## THE NEW R.H.S. CLASSIFICATION AND COLOUR CODING

The R.H.S. has introduced a new Classification and Colour Coding for Daffodils, this is now adopted throughout the Catalogue. A full description of this very simple method of classifying and colour coding Daffodils is given in an excellent article in "Daffodils 1977" Published by the R.H.S., Price £1.50. Back numbers can also be obtained from the Royal Horticultural Society, Vincent Square, London. SW1P 2PE.

### OPEN DAY

All interested in daffodils will be welcome on Sunday, April 20th, 1980 when the gardens at Dunley Hall will be open under the National Garden Scheme from 2.00 p.m. until 6.00 p.m.

ADMISSION: 25p

It can be arranged to see the daffodils on other days, but only by appointment.

NEW INTRODUCTIONS 1980**BADANLOCH (Lea) Div: 3-W-YYO**

A very large striking flower up to 4½" diameter carried on a tall strong stem and neck to match. The beautifully white perianth is made up of broad smooth bluntly pointed inner petals, whilst the outer petals are rounded giving a nearly circular flower. The expanding cup has small neat serrations at the mouth, nicely balancing the large perianth. It is pale greeny yellow at the base shading to lemon for 2/3rds of its length, ending in a bright orange rim that is quite well defined. A tall strong plant that naturally holds the flower correctly.

Breeding: Dalhauine x Seedling

Season: Late Mid-Season

Price each: £20.00  
\$43.00

ONLY A FEW BULBS FOR SALE

**CAPITOL HILL (Lea) Div: 2-Y-Y**

The flat perianth petals rather pointed are paler yellow than the deep rich yellow sometimes nearly orange cap which in form is more like a short trumpet. This very strong growing plant was bred from Bastion and an un-named yellow-red seedling, and has a beautiful hard round bulb that increases rapidly. Was shown in my Engleheart Cup Group in 1970 under number 1-19-55.

Season: Early Mid-Season

Price each: £ 3.50  
\$ 7.60**CRANBORNE (Blanchard) Div: 2-Y-R**

A large well contrasted yellow-red with deep yellow perianth of broad flat petals, the inner being bluntly pointed and the outer rounded with a tendency for the edges to in-curl slightly at the top. The bright orange red cup expands fairly sharply and is solid coloured to the base. A tall vigorous plant with good stem and neck. Will be very useful for late shows. Previously shown under number 66/5A.

Breeding: (Chungking x Dewlish) x (Seedling x Border Chief)

Season: Late Mid-Season

Price each: £12.00  
\$26.15**ERISKAY (Lea) Div: 4-W-Y**

The outer perianth petals are flat forming a normal smooth perianth as a frame for the neatly doubled inner yellow segments and white petals in alternate layers making a very neat and attractive flower. The yellow inner segments are faintly flushed with pink and are slightly serrated and frilled. A good stem and neck holds the flower well. A strong and vigorous plant that increases freely. The flower normally carries both anther and stamen so it should be a useful plant for breeding.

Breeding: 1-49-64 x 1-39-61

Season: Late Mid-Season

Price each £15.00

ONLY A FEW BULBS FOR SALE

\$32.00

**HARTGRAVE (Blanchard) Div: 2-Y-Y**

A medium sized flower of soft sulphur yellow, the flat perianth is formed by broad rounded petals that are uniformly coloured. The short trumpet shaped cup is neatly and evenly serrated with a fine rim of darker yellow. Good stem and neck.

Breeding: Lemonade x Daydream

Season: Mid-Season

Price each £10.00  
\$21.75**LOCH BROOM (Lea) Div: 3-W-ORR**

The brilliant white perianth petals are broad and rounded at the tip, the outer edge of the petal incurves slightly towards the tip making a lovely flat background for the neat rather small bright red cap which is serrated and slightly frilled at the mouth. A good tall stem and neck that naturally carries the flower correctly. A good strong plant, was first shown in my Engleheart Cup group in 1976 under number 1-24-67.

Breeding: 434L.R. x OHIO

Season: Late Mid-Season

Price each £17.50

ONLY A FEW BULBS FOR SALE

**LOCH BRORA (Lea) Div: 2-W-O**

An unusual and very striking flower, the perianth has snow white, satin smooth petals that are broad and bluntly pointed of great substance, the rather large cup is deeply serrated and expanding in vivid orange to the base. The flower is perfectly carried on a strong stem and neck, a vigorous plant. First shown under number 1-31-64 at the A.D.S. Convention show, Boston 1979, when it was runner up to the best flower. Here it is partially sunproof.

Breeding: 1-1-55 x (986 L.R. x Brahms)

Season: Mid-Season

Price each: £30.00

**LOCH TURNAIG (Lea) Div: 2-W-R**

A beautifully contrasted red-white flower medium to large in size, the flat perianth formed from shovel shaped petals of great substance, rounded at the tip the outer rim is slightly in-curving. A lovely foil for the bright cherry red cup, that is expanding and neatly frilled at the mouth. It has a good tall stem and neck, that holds the flower well. A strong plant that has shown steady improvement over the last few years.

Breeding: Erihol x [Rockall x (Matapan x Loch Crewe)]

**GENERAL LIST****ACHDUART (Lea) Div: 3-Y-R A.M. R.H.S.**

A large and beautifully formed red and yellow. A most consistent flower with a lovely smooth perianth of soft gold, nicely balanced by a neatly expanding red cup. Quite the best Division 3 Red/Yellow yet raised. Was given Award of Merit, R.H.S., as a show flower the first time it was shown in my winning Engleheart Cup Group 1973 and again in 1977 and 1978. A strong and vigorous plant with a good stem and neck. A sister seedling of "Torrison"; Best Flower R.H.S. 1974.

Mid-Season

Bred from a Spry and Carbineer seedling crossed  
with Vulcan

Price each: £ 7.50

\$16.30

**ACHENTOUL (Lea) Div: 4-W-ORR**

A fine red/white double of perfect form on good strong stem. Has a better constitution and is a stronger grower than many in this category. A frequent winner in single bloom classes. Very strongly scented.

Late Mid-Season

Price each: £ 3.50

\$ 7.60

**ACHNASHEEN (Lea) Div: 3-W-W**

A really fine 3C with a dazzling white perianth which is a great deal whiter than most; of good form with a very small, white, rather flat cup. A strong grower of consistent quality.

Breeding: Suilven x Hamzali

Late Mid-Season  
Price each: £ 1.50  
\$ 3.30

**ALTRUIST (Board) Div: 3-Y-ORR**

A very attractive flower with most unusual colouring; the flat perianth segments have a smooth glistening texture of coppery orange that fades to buff at the tip. The small rather flat cup is orange red, nicely frilled at the edge. Free flowering.

Late Mid-Season  
Price each: £ 2.50  
\$ 5.40

**ARNDILLY (Lea) Div: 2-W-R**

A very elegant red and white flower with a neat red cup of deep red that provides a lovely contrast to the very white perianth formed of smooth broad and overlapping petals of great substance. A beautifully balanced flower, held on a tall stem with a good neck. Bred from two unnamed seedlings. Previously shown under Number 1-32-61.

Mid-Season  
Price each: £ 3.50  
\$ 7.60

**ARPEGE (Board) Div: 2-W-W**

A beautiful pure white flower, with broad overlapping petals that form a nearly circular perianth. The flat round cup is well proportioned and nicely balances the perianth. A good grower that multiplies quickly. The flower is held well by a strong stem although it is inclined to have a rather long neck. Has won in the single bloom classes on several occasions.

Breeding: Easter Moon x Homage

Late Mid-Season  
Price each: £ 3.50  
\$ 7.60

**ASHMORE (Blanchard) Div: 2-W-GWW A.M. R.H.S.**

A very lovely uniformly white flower of classical form, that is very consistent in quality taking a little time to develop its full potentiality. The perianth petals are broad and flat, perfectly balanced by the short expanding bowl shaped cup with neat serrations at the mouth, and a dark beautiful green eye at the base. A strong vigorous plant with a good straight stem, that naturally carries the flower at right angles to the stem. One of the best 2 C's available. Best Flower R.H.S. Show in 1975.

Breeding: Easter Moon x Seedling

Late Mid-Season  
Price each: £ 17.50  
\$ 38.00

**BALVENIE (Lea) Div: 2-W-GPP**

A very strong, large and vigorous non-predominant pink that forms a large hard bulb that increases well. The very white perianth is formed from broad overlapping petals bluntly pointed, beautifully in proportion to the half length trumpet that evenly expands to end in a neat frill and a bright green eye at the base. The trumpet is pale clear pink gradually becoming deeper pink at the mouth. As the flower ages the pink fades at the base leaving a broad pink rim and green eye. In my winning Engleheart Cup Group 1977, 1978 and 1979.

Breeding: Inverpolly Seedling x Merry Widow.

Late Mid-Season  
Price each: £ 10.00  
\$ 21.75

**BARNSDALE WOOD (Noton) Div: 2-Y-R**

A very richly coloured flower, the broad smooth perianth petals are bluntly pointed and of a very rich dark gold. The expanding cup is nicely serrated at the mouth and is dark red solid to the base. A most striking flower, and a strong plant with good stem and neck.

Breeding: Falstaff x Shining Light

Early Mid-Season

**BEN AVON (Lea) Div: I-W-W**

A very large white trumpet. The outer perianth petals are extremely broad and bluntly pointed and the inner petals, nearly as broad, are rather more sharply pointed giving great elegance to the flower which it clearly inherited from Canisp, one of the parents. The rather narrow trumpet, dark green at the base, is gently expanding and ends in a neat half roll without any marked serrations. A long lasting and very beautiful flower. This is one of these borderline flowers between Divisions 1 and 2 but on balance is nearer division one than two.

Breeding: Canisp x (Glenshesk x E of I) x Canisp)

Season: Early Mid-Season

Price each: £ 15.00

**BEN HEE (Lea) Div: 2-W-W A.M. R.H.S.**

A sister seedling to "Inverpolly", this is a beautiful medium-sized flower, both perianth and cup are very white. The perianth is perfectly formed and smooth; a most consistent flower and good strong plant. In both my winning Engleheart Cup and Devonshire Trophy exhibits 1978.

Breeding: Easter Moon x Omeath

Early Mid-Season  
Price each: £ 2.50  
\$ 4.40

**BEN LOYAL** (Lea) Div: 2-W-R

A very large flower on a strong stem. The perianth petals are broad and overlapping forming a nearly round flower. Bred from two unnamed seedlings that I have used particularly for white perianths. The resulting perianth is glistening white, and forms a majestic background for the well-balanced rich orange cup. Shown in my winning Engleheart Cup Group 1975.

Mid-Season

Price each: £ 3.00  
\$ 6.50

**BEN RINNES** (Lea) Div: 3-W-R

A brilliant red and white Division 3 flower with a sparkling white perianth against which many others look grey. The perianth makes a tremendous contrast with an expanding rather frilled red cup. The whole flower being beautifully proportioned on a strong straight stem with a good neck.

Mid-Season

Breeding: Arbar crossed with an unnamed seedling.

Price each: £ 4.00  
\$ 8.70

**BLITHE SPIRIT** (Board) Div: 3-W-WWO

This is a very unusual non-predominant flower, with a pure white perianth formed from broad well overlapped petals. The flat cup is white at the base turning to greenish yellow and then to a broad orange rim. The very attractive flower is carried well by a strong stem, is free flowering and has won frequently in single bloom classes and in the P.D. Williams group in London.

Breeding: Chinese White x Alport

Late Mid-Season

Price each: £ 4.50  
\$ 9.80

**BORROBOL** (Lea) Div: 3-W-R

A particularly fine flower raised from Arbar as seed parent. The white perianth forms a nearly round flower and the rather flat cup is bright red throughout. Shown in my winning Engleheart Cup Group in 1973  
A consistently successful Show flower.

Mid-Season

Price each: £ 3.00  
\$ 6.50

**BROOMHILL** (Board) Div: 2-W-W A.M. R.H.S.

A wonderful show flower and a very good strong plant. The beautifully formed pure white perianth has broad overlapping petals that are bluntly pointed. The short pure white corona is nearly straight, only slightly expanding and frilled. The flower is naturally well poised by a good neck and a strong stem. Makes a good bulb and increases well.

Mid-Season

Price each: £ 4.75  
\$ 10.30

**BRYANSTON** (Blanchard) Div: 2-Y-Y A.M. R.H.S.

An outstanding self yellow bred from Ormeau x St. Keverne, incorporating the best qualities of both parents. Perfect flowers with smooth wide flat petals of great substance, standing at right angles to the nicely serrated medium length cup. Tall upstanding plant early flowering. Reserve best bloom R.H.S. competition 1976. and best bloom in the 1977 Competition. A very consistent show flower.

Breeding: Ormeau x St. Keverne

Season: Early Season

Price each: £35.00  
\$76.00

**ONLY A VERY FEW BULBS FOR SALE****BUNCLODY** (Lea) Div: 2-Y-R

A brilliantly coloured flower with an intense red cup and a smooth flat perianth of richest gold. A medium sized flower very useful as a late red/yellow. A consistent Show quality flower. In my winning Engleheart Cup Group 1975.

Breeding: Revelry x 106

**CAMELOT** (Richardson) Div: 2-Y-Y

A very fine self yellow of generous proportions. The flower is a deep clear yellow throughout, with a nearly circular perianth, formed from broad petals of great substance. A very strong and vigorous plant that is proving to be a very useful parent.

Breeding: Kingscourt x Ceylon

Mid-Season

Price each: £ 1.25  
\$ 2.70

**CANISP (Lea) Div: 2-W-W F.C.C. R.H.S.**

An outstandingly beautiful flower of near trumpet proportions of the highest quality. The lovely smooth perianth is formed from pure white petals, broad and overlapping, slightly pointed at the tips and making a most elegant foil for the trumpet that is slightly expanding, sometimes the mouth is neatly rolled. The base gleams with green lights. This beautifully elegant flower is most consistent and has been "Best Bloom" at R.H.S. Shows on two occasions and in my winning Engleheart Cup Group 1971.

Breeding: Ave x Early Mist

Early Mid-Season  
Price each: £ 3.00  
\$ 6.50

**CARRICKBEG (Richardson) Div: 1-Y-Y**

A fine exhibition yellow trumpet of good form and quality. The broad overlapping perianth segments are slightly pointed and are well balanced by the long trumpet which is neatly flanged, the whole flower is of deep yellow throughout. A strong plant.

Mid-Season  
Price each: £ 1.00  
\$ 2.20

**CATTISTOCK (Blanchard) Div: 2-Y-R**

A valuable late yellow-red. Very smooth broad slightly pointed deep yellow petals tending to be a little reflexed and solid red cup. Has been frequently shown in winning groups when shown under Number 62/10A. This is one of the last yellow perianth flowers to open and is of the utmost value for late shows. A consistent flower, vigorous and of great increase.

Breeding: Revelry x Dewlish.

Late Mid-Season  
Price each: £ 2.00  
\$ 4.30

**CITRONITA (Noton) Div: 3-Y-Y**

A very elegant and smooth pale lemon coloured flower that holds its colour, certainly the best in this class that I have seen so far. Opens lemon yellow throughout, the corona slightly darker than the perianth and maintaining this colour to the end. The flat perianth has broad smooth petals with a flattish corona perfectly carried on a tall strong stem with a good neck. A good strong plant that is very consistent, having won first prizes every time it was shown in R.H.S. shows in London and Societys Shows in Birmingham.

Breeding: Lemonade x Perimeter

**COLD OVERTON (Noton) Div: 2-W-GWW A.M. R.H.S.**

A very fine all white flower with a three-quarter length trumpet expanding at the mouth and neatly frilled, the base of the trumpet in green. The large broad petals open pale cream quickly passing to white. A strong plant that gives very consistent flowers, has been in several winning Bowles Cup groups when shown under number.

Breeding: Easter Moon x Knowhead

**CONVAL (Lea) Div: 2-W-WPP**

A lovely flower with a pure white perianth formed from broad rounded petals that naturally stand at right angles to the cup and form a nearly rounded perianth some 4 to 4½ inches in diameter. The well proportioned, slightly expanding cup is a deep clear rosy pink that shades to greeny white at the base. A strong plant with a good stem. It has a good neck that naturally holds the flower at right angles to the stem.

Breeding: Irish Rose x Rose Caprice.

Late Season  
Price each: £ 3.00  
\$ 6.50

**COOL AUTUMN (Board) Div: 2-W-Y**

A lovely flower with a beautiful perianth formed from very broad overlapping white petals a perfect foil to the rather flat greeny yellow cup. Rather similar to "Homage" from which it was bred. A strong plant of free increase.

Breeding: Homage x Seedling.

**CREAG DUBH (Lea) Div: 2-O-R**

This very unusual flower caused great interest when first shown in London in 1976. The perianth is coppery orange red with a slightly paler streak down each petal, the perianth colour being only a little paler than the orange red cup. A medium to large sized show flower on a tall strong stem and although the neck is a little long it carries the flower perfectly. This new break is going to be very important for breeding a new range of self orange and red flowers. Has previously been shown under number 2-26-69 in my winning group of 12 seedlings at the R.H.S. Daffodil Competition on two occasions.

Breeding: (Chungking x Spry) x Home Fires) x Vulcan Season: Early Mid-Season

**CROILA (Lea) Div: 2-W-GW**

A very lovely all white division 2 flower of nearly perfect symmetry and form, the perianth petals are broad and bluntly pointed forming a naturally smooth and flat perianth. The short corona is straight sided except at the mouth where it expands to form a nice even half roll. A very consistent flower with a good stiff stem and neck that holds the flower perfectly. Was judged to be the best seedling at the Daffodil Societys Show in 1977 when shown under number 1-25-68. and in my winning Engelheart Cup Group 1978.

As the breeding of Croila avoids those cultivars that have been proved by Rosewarne particularly susceptible to fusarium it is hoped it will be more resistant to Basal Rot than many in this division.

**DAILMANACH (Lea) Div: 2-W-P**

A superb pink of great quality and breeding. The first "pink" to be awarded the medal for the Best Flower in the R.H.S. Show 1972. The glistening white perianth more than 4½" in diameter is perfectly smooth and flat, being formed by very broad petals, rounded at the tip, and of great substance, providing a perfect foil for the large ¾ length trumpet that is clear bright pink to the base, but a deeper pink at the mouth where it expands sharply into a lovely half roll that is neatly serrated. A strong plant with a good constitution and very consistent. Shown in my winning Engleheart Cup Group 1977 and 1979. Was not only the Best Flower R.H.S. show 1979 but the Reserve Best Flower and the Best in the Novice Classes. In New Zealand it won the Ramsay Cup for pinks. Has now proved itself as a supreme parent for pinks.

**DELNASHAUGH (Lea) 4-W-PP**

A very exciting new pink double which was first seen under number 3-39-68 at the A.D.S. Convention Philadelphia, where it created very great interest. The broad flat perianth petals are of good substance and are bluntly rounded at the tip. The doubled inner segments are clear deep china pink and are evenly spaced with the white petaloids making a beautiful, balanced flower, which in spite of its size and weight is carried perfectly by the strong stem and neck. The flowers last an unusually long time and keep their clean pink colour to the end. A very useful flower for breeding as it normally carries both anther and stigma.

**FRONT ROYAL** (Navarro) Div: 2-Y-YYO

A very fine non-predominant flower with broad perianth petals bluntly pointed and overlapping of dark yellow. The corona being only slightly expanding is nicely serrated and of good proportions, dark yellow at the base turning to orange at the outer edge. A very good plant and consistent in quality. It has a tall stem and good neck.

**GLEN CLOVA** (Lea) Div: 2-Y-ORR

This marginally misses being of trumpet proportions the measurements being corona 35mm perianth segments 38mm. The broad slightly reflexing petals form a nearly circular perianth of rich deep gold. The trumpet orange at the base turns to a striking red at the mouth which is slightly expanding with neat serrations. The flower in our part of the world is sunproof and should be a useful parent for breeding red trumpets.

Breeding: (Vulcan x Capitol Hill) x Arctic Gold

**GLENFARCLAS** (Lea) Div: 1-Y-O

This orange red trumpet created great interest when shown in my winning seedling class at the R.H.S. Competition on three occasions. It was bred from a series of crosses made between yellow trumpets and yellow red division two flowers. The trumpet is orange red coloured solid to the base, gradually expanding to the mouth with a slight roll and serrated edge. The deep golden perianth petals are of great substance, the outer ones broad and rounded at the tip the inner petals slightly narrower and bluntly pointed, sometimes with a slight twist. The flower is well poised on a tall strong stem and good neck. This like many trumpets is a borderline division one flower, and will give flowers in both divisions one and two, but on balance over the past few years there have been most flowers in division one. It is a strong plant and readily sets seed, so will be a vital parent for breeding red trumpets.

Breeding: Seedling x Vulcan

**GLEN ROTHES (Lea) Div: 2-W-P**

A lovely medium sized pink, bred from Inverpolly. The  $\frac{3}{4}$  length trumpet gradually expands to end in a neat half roll is rich pink solid to the base. The perfectly smooth white perianth is formed with broad flat petals being rather pointed at the tip. A fine flower which has been very consistent in form, with good increase. It has a strong stem and good neck that naturally holds the flower correctly in my winning Engleheart Cup Group 1978.

Breeding: Inverpolly x Fionn.

**GOLD CONVENTION (Lea) Div: 1-Y-Y**

A new break in golden trumpets, this most unusual flower has a nearly round flat perianth that is slightly swept back formed from immensley broad smooth petals well rounded at the tip. The trumpet is rather narrow, slightly expanding to a neatly serrated mouth and is of rich maximus gold, a shade or two darker than the perianth. As the flower ages this often turns to pale orange. The whole forming a very beautiful and elegant flower, on a tall strong stem with a good neck. A vigorous and very consistant show flower that has twice been in my winning Engleheart Cup Group shown under number 1-32-68.

Breeding: Bred from two seedlings with orange trumpets.

**INVERPOLLY** (Lea) Div: 2-W-W A.M. R.H.S.

This outstanding flower has a very large, perfectly smooth perianth formed from broad rounded petals and a short rather straight cup. The whole flower is pure white and most consistent in show quality. The cup on opening is palest peachy pink, which quickly fades to pure white. I have used it most successfully in breeding "pinks" that inherit Inverpolly's superb perianth. Three times best flower in R.H.S. Shows and in my winning Engleheart Cup Group in 1971, and 1977. "Best Vase of Three" at Chambersburg, U.S.A. 1972.

Breeding: Easter Moon x Omeath.

**MELDRUM** (Lea) Div: 1-Y-Y

A large a beautifully formed trumpet, of dark rich gold. The trumpet being darker is nearly orange, the perianth which is formed by broadly overlapping spade shaped petals that are naturally smooth and at right angles to the trumpet which to begin with is gently expanding, then it rapidly expands at the mouth to a neatly serrated edge. The whole flower is well proportioned on a tall strong stiff stem with a good neck that holds the flower in perfect position. This is the darkest golden yellow trumpet I have seen. As the flower ages the trumpet turns to pale orange. This seedling arose out of my breeding programme for Red Trumpets, and has so far shown great consistence, having been successfully shown during the last 3 years under No. 3-5-67. Three times in my winning Engleheart Cup and once in the class for 6 seedlings.
