
If everyone who comes to the Regional Meeting will bring one or two cultivars, we would have enough. I plan to be at the Regional meeting, so I can get them there and save on postage.

On October 12th, we will plant back either 3 double-nosed bulbs or 6 rounds. Each cultivar should be in a paper bag with the name of the cultivar and the name of the contributor. You would be listed as the donor in our newsletter and garden data bank.

Bulbs may be sent to: Nancy Kolson, 22131 Delaware County Line Road, Marysville, Ohio 43040.

Thanks so much for your consideration of this matter,

Nancy Kolson, Chairman (614) 348-2331
Daffodil Display Garden
Whetstone Park
Columbus, Ohio



A SHOW CHAIRMAN'S LAMENT

by Helen Trueblood

You have heard this before and are going to hear it again. Schedules are written to help everyone enter the show and enter in the right class. Sometimes we look instead of read. Please read and learn what it says. Ask about Section and Class if you are in doubt. Check the Handbook for Division and color code of flower. Sometimes the flower you have is misnamed but you can have it correctly coded in correct Division.

The entry cards need to be completed on the top and on the bottom half. Your name can be put on before show time. How many cards are removed without names? It takes time to hunt the entry on the show table. Sometimes the whole thing is blank and if a blue ribbon punch has been made, it would go toward sweepstakes. Fill it out completely!

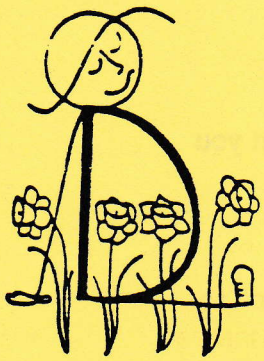
Large rubber bands are not to be used. #12 are plenty large and hold the cards tight on the tubes. I bought a pound of #12 bands for 99 cents. The cards are hard to handle when having to straighten up for judging. These items seem of little importance but become a time saver for judges and show chairmen when correctly done.

Having clean flowers is a must. If mulched, they are not difficult to clean. Weather damage is out of our hands. Clean those entries!

Greens are used to hold the stems tight in the tubes. Too often it seems to be added any old way. It should be used to hold the flowers in the best position for show. Short stems can be brought up as far as possible and still be in water - wedge tight; the flower is more graceful. Greenery too long is distracting. It should be wedged in and then trimmed off. We are not making bouquets,.

Sometimes larger tubes are used in miniature classes and vice-versa. Select the best tube for the class. Clean flowers in the right tubes with good wedging are helpful in shows.

Thanks for reading this message, and an even bigger thanks if you remember to do all these things. Show chairmen and judges will also be thankful.



JUMPSTART THE DAFFODIL SEASON WITH A DEEP SOUTH CONVENTION

By Loyce McKenzie, Madison, Mississippi

Mark your 1997 calendar for a down-home, small-town, family-style convention. Join the ADS in Jackson, Mississippi, on March 13-15, for the earliest ADS convention ever; and the one farthest south.

The 1997 convention will be held at the Edison Walthall Hotel in downtown Jackson, just across Capitol Street from the second oldest Governor's Mansion in continuous use. Although Jackson calls itself "The Crossroads of the Deep South," it provides a setting just the right size for an early spring helping of true Southern hospitality.

Come in early and enter your own flowers; there's no better way to feel a vital part of a convention than to take the risk of being a participant. If March 13 seems a bit early for your daffodils, plant miniatures in a sheltered location and plant lots of Division 6's.

The keynote banquet speaker will be John Pearson, of Hofflands Daffodils. Those of us who were at the Portland and Baltimore conventions found John and Rosemary quite easy to get acquainted with, and helpful in every way, from sharing the secrets of creating gorgeous flowers to taking down the show.

Jackson can be reached by automobile on I-55 or I-20. By Delta Airlines via Atlanta, as well as direct flights from Nashville and Cincinnati. TWA serves Jackson via St. Louis and Northwest has an airlink via Memphis.

Come South in springtime '97, and maybe even make a wider swing through our part of the country. If you'd like information on other interesting destinations in the area, call me at (601) 856-5462 or write to 249 Ingleside Drive, Madison, MS 39110.

Ya'll come now □ you'll be glad you did!

The following was taken from CODS newsletter. I thought it was terrific and that you might like to read it also.

THE LITTLE DETECTIVES

by NAOMI J. LIGGETT

While visiting with Rod Barwick in Tasmania, I happened to ask him how he came up with some of the name for his daffodils since some of them are a little unusual. There are four Little Detectives: 'Spoirot 12 W-W, 'Kholmes' 12 Y-Y, 'Smarple' 12 W-W, and Orclus 12 W-W. All were bred from the cross N. Bulbocodium conspicuus x N. Cantabricus foliosus. 'Spoirot' is Monsieur Poirot and 'Smarple' is Miss Marple for the Agatha Christie mystery novels. 'Kholmes' as you have probably figured out is Sherlock Holmes and 'Orclus' is Inspector Clouceau.

12 W-W 'Fyno's name is a combination of 'Nylon' and N. Cantabricus foliosus from which it was bred. 'Ragbag' 4 W-O was bred from 'Ann of Cleaves' x 'Dimity'. Ann of Cleaves was a "bag" and dimity is a type of fabric, hence the name 'Ragbag'. Polyeasther' 4 W-O is from the same cross and was named for a type of fabric. 'Oh Kaye' 4 W-P also has 'Ann of Cleaves' in its breeding but it has nothing to do with a bag as it was named after Kaye Pless, a friend of Rod.

'Bombalurina' 3 W-W is named after one of the cats in the musical *Cats*. I wonder if she was the white cat? 'Think of Me' 3 W-W is named after a song from *Phantom of the Opera*. 'Ah Gee' 1 Y-Y was bred from 'Golden' x 'Ristin'. RG = 'Ah Gee'.

One of the wildest stories is the naming of 'Wild Women' 1 Y-Y. In 1984 this flower was a seedling and won the Grand Championship in Launceston, my first time in Tasmania. According to Rod the ladies were so excited and dancing around when it was up for champion and subsequently won, that he named it 'Wild Women' in their honor.

Dave Karnstedt refers to 'Minnie', 'Mickey', 'Mortie', and 'Ferdie' as the Disney Daffodils but it didn't sould like Rod calls then that. Are all of them Disney characters? One wonders about some of Rod's other names : 'Gargleblaster' 1 Y-Y, 'By Gummo' 3 W-W, 'Nite Games' 2 W-WWP, 'Polka Dots' 3 W-ORR. Maybe the 'Angels' (Whisper, Breath of Music) got their names from N. triandrus whose common name is 'Angel Tears'. 'Slip'ry' 6 W-W has 'First Frost' in its parentage and maybe that equates to Slip'ry.

From now on, I will always try to figure out how he named a daffodil!

SHOW COMMENTS:

From Leota and Helen Trueblood: Over 3 days, probably 1000 attended. Historical Daffodils Section had 38 entries in 5 classes. People remarked how much they enjoyed seeing the old ones. Small Growers Section was well filled.

From Indianapolis and Joe Hamm: Libby Frey staged a special exhibit that absolutely captivated the public. 153 vases with 765 blooms. Labeled. And she did it for the FUN of it. Sue Dillon won 'Best Small Grower ADS Ribbon' for 'Pink Charm' Historic Collections were great, Phyllis Vonnegut winning.

From Akron and Carol McKeeman and Violet Boone: Due to the strange weather this spring, an incredible number of blooms entered.
