## INTRODUCTION FOR 1999

We give our grateful thanks and appreciation to all our friends and customers who supported last year, and a special mention to those who helped with the selection and staging of flowers, water carriers and vase fillers, where would we be without you?

1998 was a wonderful year for our flowers, the 5 main special trade displays were each awarded the Gold Medal, including the much coveted Bickford Smith Trophy at the Cornwall Theatre of Flowers at Heligan Gardens, I do think it was probably the best display we have ever staged.

Maureen and I were most especially proud to receive the Daffodil Society Centenary Gold Medal at the convention, our congratulations go to the working Parties and the Society committee who organised the event.

This year we have again added to the colour sections in this catalogue, and have included some very special new varieties for you to see, which I think you will like, together with several from growers around the world. All have undergone extensive trials in our fields and are perfect for your garden or for show.

We will again be featuring displays at:

The West Cornwall Spring Show Penzance on the 11th and 12th March

Falmouth Spring Show on the 27th and 28th March

The Southwest Group Show at Probus on the 3rd, 4th and 5th April

The Cornwall Garden Society Show on the 16th, 17th and 18th April

The Daffodil Society Show on the 17th and 18th April

We hope you will enjoy this edition, and wish you every success this coming season.

## HORTICULTURAL CLASSIFICATION

Whether of wild or cultivated origin, once a selection has been distinguished by a cultivar name it should be assigned to Divisions 1 - 12. Daffodils distinguished solely by botanical name should be assigned to Division 13.

### Notes

- The characteristics for Divisions 5 to 10 are given for guidance only; they are not all necessarily expected to be present in every cultivar assigned to those divisions.
- Divisions 12 and 13 are not illustrated owing to the wide variation in shape and size between the flowers involved.

### DIVISION 1

#### TRUMPET DAFFODIL CULTIVARS

One flower to a stem; corona (trumpet) as long as, or longer than the perianth segments (petals)

### DIVISION 2

## Cultural Notes

Many people like to grow some Daffodils in pots, indeed there can be no nicer way to enjoy fine flowers than when grown correctly and opened to perfection in the conservatory or greenhouse.

However, the following notes are a guide to and for the benefit of those who would perhaps try this. Today there are many prepared composts available for this purpose, and will suit our needs quite admirably, with perhaps the addition of a little coarse grit to aid drainage, and gentle feeding at flowering time.

After potting, it is essential that the bulbs are kept cool and moist, this is to develop the root system. Plunging the pots outside and covering with a couple of inches of peat or similar substance is the ideal, as should the bulbs be subjected to premature indoor warmth, growth will be weak and often the flower will strangle in the neck of the bulb, also the bulb could be severely checked and die. So a simple rule is to plant early, keep cold, and bring inside to a cool room or conservatory when the flower buds are clearly well out of the bulb. After flowering keep well watered and give an occasional feed for about six to eight weeks, then plant outside in the usual way.

For open ground culture, most garden soils will grow fine daffodils, but the ground should be deeply cultivated and free draining. Should manure or compost be necessary, this should be well rotted and worked into the soil a good spade's depth below the surface. Bulbs should never be in actual contact with manures as this does encourage disease and could be the cause of rotting.

When planting outside, make a hole deep enough to cover the bulbs by at least twice the depth of the bulb. Some of the larger bulbs will need at least 6" of soil covering them. They can then be left undisturbed for several years until lifting and dividing is necessary.

For garden display, a clump always looks better than a straight row; in this way Daffodils can be incorporated into a flower bed or shrubbery. Remember a little feeding at flowering time will benefit the bulbs and assist in producing next year's display. You should not remove the leaves until they are beginning to turn yellow, or for at least eight weeks after flowering.

## NEW INTRODUCTIONS FOR 1999

### "Bell Rock" 1W-Y (M) S428 (Cyros x Ben Aligin)

This is a sturdy plant with flowers of heavy substance, the broad well overlapping perianth segments are pure white and show off the long bright yellow trumpet to its best, very neatly frilled at the rim, and of excellent show form. ....each £15.00

### "Calamansack" 2W-YYR (LM) S580 (High Society x Raspberry Ring)

The colours of this can only be described as startling, the rim is of the most deep crimson red that I have yet seen, like many of the brightly coloured varieties it is not sunproof, the cup is long and funnel shaped which adds a new dimension to this scarce division 2 colour classification. ....each £15.00

### "Coombe Creek" 6W-O (LM) S431 (Kea x Foundling)

The short stiff stem makes this a perfect plant for the more exposed situation, but the flower is also well suited for the show bench, the ivory white perianth is broad, well overlapped and strongly reflexed, with a long corona of orange with pinkish undertones. ....each £6.00

### "Crofty" 6Y-Y (E) S271 (Perimeter x *n.cyclamineus*)

We have been admiring this charming little variety in our trial beds for some years now, and when shown at the Royal Horticultural Society hall to several distinguished authorities, achieved much acclaim for its dainty charm and cyclamineus characteristics, the cup is short and neat, with a very broadly overlapped perianth of soft golden yellow, excellent for show and the garden. ....each £4.00

### "Huntley Down" 1Y-Y (N) S340 (Viking x Ristin)

Named and registered at the request of Ray Hayward who has had good success on the show benches with it as a seedling, both here in Cornwall also in the Southern Counties, the flower is golden yellow throughout with a broad ovate and smooth perianth, a strong vigorous plant with good increase. ....each £10.00

### "Isambard" 4Y-R (N) S280 (Paricutin x Tamar Fire)

A long lasting bloom of medium size and very bright colours the perianth and other segments are in several whorls of golden yellow well interspersed with dark red ....each £8.00

### "Jack Wood" 11aY-YYO (M) S540 (St Keverne x Tiritomba)

We think this is probably the best show form flower in his division we have yet; beautifully balanced and very smooth the colours are rich golden shades with a flat corona of slightly darker tone with a touch of orange at the rim the vigour of both its parents have been passed on to this plant to make well suited to the Garden, for cutting and for the Showbench. ....each £14.00

**"Kathy's Clown"** 6W-WWP (M) S432 (Kea x Foundling)

Here is a lovely little dwarf plant that has stood the trials in our windswept fields, it is beautifully formed for showing purposes with the broad well overlapped perianth strongly reflexed, the cup opens with pinkish yellow tones but quickly fades to a clear pink and neatly frilled rim, this one we love and highly recommend. ....each £7.50

**"Marlborough Freya"** 2W-GPP (M) S426 (Chenoweth x Premier)

The main stock of this was previously sold to a notable enthusiast and named by him, we are however most pleased to be able to perpetuate this and introduce this lovely flower to you, the perianth is broad and well overlapped with the corona of bright pink paleing towards the base and a greenish tone in the throat. ....each £8.00

**"Mowser"** 7Y-OOR (LM) S557 (Altruist x n.jonquilla)

Up to 4 florets on a stiff stem, it is very prolific of bloom with many secondary blooms with 1 to 3 florets, the blooms are neat and rounded, of dark golden yellow with a shallow crown of dark red slightly paler at the base. ....each £10.00

**"Rosannor Gold"** 11aY-Y (E) S363 (Obelisk x Tamar Fire)

An excellent plant for the garden, or cutting and for show, it is clear golden yellow throughout with broad well overlapped perianth segments and a slightly frilled corona laying flat and closely overlaying the perianth. ....each £6.00

**"Salakee"** 2Y-Y (E) S401 (Ristin x n.cyclamineus)

This lovely little flower is a true intermediate, very dwarf and a good grower, despite its pollen parentage there is no reflex in the perianth, but it has inherited the rich golden colour and smoothness of "Ristin", and has many times been a winner in the intermediate classes. ....each £5.00

**"Silverthorne"** 3W-W (LM) S440 (Cool Crystal x Delos)

We had previously released a number of these as a numbered seedling, I think almost everyone must have had some success with it, it makes a strong plant, the flowers are broad and smooth with a slight reflex and a shallow cup with a neat crenate rim, a MUST for show. ....each £16.00

**"Sparnon"** 11aW-GYY (M) S118 (Pearlax x Audubon)

One of our earlier crosses in this Division but we were reluctant to name it, but as the stock built up the vigour and quantity of blooms has made this a most desireable plant for the garden or for cutting, but we have also had some success with it on the show benches, it always attracts attention in our fields, the flowers are white with a soft canary yellow frilled corona with greenish tones at the centre, well liked by our florist friends. ....3 bulbs for £5.00

**"Wheal Bush"** 4Y-Y (M) S438 (St Keverne x Tamar Fire)

A large flower with the perianth and outer segments in several whorls, dark golden colour with the corona segments slightly darker and slightly frilled, we have had good success when showing in our collections. ....each £8.00

**DIVISION 1 - TRUMPET DAFFODILS.**

**"Euryalas"** 1Y-Y(EM) S283 (St. Keverne x Ristin). Excellent show variety and strong plant that exudes the vigour of St. Keverne and the refinement of Ristin. The perianth is broad and well overlapped with a long corona that is well balanced and has a gently expanded mouth. ....each £3.50

**"Gwennap"** 1Y-Y(EM) S136 (Empress of Ireland x Fine Gold). This is a plant that has the vigour of (F.G.) and is a large bold pale flower of the (E of I) style, very broad and smooth, but inclined to hang its head - when corrected it is a super flower. ....each £5.00

**"Greatwood"** 1Y-Y(M) S305 (Ormeau x (St. Keverne x New Zealand 1Y-Y seedling)). We bred this from parents that possesed the strength and vigour that is looked for in good Daffodils, St. Keverne seems to resist basal rotting and the N.Z. seedling had the form and breadth of perianth of a top show flower. We think this variety inherits the best of all of these, and is already proving to be a consistant show variety. The flower colour is of Dark golden yellow and stands well above the foliage on long strong stems. each £8.00

**"Idless"** 1W-W (Sateen x OP) S12. Early season. The earliest all white trumpet Daffodil to flower with me. It is very prolific and has produced some very nice show flowers, and was included in my winning group at the R.H.S. in 1986, however it is admirably suited as an early decorative or cut flower. ....3 for £2.50

**"Lee Moor"** 1Y-Y. Late season. This is a very useful later flowering variety that is of good show form and has proved itself on the benches here at the late county show. Raised by the late John Lea and named by Dan duPlessis in 1990 the flower is very smooth and with broad perianth segments of clear yellow, the long corona opens lemon yellow tinged with pink and fades to lemon yellow with maturity. ....3 for £5.00

**"Lewis George"** 1Y-Y(E) S55 (Viking x Ristin). This very smooth and bold flower is early and well suited both to the early show where it has been particularly successful. Also to the garden where some early spring colour is desired, a fine bold flower of quality, a rich gold in colour, and a good plant. ....each £6.00

**"Manacan"** 1W-W(LM) S33 (Pitchroy x Dailmanach). We first flowered this in 1986 and have observed its development over the years. Many have been pre-released under number, and reports have been most encouraging with many show successes. It is a large flower with broad overlapping perianth segments of pure white, the long corona opens with a pinkish undertone but goes very white on maturity, a very strong and vigorous plant. ....each £6.00

**"Midas Touch"** 1Y-Y. Late mid-season. This flower is of deep rich gold and has a broad smooth perianth and nicely proportioned trumpet with a neat flange at the mouth. A superb show flower and an excellent plant for garden use. ....SOLD OUT

**"Nanstallon"** 1Y-Y(EM) S52 (Viking x Ristin). Very smooth broad overlapping perianth segments of soft primrose yellow, with a long cylindrical corona slightly flared at the rim. An excellent flower for show or garden. ....each £12.50

**"Ouma"** 1Y-Y(M) S268 (Viking x Ristin). The name means Grand or Great Mother. This flower is named for Grandmother du Plessis who celebrated her 102nd Birthday when we registered the flower. The plant has proved its strength and vigour in the field trials. The stem is long and supports a flower of great beauty being perfectly formed both for show and in floral arrangements. It already has many top awards both at County and National Shows and has been Best bloom in the southwest on two occasions. ....each £20.00

**"Probus"** 1Y-Y(M) S57 (Viking x Ristin). This is a very vigorous plant that produces many fine, bold flowers of rich golden colour. The perianth is broad and rounded with a long well balanced trumpet. An excellent variety for cutting, garden display or for show. We have a large stock to permit the low introductory price. ....each £5.00 or 3 for £12.00

"Name Head" 1Y-Y. Late mid-season. A fine large flower with broad perianth of good substance. Has been successfully shown at both top National and the major Westcountry shows. .... £3.00

"Swanvale" 1W-W(L) S442 (Pitchroy x White Star) This is an excellent flower for showing or cutting. The perianth segments are broad and well overlapping with a well balanced corona ..... £14.00

"Trefusis" 1Y-Y (Arctic Gold x Ristin) S134 Early season. This is a lovely rounded flower of deep golden colour with a long trumpet typical of the parents, held perfectly on a short neck, in all a most promising flower for show. .... £8.00

"Wheal Honey" 1W-Y(LM) S456 (Burntollet x Ben Aligin). This is a large flower with pure white broadly ovate perianth segments and a long neatly frilled corona of bright canary yellow, excellent poise and good show variety with several successes both at local and county shows, one that has been much admired when seen in our trials .....each £20.00

## DIVISION 2 - LARGE CUPS

- "Amber Castle" 2YYW-WYY. Late mid-season. A super garden or show flower, its only fault is its colour classification, it opens a pale yellow and changes to distinct buff pink tones ..... 3 for £3.50
- "Auntie Eileen" 2W-P (Easter Moon x Debutante) S151 Mid season. This has been a consistently good flower with a broad well overlapping perianth of chalky white, the neat corona of soft pink is not completely sunproof, but is superb when picked young. .....each £3.00

- "Bodwannick" 2W-OOY (Foresight x (Arbar x Signal Light) S174 Early season Bodwannick is a bi-product of my 1W-O attempts, it is perhaps not the best of show forms, but has had modest success, it is however an exceptionally vigorous plant, with a flower having a broad perianth and a long brightly coloured corona of apricot orange colour with a narrow band of yellow at the rim. .....5 for £3.50
- "Bosmeor" 2Y-W (Daydream x OP) S16. Mid-season. A good stem and vigorous plant, the flower is of good medium size with a broad rounded perianth of soft yellow. The full length cup shows a clear reverse and has a neat frill to the rim ..... 3 for £5.00

### DIVISION 3 - SMALL CUPS

**"Aintree"** 3W-O. Early mid-season. Bred by John Williams (Park Springs x Shinning Light). This is an excellent show variety with smooth, chalky white broadly overlapping perianth segments, good poise, a neat goblet shaped cup of rich orange, at maturity the perianth does take slight reflex in a manner similar to its parent. An excellent plant and fine flower both for show or the garden.....  
£2.50 each or 3 for £6.00

**"Cheesewring"** 3W-WWY(L) S486 (Cool Crystal x Delos) This flower is large and of good show form. The broadly ovate perianth shows off the shallow bowl shape corona which is pale primrose yellow and white at the base. Tall stem, also excellent as a cut flower .....each £4.00

**"Crenver"** 3W-GYR. Late season. This is a very old variety that is very sweetly scented. The perianth opens a greenish white but soon whitens out to show off the poeticus style of corona and could well be useful for further breeding of the poeticus style of flower.....  
**SOLD OUT**

**"Feock"** 3W-YYR (Corofin x Kimmeridge) S93. Late mid-season. Shown in my winning collection at the County Festival Show, and has been much admired by several knowledgeable experts for several years. The flower is large and round with broad smooth perianth segments, and a bright yellow neatly frilled cup with a deep red rim, a strong plant and an excellent show flower.....each £6.00

**"Gorran"** 3W-YYR(LM) S196 (Corofin x Kimmeridge). Here is a large flower with ovate perianth that is well overlapping and quite acute at the tips. The brightly coloured flatish cup is yellow with a dark red rim. It has won its class several times here in the Southwest and done well in other regions as a pre-released seedling, a very prolific flowerer and a rapid increaser. **DIVISION 5 - TRIANDRUS HYBRIDS**

These delightful varieties of Daffodil are the result of selective breeding where the species *n.triandrus* has been introduced into its parentage, the resulting plants often have 2 or 3 flowers on the stem, and are amongst the ladies favourites in floral arrangements.

These from Division 5. and those of Division 6. are generally much dwarfer in stature and are ideally suited to the garden or rockery. The plants are hardy and quite resistant to the windier spot where the conventional Daffodil often gets broken off.

**"Budock Bells"** 5W-W(L) S98 (*Broomhill* x *n.triandrus*) Up to three florets per stem - chalky white - drooping, the perianth segments are narrow and slightly reflexed, smooth and nicely overlapped - the bulb sometimes gives secondary stems to extend the flowering period. A super garden variety with plenty of show potential .....each £6.00

**"Cariad"** 5Y-Y(LM) S137 (*Debutante* x *n.triandrus albus*). First exhibited and winning its class under number 1-44-79 at the National Shows in 1986, this has continued to impress each year. The stem is short and sturdy and holds the twin headed flower in perfect drooping poise for this division. The soft yellow, smooth perianth is broadly ovate and well overlapped with a slightly expanded goblet cup of the same colour. An added bonus is that this cultivar does on occasion set seed. .....SOLD OUT

**"Tater Du"** 5W-Y (Penril x *n.triandrus*) S374 Mid season. This charming little Triandrus cultivar is ideally suited to the rockery and has consistently produced many stems with 2 or 3 drooping florets to each stem, the perianth segments reflex to show off the widely expanded corona with the stamens and stigma excised. For those who like to show this has won several first cards and has been admired for several years on our trade exhibits. .....each £8.00

## DIVISION 6 - CYCLAMINEUS HYBRIDS

"Betsy MacDonald" 6W-P(LM) S130 (Foundling x Tangent). This is a most sturdy plant with a flower on short stems that seems to withstand the weather well, has been greatly admired by many visitors to the shows here in Cornwall and has had some success on the show benches. The perianth is broad and well overlapping which reflexes naturally, to show off the vibrant pink corona. It is perhaps a little large for some tastes but never the less a fine example of its kind.....SOLD OUT

"Carclew" 6Y-Y (St Keverne x *n.cyclamineus*) S6 Early season. An undisputed Division 6 which has been much admired both at shows and in the field trial beds, the perianth segments are narrow and fully reflexed, the flower is of bright golden yellow, held on a short neck and stiff stem, and is an ideal plant for the windy situation. ....SOLD OUT

"Kea" 6W-YP (Jenny x 2W-P seedling) S217. Late mid-season. Successfully shown at the R.H.S. under number 1-2-80. This has a good cyclameneus form, the colour could be better, and does need a little time to develop..... each £5.00

"Penril" 6W-O. Mid-season. Another seedling acquired from Brian, this is a much shorter plant and has a typical cyclameneus growth habit. The perianth is not quite pure white but does reflex naturally and the slightly expanded goblet cup is a most interesting coppery orange tone, a very good plant admirably suited to the garden or show .....5 for £2.50

"Percuil" 6Y-Y (St Keverne x *n.cyclamineus*) S3. Early season. A true Division 6 flower with narrow naturally reflexing perianth segments and a typical trumpet, short stemmed and very nice in pots.....SOLD OUT

"Roscarrick" 6W-P. Late season. Raised by Brian Duncan, this is a seedling stock that I purchased some time ago, and is a particularly fine plant that increases well and is a pretty flower, much admired by all who see it. A little large for some Division 6 critics, but has had many successes on the show benches both here in Cornwall and at national level - very smooth lovely colours ..... 3 for £4.50

"Sumo Jewel" 6Y-Y (Arctic Gold x *n.cyclamineus*) S213 Early season. A sturdy plant with lovely graceful flowers that last a long time on the plant, the reflexing perianth segments of deep yellow do have a slight twist, and the long and narrow waisted trumpet is neatly flanged at the mouth, all to make this a perfect flower for both show and garden. .....each £3.00

"Trehane" 6Y-Y (St Keverne x *n.cyclamineus*) S212. Early season. Another good Division 6. A strong plant that produces many fine blooms that last a long time on the plant .....each £2.50

"Treverva" 6Y-Y (Foresight x *n.cyclamineus*) S2. Very early season. Very early to flower - not the best of show form but a true Division 6 character, very nice in arrangement when picked young. The flower is small but grows when left on the plant. ....3 for £3.50

## DIVISION 7. JONQUILLA HYBRIDS.

This Jonquilla section is for hybrids that have been bred with the species *n.jonquilla*. The resulting plants vary in stature from quite dwarf to very tall, however they are generally on good stiff stems that can stand a fair amount of wind. Most of the stems do have several flowers on each and without exception all are sweetly scented, which makes them ideal for indoor decoration.

**"Boscastle"** 7Y-Y(L) S111 (Aircastle x *n.jonquilla*) 2 or 3 sweetly scented flowers to a stem with broad smooth and well overlapping perianth segments make this an ideal show quality flower, bulbs often give secondary stems which can only add to its benefits as a perfect plant for the garden or cutting .....3 for £5.00

**"Kit Hill"** 7Y-YWW(L) S107 (Aircastle x *n.jonquilla*) Stems usually with two sweetly scented florets, very smooth and soft pale yellow perianth segments and a neat round cup that fades to ivory white, this flower has already won its class on several occasions and much admired in our trials .....each £3.00

**"St. Piran"** 7W-Y (Aircastle x *n.jonquilla*) S108 Late season. Like our Cornish Saint this flower has been much revered, it has had some good success on the show benches when under number, it is also a particularly good plant and well suited to the garden and stands the weather well, like most in the jonquilla section has a delightful scent, usually two or three florets on the stem. .....each £2.50

**"Sweet Blanche"** 7W-W (M) S220 (Grand Prospect x *n.jonquilla*) Most stems have only one flower but the bulbs will send several secondary stems thus extending the flowering period, this makes for perfect cut or garden variety although it has won its class at national level as a seedling. The scent is sweet and the perianth smooth and opens a soft creamy yellow which usually fades to white. Very long lasting. .....each £1.00 or 3 for £2.50

**"Treble Two"** 7Y-GYY(LM) S222 (Aircastle x *n.jonquilla*) Named at the request of several admirers of this flower. It has been successfully shown under number for many years. Two or three large rounded flowers to the stem, smooth and very broadly overlapped. A good show flower .....SOLD OUT

**"Wheal Coates"** 7Y-O(M) S416 (Pinza x *n.jonquilla*) This is a lovely flower of show quality, beautifully scented and a rounded well overlapped perianth with shallow cup of bright orange, usually two flowers to each stem, with bulbs sending many secondary stems to extend the season. We have a good stock.....£4.00 each, 3 for £10.00

**"Wheal Kitty"** 7W-W (Handcross x *n.jonquilla*) S219 Early season. Named at the suggestion of several noted growers as an ideal plant for the garden, the stem is short and stiff and the flower stands well in bad weather, like many from this division a great many secondary blooms are produced to extend the flowering period, the flowers open with yellow undertone but soon fades out to a clear chalky white, the perianth is broad and sometimes take on a little twist when mature, it has been exhibited with some success and we see no reason why it should not continue to do so. .....3 for £2.50 or 10 for £6.00

#### Division 8. The Tazetta Hybrids.

These plants are the results of many years of breeding and can really be divided into two types. They are with the exception of "Minnow" all quite big plants, some do have very tall stems and foliage. The first kind are more of the true n.tazetta species in form. As the species is generally found in warmer regions of southern Europe and the Mediterranean . They are somewhat tender and do require a hot dry summer period to perform at their best, however they are well worth trying, when each stem could have up to 15 or 20 highly scented florets. The second group or kind is the "Poetaz", these are slightly different in style and have fewer florets, and the scent is an admixture of the n.tazetta and that of the n.poeticus from which these hybrids have been derived. It is the poeticus part that make these much hardier and do withstand our winters as well as any other type of daffodil.

"Hugh Town" 8Y-O(VE) Raised at the Rosewarne this wonderful multi-headed flower is proving to be one of the best of its type for cutting and floral arrangements, and is a magnificent choice for the early Garden Display. Site the planting to avoid a very cold situation and to receive the full benefit of sun during the summer to ensure a thorough ripening of the bulbs. This is one we highly recommend to you .....each £1.25, 3 for £3.30 or 10 for £9.90

#### Division 9. The Poeticus Hybrids

These flowers have been commonly called the "Pheasant Eye" and indeed they have been bred from the old species, however these varieties are far superior in form and colour and flower when most other Daffodils have been long finished. They are best picked young as the sun does affect the lovely colours if left out. They are without exception all highly scented. The plants like to be planted in good soil that never completely dries out, this helps to keep them cool. Set the bulbs slightly deeper than normal and leave undisturbed. New bulbs may take a season to settle, but are well worth their place in the garden.

"Colville" 9W-GYR (Corofin x Crenver) x Crenver S131 Late season. Named at the request of several enthusiasts, this flower has already featured in the prize winners on several occasions, the perianth opens with greenish undertones, but soon whitens to form a good foil for the brilliantly coloured corona, like all flowers of this kind it will not tolerate the sun and does need to be picked young. ....each £7.00

## DIVISION 11- Split Corona or Collar Daffodils

"Arwenack" 11aY-YYO(EM) S224 (Brandaris x Paricutin). The broad, smooth and flat perianth is well overlapped and a bright Golden Yellow, and is an excellent foil to the six coronal segments opposite and closely overlying the perianth, the outer zone being slightly frilled and deeper orange tone, the plant is vigorous and flowers of a good show quality .....each £5.00

"Bosbigal" 11a Y-O (Brandaris x Paricutin) S315 Early season. The perianth is broad and well overlapping, a little pointed, and the coronal segments are evenly split and laying flat to the perianth, a vigorous plant and very colourful flower of good show form. .....3 for £4.50

*Boscoppa* "Boscoppa" 11a Y-O(M) S293 (Obelisk x Tamar Fire) This is a plant of strong vigorous growth - a stiff tall stem that holds the flower with broad overlapping perianth segments, the corona is evenly split and lays flat in six segments to almost cover the length of the perianth, many show successes, we predict this new and exciting variety will have a great future. .....each £5.00

*Bosinney* "Bosinney" 11a W-WPP(M) S333 (Pearlax x Audubon) A flower that has been much admired under trial, the stems are only of a medium length and flowers seem to resist the weather, to make this the perfect plant for the garden. The perianth is somewhat acute though well overlapped and shows off the very pretty slightly frilled corona to its best. .....each £3.00

"Boslowick" 11aY-O (Gironde x Paricutin) S225. Mid-season. A tall strong plant with a flower of good colour. The perianth is broad and flat, slightly pointed at the tips, with an evenly split cup laying flat against each segment, (was featured on "Gardens for all" programme on TSW) .....3 for £5.00

"Carnyorth" 11aY-R(EM) S117 (Brandaris x Paricutin) The flower appears to last an extraordinary long time and seems to stand the weather, I have used this for show for many years and has many top awards to its credit. The perianth is slightly pointed but flat and well overlapped with a flat evenly split corona, highly recommended. .....each £5.00, 3 for £10.00

"Gillan" 11aY-YOO(LM) S411 (Brandaris x Falstaff) Has oval perianth segments that are well overlapped of rich yellow. The corona is split into six segments opposite and closely overlying the perianth that are orange with yellow tones towards the centre - large stock available .....each £4.00, 3 for £8.00

"Gunwalloe" 11aY-R(LM) S291 (Brandaris x Falstaff) This very brightly coloured flower has been selected for its vigour and suitability for show, garden or cut flower. I have successfully shown this for several years. The perianth is broad and well overlapped to show off the round flat evenly split corona to its best. .....each £3.00

"Max" 11aY-YRR(M) S412 (Gironde x Falstaff). Affectionately named after my mother Mary Louise, this is we believe to be one of the best Collar Daffodils yet available. The vigour of this plant is inherited and clearly evident from both the parents, as is the neatness of the round flat coronal segments, beautifully enhanced by the broad well overlapped perianth. A super show flower that we believe will be much sought after .....each £20.00

"Menehay" 11aY-R (Paricutin x Top Hit) S155. Mid-season. Good perianth with a flat evenly split cup of clear colours, it is of excellent show form, a good plant with stiff stem .....each £5.00

I have been acquiring these for many years and have obtained much pleasure from them, particularly those grown in the alpine house. The species always seems to resent being moved about, but once settled are a joy to see in naturalised surroundings. Very large quantities are not available. I believe them all to be true to name, but like many there seems to be some considerable variance of form, they are however named as sent to me or have been grown from seed.

### The C.A.B.C.G.A. Collection

These varieties are not all grown by ourselves and as such we may not be able to offer these for sale outside the E.E.C.

They are all grown in Cornwall by Members of the Cornwall Area Bulb Growers Association, and are subject to the Ministry of Agriculture growing inspections, and are free from major pest and disease.

It is by popular request that we have pleasure in including the following varieties within our list. The bulbs are all commercially graded and of full flowering sizes.

Due to the size and weight of these packages, Postage or Transport will be charged at cost, rates for post in the U.K. are as follows:

Weights not over 1kg	£2.70
2kg	£3.40
6kg	£5.80
8kg	£6.40
10kg	£7.30
30kg	£8.55

Post cost for Europe will be charged at cost and will be confirmed on receipt of order.
