INTRODUCTION

The past season has been quite successful for exhibitors of Ballydorn bred outlivars. In the U.S.A. Witch Doctor had a Gold Ribbon at Bowling Green and was among the Blue Ribbons at other shows, together with N. Golden Amber, Goose Green, High Tower, Hilford, Lancaster and Moon Tide. Some of these as well as N. Ringhaddy were in the Quinn awards. We were especially pleased to see in the ADS Journal that several of the newly named seedlings were in Quinn exhibits or had Blue Ribbons, including N. Moon Ranger (was 75/3A/3), Lisnamulligan (was 86/3W-R/2), and that as yet unnamed seedlings of ours were in Throckmorton Ribbon groups in company with Ballydorn things such as N. Firestorm and N. Dove of Peace and others.

In New Zealand, N. Witch Doctor, Hilford and Kilmoor all scored best in class.

In Canada N. Best of Luck, Hilford, Moonspell, Moon Rhythm and Ringhaddy had top honours in their respective classes.

At home our unregistered seedlings had Best Unregistered Seedling at Ballymena and Hillsborough, and Best DIVS. 1 and 3 at Hillsborough, Best DIV. 3 and Best DIV. 9 at Belfast and Omagh, and Best DIV. 2 at Enniskillen.

N. Greenpark was Best in Show at the late N.I.D.G. Show with N. Delphin Hill Best DIV. 4, Late Call Best DIV. 3 in a very large class at Belfast and N. Rubyat, Moontide and Ballynichol all winning their classes there.

We have forecast a £ sterling/U.S. \$ rate of U.S. \$1.90 = £1 sterling without any great hope of exchange stability, but will as usual make good any shortfall in the rate with extra bulbs.

If advance payment is not made, payment is due on receipt of the bulb invoice, always sent with parcel, and must be either in £ sterling or U.S. \$ cheques or postal drafts payable in London.

Early orders are recommended as bulb lifting will be completed by 1st July next.

N.P. HARRISON

Dated 1st February, 1991.

Payment: New customers are asked to make payment with order and to add the cost of postage, allowing for free bulbs.

CHOICE NEW DAFFODILS

ARRANGEMENT OF LIST, AND CODING SYSTEM

The list has been arranged in alphabetical order with the Division and Classification of each cultivar shown in the margin. The classification is in accordance with the Revised System adopted by the R.H.S. Colours are abbreviated as follows:

w—white or whitish; g—green; y—yellow; p—pink; o—orange; r—red.

For the purpose of description, the daffodil flower is divided into perianth, and corona. The perianth is described by the first letter following the number of the Division to which the cultivar belongs.

The corona is treated as having three zones: An eye zone, a mid-zone and an edge or rim. The description of the corona is separated from the description of the perianth by a hyphen and the letter then following the hyphen describes the corona colour starting with the eye zone. If however the corona is of a single colour, only a single letter of the colour code is used to describe it.
