DAFFODIL OFFERINGS

1993

## STANDARDS

We take this opportunity to thank each and every customer, old and new, for your support this past year. It's been ten years since Murray Evans led us into growing daffodils commercially. We'd like to think that he'd be pleased to see us continue his traditions, growing healthy, quality bulbs, true to name, and cultivating customers into friends by giving personalized, honest attention to every phase of our operation.

As promised, our prices have been reduced where we have had a sufficient increase in stock. The higher priced items indicate a limited number of saleable bulbs and early orders are encouraged to avoid disappointment.

In order to provide you with a greater selection we are working hard to increase varieties in miniature, intermediate and standard daffodils. Our listed species are clonal selections or are grown from seed; none are collected from the wild.

The ADS convention will be in Portland, Oregon in 1994. It is not too soon to make mental plans to attend. In 1984, when the ADS tour buses rolled up to our entrance for the first time, we were thrilled beyond words. It will be "déjà vu all over again" for us. We can't control the weather or the blooming season but we, along with the other Oregon daffodil growers and members can promise warmth, loving friendship and WESTERN hospitality.

If you are in this area, no matter what the season, know that you will always be welcomed. Enjoy your garden and those of others this spring and throughout the year.

Jeanie and Frank Driver

You are invited and encouraged to join the American Daffodil Society, the national organization devoted to our favorite flower. With membership you will receive the Daffodil journal, the quarterly publication considered to be one of the finest of its kind. Shared information, knowledge, and the opportunity to meet other enthusiasts at local, national and international levels are other added benefits of membership.
