

2009 SUPPLEMENTARY LIST
MITSCH DAFFODILS – PO BOX 218, HUBBARD, OR 97032
PHONE & FAX: 503-651-2742

Thank you again for your fine interest, it is very much appreciated. The following list includes a number of items not listed in the 2009 catalog.

ORDER INSTRUCTIONS

1. Customer number is on upper right hand corner of address label. Please write on order form.
2. Bulbs are subject to crop and substitution is not anticipated—please advise if permissible, if it becomes necessary. We would appreciate if a few alternates could be given.
3. If a 2009 catalog order has been placed, it will be combined with this list, if order is received before August 19. If it is a first order for this year or a gift order, under \$35.00 to one location, add \$10.00 for shipping and handling.
4. Please send payment or credit card information with order.
5. It is difficult to compile a list of this type and it is not a closed list.
6. We encourage orders by **August 19, 2009** to allow good service.

Thank you very much.

NEW RELEASES

We would like to offer the following, new for 2009

COUNTERPOINT (Havens) 7W-Y L 16" ((Acceleration op.) open pollinated) GO114/1. Nicely formed broad perianth with bowl shaped corona crenate at the edge with quite unusual coloring. Opens with a yellow perianth and orange at the rim of the cup. As the flower matures, the perianth becomes white as the corona develops to a butterscotch yellow, eventually turning white if left out in the sun. Very prolific, this is a useful flower in the garden as well as for show collections needing upper divisions.
07-396 \$12.00 each.

DISSERTATION (Havens) 7Y-Y L 17" ((Limequilla op.) x N. jonquilla) MH47/1. A unique style of jonquil, the perianth is very flat and star-shaped; small cup-shaped corona. Generally 3-4 florets per stem with a light fragrance. Exceptionally well placed on the stem. Winner of White Ribbon, Grant & Amy Mitsch Award, and one bloom was awarded the Rose Ribbon and the Olive Lee Trophy at the Tacoma ADS Convention in 2007. Still in very short supply; would like to make a few available this year. **07-300** \$35.00 each.

WELL SPRING (Havens) 5Y-Y L 15" (Hillstar x N. t. triandrus) Y93/37 Clear lemon cup-shaped corona, straight at the margin. Well reflexed, relatively broad perianth, a shade lighter in color than that of the corona. Well placed florets do not seem to crowd one another, with 4-5 per stem. One of the more symmetrically formed of the series—sibling to Canterbury, World Class, American Peace.
05-208 \$17.00 each.

NAMED CULTIVARS

APRIL JOY (Havens) 2YYW-W L 16" (Hillstar x Lemon Sails) Y99/1 Well formed flowers of sharp lemon, become reversed with maturity. Flat ovate perianth segments of deep lemon gold with a white halo complements the long cylindrical corona, turning from a rich lemon gold to pure white. Borderline measurements for intermediate, being a little large at times here, but well within the criteria in other climates. Makes rough appearing bulbs for us. **02-396** \$17.00 each.

ICE CHIMES (Mitsch) 5Y-Y M 12" A very popular Division 5, small pendant blossoms of ivory yellow, the perianth a shade lighter than the corona. Two-three florets per stem. Very floriferous. Typically, produces rough appearing bulbs, primarily rounds. Most will be supplied as 1 round per order. Very limited supply. **05-512** \$15.00 each.

SINGING HILLS (Havens) 7YYW-W L 15" ((Acceleration op.) open pollinated) LHO26/1 Opens bright lemon yellow throughout, the cup develops a buffish color with a white rim; entire cup-shaped corona turns nearly white as the flower matures. Perianth is well formed with good overlap and very slightly reflexed. 2-3 florets per stem. Excellent grower with vigorous health. **07-748** \$15.00 each.

TRI ANGELES (Havens) 2007 11aY-P EM 15" (Lemon Sails x Mission Impossible) GH4/3. On occasion, the bright pink corona splits into three definite square petal-like structures, each lying flat against the front of the inner perianth segments. Many flowers are shaped more like a traditional split corona. Either way, an appealing, nicely formed split corona which qualifies as an "intermediate". Perianth is relatively flat and of a pale lemon coloration. **11-970** \$18.00 each.

VOICES OF SPRING (Havens) 5W-W L 14" (Irresistible x N. t. triandrus) HH16/1 A very nice Division 5, with considerably more florets per stem (6-7) than the average for the Division. Beautiful flower with a rather narrow build, well reflexed perianth with a short bell shaped corona. The mass of flowers makes for a lovely show in the garden, along with exhibition quality. Winner of the W. A. Bender Ribbon at the 2007 National Show in Tacoma. **05-228** \$30.00 each.

POETS from Meg Yerger

Some years ago, Meg Yerger sent us some of her originations. All of them have done very well and are of clean bright color and have attracted considerable attention in our display. We would like to make 3 of them available this year. It is important that we note that these are being offered as named and received. Several of her originations are displayed at the Lewis Ginter Botanical Garden in Richmond, Virginia, in a Memory Garden for Meg Yerger's niece, sponsored by her father, John Roberts (Meg's brother).

GLITZ (Yerger) 9W-GYO As it grows here, the cup of Glitz is much more predominantly bright red-orange, but at a certain stage of development has a bit of green and yellow in the corona. Smaller than some and a very striking flower. **09-291** \$15.00 each.

MEGGY (Yerger) 9W-YYO One of the larger poets, the perianth is smooth rounded and very white. Small yellow corona with wire red rim. **09-296** \$17.00 each.

SWEET HOPE (Yerger) 9W-YYR Rounded very white perianth segments, which tend to reflex somewhat at maturity. Flat corona is predominantly yellow with a very narrow red rim. Limited stock. **09-298** \$20.00 each.

INDIVIDUAL LISTING

JACKSON'S DAFFODILS

Tasmania, Australia

We would like to offer the following not listed in the 2009 catalog.

By Crikey 2Y-YYR EM (cross between two seedlings) A lemon perianth slightly lighter at petal tip. The straight funnel three quarter length cup is orange at its base merging to red. Almost sun proof, and vigorous. **02-278** \$20.00 each.

Roustabout 3Y-Y LM (Seedling x Surfbird) A tall lemon yellow round flower with the bowl shaped ribbed corona slightly darker and with a green eye. The perianth segments are broad shouldered and touching at the back. **03-133** \$24.00 each.

***Uncensored** 11aW-P E (Unknown x Zombie) A most attractive show flower, always good enough to be in top collections and is a magnet for viewers. Very consistent, good substance and lovely color. **11-863** \$20.00 each.

Disquiet	1Y-Y	01-984	20.00
