Why you should Buy Cornish Daffodil Bulbs in Preference to others

All bulbs are strictly graded for size, so you know exactly what you are buying—13/15 cms for trumpet daffodils and over 12 cms for narcissi. Cornish bulbs are compact and full of blooms for the spring.

Only top quality bulbs are offered—they are grown by farmers who use the most modern methods to ensure a high standard of plant health.

They are in bloom a fortnight earlier than those raised elsewhere.

Flower quality is very high, with longer stems and deeper colours, that only the West Country soil produces.

Prices are very reasonable and include postage and packing.

Golden Harvest
