Autumn 1922.

Barr's "Gold Medal" Daffodils

AWARDED

Fifty-three Gold Medals and Three Silver Challenge Cups and Two R.H.S. Silver Cups for New Seedling Daffodils. Also many First-class Certificates and other high awards.

We have been awarded for New Seedling Daffodils—
The Engleheart Challenge Cup by the Royal Horticultural Society as First Prize for 12 Best Seedling Daffodils not in commerce.
The Walter Ware Challenge Cup for the Best New Triandrus Hybrids.
The R.H.S. Silver Standard Cup for the Best 12 New Seedling Daffodils.
R.H.S. First Prize for the 12 Best Seedling Daffodils in commerce, 1922.

New Seedling Daffodils
Including New Varieties for 1922

The following list comprises some of the finest New Seedling Daffodils raised by ourselves and other well-known hybridists. The relative qualities as we judge them are indicated by xx, xxx, xxxx, *the highest quality flower being given the most marks. The figures after the names indicate the relative period of flowering,* (1) *being earliest,* (6) *being latest.*

	each. £	s.	d.
Abadea (Leedsii) (3), xxxx, *new* 1920, a large refined flower, measuring 4 inches across, with a beautiful smooth white flat perianth and elegant creamy white crown, ht. 22 in.	0	10	6

COLLECTIONS OF DAFFODILS

FOR FLOWER BORDERS, POTS, AND BOWL CULTURE.

Barr's 27/6 Collection of Daffodils for Flower Borders.

The following varieties are all beautiful in the flower border, and the selection embracing early and late varieties gives a good succession of bloom. All are suitable for pot culture and will give an equally fine display in the greenhouse or sitting-room.

ALL STRONGEST SELECTED BULBS.

6 Emperor
6 Golden Spur
6 Bicolor Empress
6 ,, Victoria
6 Madame de Graaff
6 Incomparabilis Beauty
6 Incomparabilis Lucifer
6 ,, Sir Watkin
6 Barrii conspicuus
6 ,, Cœur de Lion
6 ,, Fair Maiden
6 Leedsii Amazon
6 Leedsii Mrs. Langtry
6 Odorus Campanelle
6 Poetaz Elvira
6 Poeticus ornatus
6 ,, Minerva
6 Codlins and Cream (double)

3 Bulbs each of the above 18 varieties for 14/-

Barr's 42/- Collection of Daffodils for Pot Culture.

The following Daffodils can be specially recommended for pot culture, and by gentle forcing a succession of bloom may be had through February and March, the selection containing early and later flowering varieties. If after flowering they are turned out of pots and carefully planted out (the ground being well watered previously, should it be dry) they will mostly flower well outdoors the following season. *For Cultural Directions see pages 2 and 3 of our General Bulb Catalogue.*

ALL STRONGEST SELECTED BULBS.

6 Emperor
6 Talma
6 Alice Knights
6 Madame de Graaff
6 Bicolor Empress
6 ,, Gwendolin
6 Incomparabilis Bonaparte
6 Incomp. Sir Watkin
6 ,, Yellow Standard
6 Barrii Fair Maiden
6 ,, Mascotte
6 Leedsii Queen of the North
6 ,, Amazon
6 ,, Maid of Athens
6 Queen of Spain
6 Poetaz Elvira
6 Poeticus Edna
6 ,, Ethelburga
6 Argent (double)
6 Campanelle Jonquil

3 Bulbs each of the above 20 varieties for 22/-
3 Bulbs each of 10 varieties (our selection), 12/6

Barr's 25/- Collection of Daffodils for Bowl Culture.

For growing in bowls in our Peat-fibre Mixture. *For Cultural Directions see page 2 of Bulb Catalogue.*

ALL STRONGEST SELECTED BULBS.

6 Emperor
6 Golden Spur
6 Queen of Spain
6 Madame de Graaff
6 W. P. Milner
6 Bicolor Empress
6 Incomparabilis Bonaparte
6 ,, Sir Watkin
6 ,, Yellow Standard
6 Barrii Mascotte
6 Leedsii Amazon
6 ,, Fairy Queen
6 Odorus Campanelle
6 Poetaz Aspasia
6 ,, Elvira

3 Bulbs each of the above 15 varieties for 12/6

☞ *Special Collections for Bowl Culture, Pots, or Borders, made up to any value to meet customers' requirements.*

DAFFODILS RECOMMENDED FOR EARLY FORCING.

The following varieties being naturally early sorts may be easily had in bloom during January and February. *For Cultural Directions see pages 1 and 2.*

☞ In addition to the above we recommend all the Polyanthus Narcissi offered on page 24.

Barr's Flower Border Mixture of Daffodils.

Although we are of opinion that a better effect is obtained by planting named varieties in separate groups, there are many who prefer a general mixture, especially for filling large beds, and the special mixture we offer here will be found admirably suited to this purpose.

Barr's Flower Border Mixture of Trumpets, Chalice Cup and Poet's Narcissi, *strong flowering bulbs*, per 100, 21/-; per doz, 3/-.

DAFFODILS FOR NATURALISING

In Woodlands, Shrubberies, Orchards, and in Grass, etc., and to plant for Cutting.

1000 in 20 fine showy named sorts (Trumpets, Peerless, and Poets), *strong bulbs*, **150/-**

MIXTURES OF DAFFODILS FOR NATURALISING AND LARGE PLANTINGS.

Mixed Daffodils of Many Sorts, for naturalisation, including a good mixture of **Trumpets, Incomparabilis, Barrii, Leedsii,** etc., suitable for large plantings in Grass, Woodlands, Herbaceous Borders, etc.....per 1000, **85/-** ; per 100, **9/-**

Single Chalice-cup or Star Narcissi, Mixed (Incomparabilis, Leedsii and **Barrii varieties),** the charming effect of these light graceful Daffodils, when naturalised, must be seen to be realised. For cutting they are most valuable .....per 1000, **80/-** ; per 100, **8/6**

White Poet's Narcissi, in Mixture, comprising mostly varieties of **Poeticus,** suitable for naturalisation in grass, under trees, etc. Valuable for cutting.....per 1000, **80/-** ; per 100, **8/6**

MINIATURE DAFFODILS FOR THE "ROCK GARDEN."

The following are charming little subjects for rockwork, where their dainty flowers are seen to perfection. They should be left undisturbed for years, and, if happy, will soon establish themselves and afford a lovely picture in early spring. The ground may be carpeted with close-growing surface-rooting plants, such as *Acæna, Mossy Saxifragas*, and *Thymes*, etc. ; these plants provide a natural protection for these little bulbs, besides keeping their dainty blooms from being splashed in rainy weather.

☞ *Full descriptions of the following Miniature Daffodils will be found in body of Catalogue.*

Barr's General List of Daffodils

For Alphabetical Index, see page 2 of Cover.
New Seedling Varieties, see page 1.

Classification.—In the following pages we have practically adopted the 1910 classification of the R.H.S. Narcissus Committee, which we hope will be of assistance to exhibitors of Daffodils and to amateurs who desire to make a selection of distinct types. As will be seen, 10 distinct divisions have been made, together with a section (Div. XI.) at the end to take in a few unclassed species and hybrids. With each division we have given its distinguishing character.

Time of Flowering.—The relative period of flowering of the different varieties out of doors we have denoted by means of numbers after the names, (1) being the earliest, (6) being the latest.

Height.—The heights given in inches are as recorded at our Nurseries.

Quality of Flower.—Each season we go carefully over our Daffodil collection with a view to recording the quality of each variety. This we indicate by x, xx, xxx, and xxxx, giving the most marks to those we judge to be the finest. We trust this record may be found useful to amateurs in making their selections.

Cultural Marks.—* The varieties marked thus * thrive best under the shade of deciduous trees, naturalised in grass in shady nooks, or on grassy slopes facing north.

† Indicates those kinds which should be selected where Daffodils are grown in pots or for exhibition ; they are, however, in most cases also splendid border varieties.

§ Indicates those Daffodils which, beside being fine border plants, make a pretty effect when naturalised in grass ; they are all strong growers and free bloomers.

Time to Plant.—The best time to plant, to obtain the finest flowers, is early autumn (as early as possible), *although bulbs may be put in as late as Christmas with fairly satisfactory results ;* we have planted some Daffodils as late as the second week in February and had some very good blooms in May. We recommend, however, *early* planting for best results.

Depth to Plant.—Failures with bulbs are most frequently due to their having been planted too deeply or too shallow. A good general rule to follow is to cover the bulb with soil once and a half to twice its own depth, *measuring the bulb* from base to shoulder. Thus a daffodil bulb measuring 2 inches from base to shoulder should be covered with 3 to 4 inches of soil.

DIVISION I.—TRUMPET DAFFODILS.

DISTINGUISHING CHARACTER.—TRUMPET OR CROWN AS LONG AS OR LONGER THAN THE PERIANTH SEGMENTS

(A) YELLOW AND SULPHUR-COLOURED TRUMPET DAFFODILS.

With Yellow, Lemon or Sulphur-coloured Trumpets, Perianth of same shade or lighter (but not white).

It seems to do best planted 9 to 12 inches deep..... per 100, 21/- 3 0 0 4

†**Michael** (3) xxxx, *new* 1910, a beautiful and refined *Giant Yellow Trumpet Daffodil,* flowers of a clear soft yellow, with a broad, slightly campanulate perianth of great substance, trumpet of beautiful form and of solid texture, plant of fine erect habit, ht. 19 in. AWARD OF MERIT R.H.S. 1916... 60 0 5 6

Minimus, true (1). We are glad to be again able to offer this little gem, the smallest and dwarfest of all Daffodils, producing outdoors in February dainty little trumpet flowers of a rich full yellow, height about 3 inches. It likes a peaty soil and may be naturalised on rockeries or in grass, or grown in pots or pans for the Alpine house. In 1887, during a tour in Spain, the late Mr. Peter Barr found this miniature Daffodil growing freely amongst gorse, with a south aspect. *For our annual supply we have to depend upon collected bulbs which are taken up while the foliage is green ; in consequence there is a possibility that a few of the bulbs may not bloom the first season*.....per 100, 35/- 5 0 0 6

(B) WHITE TRUMPET DAFFODILS.

Varieties with White Perianth and White or nearly White Trumpet.

DAFFODIL LADY AUDREY.

Most of the Daffodils in this section thrive best in fibrous virgin loam, mixed with well-decayed leaf-soil; generally speaking they dislike manure; where, however, the soil is very poor, bone-meal or basic slag may be used (for full directions, *see* our General Bulb Catalogue).

	per doz. s.	per doz. d.	each s.	each d.

INCOMPARABILIS LUCIFER.
Example of Flower in Division II.

DIV. II.—INCOMPARABILIS.

LARGE CHALICE-CUPPED DAFFODILS OR STAR NARCISSI.

DISTINGUISHING CHARACTER.—CUP OR CROWN MEASURING FROM ONE-THIRD TO NEARLY THE LENGTH OF THE PERIANTH SEGMENTS

All the varieties have yellow or white perianth and yellow or red-stained cups.

These beautiful **Star Narcissi** commence flowering in March, and furnish a succession of bloom throughout April. All are of elegant beauty, and as cut flowers are extensively used for furnishing vases and table bouquets. For this purpose they should be grown in quantity in boxes and forced for early bloom (*see pages* 2 and 3 of our General Bulb Catalogue). They make charming pot plants, while in beds and borders they are very showy, and naturalised in grass they produce a graceful effect. *We illustrate Lucifer as an example of a flower in this Division.*

BARRII SUNRISE.

Example of a Flower in Division III.

DIVISION III.—BARRII.

SHORT-CUPPED DAFFODILS, OR STAR NARCISSI.

(Including those hitherto classed as Burbidgei).

DISTINGUISHING CHARACTER.—CUP OR CROWN MEASURING LESS THAN ONE-THIRD THE LENGTH OF THE PERIANTH SEGMENTS.

All the varieties have yellow or white perianth and yellow or red-stained cups.

For a long time trouble was being experienced in the placing of certain new seedlings under the **Barrii** and **Burbidgei** sections, as the two divisions ran so much into one another. The revising committee therefore decided to make only one section of them, retaining the name **Barrii.**

The chaste beauty of these shorter-cupped Narcissii is the more highly appreciated when the cut flowers are seen arranged in vases. The brilliancy of colouring in the cups of some, and the dainty elegance of others, render them all more or less valuable exhibition flowers. The cheaper kinds we can strongly recommend for beds and borders, and for naturalising in grass, woodlands, wild gardens, etc.

AWARD OF MERIT R.H.S. as a decorative flower.....	10	6	1	0

DIVISION IV.—LEEDSII.

EUCHARIS-FLOWERED OR SILVER-WHITE FRAGRANT STAR NARCISSI.

Comprising all Star Narcissi (large chalice-cupped and short-cupped) which have pure white or silvery white perianth segments and cup or crown white, cream, buff-orange, apricot or pale citron.

In the working out of the new classification, the revising committee felt that it would be unwise to break up this section and distribute it among the Incomparabilis and Barrii forms, seeing how distinct a "colour" section it was, and how well known to all Daffodil growers.

These chaste and beautiful Daffodils are highly prized for indoor decoration, while to cut for bouquets their fragrant flowers are greatly in demand. Plant 3 or 5 bulbs in a 5-inch pot. In flower beds and borders they are most charming, while naturalised in grass they produce a lovely effect.

TRIANDRUS ALBUS ON ROCKWORK.

DIVISION V.—TRIANDRUS AND TRIANDRUS HYBRIDS.

Under this division are placed Triandrus varieties and all hybrids obviously containing Triandrus blood.

The introduction of Triandrus blood in hybridising has resulted in such a very distinct group of hybrids that the Classification Committee of the R.H.S. deemed it advisable to make one section of them. For grace and beauty they are unsurpassed. We recommend a situation partly shaded by trees, and if a little very fine dwarf grass seed (see p. 2 of Cover of our General Bulb Catalogue) is sown amongst them the beauty of their flowers is enhanced. Once planted they may remain undisturbed for years.

NARCISSUS TRIANDRUS.

The Cyclamen-flowered Daffodils with reflexing perianth.

The dainty little "Angel's Tears" Daffodil (*Triandrus albus*) was found by the late Mr. Peter Barr on the mountains of Portugal and Spain, growing in very hard, firm, fine gritty soil, sometimes in the narrowest fissures of granite and slatestone rocks. All in this section make lovely little pot plants (three or more bulbs in a pot), and grown thus should be given cold frame culture. Established on rockwork they form a picture full of grace and beauty. *They prefer shade, a gritty soil, and a well-drained position.*

	per doz. s.	per doz. d.	each s.	each d.
†**Triandrus albus** (3), an exquisitely beautiful little species, appropriately called the **"Angel's Tears" Daffodil** ; it is of slender growth, and produces a cluster of elegant little creamy-white flowers with globular cup and perianth reflexing as in the Cyclamen, ht. 7 in. *As these collected bulbs have to be taken up while the foliage is still green, a few may possibly not bloom the first season. The bulbs should therefore be left undisturbed to establish themselves.* ....per 100, 12/6	1	9	0	2
,, ,, ,, *Larger sized bulbs,* ,, 21/-	3	0	0	4

Narcissus Triandrus—*continued.*

	per doz. s.	d.	each s.	d.
†**Triandrus calathinus** (3). One of the most beautiful little Daffodils in existence. The flowers, which are produced in drooping clusters of two or three, are snowy white, and more than twice the size of *Triandrus albus*, with long goblet-shaped crown prettily fluted ; the foliage has a curious habit of curling over, ht. 7 in. For pot culture and rockwork it is a perfect gem. This beautiful little Daffodil thrives best in a mixture of leaf mould, heath soil and coarse sand, with a little bone flour added. The late Mr. Peter Barr collected this rare Daffodil some years ago on the Isle of Glénan, Brittany, the collecting being attended with a good deal of risk. Unfortunately it is no longer to be found there, the sea having washed away all trace of it, but it is readily raised from seed, and we now offer strong flowering cultivated bulbs. AWARD OF MERIT R.H.S., March 3rd, 1920.....per 100, 75/–	10	6	1	0
,, ,, ,, ,, *Extra large bulbs*	16	0	1	6
Triandrus concolor (true) (3), flowers uniform full soft yellow, slightly scented, a rare and beautiful little Daffodil, ht. 7 in.....	30	0	2	9
Triandrus Mrs. Leonard Harrison (3), *new* 1922, a charming little hybrid of **Single Jonquil** and **Triandrus albus** bearing heads of dainty little sulphur-coloured flowers, resembling *Triandrus pulchellus*. AWARD OF MERIT R.H.S.	42	0	3	9

NARCISSUS TRIANDRUS HYBRIDS.

Of these QUEEN OF SPAIN is a natural hybrid of *Triandrus albus* and a *wild trumpet Daffodil*. The other varieties have all been produced by using *Triandrus albus* or *calathinus* pollen on trumpet and other Daffodils. They form a distinct class, having flowers more or less drooping, of elegant form and graceful habit, clearly showing their *Triandrus* parentage.

NARCISSUS QUEEN OF SPAIN.

	per doz. s.	d.	each s.	d.
§†**Queen of Spain** (3), xxx, *a wild hybrid discovered by the late Mr. Peter Barr in Spain.* One of the most beautiful, distinct, and graceful Daffodils in cultivation, and recommended either for bedding, pot or vase culture, or for naturalising in woodlands, etc. The flowers vary slightly in size, but all are of a uniform soft, delicate, clear yellow, with a gracefully reflexing perianth, trumpet of distinct and elegant form, ht. 12 in. Naturalised in grass under trees this Daffodil forms a delightful feature in the garden. It also adapts itself readily to bowl culture in the Peat-fibre mixture, and grown thus affords an artistic decoration for the sitting-room. *Owing to the collected bulbs having to be lifted while the foliage is still green, some may not bloom the first year, but we expect a good proportion to do so.* *Collected bulbs*, per 100, 25/-	3	6	0	4

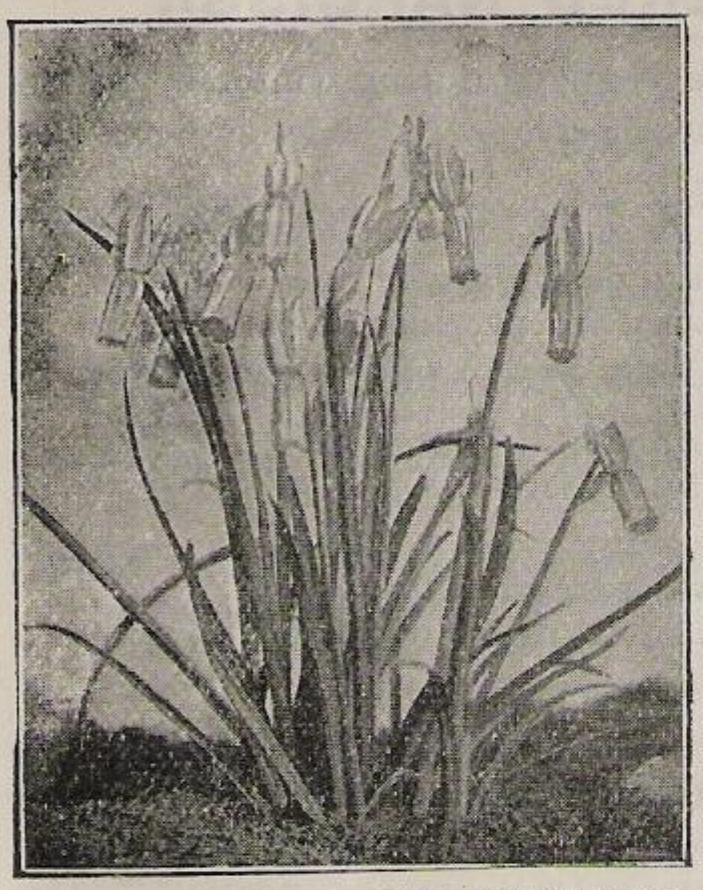
DIVISION VI.—CYCLAMINEUS & CYCLAMINEUS HYBRIDS.

Seeing that **Cyclamineus** blood, like that of **Triandrus,** imparts such a distinct form to Daffodils, a separate division has been made for its hybrids. It has been used by many hybridisers as a parent, but very often the progeny has not been long-lived. Some hybrids, however, have now been raised with a good constitution such as **Orange Glory,** *see page* 3.



NARCISSUS CYCLAMINEUS ESTABLISHED ON ROCKWORK.

	per doz. s.	per doz. d.	each s.	each d.
Cyclamineus (1), **the Yellow Cyclamen-flowered Daffodil,** this beautiful little Daffodil was re-introduced into cultivation in 1887 by A. W. Tait, Esq., of Oporto, after being lost sight of for 200 to 300 years. It is the earliest of all Daffodils and is a charming elegant little flower of very distinct form; the trumpet is rich yellow, straight and tube-like, elegantly serrated at mouth, while the perianth is reflexed as in a Cyclamen. A valuable little species for pot-culture, edgings, rockwork, and to naturalise in grass and shady nooks, or at the water's edge; it delights in a dampish sandy peat soil, ht. 6 in., FIRST-CLASS CERTIFICATE R.H.S.....per 100, 32/6	4	6	0	5

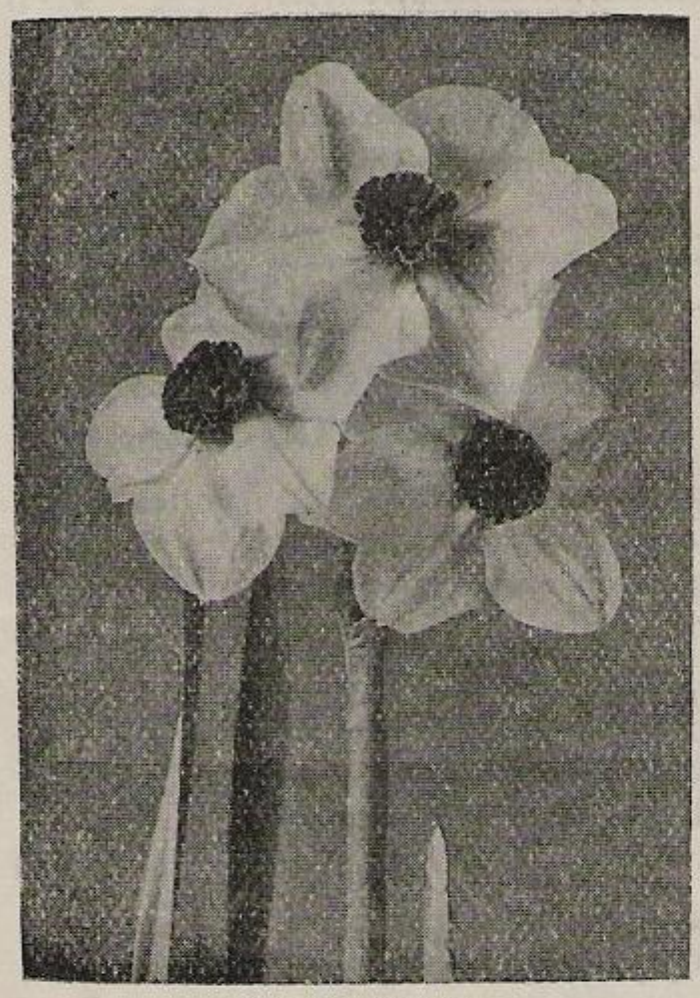
NARCISSUS POETAZ—NEW HYBRID POLYANTHUS NARCISSI.

New Hybrids of Poeticus Ornatus × Best Forms of Polyanthus Narcissi.



POETAZ ELVIRA.

A fine race of Daffodils, resulting from a cross between *Poeticus ornatus* and the finest varieties of *Polyanthus* or *Bunch-flowered Narcissi*, the Poeticus being the seed-bearing parent. The plants are tall and vigorous growers, bearing heads of large well-formed flowers, deliciously fragrant; they are much finer than the old Polyanthus Narcissi, and have the advantage of being much hardier. In pots, bowls, or the flower border they are very decorative, while the flowers are highly prized for cutting. They can easily be brought into bloom early by gentle forcing.

	per doz. s.	per doz. d.	each s.	each d.

§**INTERMEDIUS "SUNSET"** (3), xxx, canary-yellow perianth and large glowing orange-red cup, four to five flowers on a stem, remarkably showy, ht. 16 in. Award of Merit R.H.S.	5	6	0	6

DIVISION IX.—POETICUS.—True Poet's Narcissi.

These "Poet's Daffodils" or Narcissi all have snowy white perianth segments or petals, and a small flattened eye or crown, yellow or lemon edged more or less deeply with scarlet or crimson, and sometimes almost all scarlet. All are sweetly scented.

The earlier flowering varieties afford a very beautiful decoration indoors when grown in pots (5 bulbs in a pot) or forced. As border plants and naturalised in grass by themselves the Poet's Narcissi produce a lovely effect.

☞ **Early planting and liberal culture is specially recommended for these Poet's Daffodils. To obtain tall stems and fine large flowers they should be grown in a rich deep soil not too dry. The varieties having very highly coloured crowns should be cut young to preserve the fine colouring.**

(B) DOUBLE INCOMPARABILIS NARCISSI.

The Double Rose-flowered Daffodils.

The large massive flowers of these are greatly prized for bouquets and vases, mixing well with other flowers and foliage in decoration. As pot plants (3 to 6 bulbs in a pot) they are very charming, while in beds, borders, or naturalised they make a most effective display.

DIVISION XI.—VARIOUS SPECIES AND HYBRIDS.

Distinct forms which cannot be classed under any of the foregoing divisions.

NARCISSUS BULBOCODIUM (CORBULARIA).

The Hoop Petticoat, or Medusa's Trumpet Daffodils.

For rockwork, edgings and small beds, these beautiful little Daffodils are most charming, while if several bulbs are planted in pots or pans, they are greatly prized for indoor decoration.

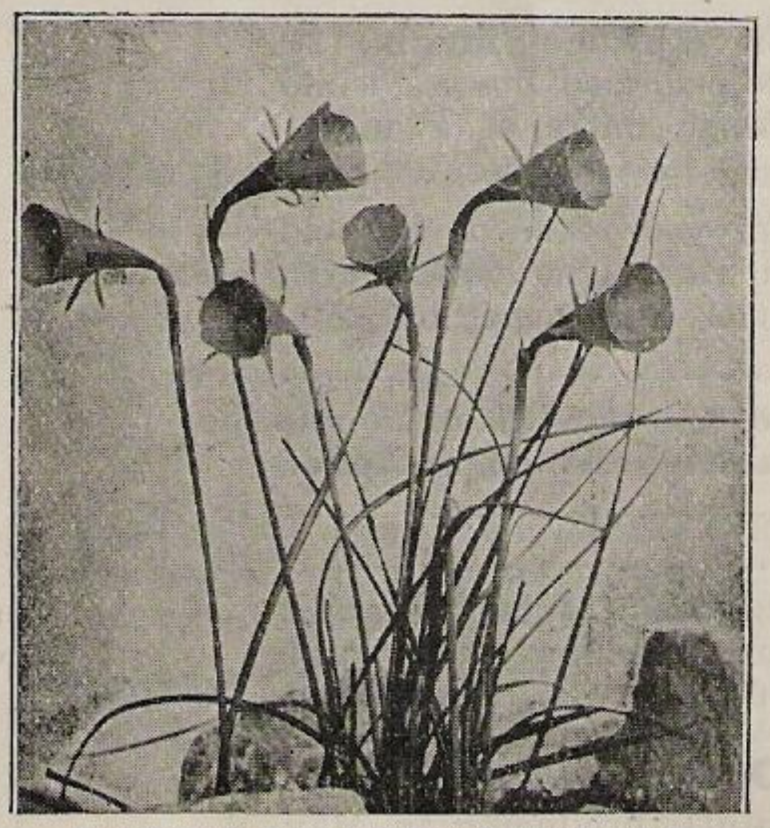
WHITE HOOP PETTICOAT.
(*Half natural size.*)

White Hoop Petticoat (Bulbocodium monophyllus or Clusii) (1), *native of N. Africa*, producing in winter little snowy white flowers of exquisite beauty; grow in pots, in frames, or at the foot of hot dry walls, and as soon as signs of growth are seen, give water freely; ht. 6 in. *The bulbs we offer having been collected while in growth, a few may fail to flower the first season. Those planted outdoors should therefore be allowed to remain where planted so as to become established*.....per 100, 42/- — 5 6 0 6

†**Yellow Hoop Petticoat** (Bulbocodium conspicuus) (2), flowers rich golden-yellow, of hoop-petticoat form and rush-like foliage, ht. 6 in.; prefers a dampish sandy peat soil.....per 100, 12/6 — 1 9 0 2

,, ,, ,, ,, *Extra selected bulbs* ,, 17/6 — 2 6 0 3



NARCISSUS YELLOW HOOP PETTICOAT ON ROCKWORK.

§**Gracilis** (7), a very beautiful little rush-leaved Daffodil, bearing 3 to 5 light yellow Jonquil-like *sweet-scented* flowers; the last of the family to bloom, opening about end of May, ht. 14 in.....per 100, 32/6 — 4 6 0 5

Juncifolius (The Miniature Rush-leaved Daffodil) (4), a charming and elegant little species for pots or for select spots on rockwork; it has small graceful rich yellow flowers, about the size of a buttercup, with a perfectly flat little crown, ht. 3 to 4 in., flowers delicately fragrant, *a native of the Pyrenees*..... per 100, 42/- — 5 6 0 6

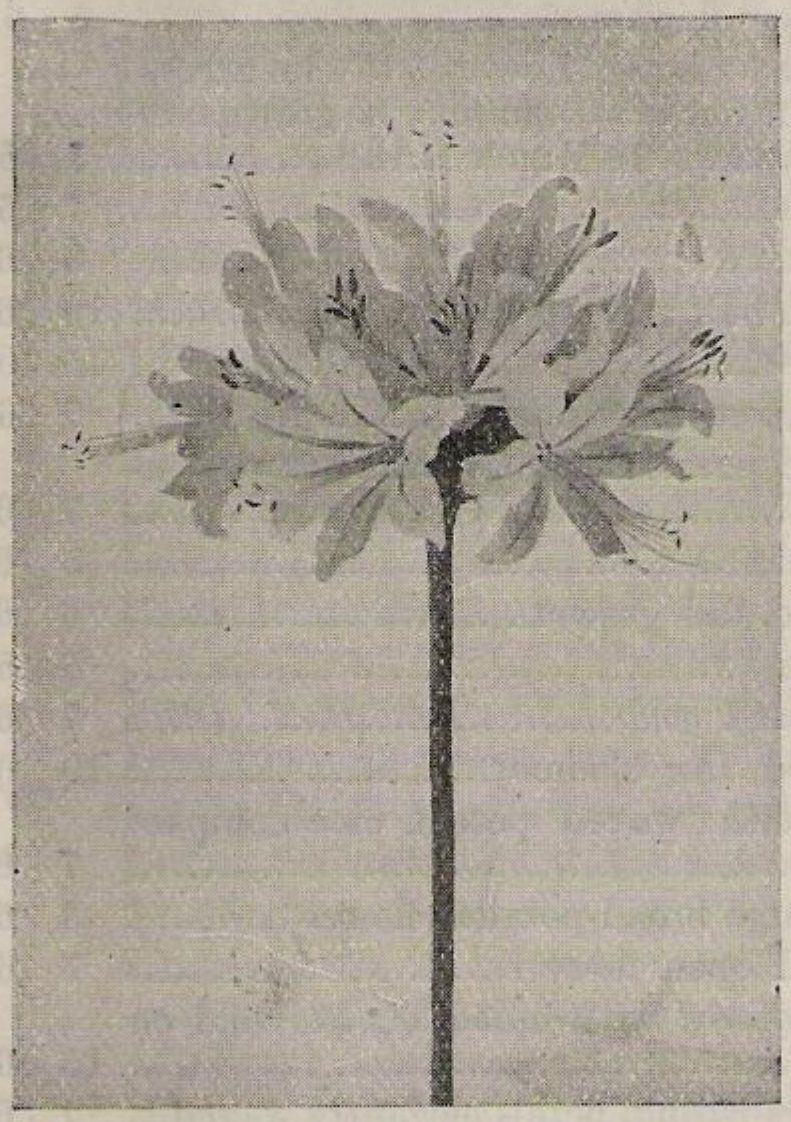
Serotinus, a rare little Narcissus producing, in October, on slender stems, miniature star-shaped flowers with silvery white perianth and a minute golden-yellow cup, sometimes two to three flowers on a stem, fragrant, ht. 10 in. Plant in a warm spot on rockwork and lightly cover during winter; or grow in pots in a cold frame..... — 6 6 0 7

§**Tenuior** (the Slender Straw-coloured Daffodil or Silver Jonquil) (4), a very elegant slender-growing Daffodil, having several flowers on a stem, perianth cream, cup sulphur-yellow, ht. 9 in.....per 100, 17/6 — 2 6 0 3

NERINES.

THE MOST BEAUTIFUL OF AUTUMN FLOWERS FOR THE GREENHOUSE.

For autumn decoration in the greenhouse few plants can compare with Nerines for their brilliant and attractive colours, which form a pleasing contrast to the prevailing tints of this period of the year. The flowers, which are produced in umbels of 6 to 24 blooms. are borne on stout stems varying in height from 1 to 2 feet. In colour they range from *dark red*, *vivid crimson*, *cerise*, and *scarlet* to *salmon*, *coral-rose*, *pink*, *blush*, and *white*, many having a glistening lustre which in sunlight gives them the appearance of being dusted with gold or silver. In some cases the flowers have a well-defined bar or stripe running up centre of petal, which adds to their charm. They remain decorative for many weeks, and their beauty may be enjoyed in a sitting-room as well as the greenhouse, if the pots are kept in a sunny window.



A HYBRID NERINE.

The cut spikes, which last fresh a long time, are greatly appreciated for table decoration associated with some light graceful foliage like that of Maidenhair Fern.

The varieties we offer below are mostly New Seedlings, comprising new shades of colour and new forms; they are freer bloomers, and in some cases of taller growth, and with larger flowers than any of the older kinds.

CULTURE.—Nerines can be very easily grown by any one who has a glass structure from which frost can be excluded. *Plenty of air and sunshine* are their principal requirements. After the bulbs have finished flowering, place the pots on an airy sunny shelf close to the glass, and encourage a free foliage growth by giving occasionally a little weak liquid manure. In April or May, when the foliage commences to turn yellow, cease giving water and allow the bulbs to ripen off in their pots. As soon as the plants show signs of making fresh growth in August or early September, stand the pots in saucers of water for a few hours to ensure the soil being uniformly moist, and then give water sparingly until the flower spikes are well advanced.

Nerines bloom most freely when well established in pots. Re-pot every third or fourth year. In potting, put in plenty of crocks to ensure good drainage, and use a compost of two-thirds good loam and one-third sand, with a sprinkling of well-decayed leaf soil or old manure and bone meal.

☞ **Our Exhibits of New Hybrid Nerines have been awarded by the R.H.S. Five Silver and Silver-Gilt Medals, 1914 to 1921.**

MANURES, SOILS, PEAT-FIBRE, etc.

Barr's Phytobroma, the best Manure for Daffodils, Hyacinths, Tulips, etc., and for Flower Borders generally. It should be mixed with the soil *below* the bulbs at planting time at the rate of 2 to 3 oz. to the square yard, and in spring, when the bulbs are showing above ground, a top-dressing may be given of 3 oz. to the square yard. **For Pots**, mix *Phytobroma* with the soil, to be used at the rate of 1 lb. to the bushel, and in spring, when growth is showing, top-dress once a fortnight, using a small teaspoonful and well mixing with surface soil. Leaflet with further particulars on application. 2-lb. carton 1/4, 7 lb. 3/–; 14 lb. 5/6; 28 lb. 10/6; 56 lb. 20/-; 112 lb. 38/-.

Basic Slag, 14 lb. 1/9; 28 lb. 3/–; 56 lb. 5/6; per cwt. 10/6.

Bone Meal (*Genuine fine Crushed Bones*), best quality, 7 lb. 2/–; 14 lb. 3/9; 28 lb. 6/9; 56 lb. 13/–; per cwt. 25/-.

Bone Flour, best quality, 7 lb. 2/–; 14 lb. 3/9; 28 lb. 6/9; 56 lb. 13/–; per cwt. 25/-.

Nitrate of Soda, 7 lb. 2/9; 14 lb. 5/–; 28 lb. 9/6; 56 lb. 18/-; per cwt. 35/-.

Sulphate of Ammonia, 7 lb. 2/9; 14 lb. 5/-; 28 lb. 9/6; 56 lb. 18/-; per cwt. 35/-.

Sulphate of Iron, 7 lb. 2/–; 14 lb. 3/9; 28 lb. 6/9; 56 lb. 13/-; per cwt. 25/-.

Sulphate of Potash, 7 lb. 2/9; 14 lb. 5/–; 28 lb. 9/6; 56 lb. 18/-.; per cwt. 35/–.

Superphosphate of Lime, 7 lb. 1/3; 14 lb. 2/–; 28 lb. 3/9; 56 lb. 6/9; per cwt. 12/6.

Tipulite, soil fumigant and insecticide; destroys ants, leatherjackets, slugs, wireworm and all soil grubs; harmless to plant life. In tins 1/6 and 2/6 each; 7 lb. bags 3/6; 14 lb. 5/3; 28 lb. 7/6; 56 lb. 10/6; per cwt. 19/-.

Vaporite, destroys wireworm, woodlice, and other injurious soil pests, small tin 1/6; about 7 lb. tin 3/9; about 14 lb. 5/6; about 28 lb. 8/-; ½ cwt. 11/3; 1 cwt. 17/6. Full particulars on application.

Loam, Peat, Leaf Soil, Silver Sand, each, per bushel 4/6.

Lime, fine ground, *Best quality* 28 lb. 3/-; 56 lb. 5/6; per cwt. 10/6.

Barr's Specially Prepared Potting Soil, containing a suitable quantity of **Phytobroma,** per bushel 4/6.

Barr's Improved Peat-fibre, Shell, and Charcoal Mixture for growing Bulbs in Bowls, Jardinets, Glasses, etc. In the case of glasses, half fill with the Fibre Mixture, and add water till no more can be absorbed. Place the bulb so as to rest the base on the preparation, and tie down with old fish netting or other material, leaving an opening in the centre for the shoot. When the bulb has well rooted the covering may be removed; care must be taken that the material in the glass is kept moist. The same remarks apply to bulbs grown in bowls, etc.: they must be kept in place till they have rooted. Our Fibre Mixture is sent out *ready for use*. **Per bushel 5/6; per peck 1/6.**

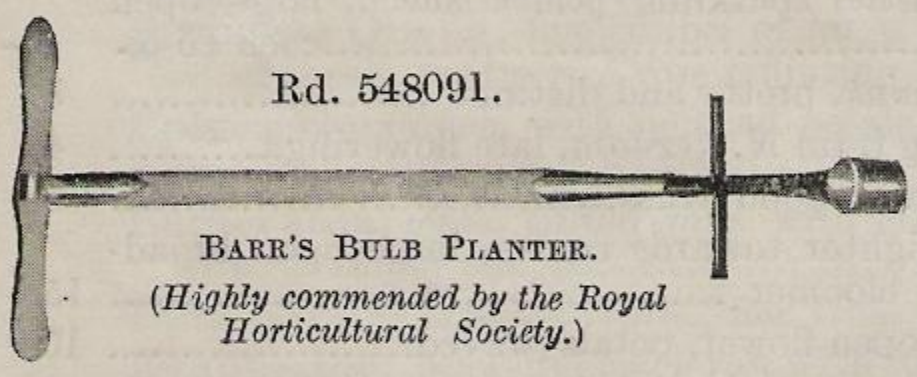
Peat-fibre, recommended in preference to Cocoa-fibre for plunging bowls, pots, etc., and as a winter mulch to bulb-beds, etc., per bushel 2/6.

Small Pebbles and Charcoal, suitable for growing Hyacinths, etc., in bowls and vases without drainage, per quart 8*d*.; per peck 4/6.

Charcoal (fine twig), per peck 1/6; per bushel 5/6.

TWO USEFUL TOOLS FOR DAFFODIL PLANTING.

Barr's Special Bulb Planter, specially designed for planting Daffodils and other bulbs in grass. This tool cuts and lifts a clean circular piece of turf, which is released from the cup when the second hole is made, and lies ready at hand to fill in the holes when the bulbs have been put in, it being only necessary to remove a little of the soil from the bottom of the sod. A time must be chosen for planting when the ground has become softened after early autumn rains, and not when in a hard and baked condition, as it is then impossible to use this, or indeed any other tool with success. By the use of BARR'S SPECIAL BULB PLANTER a large number of bulbs may be planted in a very short time, and without the least disturbance of the sward. The length of the tool is 38 inches over all, weight about 3½ lbs. The cup is manufactured from high-class hardened steel and always carries a keen cutting edge.

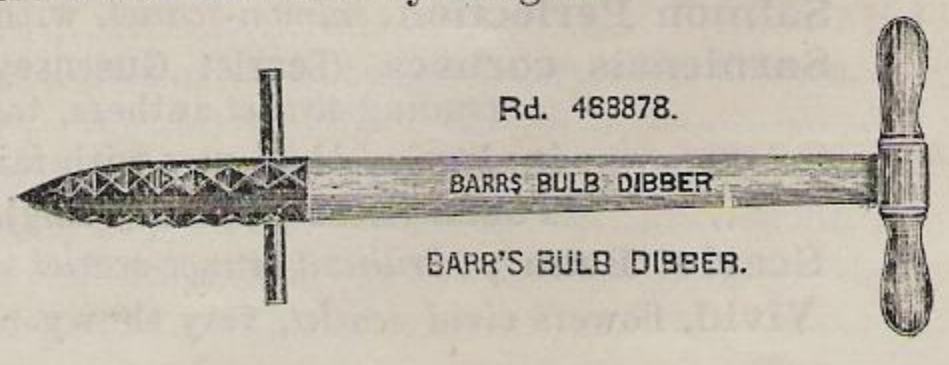


BARR'S BULB PLANTER.
(*Highly commended by the Royal Horticultural Society.*)

Supplied in 3 sizes of cup :—To cut out a circular hole 2 inches diameter
" " " 2¼ " " } **21/- each.**
" " " 2½ " "

We shall send the medium size (2¼ in.) if no instructions to the contrary are given.

Barr's Special Bulb Dibber, specially designed for dibbling bulbs into borders, etc.; steel shod, with strong iron tread and cross wooden handle; a good strong heavy tool, weight about 6¾ lbs., length 36 inches over all. **18/6 each.**



BARR'S BULB DIBBER.

THE WHITEFRIARS PRESS, LTD., LONDON AND TONBRIDGE.

Registered Telegraphic Address—BARR, LONDON. Telephone GERRARD 410.

Special Notices and Terms of Business.

CARRIAGE OF BULBS.

Orders for Bulbs to value of 40s. and upwards sent **Carriage Paid** to any Railway Station in the United Kingdom.

The above carriage terms do not include manures, soils or tools. These will either be sent by goods train, carriage forward, or consigned at lowest rate and carriage charged on invoice.

5% **Cash Discount on Bulb Orders of 40s. and upwards.**—1s. in the £ discount is allowed on Bulb Orders of 40/- and upwards for Cash with Order (*with the exception of the special Collections offered on pages 5 and 6, which are strictly nett*). The same discount may also be deducted from all Bulb Accounts of 40/- and upwards when paid within 14 days from date of invoice (*excepting Collections offered on pages 5 and 6, which are nett*).

Terms of Credit.—Our books are made up half-yearly, when all accounts are due nett. Interest at the rate of 5% per annum will be charged on overdue Accounts.

Remittances.—Money Orders and Postal Orders should be made payable at Bedford Street Post Office; these and all Cheques should be crossed "London County, Westminster and Parr's Bank." Small amounts may be remitted in Postage Stamps, or Coin in a Registered Letter.

Packages.—Boxes, Bags, etc., are charged at cost price, but these may be deducted from our account if returned Carriage Paid within a fortnight. *Returned empties should have the sender's name on the address label for identification, and an advice sent by post, stating date of despatch and name of Railway Co.*

Nurseries at Taplow, Bucks.—Visitors are invited during spring to see our magnificent Collections of Daffodils and Tulips in bloom. The Nurseries are adjoining the main line of the Great Western Railway, and are entered from the Bath Road within quite a short distance of **Taplow Station.** Cab Rank at Taplow Station.

Naming Daffodils.—Cut specimens of Daffodils we undertake to name correctly, at the charge of 4*d.* each, 3*s.* per dozen, to cover attendant expenses. Address all cut specimens to be named, accompanied by a remittance, to our Nurseries, Taplow, Bucks.

Catalogues.—Our **Seed Guide** is published 1st of January, **List of Bulbs and Tubers for Winter and Spring Planting** 1st of February, **Hardy Plant Catalogue** in February, **List of Autumn-flowering Bulbs** (Crocus species, Colchicums, etc.) in July, **Daffodil** and **General Bulb Catalogues** in August. We are always pleased to forward any of these Catalogues, free of charge, to friends of our Customers on receipt of a line requesting us to do so.

Gardeners.—We keep a special Register of Gardeners in want of situations, and shall be pleased to put such in communication with any of our Customers requiring Head Gardeners.
