Daffodils & Narcissi

The Springflower "par excellence": no other flower represents so well the spirit of Spring.

Very popular among home gardeners and used for forcing in large quantities as cutflower or potted plant, the Daffodil takes an important place in the world of bulbs.

For mass-plantings in a natural setting no flowers give as much satisfaction as Daffodils or Narcissi and large quantities of mixed varieties are used every year for this purpose. (So-called naturalizing.)
