TO ALL OVERSEAS CUSTOMERS

As you may know, new regulations governing plant health are being introduced in the E.E.C. and these will affect all our exports. At the time of writing it is not yet clear exactly what these regulations will entail but we do know that certain varieties will not be permitted to be exported this year - these are:

Narcissus Aspasia  
 Demure  
 Garden Princess  
 Glory of Lisse  
 Golden Sceptre  
 Hesla  
 italicus  
 Little Witch  
 Mixed Narcissi  
 Nancegollan  
 Nirvana  
 Parcpat  
 Paula Cottell  
 Pepper  
 poeticus flore pleno  
 " poetarum  
 pseudo narcissus Van Sion  
 Samaria  
 Segovia  
 Triwirgie  
 Tresamble  
 Trevithian  
 Tittle Tattle

Also the following will not be permitted to go to those countries which require a Growing Season Inspection, e.g. U.S.A, Sweden, West Germany, Canada, etc:

Narcissus Auburn  
 Bobbysoxer  
 Baby Doll  
 Elvira  
 Horn of Plenty  
 Jezebel  
 Peeping Tom  
 Pencrebar  
 Thalia  
 W.P. Milner

It may well be that other varieties are also excluded (not necessarily Narcissi) by the time we come to send out our orders in September/October and so we would ask all overseas customers to give as many alternatives as possible. If no alternatives are given we will substitute at our discretion unless specifically asked not to do so.

We sincerely hope that there will not be too many difficulties and that we will be able to send you what you require - we will certainly do our best.

Yours sincerely,  
*P Woodhead.*

## 'CROWN OLD WINTER'S HEAD WITH FLOWERS'

At the risk of repeating myself and after sixteen introductions it is, I suppose, inevitable that the same thoughts will start to recur—this quotation aptly describes what we have tried to do to our customers' gardens over the past few years. Indeed it isn't only winter's head but slowly we find we are able to grow and supply bulbs and plants for spring, summer and autumn as well.

As I have said before, if we don't blow our own trumpet nobody else will! However, the more we expand—as we have done dramatically over the past year—the more we realise it is fruitless to pursue avenues of growing plants that you our customers do not want to buy. It is a terrible waste of time from our point of view and, more importantly, puts up the cost of those items we do sell well. So in a rather convoluted way we are asking you to help us to help you by responding to the simple question 'What bulbs and plants don't we offer in our catalogues that you would like us to?' Obviously we can't do everything at once but we hope we will be able to obtain and list most of your requirements over the next few years. If you feel like it do please drop us a line and we will do our best.

Talking of costs reminds me that, to nobody's surprise, inflation is still with us. However, we have done our best to contain it and have even managed to keep a few plants the same price as last year and one or two have actually been reduced. Postage has of course gone up another 20% or so twice since our last autumn catalogue and VAT has nearly doubled; also other costs have increased by leaps and bounds including an increase of 28% for printing this catalogue. Ah well, I suppose it is a fact of life at the moment—still there are always the flowers to console us. This I see is where I started so: Happy gardening!

*Shelmersdale*

# NARCISSI (DAFFODILS)

A daffodil is probably one of the easiest and least demanding of plants to grow. Normally when a bulb is planted it will come up and flower, provided that an unbalanced fertilizer is not put on. Fertilizers containing an excess of nitrogen should be avoided, as should manure. However, the species do need more understanding and care and must be treated with the respect accorded to most plants in the garden. If they are happy they will become established and multiply.

The varieties we offer vary from 3" to 18" in height. Only a few are species and are clearly marked as such. The remainder are hybrids, being crosses between small species and larger-flowered varieties and, as normally happens, the hybrids have more vigour and adaptability. The hybrid daffodils which we list will grow almost anywhere, but this only applies to a very few of the species, many of which are alpine and need treatment, especially drainage, suitable for these subjects. Species daffodils may be seen all over the high ground in Spain and Portugal, where *N. asturiensis*, *bulbocodium*, *rupicola* and *triandrus* are found growing through the melting snow like crocus in the Alps.

The *jonquils*, however, seem to like places where the soil is often heavy and where they get a thorough baking in summer. Few of the *tazetta* group are hardy in this country and then only in unusually warm spots—in other words their growth is restricted to south of a line from the Severn to the Wash. However, together with the North African species, they will grow well if brought in to a cold house by the middle of November but *not forced*.

The *bulbocodiums* grow almost all over the Iberian peninsula in varying conditions from marshland to dry road verges. When grown in this country it is found that those which increase by seed flower well but those whose bulbs split are likely to be flowerless after a few years. These trends can only be found out by experience as they seem to vary from garden to garden. Many of the *triandrus* family, all of which need good drainage, flower in partial shade, often on northern slopes.

Many people like to grow *daffodils* in the grass. However, it should be remembered for this form of naturalising that the bulbs should be planted 6" deep—in other words rather deeper than usual—and the grass should not be mown until after the leaves have died down. Many of the hybrids we list are suitable for this purpose, especially *February Silver*, *Peeping Tom*, *February Gold*, *Beryl* and the *poeticus* varieties. Also of course the wild daffodil of northern Europe, now called *pseudo narcissus*. Many of the smaller hybrids are better grown in the border and rock garden where their daintiness can be appreciated to the full.

BULBOCODIUM SPECIES

CYCLAMINEUS HYBRID

TRIANDRUS HYBRID

TAZETTA HYBRID

JONQUIL HYBRID

For many years daffodils have been separated artificially into numbered groups or divisions, each one with more or less the same floral characteristics. These are:

- |                   |                      |                   |                          |
|-------------------|----------------------|-------------------|--------------------------|
| <b>Division 1</b> | Trumpet hybrids      | <b>Division 6</b> | Cyclamineus hybrids      |
| <b>2</b>          | Large cupped hybrids | <b>7</b>          | Jonquilla hybrids        |
| <b>3</b>          | Small cupped hybrids | <b>8</b>          | Tazetta hybrids          |
| <b>4</b>          | Double hybrids       | <b>9</b>          | Poeticus hybrids         |
| <b>5</b>          | Triandrus hybrids    | <b>10</b>         | Species and wild hybrids |
|                   | <b>12</b>            |                   | Miscellaneous Narcissi   |

Code		Height	Flowers	£	p
C5009	<b>ANGEL'S TEARS.</b> (See triandrus albus). <b>APRICOT. Div 1.</b> A very attractive and unusual flower with a white perianth and a yellow trumpet fading to pale apricot with age.	12"	Early Mar.	3 20	<b>72</b> <b>4.30</b>
C5013	<b>APRIL TEARS. Div 2.</b> Very graceful hanging blooms, several to each stem. Golden-yellow with a slightly paler cup. Like most triandrus needs a well-drained, sunny position.	7"	April	3 15	<b>90</b> <b>4.05</b>
C5017	<b>ASPASIA. Div 8.</b> An exceptional multi-flowered tazetta hybrid, with white petals and a small yellow cup. Excellent for cutting.	15"	Mar./ April	3 20	<b>69</b> <b>4.15</b>
C5019	<b>ASTURIENSIS (Minimus). Div 10.</b> The smallest species daffodil. Needs protection from slugs and very good drainage in full sun. Golden-yellow.	3"	Feb.	3 30	<b>54</b> <b>4.85</b>
C5023	<b>AUBURN. Div 5.</b> A triandrus hybrid of intense deep gold throughout with a long narrow trumpet and twisted petals.	10"	Early Mar.	3 30	<b>48</b> <b>4.35</b>

## ENTHUSIAST'S COLLECTION OF MINIATURE HYBRID NARCISSI

This collection includes some of the finest and most reliable varieties on our list, growing from 6" to 14" tall.

- |               |                         |

Code		Height	Flowers	£	p
C5027	<b>BABY DOLL. Div. 6.</b> A beautiful little cyclamineus hybrid. Pale gold throughout.	9"	Late Mar.	ea. 10	<b>45</b> <b>4.00</b>
C5031	<b>BEBOP. Div. 7.</b> A sister to Bobbysoxer but somewhat smaller and with a pure butter-yellow perianth and cup.	7"	April	ea. 10	<b>40</b> <b>3.60</b>
C5035	<b>BERYL. Div. 6</b> A very prolific cyclamineus hybrid with primrose petals and an orange cup. Most attractive.	8"	Late Mar.	3 15	<b>90</b> <b>4.05</b>
C5037	<b>BOBBYSOXER. Div. 7.</b> A really good miniature jonquil hybrid which does well in the garden and increases rapidly. A lively flower with yellow petals and a deeper cup.	8"	April	3 20	<b>78</b> <b>4.70</b>
C5039	<b>BOLTON. Div. 7.</b> A stately citron-coloured jonquil hybrid. Sweetly scented and a fine garden plant.	15"	Late Mar.	3 20	<b>72</b> <b>4.30</b>

## Narcissi (Daffodils)—continued

Code		Height	Flowers	£	p
C5053	<b>BULBOCODIUM MESATLANTICUS. Div. 10.</b> An unusual North African species of a good deep yellow with almost flat flowers.	5"	Jan./ Feb. ea.	1.50	
C5057	<b>BULBOCODIUM OBESUS. Div. 10.</b> A rich golden-yellow bulbocodium with an exceptionally large crinoline-like flower.	4"	Feb. 3 30	48 4.35	
C5059	<b>BULBOCODIUM ROMIEUXII. Div. 10.</b> One of the gems of the group, with a large, widely flaring, pale lemon-yellow cup.	5"	Feb. 3 20	75 4.50	
C5063	<b>BULBOCODIUM TENUIFOLIUS. Div. 10.</b> A very dwarf golden hoop petticoat with prostrate foliage.	3"	Feb. 5 30	65 3.50	
C5065	<b>BULBOCODIUM VULGARIS CONSPICUUS. Div. 10.</b> A rather more robust variety with deep yellow flowers. Increases rapidly.	5"	Late Mar. 3 30	48 4.35	
C5069	<b>BUTTERCUP. Div. 7.</b> Stately sweetly scented butter-yellow jonquil hybrid. Excellent for cutting and garden display.	18"	Late Mar. ea. 10	45 4.00	
C5073	<b>CANARY BIRD. Div. 8.</b> A nice, very prolific multi-headed poetaz with canary-yellow petals and an orange cup.	12"	Late Mar. 3 30	45 4.00	
C5075	<b>CHARITY MAY. Div. 6.</b> An exceptionally beautiful cyclamineus hybrid of soft clear yellow with delicate swept back petals.	15"	Late Mar. 3 15	1.05 4.75	
C5079	<b>CHERIE. Div. 7.</b> An exquisite small-flowered jonquil with a delicate pink cup and white petals.	15"	Late Mar. 3 15	99 4.45	
C5081	<b>CHINITA. Div. 8.</b> This multi-headed variety is one of the prettiest of the poetaz, having primrose petals with a red-edged cup.	18"	Late Mar. 3 20	78 4.70	
C5083	<b>CLARE. Div. 7.</b> A beautiful dark lemon miniature jonquil which increases rapidly.	8"	April/ May 3 20	75 4.50	
C5089	<b>CORA ANN. Div. 7.</b> A very prolific jonquil hybrid, with a small yellow cup and white petals.	10"	Late Mar. 3 15	1.11 5.00	
C5091	<b>CORNET. Div. 6.</b> A large-flowered cyclamineus hybrid of an exceptionally clear yellow. Long lasting.	9"	Feb. 3 15	99 4.45	
C5097	<b>CYCLAMINEUS. Div. 10.</b> A very beautiful species of deep yellow with a long trumpet and completely swept back petals. Excellent for naturalising in a damp place. Picture outside back cover.	5"	Early Mar. 3 20	60 3.60	
C5105	<b>DEMURE. Div. 7.</b> A dainty little jonquil hybrid with smooth white petals and small pale yellow cup.	7"	Early April 3 20	75 4.50	
C5111	<b>DOVE WINGS. Div. 6.</b> A really outstanding cyclamineus hybrid with ivory-white petals and pale yellow trumpet.	13"	Late Mar. ea. 5	55 2.50	
C5113	<b>ELF. Div. 2.</b> A very decorative little trumpet variety. Lemon throughout, the trumpet delicately edged with pink.	9"	April 3 15	90 4.05	
C5115	<b>ELVIRA. Div. 8.</b> A useful multi-headed variety with white petals and yellow cups.	15"	Late Mar. 3 20	78 4.70	
C5117	<b>ERLICHEER. Div. 4.</b> A remarkably strongly scented tazetta with creamy double flowers contrasting well with deep green leaves. Needs a good baking in the summer.	10"	Late Mar. 3 30	51 4.60	

Code		Height	Flowers	£	p
C5125	<b>FEBRUARY GOLD. Div. 6.</b> The well known and loved early cyclamineus hybrid with golden-yellow petals and a slightly darker cup. Very long lasting and good for naturalising.	12"	Feb./ Mar. ea. 10	40 3.60	
C5126	<b>FEBRUARY SILVER. Div. 6.</b> A most amazingly lasting cyclamineus hybrid with milk-white petals and lemon cup. Large and of good substance.	12"	Feb./ Mar. ea. 5	55 2.50	
C5135	<b>GAMBAS. Div. 1.</b> A perfect miniature trumpet daffodil. Clear yellow throughout.	4"	Early Mar. ea.	1.80	
C5137	<b>GARDEN PRINCESS. Div. 6.</b> Unequalled cyclamineus hybrid, free-flowering, long lasting deep yellow flowers. Excellent for naturalising.	15"	Late Mar. 3 15	1.05 4.75	
C5139	<b>GERANIUM. Div. 8.</b> A most striking poetaz with four to six flowers on an upright stem. Pure white petals with bright scarlet-orange cups.	16"	Late Mar. 3 20	75 4.50	
C5141	<b>GIPSY QUEEN. Div. 1.</b> A charming miniature, pale lemon throughout with slightly darker tips to both the long trumpet and the petals.	4"	Early Mar. ea. 3	1.25 3.40	
C5145	<b>GLORY OF LISSE. Div. 9.</b> One of the very few poeticus hybrids. The large flower has spreading pure white petals and a small deep yellow cup rimmed with crimson.	17"	Mar. 3 20	60 3.60	
C5146	<b>GOLDEN SCEPTRE. Div. 7.</b> A stately jonquil hybrid of deep gold, sweetly scented and a fine garden plant.	15"	Mar./ April 3 20	78 4.70	
C5147	<b>GOLDSITHNEY. Div. 2.</b> An excellent garden plant of a bright butter-yellow throughout. A very prolific large-cupped variety.	8"	Late Mar. 3 20	60 3.60	
C5159	<b>HALVOSE. Div. 8.</b> A very useful tazetta for pots and bowls, as it does not grow too tall indoors. Also a fine garden variety; the brick-red of the cup also tinges the yellow petals.	12"	Mar./ April 3 20	78 4.70	
C5161	<b>HAWERA. Div. 5.</b> Beautiful lemon sister seedling to April Tears.	7"	April ea. 10	45 4.00	
C5163	<b>HENRIQUESII. Div. 10.</b> Recently collected rare and superb addition to the jonquil group. The glowing golden flowers, with sometimes rather ragged cups, have an exceptional scent. Grows well with us outside.	12"	Mar. ea. 5	90 4.00	
C5165	<b>HESLA. Div. 7.</b> An attractive twin headed jonquil of an unusual shade of soft yellow with a green tinted centre.	15"	Early April 3 20	66 4.00	
C5167	<b>HORN OF PLENTY. Div. 5.</b> A very vigorous white triandrus which can bear two to three flowers on a stem. These have an expanded trumpet.	12"	Late Mar. 3 20	84 5.00	
C5177	<b>ITALICUS. Div. 10.</b> A very floriferous tazetta species. About ten flowers on a stem with straw coloured petals and lemon cups.	10"	Early April 3 30	48 4.35	
C5181	<b>JACK SNIPE. Div. 6.</b> A delicate little cyclamineus whose long creamy petals and dark primrose cup make a striking contrast.	8"	Late Mar. ea. 10	45 4.00	
C5185	<b>JENNY. Div. 6.</b> An exquisite cyclamineus hybrid with milk-white petals. The trumpet opens lemon coloured but quickly fades to a lovely creamy-white.	15"	Early April ea. 5	65 2.90	

Narcissi (Daffodils)—*continued*

Code	Height	Flowers	£	p
C5189	15"	Late Mar.	3 15	<b>1.05</b> <b>4.75</b>
<b>JEZEBEL. Div. 3.</b> A most eye-catching small-cupped daffodil with deep yellow petals and vivid red cup.				
C5193	12"	Early April	3 30	<b>48</b> <b>4.35</b>
<b>JONQUILLA SINGLE. Div. 10.</b> This charming and very well-known jonquil species has up to six very strongly scented deep yellow flowers to a stem.				
C5195	8"	Feb.	ea. 10	<b>40</b> <b>3.60</b>
<b>JUMBLIE. Div. 6.</b> An excellent little cyclamineus hybrid with two to three clear yellow flowers to the stem. Slightly orange cup and reflexed petals. Very free-flowering and good for pots.				
C5197	3"	Late Mar.	3 30	<b>48</b> <b>4.35</b>
<b>JUNCIFOLIUS. Div. 10.</b> Quite exceptional and one of the smallest jonquil species. Several tiny yellow flowers which are sweetly scented.				
C5209	5"	Late Mar.	3 30	<b>54</b> <b>4.85</b>
<b>LATICOLOR (Canaliculatus). Div. 10.</b> A very prolific sweetly scented miniature tazetta species. White petals and lemon-yellow cup. Needs a well-drained position.				

**NARCISSI FOR POTS AND WINDOW BOXES**

The true beauty of these dainty flowers is fully appreciated when they are grown in appropriate containers. Do not force.

Code	Height	Flowers	£	p
C5215	14"	Early April	3 20	<b>57</b> <b>3.40</b>
<b>LANARTH. Div. 7.</b> A rather unusual jonquil hybrid, often twin-headed. The flowers have yellow petals and orange cups.				
C5217	11"	Late Mar.	3 30	<b>45</b> <b>4.00</b>
<b>LARKELLY. Div. 6.</b> A very fine cyclamineus hybrid of great substance. Bright yellow petals and orange-tinted cup.				
C5223	9"	Early Mar.	3 20	<b>57</b> <b>3.40</b>
<b>LEMON HEART. Div. 5.</b> Excellent dwarf triandrus variety, with a rather large flower. palest creamy-yellow long cup and milk-white petals.				
<b>LENT LILY (see pseudo narcissus).</b>				
C5225	13"	Late Mar.	ea. 10	<b>40</b> <b>3.60</b>
<b>LIBERTY BELLS. Div. 5.</b> A triandrus of outstanding beauty with several citron-yellow drooping flowers to the stem. Very colourful and excellent in the garden.				
C5227	8"	Late Mar.	3 20	<b>66</b> <b>4.00</b>
<b>LINTIE. Div. 7.</b> A dainty little jonquil. Each stem bears one to four flowers with butter-yellow petals and flat orange-red cups.				
C5229	4"	Early Mar.	ea. 5	<b>1.00</b> <b>4.50</b>
<b>LITTLE BEAUTY. Div. 1.</b> A charming little well contrasted trumpet daffodil. Twisted white petals with a lemon trumpet.				

Code	Height	Flowers	£	p
C5231	7"	Early April	ea. 5	<b>55</b> <b>2.50</b>
<b>LITTLE DANCER. Div. 1.</b> Similar to Tosca with milk-white, flatter petals and a more flared buttercup-yellow trumpet.				
C5233	6"	Early Mar.	3 15	<b>1.05</b> <b>4.75</b>
<b>LITTLE GEM. Div. 1.</b> An exquisite little pale gold trumpet daffodil. Free-flowering.				
C5235	9"	Mar./ April	ea. 10	<b>45</b> <b>4.00</b>
<b>LITTLE WITCH. Div. 6.</b> An exceptionally beautiful cyclamineus hybrid. Bright gold throughout with very reflexed petals. Extremely long lasting. Good in the garden and for pots.				
C5241	12"	Early Mar.	3 15	<b>99</b> <b>4.45</b>
<b>MARCH SUNSHINE. Div. 6.</b> A free-flowering and quite outstanding cyclamineus hybrid with an almost flat canary-yellow perianth and orange-tinted trumpet.				
C5247	15"	Late Mar.	3 20	<b>60</b> <b>3.60</b>
<b>MEDUSA. Div. 8.</b> A twin-flowered poetaz; white with a brilliant orange-scarlet cup.				
C5251	7"	Mar.	ea. 5	<b>90</b> <b>4.00</b>
<b>MILLENIUM. Div. 1.</b> This singularly attractive miniature trumpet daffodil produces a large number of flowering stems per bulb. It has pale yellow petals with a pure lemon trumpet.				
C5253	6"	Mar./ April	ea. 10	<b>45</b> <b>4.00</b>
<b>MINNOW. Div. 8.</b> An exquisite little tazetta hybrid with several creamy flowers on each stem with contrasting yellow cups. Does very well and increases rapidly. A good garden plant.				
C5255	3"	Feb.	ea.	<b>1.80</b>
<b>MINOR. Div. 10.</b> Similar to <i>N. asturiensis</i> but a little taller, more erect and with larger flowers—also a better doer.				
C5257	6"	Early Mar.	ea. 10	<b>45</b> <b>4.00</b>
<b>MINOR PUMILUS. Div. 10.</b> A very pretty bright self-yellow with serrated trumpet. A true species from Portugal.				
C5265	12"	Mar.	ea. 10	<b>45</b> <b>4.00</b>
<b>NANCEGOLLEN. Div. 7.</b> One of the very few white jonquils. Most attractive creamy-white sweetly scented flowers. More than one to a stem.				
C5267	5"	Early Mar.	3 20	<b>60</b> <b>3.60</b>
<b>NANUS. Div. 10.</b> The best miniature variety for naturalising. The flowers have yellow trumpets with paler petals.				
C5271	14"	Mar./ April	3 20	<b>65</b> <b>3.80</b>
<b>NIRVANA. Div. 7.</b> A very fine creamy-white jonquil with several small-cupped flowers to a stem. A most attractive variety.				
C5273	10"	Late Mar.	3 15	<b>99</b> <b>4.45</b>
<b>NOR NOR. Div. 2.</b> A very prolific small-cupped variety which opens almost pure yellow but the petals fade to white and the cup darkens to orange with age.				
C5281	12"	Mar.	3 15	<b>1.05</b> <b>4.75</b>
<b>ODORUS RUGULOSUS. Div. 10.</b> An outstanding jonquil with up to four deep yellow flowers on each stem. An excellent garden plant, nicely scented.				
C5287	15"	Mar./ April	5 30	<b>65</b> <b>3.50</b>
<b>PARCPAT. Div. 7.</b> An excellent short-cupped jonquil. Good for cutting and garden display. Has very unusual orange petals with a deeper cup. Increases well.				
C5289	9"	Early April	3 15	<b>96</b> <b>4.30</b>
<b>PAULA COTTELL. Div. 3.</b> A really delightful miniature daffodil with rigid overlapping milk-white petals and small creamy cup.				
C5293	16"	Feb./ Mar.	ea. 10	<b>45</b> <b>4.00</b>
<b>PEEPING TOM. Div. 6.</b> A most distinctive cyclamineus hybrid with its very long narrow trumpet flared at the end and reflexed petals. A true golden-yellow. Excellent for naturalising.				

Narcissi (Daffodils)—*continued*

Code	Height	Flowers	£	p
C5295	6"	April ea.	5	<b>75</b> <b>3.40</b>
<b>PENCREBAR. Div. 4.</b> A very sweet little yellow double jonquil looking like a tiny rose. Often twin-flowered.				
C5299	12"	Mar. 3	30	<b>48</b> <b>4.35</b>
<b>PEPPER. Div. 2.</b> Bright orange-red cup with deep yellow petals. Does extremely well in all gardens and lasts well as a cut flower.				
C5301	11"	Late Mar. 3	15	<b>99</b> <b>4.45</b>
<b>PHYLLIDA GARTH. Div. 5.</b> An excellent triandrus variety having three or four pure white flowers with frilled cups to a stem.				
C5305	8"	Mar./ April 3	30	<b>48</b> <b>4.35</b>
<b>PIPER'S BARN. Div. 7.</b> A favourite dwarf jonquil with deep yellow flowers, having small cups and rather pointed petals.				
C5307	17"	May 3	30	<b>45</b> <b>4.00</b>
<b>POETICUS FLORE PLENO. Div. 10.</b> The well-known double Pheasant Eye. Pure white and strongly scented and very late flowering. Excellent for naturalising.				
C5309	15"	April/ May 3	20	<b>84</b> <b>5.00</b>
<b>POETICUS POETARUM. Div. 10.</b> An interesting sub-species of unknown locality. It has a deep red cup and this has provided the colour of most modern red cups.				

**NARCISSI FOR ROCK GARDENS**

Splashes of bright colour in the open garden from March to April. Heights range from 6" to 14".

- 5 Canary Bird
- 5 Tete-a-tete
- 5 Tittle Tattle
- 5 W. P. Milner

**Collection No. Z25**

- 1 Collection (20 bulbs) for **£4.70**
- 2 Collection (40 bulbs) for **£8.15**

**Saving 50p**  
**Saving £1.25**

Code	Height	Flowers	£	p
C5311	15"	Late April 3	15	<b>96</b> <b>4.30</b>
<b>POETICUS PRAECOX. Div. 10.</b> This is the earliest of the poeticus to flower, and, in spite of its name, is probably of garden origin. The flower is a smaller version of recurvus.				
C5313	17"	May 5	30	<b>65</b> <b>3.50</b>
<b>POETICUS RECURVUS. Div. 10.</b> The old-fashioned late Pheasant Eye loved by everyone. Snow-white petals swept back from a tiny yellow cup edged with red.				
C5319	20"	Mar./ April 3	15	<b>99</b> <b>4.45</b>
<b>POLNESK. Div. 7.</b> A stately all-yellow jonquil hybrid useful for the back of the border.				
C5323	15"	Mar./ April 3	20	<b>78</b> <b>4.70</b>
<b>PRIDE OF CORNWALL. Div. 8.</b> An unusual multi-headed variety with white petals and cups with yellow centres shading to red on the outside.				
C5325	6"	Early Mar. 3	20	<b>72</b> <b>4.30</b>
<b>PSEUDO NARCISSUS. Div. 10.</b> The Lent Lily of English woodlands. Pale yellow petals with a citron cup. Excellent for naturalising.				
C5326	12"	Early Mar. 3	30	<b>54</b> <b>4.85</b>
<b>PSEUDO NARCISSUS GAYI. Div. 10.</b> A larger form of the above with more substance. White petals and clear yellow trumpet. Equally good for naturalising.				

Code	Height	Flowers	£	p
C5327	6"	Early Mar. 5	5	<b>55</b> <b>2.50</b>
<b>PSEUDO NARCISSUS MOSCHATUS. Div. 10.</b> A pure white flower with nodding heads and petals running almost parallel to the trumpet giving a hooded effect.				
C5329	12"	Feb./ Mar. 3	15	<b>99</b> <b>4.45</b>
<b>PSEUDO NARCISSUS OBVALLARIS. Div. 10. (Tenby Daffodil).</b> Neat bright yellow flowers on very stiff stem. Long lasting and excellent for naturalising.				
C5340	15"	Early Mar. 3	30	<b>48</b> <b>4.35</b>
<b>PSEUDO NARCISSUS VAN SION. Div. 4.</b> The original double yellow daffodil. Useful for naturalising because of its iron constitution.				
C5379	10"	Mid-Feb. ea.	10	<b>50</b> <b>4.50</b>
<b>RIJNVELDT'S EARLY SENSATION. Div. 2.</b> Our earliest hybrid. Egg-yellow throughout with a rather flared cup.				
C5347	5"	Mar./ April ea.	5	<b>75</b> <b>3.40</b>
<b>RIKKI. Div. 7.</b> An exceptional little jonquil with a tiny white flower and a pale lemon cup. Very upright.				
C5349	14"	Early April ea.	5	<b>55</b> <b>2.50</b>
<b>RIPPLING WATERS. Div. 5.</b> By far the most attractive and best triandrus that we sell, with three creamy-white short-cupped flowers to a stem. A strong grower.				

**NARCISSI FOR MASS PLANTING**

Varieties selected to provide a range of colour and form with heights from 12" to 15". Specially recommended for cutting.

- 10 Geranium
- 10 poeticus recurvus
- 10 Parcpat

**Collection No. Z26**

- 1 Collection (30 bulbs) for **£4.00**
- 2 Collection (60 bulbs) for **£7.75**

**Saving £1.10**  
**Saving £2.45**

Code	Height	Flowers	£	p
C5351	8"	Early Mar. ea.	10	<b>50</b> <b>4.50</b>
<b>RIP VAN WINKLE (minor pumilus plenus). Div. 4.</b> A quaint miniature double of unknown origin with masses of flat yellow petals tinged with green.				
C5357	12"	Mar./ April 3	30	<b>54</b> <b>4.85</b>
<b>ROGER. Div. 6.</b> A fairly large cyclamineus hybrid with a dark orange cup and paler petals.				
C5363	15"	Late Mar. ea.	5	<b>1.00</b> <b>4.50</b>
<b>ROSY TRUMPET. Div. 1.</b> One of the first pink trumpet daffodils. This unusual small flower has off-white petals and a pronounced rosy flared trumpet.				
C5367	3"	Mar. 3	20	<b>75</b> <b>4.50</b>
<b>RUPICOLA. Div. 10.</b> A perfectly sweet tiny jonquil species. Solitary bright yellow flowers with flat cup. Sweetly scented.				
C5371	3"	Mar. ea.		<b>2.00</b>
<b>RUPICOLA X GADITANUS. Div. 12.</b> A jonquil hybrid with sweetly-scented pale golden-yellow flowers. Increases prolifically.				
C5381	15"	April 3	20	<b>66</b> <b>4.00</b>
<b>SAMARIA. Div. 3.</b> A really beautiful small-cupped daffodil of ivory-white throughout. Of perfect form and strongly recommended as a garden plant particularly good for cutting.				

Narcissi (Daffodils)—*continued*

Code	Height	Flowers	£	p
C5383	9"	Mar./ April	3 15	<b>99</b> <b>4.45</b>
<b>SAMBA. Div. 5.</b> An exceptional dwarf triandrus hybrid. The small dark red cup reflects on to the butter-yellow petals.				
C5385	5"	Mar./ April	3 30	<b>54</b> <b>4.85</b>
<b>SCABERULUS. Div. 10.</b> A good miniature jonquil species with one to three very small yellow flowers on a stem. Semi-prostrate foliage.				
C5387	15"	Late Mar.	ea. 10	<b>45</b> <b>4.00</b>
<b>SCARLET GEM. Div. 8.</b> A most attractive poetaz with several flowers on a strong stem. Deep golden-yellow petals and brilliant bright red cup.				
C5391	6"	April	ea. 5	<b>80</b> <b>3.60</b>
<b>SEGOVIA. Div. 3.</b> A very beautiful miniature jonquil superbly contrasting white petals and small flat yellow cup.				
C5395	7"	Mar.	ea. 5	<b>75</b> <b>3.40</b>
<b>SENTRY. Div. 1.</b> Previously listed as Seedling V13/34, the sturdy stems carry a perfect trumpet, with creamy-yellow cup and milk-white petals.				
C5401	12"	Early April	3 15	<b>1.05</b> <b>4.75</b>
<b>SILVER CHIMES. Div. 8.</b> An extremely lovely and charming tazetta hybrid with up to ten perfect flowers on each stem. Pure white with a cup of palest primrose. Does best in a dry position.				
C5405	14"	Early April	5 30	<b>65</b> <b>3.50</b>
<b>SKYLON. Div. 7.</b> A very pleasing jonquil. Unusual with two neat flowers on each stem. Bright yellow throughout with a red rim to the small cup.				
C5415	12"	Late Mar.	3 15	<b>1.05</b> <b>4.75</b>
<b>SUGAR BUSH. Div. 7.</b> An excellent jonquil hybrid with large flowers. Ivory-white petals and orange-yellow cup.				
C5417	6"	Late Mar.	3 20	<b>66</b> <b>4.00</b>
<b>SUNDIAL. Div. 7.</b> An exquisite miniature jonquil of a most unusual dark lemon with a hint of green in the frilled cup.				
C5419	13"	Late Mar.	3 15	<b>90</b> <b>4.05</b>
<b>SUZY. Div. 7.</b> A beautiful jonquil with deep primrose-yellow petals and an orange crown. Very free flowering.				
C5421	14"	Early Mar.	3 15	<b>90</b> <b>4.05</b>
<b>SWEETNESS. Div. 7.</b> A charming self-yellow jonquil, the most sweetly scented as the name implies. An outstanding garden plant with an unusually long vase life.				
C5423	15"	Early Mar.	3 20	<b>72</b> <b>4.30</b>
<b>SWEET PEPPER. Div. 7.</b> A very strongly scented jonquil hybrid, with yellow petals and a well contrasted brick-red cup.				
C5429	9"	Feb.	ea.	<b>1.50</b>
<b>TARLATAN. Div. 12.</b> A very tall, strong lemon-coloured bulbocodium hybrid with wide-open flared cup.				
<b>TENBY DAFFODIL</b> (see pseudo narcissus obvallaris).				
C5431	6"	Feb./ Mar.	ea. 10	<b>40</b> <b>3.60</b>
<b>TETE-A-TETE. Div. 6.</b> A quite outstanding cyclamineus. Probably the best of all dwarf hybrids. Very early and tremendously long lasting. Golden petals very slightly reflexed from the neat cups. Cannot be too strongly recommended and a very prolific flowerer.				
C5433	12"	Late Mar.	3 15	<b>1.05</b> <b>4.75</b>
<b>THALIA. Div. 5.</b> One of the best triandrus hybrids with one to three well formed white flowers on each stem.				
C5435	7"	Early Mar.	ea.	<b>1.50</b>
<b>THE LITTLE GENTLEMAN. Div. 6.</b> A very pleasing miniature cyclamineus hybrid of butter-yellow throughout with scarcely reflexed petals.				

Code	Height	Flowers	£	p
C5437	12"	Late Mar.	3 15	<b>90</b> <b>4.05</b>
<b>THOUGHTFUL. Div. 5.</b> A delightful triandrus with two or three very large soft yellow nodding blooms of much substance. Very vigorous.				
C5441	14"	May	3 20	<b>75</b> <b>4.50</b>
<b>TITTLE TATTLE. Div. 7.</b> An elegant jonquil hybrid with two or three very attractive flowers to the stem. Yellow petals with small deeper cup.				
C5443	4"	Late Mar.	ea. 5	<b>80</b> <b>3.60</b>
<b>TOSCA. Div. 1.</b> An outstanding miniature trumpet daffodil. The pearly-white petals contrast well with the strong lemon cup. Highly Recommended 1973.				
C5445	16"	Late Mar.	3 15	<b>99</b> <b>4.45</b>
<b>TRESAMBLE. Div. 5.</b> A very vigorous triandrus which gives a mass of pure white flowers.				
C5447	20"	Late Mar.	3 20	<b>78</b> <b>4.70</b>
<b>TREVITHIAN. Div. 7.</b> An excellent short-cupped jonquil with two or three pale yellow flowers to the stem. Very vigorous and good for naturalising.				
C5449	12"	Late Mar.	3 20	<b>75</b> <b>4.50</b>
<b>TREWIRGIE. Div. 6.</b> A very vigorous showy long-cupped self-yellow cyclamineus hybrid.

**MIXED NARCISSI**  
 \*\*\*\*\*

**After lifting, we find that a large number of bulbs have been missed.** Growing them on for a year and then digging them up individually to replace them with their own varieties is too costly a business. Therefore, we are making a special offer of bulbs, as lifted, which will contain a broad range of varieties, some of which may be quite valuable.

Code: C5499 **£5.40 PER 50**

Code	Height	Flowers	£	p
C5451	4"	Mar.	5 30	<b>60</b> <b>3.25</b>
<b>TRIANDRUS ALBUS (Angel's Tears). Div. 10.</b> A dainty miniature species with several milk-white nodding flowers to the stem with globular cups and reflexed petals. So beautiful that it is universally popular.				
C5453	4"	Mar.	3 20	<b>60</b> <b>3.60</b>
<b>TRIANDRUS CONCOLOR. Div. 10.</b> Identical to the above in shape, but a rich golden-yellow in colour.				
C5469	12"	Early Mar.	3 20	<b>84</b> <b>5.00</b>
<b>WOODCOCK. Div. 6.</b> Strong growing cyclamineus hybrid, having bright yellow flowers with long trumpets.				
C5471	10"	Late Mar.	3 20	<b>78</b> <b>4.70</b>
<b>W. P. MILNER. Div. 1.</b> A delightful nodding trumpet variety with creamy-white drooping flowers. Free-flowering and very good for pots.				
C5475	6"	Early	ea.	<b>5.00</b>
<b>XIT. Div. 3.</b> A beautiful little watieri seedling pure white throughout.				
C5477	12"	Early April	3 20	<b>84</b> <b>5.00</b>
<b>YELLOW GEM. Div. 5.</b> A very showy large jonquil hybrid of a delicate lemon colour.				
C5479	16"	Late Mar.	3 20	<b>84</b> <b>5.00</b>
<b>YELLOW TRESAMBLE. Div. 5.</b> A lovely triandrus with a mass of pale yellow flowers. Very vigorous.
