SPECIES AND MINIATURE NARCISSUS
571 Woodmont Avenue
Berkeley, California 94708

To:

Dear Friends,

The Narcissus bulbs listed are available for the 1983 Season. All of these bulbs have been grown in my Nursery for at least one year. They are selected for color and form. I have made every effort to see that these bulbs are true to name.

Kindly use this listing as your Order Form. Please include your name and address. Indicate if you want me to substitute, if any item you order is out of stock. Order early; no orders can be accepted after August 15th. Terms are cash. Minimum order is \$10.00 Shipping costs within the U.S. are included in the price of the bulbs. Foreign orders will be billed to cover the additional shipping charges. Make checks payable to Nancy R. Wilson.

I am growing many kinds of Narcissus from seed and will have interesting bulbs in the future. I am interested in purchasing healthy stock and in acquiring rare seeds. Also I have small stocks of bulbs for sale that are not on this list. Please write to me.

SPECIES NARCISSUS

<i>N. asteriensis</i>	\$1.00 _____
A minute trumpet species which blooms very early. It grows in Spain at the edge of the melting snow bank and is fairly hardy.	
<i>N. bulbocodium</i> (Hoop-petticoat)	\$1.00 _____
This bulbocodium grows wild in Spain, Portugal, southwest France and northwest Africa. It has a golden yellow flower and is charming naturalized in the grass. Four to six inches tall. Mow the grass 6 weeks after blooming, for ideal increase.	
<i>N. cantabricus</i>	\$3.00 _____
A winter bloomer with beautiful white flowers for the alpine house or mild climate.	
<i>N. fernandesii</i>	\$3.00 _____
Two to four golden, dainty flowers on a 6"-7" stem. <i>water</i>	
<i>N. hedraeanthus</i>	\$10.00 _____
The smallest bulbocodium. Two inches tall, with pale sulphur flowers. Best grown in a pot with winter shelter. From the Sierra de Cazorla and Ciudad Real. Blooms in January or February.	
<i>N. intermedius</i>	\$5.00 _____
A slightly tender, wild hybrid (jonquilla x tazetta). It has an orange-yellow corona and a yellow perianth. From Catalonia, Balearic Islands, southern France and Italy. Blooms in March and April	
<i>N. nanus</i>	\$1.00 _____
Similar to <i>N. asteriensis</i> but larger, a medium-sized trumpet for the rock garden. It will grow 8" tall and have a faint scent.	
<i>N. odorus 'plenus'</i>	\$1.00 _____
The double form of <i>N. odorus</i> , a yellow ball, blooming early on 12" stems, good for the back of the rock garden.	
<i>N. rupicola</i>	\$1.00 _____
A small, precise yellow flower with gray leaves which grows wild in the rocks of Spain and Portugal. A good bulb for a pan.	
<i>N. scaberulus</i>	\$1.50 _____
A minute jonquil-type species with deep yellow ¼"-½" flowers and gray foliage. There are 1 - 5 florets per scape. It blooms in March and April, good in a pan.	
<i>N. triandrus albus</i>	\$1.00 _____
One to five creamy, pendant florets on a 6"-8" stem. Wild in northern Spain, it flowers in March and April.	
<i>N. triandrus concolor</i>	\$1.50 _____
A selected lemon-yellow to white pendent flower, 3"-4" tall. This bulb enjoys a rocky or gritty soil.	

MINIATURE HYBRID NARCISSUS

Baby Moon — A small, yellow jonquil, a late bloomer with 1-2 florets.	\$1.00 _____
Baby Star — Slightly later than Baby Moon, with dark green, rush-like foliage.	\$1.00 _____
Bobbysoxer — A bi-colored jonquil hybrid with a yellow perianth and orange corona edge with red, it blooms in late March and early April.	\$1.00 _____
Canaliculatus — A miniature tazetta. Its fragrant, white flowers have an orange cup. Try it against a south-facing white wall.	\$.50 _____
Jessamy — The reverse cross of 'Taffeta', slightly earlier.	\$5.00 _____
Jumblie — One to three golden yellow flowers with a reflexed perianth, this bulb is good for the back of the rock garden. 8"-10" tall.	\$3.00 _____
Little Beauty — A small, bi-colored trumpet. Early.	\$1.50 _____
Minnow — A tazetta hybrid with 1-3 florets. It is creamy white with a darker yellow cup.	\$2.00 _____
Small Talk — This sturdy miniature jonquil has a star-shaped perianth.	\$1.50 _____
Sundial — An early, prolific jonquil, a winner in shows.	\$1.00 _____
Sun Disc — A beautiful, well-poised jonquil hybrid with a lovely scent, this is the latest bulb to bloom. 6"-8" tall.	\$1.50 _____
Taffeta — <i>N. bulbocodium foliosus</i> x <i>N.B. romieuxii</i> , a pale yellow, winter-blooming flower, 4" tall. One of the first to bloom in California.	\$5.00 _____
Tele a Tete — From the same seed pod as Jumblie, this excellent garden plant will form big clumps and bloom for several weeks. It has 1-2 florets with deep yellow perianths and still deeper coronas. An early bloomer.	\$1.00 _____
