FOR YOUR 1999 SPRING GARDENS
NOTE: LOWER PRICES THIS YEAR (p.1)*

UPDATE FROM NEW HOPE

It is a pleasure to introduce our catalog a little earlier for this season. We hope you will enjoy browsing through it while putting together your order. We have included several new varieties that were popular in the garden this year and new lilies and daylilies. **Why not try them?**

The display garden was at least two weeks early this season, and even more unusual, even the tulips were very early. This must be our legacy from El Nino. Our gardens are **unique**. They display the hundreds of varieties we can offer - a great number of which we cannot include in our catalog; they must be ordered in the Spring. I hope you will come and visit next year for your first or fifteenth visit. Each season is individual; this year people expecting tulips were finding allium and iris.

We wish you a most colorful growing season. The general strength of the dollar has continued to hold down prices from Holland , **so look for continued lower prices.**

With Best Blooming Wishes,

Charles A. Fritz III

Bulb Sizes:

CHARLES H. MUELLER CO. has made its reputation for selling the largest size bulbs available and by having these bulbs be true to variety. With our **DN I daffodils** you have probably noticed that our bulbs are much larger and have larger splits than those available elsewhere.

Every other catalog that you would commonly receive and all the so-called "wholesale" catalogs sell only the smaller size DN II and DN III, naturalizing size, bulbs.

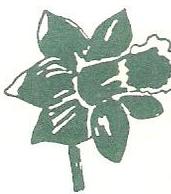

TERMS OF SALE

All items are offered subject to prior sale and to safe arrival in our packing room.

Note: VISA and Mastercard are accepted. Please show card number, expiration date and sign order.

Substitutions: Please note on order form if we may substitute if your requested variety is sold out or not available from the suppliers.

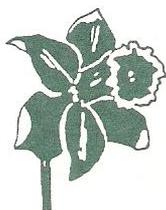

DAFFODILS / NARCISSUS

CLASS	NO	VARIETIES	PER 10	PER 25
