DIVISION 12 MISCELLANEOUS DAFFODILS
Daffodils not falling into any of the foregoing divisions

RULES FOR EXHIBITORS

1. All classes open to anyone who grows daffodils except where specified otherwise.
2. An exhibitor may make as many entries as desired in any class, provided each entry is a different cultivar or species or an entirely different collection of cultivars and/or species.
3. All blooms in the Horticulture Division must have been grown in the open by the exhibitor. Miniatures may be grown in protected areas.
4. Exhibits will be received Saturday, April 24 after 7:30 A.M. and until 11:00 A.M. No entries accepted after 11 A.M. Exhibits must not be removed before the close of the show at 5 P.M. on Sunday, April 25.
5. The exhibitor shall place an entry card, properly filled out, with the name, division and color code on each exhibit. Entry cards, wedging material and containers for specimens will be furnished by the Show Committee. No daffodil foliage permitted.
6. All collections must be exhibited with each cultivar and/or species in a separate container. Each cultivar and/or species must be correctly labeled with name, division and color code. Originator's name must appear on label in American Bred Class 162 except seedlings shown by the originator.
7. Exhibits which are not named or incorrectly named or without division and color code will NOT be judged. Correct classification and labeling shall be the responsibility of the exhibitor. No label may be changed, specimen added, altered or substituted after judging has begun or after an award has been placed.
8. Royal Horticulture Society System of Classification will be used. Authority: *Daffodils to Show and Grow* supplemented by the latest printout of the *ADS Data Bank*.
9. Miniature daffodils named in the most recent ADS Approved List of Miniatures, with any official additions thereto and MINIATURE CANDIDATES may be shown only in classes for miniatures. Any named or numbered diminutive daffodil flower which appears graceful with all its parts in proportion may be considered a MINIATURE CANDIDATE. Such candidates are eligible for ADS Awards in the Miniature Section with the exception that only seedlings shown by the originator are eligible for the Miniature Rose Ribbon.
10. Blooms of seedlings may be exhibited in all classes for numbered cultivars. ALL SEEDLINGS MUST BE IDENTIFIED BY A NUMBER DESIGNATION ASSIGNED BY THE ORIGINATOR. If the exhibitor is not the originator, the name of the originator must be included as a part of the identification.
11. Only one first, one second and one third award may be given in each class. Honorable Mention awards may also be given if merited but only if first, second and third have been awarded.
12. Each stem in an exhibit receiving an ADS Award must score 90 points or more by the ADS Scale of Points.
13. First, second, third and honorable mention awards may be withheld by the judges if in their opinion the exhibit is not worthy. However, if a blue ribbon has been awarded in a class eligible for an ADS Ribbon, the ADS Award may not be withheld. The decision of the judges is final. If an error is discovered in an exhibit after completion of judging, any award placed thereon (ADS, Special or Ribbon) shall be forfeited by the exhibitor. If an error is discovered before the judging is completed the class must be rejudged.
14. The Show Committee reserves the right to sub-divide classes when there are three or more worthy exhibits of the same cultivar. However, the class should not be subdivided if there is not sufficient number of worthy exhibits left in the class.
SPECIES MAY BE SUBDIVIDED BY THEIR CLASSIFICATION.
15. A novice is anyone who has never won a blue ribbon in an ADS Show. All novices should place a visible "N" on the top portion of the entry tag for Section K.
16. Photographing exhibits will NOT be permitted until judging is completed.
