**The Daffodil Mart**

Rt. 3, Box 794, Gloucester, VA 23061

Phone (804) 693-3966

FAX (804) 693-9436

Dear Customers and Friends,

For those of you that are new customers, let us introduce ourselves. We are a third generation bulb grower who sell and enjoy all types of bulbs, but who specialize in and hybridize daffodils. We work directly with excellent growers who raise our bulbs, seedlings and selections for increase so that the commercial market will have the opportunity to enjoy the newer cultivars at a fair price. We have expanded our warehouse facilities and office in hopes of serving you more efficiently.

We are pleased to note that we have been able to keep our prices reasonable in spite the continued devaluation of the dollar. Most bulbs except tulips have enjoyed very favorable growing conditions and hence are in excellent supply. Please order as early as possible as some unusual cultivars are available only in the early season. For more detailed information and color pictures, there is a wonderful book called SPRING FLOWERING BULBS, which is available in our Speciality Bulb Catalogue, soon to be released. Individual 5x7 color pictures of most of the cultivars in this catalogue are also available for \$.25 each or are free with \$1000+ orders, if requested.

We enjoy working directly with landscapers, designers and Botanical Gardens in assisting them either on site or by phone or fax with selecting the best cultivars for the specific job or planning for the future. We also help crews learn how to best prepare beds and plant bulbs more effectively and efficiently utilizing tools that we have designed specifically for that purpose. Fertilizing bulbs properly can be the difference between long-term success and failure of a garden. Slo-Release fertilizers for your success and our bulb tools can, also, be ordered through our Speciality Bulb Catalogue.

UNDER EACH HEADING IN THE CATALOG WE HAVE INDICATED OUR STANDARD PACK. PLEASE ORDER IN THOSE QUANTITIES OR IN MULTIPLES THEREOF. Otherwise, you must order from our retail list.

If you are interested in more specialty bulbs, (i.e. for an educational display) we offer you the opportunity to purchase cultivars from Retail Daffodil List at a 25% discount. Also, our Speciality Bulb Catalogue will be sent later in the spring with many exciting and unusual bulbs, tools and accessories. If you do not receive one, please let us know. When requesting an additional catalogue, please be specific about which catalog you need. We also have available seminars, slide talks and workshops on Daffodil history, culture and planting techniques. For more information, see page 15.

If we can help in any other way, please let us know.

Brent and Becky Heath  
The Daffodil Mart

TULIPS

Planting tulips 8" deep may keep the bulb from splitting apart. Putting small, sharp gravel around the tulip bulb may discourage rodent depredation.

Bait stations utilizing a wax coated bait may be needed to keep rodents under control.

Prices in this catalogue are subject to 10% discount for early orders and 10% increase for late orders. See page 2 for details.
