### COLOUR CODING

Colour Coding has now been adopted by the R.H.S. and is included in the new Classified List and Register of Daffodil Names published by the R.H.S.

In this Price List, Colour Coding is given between brackets immediately following the Division.

For a full explanation of Colour Coding I recommend the article on this subject by Dr. Tom D. Throckmorton in "Daffodils 1974". These annual publications also contain all the latest information on Daffodils from all over the world and are vital reading if you are to get the best from your bulbs.

"Daffodils 1977" and back numbers can be obtained from the Royal Horticultural Society, Vincent Square, London SW1P 2PE.

### OPEN DAY

All interested in daffodils will be welcome on Sunday, April 24th, 1977, when the gardens at Dunley Hall will be open under the National Garden Scheme from 2.00 p.m. until 6.00 p.m.

ADMISSION: 20p.

It can be arranged to see the daffodils on other days, but only by appointment.

## NEW INTRODUCTIONS 1977

**ARPEGE** (Board) Div: 2C. (WWW)

A beautiful pure white flower, with broad overlapping petals that form a nearly circular perianth. The flat round cup is well proportioned and nicely balances the perianth. A good grower that multiplies quickly. The flower is held well by a strong stem although it is inclined to have a rather long neck. Has won in the single bloom classes on several occasions.

Breeding: Easter Moon x Homage — Late Mid-Season

Price each: $ 8.75

**BLITHE SPIRIT** (Board) Div: 3B

This is a very unusual non-predominant flower, with a pure white perianth formed from broad well overlapped petals. The flat cup in white at the base turning to greenish yellow and then to a broad orange rim. The very attractive flower is carried well by a strong stem, is free flowering and has won frequently in single bloom classes and in the P.D. Williams group in London.

Breeding: Chinese White x Alport — Late Mid-Season

Price each: $ 8.75

**CAMELOT** (Richardson) Div: 2A. (YYY)

A very fine self yellow of generous proportions. The flower is a deep clear yellow throughout, with a nearly circular perianth, formed from broad petals of great substance. A very strong and vigorous plant that is proving to be a very useful parent.

**GLENSIDE** (Board) Div: 2C. (GWW)

This is a very fine ice white show flower with the same breeding as "Misty Glen" and is of equal quality, but with a more rounded perianth, that is well proportioned to the rather narrow cup that has a lovely green eye at the base. It is a good plant with a nice bulb.

Breeding: Easter Moon x Pigeon — Mid-Season

**MELDRUM** (Lea) Div: 1A (YYY)

A large a beautifully formed trumpet, of dark rich gold. The trumpet being darker than the perianth which is formed by broadly overlapping spade shaped petals that are naturally smooth and at right angles to the trumpet which to begin with is gently expanding, then it rapidly expands at the mouth to a neatly serrated edge. The whole flower is well proportioned on a tall strong stiff stem with a good neck that holds the flower in perfect position. This is the darkest golden yellow trumpet I have seen. As the flower ages the trumpet turns to pale orange. This seedling arose out of my breeding programme for Red Trumpets, and has so far shown great consistancy, having been successfully shown during the last 3 years under No. 3—5—67., twice in my winning Engleheart Cup and once in the class for 6 seedlings.

Breeding: Arctic Gold x Seedling — Early Season

Price each: $78.75

**TARIFA** (Navarro) Div: 2A (RRR)

A very late red and yellow, one of the very few in this division that flowers with the later red and whites. The deep rich golden perianth is formed with spade shaped petals making a good contrast to the deep red rather narrow cup. A well proportioned medium sized flower that is free flowering — Very necessary for late shows.

Breeding: Ballyclare x Revelry — Late Mid-Season
