Hello All

The IDS show was held at it's typical location at [Holiday Park](#) Indy Parks. It's a great place to explore and enjoy creation all around.

The building has an advantage of a nice overhanging roof over all the rooms in the building that does a nice job of allowing photos to gain the advantage of natural light but not exactly direct sunshine.

Mary Lou Gripshover won the Gold Ribbon with her named variety "Olentangy" which actually took my breath in our own SWODS show last year for a photo for Daffseek, but wasn't quite good enough for the top awards at that time.

She also won the Bozievich award with 11 of her own hybrids out of the 12 flowers in the entry.

Dan Bellinger had some beautiful seedlings as usual and won the white ribbon with his seedling of Scipio X Sergants Caye.

Photos below.

Gold Ribbon Winner for Best Standard Daffodil in Show. Olentangy 3W-GYY, which is a hybrid from Mary Lou Gripshovers hybridizing efforts and exhibited in this show by the hybridizer. I think it should be a 3W-GGY myself.
