1971 NOVELTIES

2A AMBERGATE 3-4 Milne

The almost legendary flower that caused such interest and comment when first shown. It has a small cup of deep orange red and a most perfect wide poetica type perianth of pale primrose that is quite lost under the heavy even suffusion of pinky orange. A unique show flower. Fertile. Probably the most all-red of daffodils yet.

£5.50, \$13 each

2B CORBRIDGE 3 G. Harrison

Powerful, aristocratic newcomer to the white and yellow large cups. Welcome for immaculate quality, a very even crop of long lasting flowers, but most welcome for its distinct character. Petals are smooth, wide, thick and cleanly cut. The bowl crown is mid yellow, richer at the rim. The flower is most boldly posed and with the ample perianth just very slightly reflexed Corbridge looks distinguished and distinct. Strong. Tall, rigid stem. 1st class in show or garden.

£5.00, \$12 each; 3 for £12.00, \$28.80

2A FIRE CHIEF 2-3 GLW

Prolific large gold and orange flower with wide large bowl crown.

25p, 60 cents each; £2.00, \$2.40 for 10

2C MAIDEN FLIGHT 3 MJB Chinese White sdlg x

Verona prob.

The pure white flower is a borderline 3C-2C. It is a circular one with a shallow saucer, all shining white innocence. The plant is exceptionally vigorous and free of bloom.

£3.00, \$7.20 each

3B

PURBECK 3 Blanchard

Roimond x Arbar

AM1970

Ideally proportioned show flower. Of good size and most immaculate form. The perianth glistens with its vivid white behind a neat cup of pale green edged with pale orange, the orange being a ribbon that is not too broad thus making Purbeck an ideal flower for the non-predominant 3B classes. Whether for show or the garden a real jewel and worth its Award of Merit.

ill. £10.00, \$24 each

2A ROTHBURY 2-3

G. Harrison Seedling x
Ceylon

One of the most splendid of flowers, large, bright, cheerful and long lasting. It is a character of sterling value in the garden and a well finished flower. The rich gold of the wide perianth glows and sparkles behind the large neat crown of vivid scarlet. A flower of Matlock size but showing the influence of Ceylon's quality. From opening to its end a richly coloured 2A. £2.00, \$4.80 each. A low price reflecting its strong constitution.

2B SATEEN 1-2 H. Barr Spellbinder x Maidens Blush

The unusual cross, made with the idea of producing a lemon and pink flower, has in Sateen given a beautiful bold early white and pink. It is a very good show shape, a large flower on tall strong stems. The fine white perianth is held at right-angles to a crown that is virtually a trumpet. This trumpet crown is painted pink, a most pleasing shade. The value of the flower is greatly enhanced by being so very early, easily the first of the pinks, and by being a fine laster. But it would be welcome whenever it bloomed. To breeders its value is obvious from its parentage. Only a few to go.

1970 INTRODUCTIONS

2B

CLOCHMERLE 3-4 GLW

One of the last pinks to be bred by Mr. Wilson. A flower of ample size well posed on a strong stem, the broad petals forming a wide milk white perianth to show off the large crown with its flange. The crown opens buffy but soon becomes rich pink throughout with just a hint of warm chrome remaining. Strong.

£2.50, \$6 each

2C

CRINOLINE 2-3 GLW

Attracts immediate attention with its huge flowers, broad rounded white petals behind a wide trumpet crown that is so flared as to make this a distinct character flower without looking too way-out and graceless. White petals, cream corona. Spectacular in bloom, very strong in growth.

35p, 85 cents each; £3.00, \$7.20 for 10

4

ACCLAMATION 3-4 JLR Gay Time x Arbar AM1968

This magnificent double won a unanimous Award of Merit as a show flower on its first showing. Some leading growers said Acclamation was the best red and white double yet seen.

Acclamation opens and stays vividly snow white, contrasting with the dark inner segments that show up more than in most other doubles. The pose of the flower is bold and attractive. A winning show flower and a fine garden kind of the future. Strong stems, short necks. Flowers large rounded, long lasting and all of show quality. **ill. £25.00, \$60 each**

1C

CUSHIE BUTTERFIELD 2-3 GLW

In the words of the song, "A big lass and a bonny lass," and if "she likes her beer," I should not be surprised. A strong growing, very pleasing large white trumpet daffodil with smooth wide petals held well away from the noble, well flanged trumpet. In heavy demand when shown in '69.

35p, 85 cents each; £3.00, \$7.20 for 10

6A

EARLY ENTRY 2-3 Blanchard. White Sentinel x cyclamineus

I am very fond of the cyclamineus hybrids. This is distinct kind. It has something of the Jenny lightness of build, with long pointed petals held slightly reflexed to the long slender trumpet, neatly flanged. The petals are white, the trumpet is a pale primrose often flushed with buff or pink. Flowers cut and brought inside can colour up to a definite pink. A good little plant.

£4.00, \$9 each

2A

INFLAMMABLE 2-3 GLW

Glowing colour. The wide cup is a vivid orange red, the perianth is gold strongly flushed with orange. Small bulb, but very good plant, increasing rapidly and blooming freely. Colour comes well in pots.

15p, 35 cents each; £1.30, \$3.10

2B

L'AMOUR 3-4 JLR Salmon Trout x Rose Caprice

Who can find fault with L'Amour? The daughter a compliment to the high born qualities of her parents. Delicious colour, beautiful texture, copybook design. Broad satiny petals of firm substance, flat behind the bold crown - exquisitely flanged. White behind a crown of rich pure rose pink opening buffy but soon becoming nothing but clear smiling pink. Strong bulb and plant.

£7.50, \$18 each

2C

MARY ANN 2-3 GLW

Snowy white flower, with triangular petals forming wide perianth at right angles to well balanced crown short of trumpet length. Altogether a most pleasant daffodil. Grows well and flowers freely.

25p, 60 cents each; £2.00, \$4.80 for 10

2A

MYSTERY 3-4

We have been very pleased with this plant. It is a sturdy one with many bright flowers. The perianths are of rounded smooth petals, but the crown is what will catch most people's eye, it is a wide saucer or bowl shape and filled with a fluorescent orange scarlet which shimmers in the sunshine throughout its life. This is a real bargain novelty.

25p, 60 cents each; £2.00, \$4.80 for 10

3B

RIDING MILL 3 Harrison

No fashion designer could improve on this flower. Immaculate in glistening white silk the clean cut circular petals are ironed flat in a ample circle around a neat bowl cup ribboned in smiling amber gold and shaded lemonade down to white. A fine show flower and a good garden plant, throwing plenty of bloom that lasts very well.

£4.00, \$9.60 each

2B

RUBY TAIL 3-4 JLR

One of the most exciting beds of flowers here last season. Crowds of large flowers in vivid colours lasting for weeks. The petals are noticeably broad, somewhat pointed, and form a dazzling backcloth for the wide crown of polished flaming red, a scintillating scarlet that looks well outside or in. A good bulb.

50p, \$1.20 cents each; £5.00 \$12 for 10

1C

WHITE CHIEF 2-3 GLW

A strong white trumpet with large flowers freely produced. Whiter than Mount Hood, larger than Cantatrice, an excellent garden daffodil.

25p, 60 cents each; £2.00, \$4.80 for 10

2C

YEAVERING BELL 3 Harrison

A top flight show flower. Tailor made perianth of firm flat petals groomed at right angles to neat bold crown which is nicely flanged. Whole flower of finest spun quality and glistening snowy colour. A flower of good size held on tall strong stems. A fine plant in every way.

£5.00, \$12 each

1969 INTRODUCTIONS

4

HEARTS DESIRE 3 JLR Gay Time x Salmon Trout

King-size giant circular double in pure white and bright lemon. Very broad smooth outer petals, very neatly arranged inner ones. Distinct in colour and character. Plant bursting with energy to deliver tall strong flowers of finespun quality. Heavy artillery for the show-minded.

£12.00, \$28.80 each

4

BIG BOY 3-4 JLR Gay Time x Arbar

Sister seedling to the Award of Merit Acclamation which was recognised 1968 spring as one of the finest daffodils yet seen. Some leading growers suggested that it was the best double yet. Big Boy is a similar flower but its thick rounded petals are an ivory white, whilst the intermixed smaller segments are a bright orange red. It is a tall strong plant with stiffly erect foliage.

£2.00, \$4.80 each

2C

BLUE BIRD 3 MJB

We have grown this seedling for some years and use it as the standard for whiteness. It is the whitest crowned flower we have, the vivid white crown being dazzling blue-white like snow with the sun shining on it from a clear blue sky. The perianth is of wide oval petals. A group in the garden is going to look wonderful, and one bulb soon grows to a group as it increases fast.

£3.00 \$7.20 each

1969 Introductions

2B

DANCING PARTNER 3 MJB

Rose of Tralee x Passionale

A polished flower with oval pointed petals held flat away from a trumpet crown of pink untouched by any orange. Free flowering nice plant with obvious Rose of Tralee blood. Quick to increase.

£1.00, \$2.40 each

2A

FEELING LUCKY 2-4 JLR Patagonia x Firecracker

Extraordinary flower and plant. Unfurls deep golden perianth around a wide orange crown. The orange turns richer, deeper, more glowing fierce scarlet each day. The scalloping of the expanded crown makes Feeling Lucky most distinct and pleasing, the scalloping is done boldly and gracefully in the very best taste. However, it could be argued that an even more important characteristic is the long life of the flower. This long life it combines with a parade ground stance so that the very most is made of the golden and scarlet pagentry all its time. Feeling Lucky is bound to be an important garden and cut flower from now on.

£20.00, \$48 each

1A

LEMON CLOUD 203 MJB Spellbinder x Moonstruck

Clouds of lemon emanate from an explosively vigorous free-flowering bulb. Wide triangular long pointed petals at right angles to a long trumpet narrowly tailored but slightly expanded at the mouth. Not smooth enough for the highest exhibition work but a delicious cool character flower in the garden.

£3.00, \$7.50 each

2B

MY MY 3-4 JLR Salmon Trout x Rose Caprice

My, my, what a flower! Strong bold pink. Circular perianth of thick strong white petals. Large crown flanged and coloured solidly with rich glowing pink starting buffy. Tough plant.

£6.00, \$13 each

9

OTTERBURN 5 Harrison Actaea x Cantabile prob.

It must be an age since a new poet of any significance was introduced, yet poets retain their hold on the affections of gardeners. Very few poets are good commercial plants, Otterburn is an exception, a very strong, fast increasing one of very attractive character. Large flower for a poet, very good smooth quality in rounded snowy petals and a large primrose eye rimmed brightly in red. An excellent show flower.

£2.00, \$4.80 each; 3 for £5.00, \$12

2B

PROMETHEUS 3 JLR Kilworth x Norval

Prometheus, after taking time out to make man from clay, stole fire from Olympus and taught men how to use it. Here we have a glorious flower with fire in its crown. Large show blooms of superlative quality and substance. Pure white perianth at least 4 in. across composed of amply overlapping polished petals. An expanded crown is rich scarlet red and precisely serrated at the brim. One of the deepest reds and most brilliant show of flowers we have.

£7.00, \$16 each

2B

ROMAN TILE 3-4 Johnstone

Unusual and pleasing. Blue white snowy perianth of rounded petals. Wide quite deep bowl of shining rich primrose ribboned with rich deep pink. Unlike any other variety we know. High gloss finish.

£10.00, \$24 each

NEW FROM 'DOWN-UNDER'

2B

LANDMARK 2-3 Brogden

We have grown Landmark for a number of years and offer it now as a somewhat different character to the present set of red and whites. It has a good smooth white perianth and a flat crown almost disc-like and smooth. The crown is in good proportion and a rich solid orange scarlet. A rapidly increasing plant.

£3.00, \$7.50 each

YELLOW TRUMPETS 1A

1A

MARAVAL (/// p. 33)

35p, 85 cents each; £3.00, \$7.20 for 10

MOONMIST 1 M King of the North x Content

I value this soft lemon flower for it is in bloom with Forerunner when most other early flowers are buds deeply nestling in their leaves. Wide flat perianth and well flanged trumpet all in shining tones of lemon and sulphur. Good plant, very free of bloom.

75p, \$2 each

MOONSHOT 2-3 M King of the North x Content

Over past seasons this flower has impressed more each year with its refined and unusual character. It is one of chaste form with smooth pointed petals and a long trumpet neatly opened at the mouth. The creamy lemon of the perianth shows up the slightly darker colour of the trumpet which at some stages has tints of pinkish apricot like the reflection of the setting sun.

£3.00, \$7.20 each

TRUMPETER 3-4 GLW

Undoubtedly one of the best yellow trumpets to be introduced recently. Of excellent bold show form that needs no grooming. Large crops of fine big blooms held in wonderful pose for a long time. Even shining mid-yellow. Strong, blue foliage, neat plant. A group in the garden looks wonderful. ill. p. 33.

25p, 60 cents each; £2.00, \$4.80 for 10

UP FRONT 3-4 M King of the North x Content

A very large flower and later flowering than most. Luminous lemon in wide perianth and large trumpet flared and ruffled at the margin. Strong and tall. Most splendid garden plant.

£3.00, \$7.20 each

WINDJAMMER 2-3 WJD

One of the most effective of all daffodils here. The stock has been a shining mass of sulphur lemon, each large bloom displaying petals as wide as a windjammer's sails and trumpet nobly flanged and proportioned. So generous that there always seems to be 2 flowers where other kinds would be content with 1. A favourite of mine.

£1.50, \$3.60 each; £13.00, \$30 for 10

RED TRUMPETS 1A

TIDD PRATT 2-3 WOB

A slender trumpet coloured a rich tangerine orange solid from the brim to the base. Narrow golden petals and trumpet are smooth textured. This perky flower is highly fertile and will prove useful in breeding further red trumpets. Scarce.

£12.00, \$28 each

UNCLE REMUS 2-3 WOB

This red trumpet is giving seedlings of very rich colour. It is itself a good sized flower with primrose perianth of petals held at right angles to the full size trumpet-shaped trumpet of uniform glowing deep orange. The plant grows strongly and increases well. It may well be that the main future advances in red trumpets will stem from this variety.

£20.00, \$48 each

No. 17 3 WOB

This is a yellow trumpet seedling bred by Mr. Backhouse and famous as the founder of all his red trumpet breeding. Always gives a percentage of red trumpets amongst its seedlings. A strong growing mid yellow trumpet. This Do-it-Yourself-Red-Trumpet, Breeding-Set is offered at £3.00, \$7.20 each.

BICOLOR TRUMPETS 1B

DESCANSO 2-3 Evans Polindra x Frolic

An impeccable show flower of chaste form and refined texture and substance. Large blooms on tall stems, triangular wide shining white petals and a chaste trumpet gently flanged and painted a good lemon-butter yellow. Good pose. Scarce.

£6.00, \$14.40 each

FORESIGHT 1 GLW

Few can enjoy a greater welcome, one of the first flowers and of gallant show form. Milk white petals form a wide background for the princely primrose gold trumpet. Wonderful pot plant. So early, so robust, so free of flower, so good it should be in everyone's collection.

15p, 35 cents each; £1.25, \$3 for 10

FROLIC 2-3 M (Beersheba x Kandahar) x Kanchenjunga

One of cleanest and clearest bicolors of high quality yet grown. Very smooth flat pointed petals of vivid white at right angles to rather narrow trumpet nicely flanged and coloured a rich even clear lemon. Grows well.

75p, \$1.80 each; £6.50, \$15.50 for 10

NEWCASTLE 3 WJD Niphетос x Kanchenjunga AM 1957

Close to 5" across. Waxen and smooth texture in triangular petals and the trumpet of non-fading deep gold. Trumpet gently expanded.

£2.50, \$6 each

NEW ISSUE 3 WJD Niphетос x Kanchenjunga

Sister to Newcastle but of different style, looking more like a bicolor Queenscourt or Empress of Ireland. Strong plant with very large flowers; impressive perianths of very wide white petals overlapping magnificently. Narrow trumpet widely flanged and coloured a rich primrose yellow.

£3.00, \$7.20 each

PROLOGUE 1 M Foresight x Troussseau

Taller much improved Foresight. Amazing laster. Pure white excellent perianth, bright yellow flanged trumpet. Important kind.

£2.00, \$4.80 each

QUEENS LADY 2-3

Large show flower, like an improved Sincerity. Wide smooth petals and well formed trumpet of a greenish lemon shade. Good substance.

35p, 85 cents each; £3.25, \$7.50 for 10

TRADITION 3 MJB AM 1965

Proud, large, Award of Merit flower. Broad white polished petals at right angles to full rich golden yellow trumpet beautifully balanced and flanged. Strong free flowering and increasing plant. £4.00, \$9.60 each

PINK TRUMPETS 1B

LISDILLON 3 Radcliff

From Down Under where it has been much used in breeding the pinks with which they led the world. Of pleasing quality with a neat rather pointed perianth held neatly and flat away from the rosy pink trumpet which is opened gently at the mouth. Blooms very freely, and increases well.

£1.00, \$2.40 each; £9.00, \$21 for 10

RIMA 3-4 M Kenmare x Dawnglo

Smooth pure white petals of fine-spun quality held perfectly flat. Gently flared trumpet of deep lilac toned pink. A very strongly contrasted flower. In our collection its colour has shone out more strongly than other pinks. It grows and increases quickly. Is proving a useful breeding kind as well as a first-rate garden and show flower.

£2.50, \$6 each

WHITE TRUMPETS 1C

BIRTHRIGHT 2-3 GLW Courage x Empress of Ireland

Glorious giant of wonderful refinement, having an immaculate perianth of very broad flat petals that are almost square and give the flower a masculine square rigged appearance. The crystalline texture of the petals grace the whole flower, the perianth that lies so exactly flat and the trumpet. The trumpet is not too wide at the base but is on the grand scale with a most neat bold pleasing flange. All in shining snow white. Consistent performer and excellent plant.

£10.00, \$24 each

CANTATRICE 3 GLW. FCC 1939 AM Wissey 1936

Fit for the Gods. Refined as Old Chelsea porcelain. Pointed petals held beautifully away from the slender long trumpet. Pure white smooth satin flowers win regularly at shows. Lovely in the garden.

25p, 60 cents each; £2.25, \$5.50 for 10

LONGFORD 2-3 WJD Kanchenjunga x Cantatrice

With Cantatrice like refinement in a larger flower of pure white, this is a very fine flower with pointed petals making a wide perianth behind a trumpet of good slender proportions with a nice flange.

£1.00, \$2.40 each

MANDATE 3 GLW Troussseau x Broughshane

Like a lily, tall, stately and large. Opening with shining white satin petals and a slender cream trumpet, the flower soon becomes all white.

35p, 85 cents each; £3.25, \$7.80 for 10

QUEENSCOURT 2-3 GLW Courage x Empress of Ireland

Large and built on rather similar lines to Empress of Ireland, but whiter and even smoother. Immense white petals somewhat rounded and held strictly at right angles to the narrow trumpet that is opened with a generously and perfectly designed flange to give the final touch of class and exact balance to this noble flower.

£10.00, \$24 each

RIBER 2-3 Milne

Designed to exhibition specifications but of exceptional value in the garden as it is very floriferous, long lasting, and sturdy. Broad petals and nicely flanged trumpets make Riber a large showy but refined flower. A dream in pots. Increasingly popular. III. p.19

50p, \$1.20 each
£4.50, \$10 for 10

PANACHE 2-3 GLW (Courage x Broughshane) x
Empress of Ireland FCC 1967

Panache is a white, white trumpet. It is a large flower of faultless show form, carriage, and quality. It is clearly the best 1C yet seen and is bound to hold its place for years to come. The greatest advance yet in quality, reliability, and character. Excellent bulb and plant.

£20.00, \$48 each

STORMONT 2-3 WJD Ardclinis x Kanchenjunga

Free flowering, quick growing, large flower of thick moulded substance. Broad petals are arranged at right angles to the bold trumpet with its neat roll. It is borne proudly on a tall stem. This flower has perfect form and balance.

£1.50, \$3.60 each

VIGIL 3 GLW AM 1956

A flower of this world perfect enough for the next. There is something unearthly in the way this icy white flower shines in the sunlight. But it is real for it is large and of parchment strong substance. Sharp pointed petals at right angles to graceful and flanged trumpet. Of such fine texture and perfect finish that being human one looks for flaws, but there are none. Last well, blooms carried a little lower than heaven but above the blue green erect foliage.

75p, \$1.80 each; £7.00, \$16 for 10

REVERSE BICOLOUR TRUMPETS 1D

ENTRANCEMENT 1-2 M King of the North x Content

Entrancement has large flowers of soft greenish lemon, though the slightly frilled trumpet becomes white as it develops. Rather deeper in tone than Lunar Sea and considerably different in shape and ten days earlier. A grand garden plant as can be seen by the illustration. £1.25, \$3 each

HONEYBIRD 2-3 M King of the North x Content AM 1967

Best reverse trumpet yet seen. Excellent in form, texture and pose. Very flat perianth of smoothest quality in rich luminous lemon behind a very neat trumpet that becomes white as it develops. The reverse develops quicker than most. 1st quality plant, unbeatable in exhibition.

£3.50, \$8.40 each

LUNAR SEA 2-3 M King of the North x Content

Opens a sulphur lemon flower, but trumpet soon fades to near snow white. Most white of reverses. Good form, plant of excellent habit. Tall strong. Uniquely beautiful garden flower.

£1.50, \$3.60 each

NAMPA 2-3 M King of the North x Content

Distinctive deep coloured reversed bicolour, a powerful flower in the garden, being a very striking contrast with the rich luminous lemon perianth having a white halo at the base of the white trumpet when fully developed. Large and good in pots. Capable of winning at shows. £1.25, \$3 each

SPELLBINDER 1-2 GLW King of the North x Content

Alice-in-Wonderland flower. Broad petals and noble flanged trumpet. The whole opens an entrancing cool greeny sulphur lemon, but after a few days the magic begins to work and the inside of the trumpet passes to almost pure white, while, like the grin of the Cheshire Cat, a sparkle of lemon is left around the serrated brim.

20p, 45 cents each; £1.75, \$4.20 for 10

ALL YELLOW LARGE CUPS 2A

BREAKTHROUGH 3-4 MJB Homage seedling

Large circular large flowers held on tall strong stems well clear of any foliage. Boldly posed flowers have very wide rounded thick petals of bright clear lemon around a flattened saucer crown of deep rich lemon centred green. The almost unique colouring of the perianth must make it a flower on its own. Consistent here but maybe the perianth colour may bleach in much warmer parts of the world.

£12.00, \$26.80 each

CHEVALIER 2-3 JLR Galway selfed

Chevalier, like Galway, is magnificent as a plant with strong blue green foliage, a guardsman's upright carriage, and such uniformly well turned out flowers are paraded each spring that any inspection will fail to find one to fault. Rather trumpet in appearance, stronger coloured than Galway. Very fine in texture, substance, pose and durability.

£1.50, \$3.60 each

DILIGENCE 3 GLW Crocus x Golden Hind

Striking with its wide strongly frilled and notched decorative trumpet crown. A fine exhibition perianth in very rich deep gold and thick substance. Bulbs like cannonballs.

£1.00, \$2.40 each

FAWNGLO 3 M Binkie x (King of the North x Content)

A personal favourite of mine in cool haunting tones. A borderline flower in two respects as it might just as well be classed a 2D as the crown does become lighter than the perianth, and by measurement it is nearly a trumpet. It produces many fine-spun flowers of unusual creamy buff, that sometimes carries a luminescent pinkish tone in the crown. A chastely formed flower.

75p, \$1.80 each; £6.00, \$14.50 for 10

GOLDEN TORCH 2-3

FCC 1949 AM Wisley 1956

Big bold fellow with strong petals rigidly set at 90° to the precision-made crown with its saw edge. Golden yellow, slightly darker crown. Exceptionally vigorous and free of bloom

15p, 35 cents each; £1.25, \$3 for 10;
£11.00, \$26 a 100

JEST 2-3 M

A joker with flat rounded perianth almost completely hidden behind darker flat widespread crown. Spectacular conversation piece.

50p, \$1.20 each; £5.00, \$12 for 10

ORMEAU 2-3 WJD Pilgrimage x Cromarty prob.

LEAPING SALMON 3-4 JLR Rosewell x Rose Caprice

Glass smooth petals make a snowy background for the bold crown of salmon. Each petal is held firmly in the plane at right angles to this deliciously coloured crown. The unusual colour makes a distinct change from the popular oranges and pinks. The salmon helps to give the flower character, but so too does the thick magnolia type substance of the flower and the very neat lobed mouth of the bold crown. Strong bulb and sturdy grower.

£3.00, \$7.20 each

LEONAINÉ 3 M

15p, 35 cents each; £1.25, \$3 for 10; £7.00, \$16.80 a 100

MAIDEN'S BLUSH 2-3 Meyer

A near miss for trumpet measurements. A hit in the garden as it is a most pleasing daffodil of attractive high quality. Well posed flowers produced in profusion, clean white perianths of smooth wide petals held nicely away from the trumpet crown which is painted in attractive tones of rose pink. The deeper roll on the edge of the crown helps to make this a distinct personality. One of the fastest increasing plants we have. Well worth including in your collection. We have sold this freely when we have shown it, a very reliable indication of its appeal.

20p, 45 cents each; £1.75, \$4.20 for 10

PASSIONALE 3 GLW Rose of Tralee x Irish Rose

AM 1957 AM Wisley 1963

From RHS Daffodil Year Book 1964, 'Daffodil Trials at Wisley' Herbert R. Barr. "There was one quite exceptional variety that we saw in the main garden and which was only in its second year — it was Passionale certainly the best pink I have seen as a garden flower; the colour was good, the pose excellent and the flower flowers well above the foliage, a worthy Guy Wilson plant — it received a unanimous Award of Merit."

An immaculate perianth of long flat petals overlaps to half their length and are held so as to make a perfect L junction with the long cup of delightful pink. Crown as smooth in quality as the polished perianth and is finished with a very lightly opened mouth gently frilled and cut.

Passionale's winning points are these. It is earlier than most pinks. It grows with tremendous strength. It holds its colour well. Above all the pink is probably the purest pink shade yet seen in a daffodil and this is linked to a flower that has featured in many winning show exhibits.

£1.00, \$2.40 each; £9.00, \$21.50 for 10

ROSEYARDS 3 GLW Interim x Evening

Charming. Pure white perianth pointing away from cup opening; bright rose pink becoming more coppery pink later.

25p, 60 cents each; £2.50, \$5.40 for 10

ROSY DIAMOND 3 GLW

A bold flower of good form, being wide in the smooth glistening white petals, the crown being bold and neatly flanged. Opening buffy the crown rapidly becomes a rich rosy shade. SELTAN 3-4 GLW Pink O'Dawn x Irish Rose

Seltan is a sturdy plant giving a multitude of flowers with wide white perianths and crowns of pleasing pink. The trumpet crown is finished with a neat flange. Pink O'Dawn is one of the cornerstones of pink breeding in the Antipodes. Irish Rose has proved an important breeder here. Seltan should surely be another really important breeder as well as garden plant for many years. ill. p.11.

20p, 45 cents each; £1.75, \$4 for 10

SMILES 3-4 M Green Island x Glenshane

Unlike any other with wide beautifully frilled and scalloped crown of cream with well defined coral margin, fading to apricot as flower ages. Large rounded, perfectly flat white perianth. Sister to Caro Nome. Impressive durable flower.

£2.00, \$4.80 each

SWISS MISS 3-4 (Formerly Juliet)

"What's in a name? that which we call a rose

By any other name would smell as sweet."

And this flower would please as much with its new name, it does 'retain that dear perfection' that makes the flower a compliment to the name Juliet. This variety has impressed us more each year, giving heavy crops of even quality flowers wide in the snowy smooth petals that sparkle behind the shining rich rose pink of the large neat crowns.

25p, 60 cents each; £2.25, \$5.40 for 10

YES PLEASE 3 Board Rose of Tralee x Interim

£1.25, \$3 each

GREEN ISLAND 4 JLR Gracious x Seraglio AM 1946

Sensational when it first appeared as much for its great substance and waxen texture as for its large size and truly immense petals that make a perfect circle. The bowl is greenish white at the base, white on the side giving way to a band of clear cool greenish lemon on the margin.

50p, \$1.20 each; £4.50, \$10 for 10

ICE FOLLIES 2-3 K&M

Officially registered as 2C

Prolific increasing bulb prodigal with flowers. Tall with ample white stars centred by a broadly flared and fluted crown of lemon primrose which fades eventually to become milk white. This is officially registered as a 2C, but belongs here as it is primarily a garden and cut flower plant and is coloured most of its life. A good stock enables the low price.

15p, 35 cents each; £1.00, \$2.40 for 10; £9.00, \$22 a 100

JOHN OF SALISBURY 3 MJB

Sums up in itself many of the qualities that breeders seek for in this age. Stands well with good sized flowers of very firm lasting substance and fine spun texture. 25p, 60 cents each; £2.00, \$4.80 for 10

NEW SONG 4 M Green Island x Bithynia

STROMBOLI 3-4 JLR

Kilworth x Arbar

A striking flower from this exciting cross. Large and well formed. Broad smooth petals make a white foil for the crater crown of volcanic deep red. The solid red of the widely expanded crown and the good perianth make this a fine example of the new race of red and whites. Sunproof. ill. p.33.

40p, 90 cents each; £3.50, \$9 for 10

VICTORY 3-4 JLR Kilworth x Arbar

Wonderful flower close to 5" across, wonderful in quality as in colour. Perianths composed of very wide very smooth pure white petals, the immaculate foil for large crowns of solid deep orange red. One of the most important flowers we grow, imposing on the show bench and wonderful in the garden.

WHITE LARGE CUPS 2C

ARCTIC DORIC 2GLW AM Wisley 1967

Some are born white, some become white, some have the adjective 'white' thrust upon them. Arctic Doric is born white. It opens very early. Frosty white petals sparkle but the crown is perhaps even whiter, almost with a hint of blue in its purity. Perianth groomed by nature flat firm and wide, the crown being slender and scarcely opened at the mouth. Chaste icy flowers most generously produced from freely blooming and increasing plants. *ill. p.19.*

30p, 75 cents each;
£2.70, \$6.50 for 10.

ARDBANE 2-3 GLW St. Brendan x Greenland

A thoroughbred white. Snowy with a green base. Clean cut tailored perianth of wide triangular petals and a three quarter length crown smoothly expanded and scalloped at the brim. One of our favourites.

40p, 95 cents each; £3.50, \$8.40 for 10

EASTER MOON 3 GLW Tryst x Greenland

Its obvious quality twice acknowledged as Best Flower in London Daffodil shows. Of Buddha-like implacability. Texture of smoothest of lilies, wide petals of perfect shape setting a standard for this section. Cold sage green nestling in base enlivens vivid shining flower. Good plant, important breeder. *ill. p.11.*

£1.00, \$2.40 each

GLENDERMOTT 3-4 GLW Truth x Broughshane

Miracle in form of a daffodil, icy white with green in base of beautiful trumpet crown. Perfect perianth a triumph of size and refinement. Tall strong. Cannot be overpraised as show, breeding, or garden plant.

35p, 85 cents each; £3.00, \$7.20 for 10

GLENMANUS 3-4 WJD Dava x Justice PC 1949

25p, 60 cents each; £2.25, \$5.40 for 10

GOOD MEASURE 3 MJB

This excellent 2C is neat in growth and neat in its flower. Firm stems carry bold uniformly snow white blooms of super quality. Illustrated as top flower of front colour group RHS Daffodil Year Book 1967. *ill. p.33.*

HOMAGE 4-5 GLW (Nelly x Chinese White) x (Tryst x Foggy Dew)

Wonderful worldbeater! Exemplifies the qualities Mr. Wilson strove to combine in his whites. Strong plant with large flowers or circular build smooth and thick textured like Easter Moon. Snow white flowers made even frostier by dark sage green in the base that retains all its colour and sparkle till the flower finally passes away. Wonderful breeder. Homage named as tribute to Mr. Wilson. £3.00, \$7.20 each; £24.00, \$58 for 10

ITS TRUE 2-3 MJB Seedling x Empress of Ireland P.C. 1968

Huge white flower with a perianth of tremendously wide flat petals and a trumpet most beautifully proportioned not being too wide in its length but having a very good flange. Makes an immediate impact when seen. Grows strongly, increases well. Reliable.

£17.50, \$40 each

KNOWEHEAD 3 GLW Cotterton x Broughshane

Measures 2C but trumpet like. Aristocratic in bold pose with pointed shovel shaped petals amply overlapping, held with fine precision from trumpet crown which is neatly executed, beautifully flanged, frilled. Exquisite snowy show flower. Aristocratic garden plant.

30p, 75 cents each; £2.75, \$6.60 for 10

MONA LISA 3-4 Board Chinese White x Pigeon

A 3C's dream of the greater glory, but beaten by the calipers to measure 2C. The 3C's loss, the 2C's gain. Gently smiling perfection in snowy flowers prolifically produced from an impeccable mould. Broad shining petals lie ceaseless and much overlapping behind nearly flat wide gently fluted crown. Distinctive, gentle, smiling flower, a luster of highest class for exhibition or garden. A favourite of mine.

£2.50, \$6 each

PURITY 3 GLW AM 1960

Award of Merit flower, a perfect show one. Buds open to reveal glistening snow flowers. As they open so they remain, without a suggestion of cream. Wide somewhat pointed petals, a perfectly disciplined team, making a perianth pressed and starched at right angles to the fine-spun crown. Jean picked the name, a lucky one for such a pure flower. Crown shorter than Sister Arctic Doric's. Chaste. Strong. Tall.

30p, 75 cents each;
£2.70, \$6.50 for 10

WORCESTER 2 MJB

Crystalline sparkle in perianth and crown of this large fine quality flower. A hint of lemon in the gently frilled crown enhances its beauty early on, this fades in the sun to leave the whole frosty white. A most vigorous well-posed large cup flower that opens early, lasts well and is quite superb as a plant and generous increaser.

REVERSE BICOLOR LARGE CUPS 2D

DAYDREAM 3 M

Binkie x (King of the North x Content)
FCC 1966

Acclaimed as the best of its class. We were happy to get a First Class Certificate for this wonderful flower and plant. Most perfectly formed, with very flat overlapping rich glowing lemon perianth and a crown of near trumpet length, opening lemon but soon fading to near pure white. A white halo enhances its beauty. Opens after Bethany, its sister. Is a little deeper in colour and is somewhat more rounded in form.

ill. p.19.

£2.00, \$4.80 each

BETHANY 3 M Binkie x (King of the North x Content)

Americans rate this best 2D. Beautiful flower of precise form. Ironed overlapping perianth is a soft luminous clear deep sulphur lemon. The crown, just short of trumpet length, opens same shade but rapidly becomes white particularly inside, though it saves enough lemon to touch round the frill. Large 1st class show flower, opening before Daydream.

£2.50, \$6 each

BINKIE 3 GLW

Fine large cup flower that opens lemon, the crown fading later to nearly pure white. Good plant.

20p, 40 cents each; £1.50, \$3 for 10; £12.00, \$29 a 100

CHARTER 2-3 M Binkie x (King of the North x Content) AM 1964

Stands like a regimental sergeant major; grows with the abandoned vigour of a pop singer in full cry; lasts with the fortunate persistence of the British aristocracy. Delicate and bewitching in colouring. Parchment firm petals stand broad and flat away from the longish crown. Flowers open in shining lemon, the crown being darker, but this is quickly changed for whilst the petals retain their colour, the crowns fades after a day or two to white.

Our daughter Lindy calls Charter, 'the one with the long handles.' It is tall and strong. Much the earliest of all 2Ds but also the longest lasting. Distinct from any other in this class and first class for show or in the garden. I reckon this is probably our most important stock and expect it to be sold by the ton in the future it is such a worthwhile garden plant. ill. p. 3 & 33.

£1.50, \$3.60 each; £13.00, \$30 for 10; £110.00, \$270 a 100

Reverse Bicolour Large Cups 2D cont.

ELF 3 H. Barr

A smallish decorative flower of lemon in both perianth and crown, the crown is very soon paler than the petals and is very clearly painted with pink. This is the first lemon and pink flower on the market I believe, whilst there will be others of greater show calibre to arrive in years to come, this will still then be an interesting and pretty garden plant.

90p, \$2.30 each; £8.00, \$20 for 10

GLEEFUL 4 M Binkie x Content

Broad flat perianth of clear sulphur lemon deeper than Binkie. Flaring much ruffled crown opens lemon but quickly bleaches to white. Very distinct with its heavily ruffled white crown.

£2.50, \$6 each

HALOLIGHT 3-4 M Binkie x (King of the North x Content)

Large later sister to Daydream. Very refined and different with its slender crown that becomes nearly snow white as it ages as do the bases of the petals giving the flower its halo and its name. Very smooth firm textured quality lemon and white flower.

£3.00, \$7 each

LEMON DORIC 3 GLW Binkie x Spellbinder

Delightful cool flowers, lovely in the garden and for cutting. It has a longer crown than Binkie, slightly opened at the mouth. Its colours are similar, perhaps a little paler. Opening lemon the crown fades to near pure white. Quickly increasing plant. Arranged in a silver vase most exquisite.

40p, 95 cents each; £3.50, \$8.50 for 10

LIMEADE 2-3 M Binkie x (King of the North x Content)

Proven over several years to be quite outstanding as a flower of the utmost refinement and a very floriferous long lasting garden one. Glowing rich lemon in the broad pointed flat perianth and slender trumpet crown. The crown develops good reverse colouring as the flower develops. Highly recommended.

£2.50, \$6 each

PASTORALE 2-3 M Binkie x (King of the North x Content)

Distinct graceful show flower. Widely overlapping broad slightly reflexed pale lemon perianth. The crown is pale lemon suffused buff apricot slowly fading to white with a narrow rim of lemon. WHISPER 3 MJB Orange Glory x Dawn

With Orange Glory and Dawn as parents, Whisper has a trumpet type and N. cyclamineus for maternal grandparents and N.triandrus and N.poeticus as the paternal set. From its mixed parentage came a graceful maidenly quiet-toned beauty, a flower with delicate smooth texture in the pointed narrow petals at right angles to a slender trumpet of pale creamy primrose. The fine spun quality of the flower demands its recognition as a triandrus, though some might argue that the longish trumpet declares as strong an allegiance to the cyclamineus family. Good plant about 12" high. Fertile.

£3.00, \$7.20 each

TRIANDRUS 5B

ARISH MELL 3-4

Blanchard
FCC 1963

This is of course the best of the triandrus section, a queen that makes the rest take second place. No other triandrus has an RHS FCC as a show flower. It is one of the whitest of daffodils, its texture so fine spun as to set a target for silk manufacturers. Two or three flowers held in graceful and excited silence like a piece of fine sculpture, petals pointed and as smooth and as clean cut as the polished cups. Robust, tall plant. Unbeatable in competition.

£6.00, \$14.50 each

BELLRINGER 4 Blanchard

The Heavenly Twins: Pollux A.M. 1969

CASTOR and POLLUX 3-4 Blanchard

So alike we describe them together and make a special offer of one of each. The Heavenly Twins are something new in triandrus hybrids. They grow neatly and have stems with 3 or 4 sparkling white flowers. Most triandrus have cup shaped crowns, but the twins have almost flat cups like those of Chinese White. The vividness of the white cups is so intense as to appear brighter – even than the snow white petals. John Blanchard, with a parents eye, finds the twins to all intents and purposes the same, but it may well be that in one garden one twin will excel and in a different garden the other take the honours. Excellent quality flowers like very white multi-headed small-cup kinds.
(ill. p.35).

£4.00, \$9.60 for 1 of each

TUESDAY'S CHILD 4 Blanchard A.M. 1969

Hello America !

Since Jean and I started our daffodil business in 1959 one of the most heartening things about it has been the support we have enjoyed from U.S.A. fanciers. Of course it is not just a business with us, we enjoy our daffodils, and it gives us great pleasure to receive the friendly greetings that fly over the Atlantic and make us sure you enjoy your daffodils too.

No permit is needed now. You just order your bulbs.

We shall look forward to hearing from you. Thank you.

DAFFODILS FOR NATURALISING

Some daffodils naturalise much better than others. The ones we list here are proven kinds and I feel you will get much better results with these than by trying one of the mixtures often advertised. If you intend planting one kind only may I suggest that you would find *N. obvallaris*. The Tenby Daffodil, the best. We can supply this at £2.50 for 50, £4.75 per 100, 500 for £18.00, 1,000 for £32.00, 10,000 for £290.00.
