2016 INTRODUCTIONS

Hybridized and raised by
BROGDEN BULBS

2y.p **NARELLE** (Reg) **BB 01-23-1** (LM) **112 35 43 450**

The broad ovate perianth that is smooth and flat stays plane until the flower ends. Opens soft yellow that deepens to a clean, light lemon yellow as the flower develops. The well balanced cylinder corona has a small flanged mouth that is neatly crenate. The corona opens a coppery pink that soon changes to a cleaner pink that lightens to the base. A highly consistent and lovely coloured show flower with excellent poise and very strong plant and stem. Premier 2y.p at the NDS SI show 2013. Premier 2y.p & Best Vase of 7 at the Central Daff. Group's Late show 2014. Bred (*Easter Dawn x Dailmanach*) x *Capree Elizabeth*.

\$75.00 each, Offsets \$25.00 each.

1w.w **SIEGFRIED BAUER** (Reg) **BB 9-09-A1** (E)

One of the first 1w.w's to bloom that has very good form, size, plant health and consistency to support its pure whiteness. A good lasting flower with broad perianth segments that form a double triangle backing for the flanged cylinder corona. Has several awards to its credit including Premier 1w.w at the CDG late show in 2014. Bred *Neahkahnie x Sdlg (Jet Trail x Sdlg.)*

\$ 90.00 each Offsets \$35.00 each

FROM ANDREW JENKINS

1y.y **FIRST DAWN** AKJ #1 (E)

A very consistent show flower that is average in size but always smooth and of good colour. The plane, broad ovate perianth and the slightly flared corona are held squarely on a short neck and strong stem. A good plant that makes super bulbs. Best bloom at New Plymouth in 2014. Bred from *Impeccable x Akala*.

\$ 30.00 each, Offsets \$10.00 each

2w.w **EGMONT SNOWCLOUD** AKJ 03-9 (M)

Very formal and held squarely on strong stems. This One catches the eye and demands a second look. The triangular perianth of strong substance is smooth, flat and plane, while the half length cylinder corona has a slight flange. Not the whitest but has great show form. Bred *Guiding light x Springston Charm*.

\$30.00 each, Offsets # 10.00 each.

FROM WILFRED HALL

8w.y **MURIELLE** (Reg) **WTH GM x 173** (ML)

A very strong white and mid yellow that flowers later than most other tazettas. Up to 5 quite large florets with flat, broad ovate perianth segments and shallow bowl coronas are held on strong stems. Bred from *Grand Monarch X Merridee*.

\$40.00 each, Offsets 15.00 each

EARLIER INTRODUCTIONS

Hybridized and Raised by
BROGDEN BULBS

2y.y **CONWAY** (Reg) **BB 01-4-05/3 (EM)**

The general description of "it's a good one" covers all the attributes of this excellent show flower. CONWAY has very strong plant habits, a broad, smooth perianth and a well balanced, corona that is slightly flanged with a crenate rim. Good line breeding of *Otaihape x Sunline* shows why it was Premier 2yy at the NDS NI show in 2014.

\$50.00 each, Offsets \$20.00 each.

2y.y **NEW WAY** (Reg) **BB 03-6-3 (M)**

The very broad, smooth, flat and plane perianth makes an impressive background for the shortish, very narrow cylinder corona that has a slight flare and entire mouth. Long stem and good poise. There are very few cultivars with this type of corona which some say are "under-cupped". The whole flower is a clean mid yellow. NEW WAY is certainly different but is of excellent show form. Bred *New Penny x New Image*.

\$90.00 each, Offsets \$35.00 each.

1w.w **STATEMENT** (Reg) **BB 01-13-2 (E)**

This large, double triangle flower has very broad, smooth, plane perianth which is well overlapped and of heavy substance. The long, smooth cylinder corona is slightly flared at the mouth and has a flanged entire rim. The whole flower is pristine white. Top white breeding of *Ice House x Neahkahnie*.

Sorry –Sold out for this season.

1y.p **TANEKA** (Reg) **BB 01-2-3 (LM)**

This deeply coloured show flower has already achieved telling success since first being shown in 2012. A large flower of double triangle shape, the perianth segments are ovate in outline and acute at the apex and are spreading, smooth, plane and well overlapped. The long, tightly ribbed funnel-shaped corona is flared and wavy at the mouth with an entire rim. TANEKA has a strong plant and excellent bulbs. National Premier at the SI in 2012 and 2013. Bred *Corbiere x Capree Elizabeth*.

\$90.00 each, Offsets \$35 each.
