Thank you very much for your fine interest in Novelty Daffodils. We would like to offer a late season list again this year.

Orders will be mailed immediately when received. To facilitate good service, please give item number of each variety or collection ordered (**bold number** preceding price). Please advise if substitution of equal or greater value is permitted and do not hesitate to suggest alternates. Bulbs will be somewhat variable in size and shape, but only blooming size bulbs will be sent. A few have been down more than one year in our holding plots and may have a rough external appearance.

We would appreciate orders to be received by November 7, 1997. Orders for bulbs under \$20.00 to one address require \$3.00 for postage and handling. Thank you.

SPLIT CORONA COLLECTION

An interesting cross of (Spaceship sib. x Phantom), this series has been of considerable interest to numerous visitors. The intense coloration and heavy substance contribute to their ability in the garden. In the following collection, two are pink and the other two are deep golden yellow.

TT16/13 11aY-Y Very bright and tall; deep gold ruffled corona with mid yellow perianth.

TT16/21 11aY-Y Deeply ruffled golden yellow corona; a bit more formal than TT16/13.

TT16/25 11aW-P Relatively flat mid pink corona; white perianth.

TT16/30 11aW-P Ruffled pink corona; well formed white perianth.

INTERMEDIATE COLLECTION

Last year, a collection of four seedlings was offered. One of those was named La Traviata last spring. The other three are planned for possible naming in the near future. They are all refined flowers of show quality, very neatly formed and of size which should qualify them for intermediate.
