BEN HEE Div. 2C

A sister seedling to "Inverpolly" - this is a beautiful medium-sized flower, both perianth and cup are very white. The perianth is perfectly formed and smooth; a most consistent flower and a good strong plant. Previously shown under number 1-36-55.

Early mid-season

BEN LOYAL Div. 2B R/W

A very large flower on a strong stem. The perianth petals are broad and overlapping forming a nearly round flower. Bred from two unnamed seedlings that I have used particularly for white perianths. The resulting perianth is glistening white, and forms a majestic background for the well-balanced rich orange red cup.

BUNCLOUDY Div. 2A R/Y

A brilliantly coloured flower with an intense red cup and a smooth flat perianth of richest gold. A medium sized flower, very useful as a late red/yellow. A consistent show quality flower.

CUL BEAG Div. 3B R/W

The finest 3B yet raised, a perfectly formed flower with broad rounded petals making an almost round perianth. The well-formed cup being an intense red. The very white perianth forms a perfect background. This is another flower deliberately bred for whiteness of perianth from an unnamed seedling (1-1-55). A consistent and strong growing plant shown in my winning Englehart Cup group 1971 under number 3-41-62.

DELL CHAPEL Div. 3B

This delightful flower was named after a famous salmon pool on the river Spey. It has a nearly round pure white perianth and a small flattish cup with a neat "rim" of pinkish orange. Best flower in the R.H.S. Show 1970 and shown in my winning Englehart Cup group in 1971.

Early season

Breeding : 2-17-54 x VULCAN

Only a few bulbs for sale

Price each £10.00 : \$23.50

ELPHIN Div. 4 Pink/White

Like "Kinbrace" this is another bright pink double that I have raised from the same breeding. It is a smaller flower but perhaps more elegant, being about average size for doubles, and is a good grower. As it normally carries both pollen and stigma it can be used for breeding.

Late season

Very few bulbs for sale

Price each £25.00 : \$58.75

ERIBOL Div. 2B R/W

One of the many good flowers raised from Kilworth x Arbar. The broad petals form a fine white perianth, much whiter than is normal for this cross. The neat cup is the deepest red yet. Shown in my winning Englehart Cup group in 1971.

Mid-season

Price each £2.00 : \$4.70

FIONN Div. 2B Pink

A fine "pink" that is clear bright pink right to the base of the cup, which is formed like a short trumpet. The well-rounded perianth gives good balance to the flower on its tallish stem. The perianth is white.

Late season

INVERPOLLY Div. 2C

This outstanding flower has a very large, perfectly smooth perianth formed from broad rounded petals and a short rather straight cup. The whole flower is pure white and most consistent in show quality. The cup on opening is palest peachy pink, which quickly fades to pure white. I have used it most successfully in breeding "pinks" that inherit Inverpolly's superb perianth. Twice best flower in R.H.S. shows and in my winning Englehart Cup group in 1971. 'Best Vase of Three' at Chambersburg U.S.A. 1972.

KINBRACE Div. 4 Pink/White

The first really "pink" double to be raised. A magnificent large flower with white perianth petals and clear bright pink inner segments. Received Preliminary Commendation when first shown at the R.H.S. in 1968. A good strong plant. As most flowers have a stigma and often pollen it can be used for breeding.

Late season

Only a very few bulbs for sale

Price each £25.00 : \$58.75

LOCH ASSYNT Div. 3B

A very attractive "rim" with a large and very smooth perianth of glistening white. The well-proportioned cup is neatly frilled; has an orange rim fading to pale yellow at base. Shown at the R.H.S. under number 3-44-61. This is another flower bred from my seedling 1-1-55, crossed with Scyracuse.
