**Date :** April 30, 2017

All

A Newer Show along the Southern Border of Michigan with Indiana was held in the hometown of Dr John Reed in the city of Niles.

With this show, came the opportunity to see Dr Johns seedlings and named varieties that we don't ever see since no photographers are close by to capture them. Also, Some of the Seedlings and named varieties of Dan Bellinger were available. Since he now lives in Niles as well.

There were some very large flowers here and the quality was quite good. Some of you that have a page setup on Facebook have no doubt observed some of the photos that showed a bit of the size of some of these blooms.

I'm just back from Joe Hamms show in Washington PA where we saw more high quality blooms in the very latest season cultivars. Those of you with Facebook accounts, stay tuned for those photos next, then posted here as the final season photos for that shows winners.

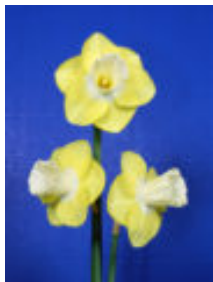

The Niles shows photos are below. There are also special photos of flowers that are not included in shows and represented by photos around the country.

Happy Viewing!

Tom

Best in Show and Rose Ribbon for best Seedling in show. Exhibited by John Reed
