

Royal Horticultural Society of London

CLASSIFICATION OF DAFFODILS

Division 1. TRUMPET Narcissi, — trumpets as long or longer than the perianth segments (petal); one flower to the stem. Examples — King Alfred, Mrs. E. H. Krelage.

- (a) Perianth colored (varying shades of yellow), trumpet colored, not paler than the perianth.
- (b) Perianth white; trumpet colored (usually yellow).
- (c) Perianth and trumpet white.
- (d) Any other color combination (such as the trumpet being a lighter shade than the perianth).

Division 2. LARGE CUPPED Narcissi (formerly Incomparabilis, and large crowned Ledssii,)—crown more than $1/3$ to nearly the length of the petals. Examples—Carlton, Dick Wellband. (a), (b), (c), (d) as in Div. 1, except that the colored crown in (a) may be yellow, orange, or red, and in (b) wholly, or in part, yellow, orange, red, pink, buff, apricot, etc., etc.

Division 3. SMALL-CUPPED Narcissi (formerly Barrii and small-crowned Leedsii), — cup less than $1/3$ the length of the petals; one flower to the stem. Examples — Carolina, Edward Buxton. (a), (b), (c) as in Div. 2.

Division 4. DOUBLE NARCISSI.

Division 5. TRIANDRUS Narcissi (usually 3,—sometimes 2 to 4)—white, creamy white or pale yellow flowers per stem. Examples—Thalia, Silver Chimes.

- (a) cup *not* less than $2/3$ the length of the petals.
- (b) cup less than $2/3$ the length of the petals.

Division 6. CYCLAMINEUS Narcissi, — usually rather small flowers, with reflexed petals. Example—February Gold. Beryl. (a) and (b) as in Div. 5.

Division 7. JONQUILLA Narcissi, — true Jonquils, and their Hybrids, 3 to 6 golden yellow fragrant flowers per stem; and 1 to 3 flowers per stem, for the Hybrids, and they (the Hybrids) may, or may not be sweet-scented. Examples—Jonquilla Simplex, Trevithian, Golden Goblet. (a) and (b) as in Divs. 5 and 6.

Division 8. TAZETTA Narcissi, — mostly Poetaz Hybrids, 2 to 6 or 8 more or less fragrant florets per stem. Example—Geranium.

Division 9. POETICUS Narcissi, — the Poet's Narcissi, snow-white petals and red-rimmed cups. Example—Actaea.

Division 10. Species and Wild forms.

Division 11. Miscellaneous Narcissi,—those not falling in any other group.

SPRING 1955

WALTZ BROTHERS

Growers of Choice Daffodils

Route No. 1

Box 150

SALEM, VIRGINIA

TERMS, CONDITIONS OF SALE, Etc.

(Please Read Carefully)

Offered herein you will find a wide selection of outstanding Daffodils,—many of the finest recent introductions, as well as the best of the older varieties; also, a select list of Dutch Iris, Hyacinths, Tulips and other Spring-flowering bulbs. All are best quality, top-size bulbs, from our fields, or from the leading and most reliable growers, in Oregon, Holland and Great Britain.

We also offer the superb new Jan de Graaf Hybrid Lilies; prices range from about .60 to several dollars each. Folder, showing a dozen or so varieties in color, will be sent this summer, on request.

* * * *

PLEASE, Place Your Order EARLY (this Spring): it is impossible for us to grow (or to have on hand, from other growers) sufficient stocks of all the varieties which we list, to fill any and all orders which we might receive at planting time, in the fall. Therefore, it is necessary that we have your order this Spring, so we can order the desired varieties especially for you,—if we do not already have them. The best time to place your order is during, or right after the blooming season, while still under the "spell" of Mistress Daffodil, and her haunting beauty.

A 5% cash discount will be allowed on all orders of \$5.00 or more, received not later than May 15th., with payment in full. If your order is for an appreciably larger amount,—and a sufficient amount for postage has been included,—you will also receive some extra bulbs,—larger quantities of some of the varieties ordered. (This 5% discount, and the extra bulbs, are given only on individual orders, sent directly to us; they are not further discounts on Garden Club orders.)

* * * *

GARDEN CLUBS: We allow generous discounts, in cash and extra bulbs, on Garden Club orders of \$30.00 or more; (all the bulbs for your individual orders to be sent in one shipment, to one address.)

We will be glad to send an attractive exhibit of specimen Daffodils, to be used as a "sample-case" in selecting the varieties of bulbs to be ordered, and also, if you are having a Show, to add a little to its attractiveness. If interested, please write for particulars at an early date,—or if already too late for this year, please keep it in mind for 1956.

* * * *

PRICES quoted are for highest quality, top size bulbs, and will be found to compare very favorably with those of the same quality bulbs offered elsewhere,—especially when the discounts allowed in cash and extra bulbs, are taken into consideration.

The Daffodils are priced per bulb, with 12 for the price of 10, and 6 or 3 at the same rate (6 for the price of 5, and 3 for 2½ times the each price); 100 bulbs for 70 times the single bulb price. The Tulips, Hyacinths, etc. are priced per dozen (no less than 6 of a variety sold), with 100 for 7 times the dozen price. No further cash discount allowed, to Garden Clubs or others, on that part of the order where the 100 rate is used.

DELIVERY will be made at planting time, in the autumn,—as soon after September 1st. as possible. It may be mid-October, or a little later, before all our Southern orders are sent out, but they will still be in plenty of time to make good root growth before winter.

Please add a sufficient amount for postage to the total of your order. While the size, and therefore the weight, of the bulbs of different varieties will vary, the following table will be found fairly accurate. If too much is sent, the excess will either be refunded, or extra bulbs sent for same.

QUANTITY	ZONES 1 & 2 —to 150 mi.	ZONES 3 & 4 —to 600 mi.	ZONES 5 & 6 —to 1400 mi.
½ dozen (or less)	.25	.28	.35
Each additional half dozen	.06	.10	.15

—if beyond the 6th. zone, please inquire at your Post-office as to the correct amount, allowing 3 lb. to the dozen bulbs.

Larger Garden Club orders will be sent by Railway Express, and these charges may be paid on receipt of the bulbs.

PAYMENT: Cash with order,—or 25% of the amount with your order, and the balance September 1st. (or C. O. D., if you prefer). (The 5% cash discount applies only when the full amount is sent with the order.)

GUARANTEE: We send out only healthy, free from disease bulbs, which, given reasonable care and required conditions,—which are not critical,—should produce the finest of flowers; (our fields and harvested bulbs, and those of the growers from whom we purchase bulbs, are regularly inspected by the proper authorities.)

We exercise every care in keeping our stocks true to name, and purchase bulbs only from other growers who do the same. However, mistakes can easily be made in the rush of the digging or shipping seasons, and in this event, any bulbs proved untrue to name will be replaced. But, please remember that some varieties, especially red and pink cups, vary from year to year with the season, and please do not accuse us of sending a different or inferior variety, because a hot dry blooming season has made these varieties come without the coloring, or the substance which they should normally have.

Often, on orders received at or near planting time,—in spite of the fact that we urge everyone to place their orders in the Spring,—there are varieties included which we cannot, at that time, supply. If it is impossible for you to send your order prior to August 1st., we would appreciate your permission, with your order, to use similar, as good or better, (and often higher priced) varieties, in place of those which we are unable to supply. These varieties are always correctly labeled,—we never substitute one variety for another, under the name of the variety ordered.

* * * *

BULBS FOR GIFTS

If you are looking for something different for a Birthday, or other Anniversary gift, or for Christmas, may we suggest a nice assortment of Daffodil bulbs. Not only will they be enjoyed for the present occasion, but if they are treasured, and given only a little care, their gay sprightly beauty will remind the person so remembered, of your love and thoughtfulness each Spring, year after year, for many years, or a life-time even.

The selection of varieties may be made by the recipient, or yourself. If the event for which the gift is desired comes before our shipping season (September, October) a notice will be sent, with our list,—if the selection is to be made by the person receiving the gift,—so that he, or she, will know that they have been remembered,

and can be looking forward to receiving, and planting the bulbs, in due time. If for Christmas, the bulbs will be received a couple of months ahead of time, of course, so that they may be planted at the proper time.

A D A F F O D I L B O O K

We have on hand a few copies of "The Daffodil", by J. M. Jefferson-Brown, and published in London. This is an authoritative and comprehensive account of the Daffodil, right up to the present time; it is quite profusely illustrated in color, and in black and white, and will be of value to anyone especially interested in Daffodils. The price is \$3.50, postpaid.

ROYAL HORTICULTURAL SOCIETY Classified List of Daffodil Names

This is a list of all the Daffodil varieties registered with the Royal Horticultural Society, of London, in the past 50 years or so,—something over 12,000 names,—and giving the Classification of each variety. A valuable reference book,—almost a "must" for those who are sponsoring Daffodil Shows. The price, for the latest edition, is \$1.00, postpaid.

BLUE RIBBON WINNERS

If you would like to win a lot of Blue Ribbons at your Daffodil Show next Spring,—and who wouldn't—here is a list of a number of varieties in each Division, which should do that for you. Most of them have received R. H. S. Awards of Merit (A. M.) and/or First Class Certificates (F. C. C.) in the past,—many very recently,—and have been consistent winners in Shows here and in England the past few years. By purchasing first quality bulbs of these varieties, planting them in good well drained soil, and providing some protection from wind and storm (by planting on the leeward side of a garden fence or hedge, or the use of burlap windbreaks; mulching with peat-moss, etc. to prevent their being splashed by heavy rains, etc.) they should bring home for you your share of the Ribbons. If this protection cannot be provided, the flowers should be cut as soon as they are fully developed,—or even before, with long stemmed varieties,—and kept in a cool dark place until the Show.

Most of the varieties listed below, in the various Classes, will be found in the general list of Choice varieties, pages 6 to 11; those separated from the others by a space (- - -) are the new Jan de Graff (Oregon Bulb Farms) originations, on pages 11-12. These Oregon varieties have not as yet been widely shown, but they will compare very favorably with the others.

- 1a Bastion, Dungiven, Cromarty, Garron, Grapefruit, Goldcourt, Golden Marvel, Kandahar, Kingscourt, Leinster, Milanion, Moonstruck, Rembrandt, - - - Halloween.
- 1b Ballyferis, Bonython, Content, Effective, Oklahoma, Queen of the Bi-Colors, Patria, Preamble, Rathkenny, Spitzbergen, Trouseau, Trostan, - - - Chula, Magic Pink, Western Star.
- 1c Alycidon, Ardclinis, Askelon, Beersheba, Broughshane, Cantatrice, Coolin, Corinth, Kanchenjunga, Mt. Hood, Petsamo, Roxane, Samite, Scapa, White Prospect, - - - Mt. Whitney.
- 1d Spellbinder.
- 2a (all yellow) Adventure, Balmoral, Carlton, Crocus, Galway, Golden Torch, Leitrim, Sligo, St. Issey, St. Keverne.
- 2a (orange or red crowns) Alamein, Aranjuez, Armada, California

Gold, Ceylon, Diolite, Dunkeld, Firemaster, Fortune, Fortune's Bowl, Galcador, Garland, Indian Summer, Narvik, Revelry, Royal Mail, Sun Chariot, Tamino, Teheran, - - - Bounty.

- 2b (yellow crowns) Bodilly, Brookville, Daisy Schaffer, Green Island, Greeting, Polindra - - - South Pacific, Zircon.
- 2b (orange or red crowns) Arklow, Arbar, Blarney's Daughter, Buncrana, Criterion, Duke of Windsor, Fermony, Kilworth, Monique, Scarlet Leader, Sempre, Avanti, Signal Light, Tudor Minstrel, Tuskar Light - - - Polar Star.
- 2b (pink) Champagne, Interim, Ladybird, Lough Maree, Mabel Taylor, Menton, Moylena, Mrs. R. O. Blackhouse, Pink Glory, Pink Rim, Rosario, Siam - - - C. E. Bailey, Pink Diamond, Roman Candle, Sweet Talk.
- 2c Ave, Dunlewey, Dunseverick, Killaloe, Ludlow, My Love, Namosos, Niphotos, Rostov, Shannon, Truth, Zero.
- 2d Binkie.
- 3a Ardour, Chunking, Edward Buxton, Mangosteen, Market Merry, Russet, Therm.
- 3b Bantry, Blarney, Bravura, Carpatica, Forfar, Hopesay, Lady Kesteven, Lidcot, Limerick, Mahmoud, Matapan, Mr. Jinks, Pera, - - - Tonto.
- 3c Altyre, Bryher, Chinese White, Cushendall, Foggy Dew, Frigid, Polar Sea, Samaria.
- 4 Falaise, Insulinde, Irene Copeland, Mary Copeland, Mrs. Wm. Copeland, Swansdown, Valencia - - - Riotous, Sunburst, Wind-blown
- 5a Moonshine, Niveth, Rippling Waters, Shot Silk, Stoke, Thalia, Tresamble - - - Cathedral.
- 5b Silver Chimes.
- 6a Charity May, February Gold, Garden Princess, Orange Glory.
- 6b Beryl.
- 7a Golden Goblet.
- 7b Cherie, Golden Perfection, Trevithian.
- 8 Geranium, Martha Washington, Red Guard.
- 9 Actaea, Sea Green, Shanach.

Following is a list of Early, and Late varieties, for those especially interested in these two categories; the classification, and prices, will be found on the following pages.

EARLY: Ada Finch, Alasnam, Beersheba, Brunswick, Carlton, Diotima, February Gold, Foresight, Fortune, Garden Princess, Golden Harvest, King Alfred, Promiso, Rembrandt, Rouge, St. Issey, Trevithian, Tunis.

LATE: Blinkbonny, Bravura, Bridegroom, Cheerfulness, Coronach, Crenver, Cushendall, Falaise, Flamenco, Frigid, Geranium, Limerick, Mahmoud, Mrs. R. O. Backhouse, Mystic, Peggy, Pera, Polar Sea, Samaria, Shanach.

CULTURAL NOTES

Daffodils are among the easiest of flowers to grow. Given only a little care, and a few required conditions, they will reward the grower with an ever increasing wealth of beauty, year after year. They prefer a sandy loam, but will do well in any good garden soil, provided that it is well drained. Planting should be done in time for the bulbs to make good root growth before winter,—early September to mid-October, or even a little later, depending on the section of the country in which you live. We have, here in Virginia, when we could not get it done sooner, planted bulbs in mid-December, and had them do well, but this is not recommended. Large bulbs should be set from 6 to 9 inches deep (to the base

of the bulb); if your soil is heavy clay the lesser depth will be better. The distance between bulbs may be anywhere, from 6 inches, up.

If the soil is rich, no fertilizer is necessary; if just average, bone-meal and /or pulverized cow manure, compost, and the like, are good. These should be thoroughly mixed in the soil below the bulbs, at planting time. A light top-dressing of the same, with wood ashes, or some other source of potash, ground rock phosphate, etc., applied early in the Spring, the second blooming season, and thereafter, will also be beneficial. A mulch of straw, peat moss, or other good material, applied after the ground is frozen hard, or, in regions having light winters, shortly before the tops begin poking thru the ground, will be helpful in many ways, not the least of which is preventing heavy rains from splashing and spoiling the flowers.

Daffodils should not be planted in lawns, or any place where the foliage will be cut off before it ripens, as the foliage is needed to mature the bulbs. One of the nice things about Daffodils is that they need not be dug and replanted every year,—every 3 or 4 years is sufficient, or when they have increased to the point that they are too thick to bloom well,—while "naturalized" plantings, if planted deeply so they will increase very slowly, may be left undisturbed for 10 to 15 years, or more.

Digging may be done when the leaves have turned mostly yellow, 6 weeks or so after the end of the blooming season; it is not necessary to wait until they have died down entirely, in fact it is better not to do so, as it is then harder to find the bulbs, and some may have already started root growth for the following year,—if the season is rainy. The bulbs should not be left in the hot sunshine any longer than absolutely necessary, but placed immediately in a cool airy shed, in flat boxes or mesh bags. (If you have no good storage place, and only a few bulbs, they may be separated, and replanted at once, or in a few days.) The tops may be left on to dry up, or broken off, whichever you prefer. After curing a month or 6 weeks, the roots and outer skins will be dry enough to be removed; this may be done by hand, or by shaking gently in a mesh, or burlap, bag. Bulbs which pull apart easily should be separated,—otherwise, not. Replanting may be done in September, or even late August in the North, and in September or October in the South. This completes the cycle, and brings us back to right where we started.

CHOICE DAFFODILS

In the following list, the number and letter preceding the variety name denotes the type, or the form of the flower of that variety,—see "Classification of Daffodils", on page 16, if you do not know the classes.

Varieties marked with an asterick (*) are especially recommended for cutting and landscaping. They are strong-growing, free-flowering, and priced so they may be used in quantity.

The names of the originators of most of the more recent introductions, and some older ones, are given in parentheses following the variety name. (Back) is Mrs. R. O. Bachhouse, (Brodie) Brodie of Brodie Castle; (Mitsch) Grant Mitsch, of Canby, Oregon. (Rich) J. Lionel Richardson, of Waterford, Ireland; (Will.) P. D. Williams, of Cornwall, England; (G. L. Wil.) Guy L. Wilson, of Broughshane N. Ireland.

The capital letters following the name designate the approximate relative blooming seasons. — E—early, EM—early midseason, M—Midseason, LM—late midseason, L—late.

MORE FINE DAFFODILS

—the recent Jan de Graff introductions (Oregon Bulb Farms)

These new Daffodils represent the result of many years of painstaking work, on the part of Mr. de Graaff and his helpers, and are a worthy contribution to the Daffodil world. While as yet comparatively unknown, they compare very favorably with the other fine varieites, and will, we predict, win a place for themselves among the favorite Daffodils in a very few years.

2b	AZALEA (LM) white, with flaring pink crown.....	2.85
2a	BOUNTY, soft yellow; orange crown, darker at rim.....	5.00

TULIPS

A selected list of highly recommended varieties, including a num-
ber of grand "old stand-bys", and some outstanding newer ones,
in a wide range of colors in the various types. Top-size, best
quality bulbs, from one of Holland's leading growers. Priced per
dozen (no less than 6 of a variety sold), 100 for 7 times the dozen
price. Tulips, hyacinths, etc. should be planted for mass effect, in
quantity, preferably several dozen or more of a variety. The num-
bers following the variety names give the height, in inches, of that
variety.

TULIP Fosteriana

RED EMPEROR (14") immense flower, with long scarlet petals; black base; early.....	1.75
---	------

SINGLE EARLY TULIPS

First of the Tulips to bloom in the Spring,—except for Red Em-
peror, and some Species. Fine for bedding, or cutting.

BELLONA (14") pure golden yellow.....	1.70
COLEUR DE CARDINAL (10") crimson-scarlet.....	1.50
De WET (12") golden, flushed fiery orange-scarlet.....	1.25
GOLDEN MASCOT (12") large yellow.....	1.15
IBIS (11") deep brilliant pink, shaded carmine.....	1.25
KEIZERSKROON (12") scarlet, with broad yellow margin.....	1.55
OLYMPIADE (12") extra fine yellow.....	1.15
