DAFFODIL MART

GLOUCESTER, VIRGINIA 23061

PHONE 703-693-2961

Our firm offering 3 generations of experience in bulb-growing has throughout the years grown several thousand varieties of Daffodils (Narcissi) and are offering herein many old and new which we consider the cream of the crop! These are all TOP-SIZED, DOUBLE-NOSED BULBS with the exception of those for NATURALIZING, which are blooming sized rounds (more suitable for this purpose) and the MINIATURES, which seldom make double-nosed bulbs.

Our many old customers, some date back as far as the 1940's, may be interested to learn that son Brent Heath, now 26 going on 40, is taking over the reins after having handled flowers and bulbs all his life and most capably managing the farming operations as well as bossing me since his Father's death! I'll continue to assist him when he needs me. We are, as many of you know, not far from Williamsburg, and have, we think, a lovely DISPLAY GARDEN - so do try to come to see us in April. We will gladly send you a map.

PLEASE ORDER EARLY THIS SPRING FOR DELIVERY BETWEEN SEPT. 15 AND NOV. 1st. (a 5% bonus in BULBS of our choice) on orders received before July 1, except on; pecks, bushels, mixtures, collections, already discounted.

MINIMUM ORDER: \$7.50

POSTAGE: Please be SURE to include 10% of your order to assist with handling and postage East of the Miss., 15% West. This does NOT apply to BUSHELs which are F.O.B., Gloucester, and which weigh approx. 50 lbs. Your P. O. will advise you the amount to send.*

PRICES: are per dozen and no less than 6 bulbs may be ordered of the varieties selling for under \$5.00 per doz, 6 bulbs sell for the 1/2 doz. price. One or more of the \$5.00 and over price may be purchased for 1/10 the dozen price.

QUANTITY ORDERS: please write us for quotations on same.

SYMBOLS: **Miniatures** are followed by M and height in inches.

BLOOMING PERIODS: (EE-extra early; E-early; EM-early mid-season; M-mid-season; LM-late mid-season; L-late). season; L-late).

VIRGINIA RESIDENTS: be sure to add 4% for State Sales tax.

CATALOG NUMBER: to simplify matters please order by catalog number as well as name.

DAFFODILS FOR NATURALIZING

Do plant your hillsides and woodland areas with a Host of Daffodils to gladden your Spring! DAFFODILS are amongst the most hardy of garden plants and lend themselves beautifully to naturalizing, that is, planting out in drifts to give the effect of Wildflowers.

After many years of experience and experiment, we have searched out the varieties most suited for naturalizing and are listing below by the bushel or peck those we especially recommend. These are blooming sized rounds and may be left undisturbed for many years if fertilized each winter.

NATURALIZING MIXTURE: Many varied types and colors, justly famous and not available elsewhere—**ORDER EARLY!**
