

Dreaming of Daffodils

## 38th Annual Daffodil Show

sponsored by Southwestern Ohio Daffodil Society

an approved American Daffodil Society Show

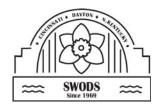

April 7 - 8, 2007 Cincinnati Zoological and Botanical Gardens

3400 Vine Street Cincinnati, OH Saturday, April 7, 2007 Entries 7:30-11:00am Judging (closed):11:00am - 2:00pm Open to public: 2:00-5:00pm

Sunday, April 8, 2007 Open to the public: 12:00-5:00pm

April 28 - 29, 2007 Wegerzyn Horticultural Center Dayton, OH Saturday, April 28, 2007 Entries 7:30-11:30am Judging (closed): 11:00am - 2:00pm Open to public: 2:00pm-5:00pm

> **Sunday, April 29, 2007** Open to the public: 12:00-5:00pm

#### **GENERAL RULES**

- 1. Entries may be made on Friday from 2 P.M. to 5 P.M. and Saturday from 7:30 A.M. to 11 A.M. All exhibitors must be off the floor by 11:00 A.M. **THIS RULE WILL BE STRICTLY ENFORCED.**
- 2. Entry cards for exhibits will be available at the show and may also be obtained in advance from the show chairmen, Sally Sieger, Margaret Baird or Leone Low. Do not fill in the bottom portion of card. Name stickers or rubber stamps are helpful.
- 3. Entries, awards, and ribbons may not be removed until 5:00 P.M. Sunday.

#### **RULES FOR HORTICULTURAL EXHIBITS**

#### ENTRIES

- 4. All classes are open to anyone who grows daffodils except where specified otherwise.
- 5. Any information on an entry tag which could compromise the anonymity of the exhibitor must be concealed during judging.
- 6. An exhibitor may make as many entries as desired in any class provided each entry is a different cultivar or species or an entirely different collection of cultivars and/or species.
- 7. All blooms in the Horticultural Division must have been grown in the open by the exhibitor. Miniatures and daffodils grown and shown in their containers may be grown in protected areas.
- 8. Wedging material and containers for cut flower exhibits will be furnished by the show committee. Except for daffodils grown and shown in their containers, no daffodil foliage is permitted.
- 9. All collections of five or more stems must be exhibited with each cultivar or species in a separate container.

#### LABELING

- 10. Each cultivar or species must be correctly labeled with name and division number. Originator's name must appear on the label in American bred classes except seedlings shown by the originator. **Note additional labeling requirements in schedule.**
- 11. Exhibits that are not named (except in Section P) or are incorrectly named will not be judged. Correct classification and labeling shall be the responsibility of the exhibitor.
- 12. No label may be changed, specimen added, removed, altered, or substituted after judging has begun or after an award has been placed.

#### INTERMEDIATES, MINIATURES, AND SEEDLINGS

- 13. An intermediate daffodil is a single-floreted cultivar from Divisions 1, 2, 3, 4, or 11 whose flower diameter is typically greater than 50mm through 80mm. Intermediate daffodils may be entered in classes for standard daffodils as well as classes reserved for intermediate daffodils.
- 14. Miniature daffodils may be shown only in classes for miniatures. A miniature daffodil is any cultivar or species on the current ADS Approved List of Miniatures, with any official additions thereto. Also, any named or numbered daffodil which appears graceful, with all its parts proportionately small, may be exhibited in Miniature classes and is eligible for all ADS awards, except that only numbered seedlings shown by the originator are eligible for the ADS Miniature Rose Ribbon. The judges may decline to judge any exhibit containing an unapproved miniature that they consider too large for these classes.
- 15. Blooms of seedlings may be exhibited in all classes for named cultivars. ALL SEEDLINGS MUST BE IDENTIFIED BY A NUMBER DESIGNATION ASSIGNED BY THE ORIGINATOR. If the exhibitor is not the originator, the name of the originator must be included as part of the identification.

## JOIN NOW

### Southwestern Ohio Daffodil Society (SWODS)

Membership: \$5.00 per year

#### **Membership Benefits**

- 2-3 meetings for members during the year, usually in early spring, early summer, and fall
- An annual show of daffodils each spring, which is both an exhibit for the public and a friendly competition for members, visitors, and the general public
- Opportunity to purchase a special Challenge Bulb for members at less than catalog price
- Exhibits in public areas and speeches, slide show presentations, and workshops at garden society meetings and public gardening events
- Annual bulb exchange for members at the fall meeting; an opportunity to acquire new daffodils at the best possible price—free!
- Camaraderie with other daffodil growers.

## American Daffodil Society (ADS)

#### Membership: \$20.00 per year

#### **Membership Benefits**

- Subscription to *The Daffodil Journal*, a 64-page quarterly journal with color photographs of daffodils and articles on topics such as planting, selecting, and growing daffodils; landscaping with daffodils, new introductions, hybridizing, daffodil hybridizers, trends, pests and diseases, and national and local news and events.
- Participation in national daffodil events.
- Catalogs from daffodil specialty growers.
- Eligibility to compete for ADS awards in local, state, and national shows.

For more information, contact Bill Lee, 4606 Honey Hill Lane, Batavia, OH 45103. Phone 513-752-8104 or email BLEE811@aol.com

SWODS Membership only \$5.00, (payable to SWODS).

- ADS Membership only \$20.00, (checks payable to American Daffodil Society).
- SWODS and ADS Membership \$25.00, (checks payable to Bill Lee who will distribute the funds to the two organizations).

#### **CINCINNATI INFORMATION**

Food is provided by the committee for judges, clerks, exhibitors, and other participants. Participants may bring additional covered dishes or desserts if they wish.

Setup will be Friday, April 6, from noon to 4:00 PM. Teardown will begin at 5:00 PM Sunday, April 8. All available SWODS members are needed.

The show will be located in the Safari Gallery.

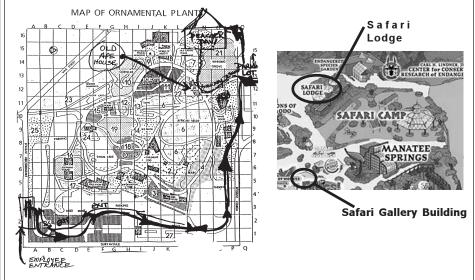

Admission to the Zoo is free for exhibitors with Daffodils. But you must use the employee entrance on the Erkenbrecher Avenue side of the Zoo rather than the public entrance on Dury Avenue.

#### Directions to the Cincinnati Zoo and Botanical Gardens

From I-71, take Route 562 (Exit 7) to I-75 South.

#### From I-74, take I-75 North.

**From I-75,** use Exit 6 (Mitchell Avenue). Travel east on Mitchell. Turn right onto Vine and proceed to Forest (.9 miles). Turn left on Forest to Dury. Turn right on Dury and you are at the Zoo's Main Gate.

#### DAYTON INFORMATION

Food is provided by the committee for judges, clerks, exhibitors, and other participants. Participants may bring additional covered dishes or desserts if they wish.

Setup will be Friday, April 27, from noon to 4:00 PM. Teardown will begin at 5:00 PM Sunday, April 29. All available SWODS members are needed.

#### **Directions to Wegerzyn Horticultral Center**

From I-75 take the Siebenthaler exit. Go west on Wagner Ford Rd. to North Dixie Dr. Turn right onto North Dixie. Go to traffic light and turn left onto Siebenthaler. Turn right into Wergerzyn before the bridge.

#### AWARDS

- 16. Each stem in an exhibit of cut flowers receiving an ADS Award must score 90 or more on the appropriate ADS Scale of Points.
- 17. Only one first, one second, and one third award may be given in each class. Honorable mention awards may also be given if merited but only if first, second, and third have been awarded. First, second, third, and honorable mention awards may be withheld by the judges if in their opinion the exhibit is not worthy. If a blue ribbon (first place) has been awarded in a class eligible for an ADS ribbon, the ADS Award may not be withheld.
- 18. Any report of an error shall be directed to the Show Chair, who will refer it to the panel of judges responsible for the award. If the judges are unavailable, the Show Chair shall make the final decision as to the validity of the reported error.
- 19. The decision of the judges is final. If an error is discovered in an exhibit after completion of judging, any award placed thereon (ADS, Special, or Ribbon) shall be forfeited by the exhibitor. If an error is discovered before the judging is completed, the class must be rejudged.

#### MISCELLANEOUS

FOLIAGE

TOTAL

Condition Color

- 20. The Show Committee reserves the right to subdivide classes by cultivar or color code when there are three or more worthy exhibits of the same cultivar or color code and if a sufficient number of worthy exhibits is left in the class. Species may be subdivided by their botanical sections. No-Name Classes (Section P) may be divided by other criteria.
- 21. The Royal Horticultural Society System of Classification will be used. The labeling authority is *Daffodils to Show and Grow* as amended each year in the December ADS *Daffodil Journal* supplemented by the latest printout of the ADS *Daffodil Data Bank*.

#### HORTICULTURE DIVISION

 Royal Horticultural Society System of Classification

 Color Coding Authority: Daffodils to Show and Grow,

 2002 Edition Supplemented by the ADS Data Bank

 "Predominately" means at least 2 adjacent zones must

 be coded the same designated color.

 "Reverse bicolor" has a predominately white cup.

The words, "cup pink", etc., define classes where that color is solid, 2W-P, or present in 2 adjacent zones, 2W-GPP. The words, "pink in cup", etc., are used for classes that include both solid and rimmed cups of the same color.

Section A— Single Stem

Section B— Three Stems, One Cultivar or Species Section C— Small Growers Section-Open to anyone growing 50 or fewer standard cultivars and/ or species. All entries are standard

single stem. Section D— Single Stem, Miniature Daffodils

Section E— Three Stems, One Cultivar or Species of Miniature Daffodils

#### DIVISION 13 - DAFFODILS DISTINGUISHED SOLELY BY BOTANICAL NAME.

**SECTION TAPEINANTHUS** Autumn flowering; one to four flowers to a rounded stem; leaves very narrow, glaucous, not always present on flowering bulbs; flower ascending, yellow; corona absent or rudimentary; anthers widely exserted from the tube, much shorter than the filaments, dorsifixed.

**SECTION SEROTINI** Autumn flowering; usually one to two flowers to a rounded stem; leaves very narrow, glaucous, not always present on flowering bulbs; perianth segments pure white, usually twisted; corona very short, yellow, orange, or green; anthers included in or slightly exserted from the tube, longer than the filaments, dorsifixed; flowers fragrant.

**SECTION AURELIA** Autumn flowering; three to twelve flowers to a compressed stem; leaves flat,not channeled, glaucous; flowers white; corona rudimentary or absent; filaments unequal in length; anthers exserted from the tube, dorsifixed; flowers fragrant.

**SECTION TAZETTAE** Autumn to spring flowering; three (rarely two) to twenty flowers to a usually compressed stem; leaves flat or channeled, usually glaucous; flowers white, yellow, or bicolored; anthers included in or slightly exserted from the tube, much longer than the fila ments, dorsifixed; flowers fragrant. The rounded stem and green leaves of *N. aureus* atypical, also the orange corona of *N. elegans.* 

**SECTION NARCISSUS** Spring flowering; usually one flower (exceptionally two to four) to a compressed stem; leaves flat, not channeled, glaucous; perianth segments pure white; corona disc-shaped or very shallow, sometimes of a single color, but usually with base green, mid-zone yellow, and rim red or orange and often scarious; anthers partly exserted from the tube, much longer than the filaments, dorsifixed; flowers fragrant. This section covers *N. poeticus.* 

**SECTION JONQUILLA** Spring flowering; one to five (rarely eight) flowers to a rounded stem; leaves narrow or semi-cylindrical, green; flowers yellow, never white; perianth segments spreading or reflexed; corona usually cup-shaped, usually wider than long; anthers included in or partly exserted from the tube, much longer than the filaments, dorsifixed; flowers fragrant. The autumn flowering, green-flowered *N. viridiflorus* is atypical.

**SECTION APODANTHI** Spring flowering; one flower or two to five to a somewhat compressed stem; leaves narrow, channeled, glaucous; flowers white or yellow, never bicolored; perianth segments spreading or slightly reflexed; corona cup-shaped, funnel-shaped, or flared, usually wider than long; anthers included in the tube, or three included and three exserted, much longer than the filaments, dorsifixed.

**SECTION GANYMEDES** Spring flowering; one flower or two to six to an elliptical or cylindrical stem; flowers pendent, white, yellow, or somewhat bicolored; leaves flat or semi-cylindrical; perianth segments reflexed; corona cup-shaped (rarely campanulate); anthers three included in the tube, three exserted (often beyond the corona), equal to or much shorter than the filaments, dorsifixed. This section covers *N. triandrus.* 

**SECTION BULBOCODIUM** Autumn to spring flowering; one flower to a rounded stem; leaves narrow, semi-cylindrical; flowers white or yellow; perianth segments insignificant compared with the dominant corona; anthers widely exserted from the tube (often beyond the corona), much shorter than the filaments (which are usually curved), dorsifixed.

**SECTION PSEUDONARCISSUS** Spring flowering; usually one flower to a more or less compressed or sometimes rounded stem; leaves flat or channeled, usually glaucous; flowers white, yellow, or bicolored; perianth segments usually spreading or inflexed; corona more or less cylindrical, often flared at mouth, yellow or white (never orange or red); anthers exserted from the tube, equal to or shorter than the filaments, sub-basifixed. The green leaves, rounded stem, and strongly reflexed perianth segments of *N. cyclamineus* and the two to four flowers to a stem of *N. longispathus* and *N. nevadensis* are atypical.

**WILD HYBRIDS** Natural hybrids distinguished by botanical names are also assigned to this division.

#### ROYAL HORTICULTURAL SOCIETY SYSTEM OF CLASSIFICATION

For garden purposes, daffodils are classified in 13 divisions where the division number specifies the form and the letters (color code) specify the colors. For example:

1 W-Y = a trumpet daffodil with white perianth segments ("petals") and yellow corona ("trumpet"). 2 Y-YYO = a large-cupped daffodil, all yellow except for a band of orange at corona ("cup") rim. 11b W-O/Y/W = a papillon daffodil with white perianth segments and longitudinal hands of orange, yellow and white in the corona, with orange predominant.

Whether of wild or cultivated origin, once a selection has been distinguished by a cultivar name, it should be assigned to Divisions 1-12. Daffodils distinguished solely by botanical name should be assigned to Division 13.

The characteristics for Divisions 5 to 10 are given for guidance only; they are not all necessarily expected to be present in every cultivar assigned to those divisions.

- **DIVISION 1- TRUMPET DAFFODIL CULTIVARS.** One flower to a stem; corona ("trumpet") as long as or longer than the perianth segments ("petals").
- **DIVISION 2 -LARGE-CUPPED DAFFODIL CULTIVARS.** One flower to a stem; corona ("cup") more than one-third, but less than equal to the length of the perianth segments ("petals").
- **DIVISION 3-SMALL-CUPPED DAFFODIL CULTIVARS.** One flower to a stem; corona ("cup") not more than one-third the length of the perianth segments ("petals").

**DIVISION 4-DOUBLE DAFFODIL CULTIVARS.** One or more flowers to a stem, with doubling of the perianth segments or the corona or both.

**DIVISION 5-TRIANDRUS DAFFODIL CULTIVARS.** Characteristics of *N. triandrus* clearly evident; usually two or more pendent flowers to a stem; perianth segments reflexed.

- **DIVISION 6-CYCLAMINEUS DAFFODIL CULTIVARS.** Characteristics of *N. cyclamineus* clearly evident: one flower to a stem; perianth segments significantly reflexed; flower at an acute angle to the stem, with a very short pedicel ("neck").
- **DIVISION 7 -JONQUILLA AND APODANTHUS CULTIVARS.** Characteristics of Sections Jonquilla or Apodanthi clearly evident: one to five (rarely eight) flowers to a stem; perianth segments spreading or reflexed; corona cup-shaped, funnel-shaped, or flared, usually wider than long; flowers usually fragrant.
- **DIVISION 8 TAZETTA DAFFODIL CULTIVARS.** Characteristics of Section Tazettae clearly evident: usually three to twenty flowers to a stout stem; perianth segments spreading, not reflexed; flowers usually fragrant.
- **DIVISION 9-POETICUS DAFFODIL CULTIVARS.** Characteristics of the *N. poeticus* group: usually one flower to a stem; perianth segments pure white; corona very short or disc-shaped, usually with a green and/or yellow center and a red rim, but sometimes of a single color; flowers usually fragrant.
- **DIVISION 10-BULBOCODIUM DAFFODIL CULTIVARS.** Characteristics of Section Bulbocodium clearly evident: usually one flower to a stem; perianth segments insignificant compared with the dominant corona; anthers dorsifixed (i.e., attached more or less centrally to the filament); filament and style usually curved.
- **DIVISION 11-SPLIT-CORONA DAFFODIL CULTIVARS.** Corona split usually for more than half its length. a) Collar Daffodils. Split-corona daffodils with the corona segments opposite the perianth segments; the corona segments usually in two whorls of three. b) Papillon Daffodils. Split-corona daffodils with the corona segments alternate to the perianth segments; the corona segments usually in a single whorl of six.
- **DIVISION 12-OTHER DAFFODIL CULTIVARS.** Daffodil cultivars which do not fit the definition of any other division.

DIVISION 4 DOUBLE DAFFODIL CULTIVARS           One Bloom to a Stem           Yellow perianth, petaloids orange/red           Yellow perianth, petaloids orange/red           Yellow perianth, petaloids orange/red           White perianth, petaloids pink           White perianth, petaloids yellow           White perianth, petaloids yellow           White perianth, petaloids white           More than One Bloom to a Stem           Yellow perianth, petaloids vellow           More than One Bloom to a Stem           Yellow perianth, petaloids orange/red           White perianth, petaloids orange/red           White perianth, petaloids vellow           Yellow perianth, up orange/red           Yellow perianth, up orange/red           White perianth, up orange/red           White perianth, up wellow cup           White perianth, up vellow           Yellow perianth, cup orange/red           Yellow perianth, cup orange/red           Yellow perianth, pink in cup           Yellow perianth, pink in cup <th>118 119 120 121 122 123 124 125 126 127 128</th> <th>174</th> <th>188</th> <th>201</th>	118 119 120 121 122 123 124 125 126 127 128	174	188	201

	NO-NAME DAFFODILS The cultivar name may be forgotten, lost, or never
	It the daffodil is pretty and worth displaying. (Not eligible for ADS awards.)
299	Single stem, any division
Section Q	HYBRIDIZING INNOVATION Entries in this class will be judged on the
	scale: Fifty points for innovation with the other fifty points being the ADS scale
following	/ two. Miniatures, intermediates and standard cultivars are eligible. The entrar
following a divided by	when the innovation on a 3x5 card that accompanies the entry. The flower that
following s divided by must desc	ribe the innovation on a 3x5 card that accompanies the entry. The flower that class will not be eligible for ADS awards. Note: These proposed conditions for
following divided by must deso wins this	ribe the innovation on a 3x5 card that accompanies the entry. The flower that class will not be eligible for ADS awards. Note: These proposed conditions for break several ADS rules, but it's a first, let's see how it goes.

#### **PHOTOGRAPHY DIVISION - Cincinnati Only** RULES: 1. All exhibitors must bring their entries to the show room at The Cincinnati Zoo on Saturday Morning, April 7, between 7:30AM and 11AM. The entries must be picked up on Sunday, April 8, 5 PM. Local entries may be delivered to the Show Chairman anytime prior to 6PM on Friday, April 6, by prior arrangement with the Show Chairman. Arrangements can also be made at that time for picking up the photos during the week after the show. All entries not picked up by the end of the show on Sunday (or without prior arrangements) will become the property of the Southwestern Ohio Daffodil Society and may be used in future displays and publications. 2. All entries must be the work of the exhibitor and must contain images of one or more daffodils in the photograph as designated by the class entered. 3. Photographers may be amateur, professional, or youth and will be subdivided accordingly. 4. Exhibitors may enter not more than two (2) photographs per class, entries may not have won awards in a SWODS daffodil show. 5. All photos will be a minimum of approximately 8 x 10 and mounted on an 11 x 14 mounting board or foam core board. Photos may be matted but may not exceed 11 x 14 inches. (No glass or frames allowed.) Exception is Class 6, where 4 x 6 is the maximum size of any photo, with the mounting board not to exceed 16 x 20, including any matting. 6. All entries must contain the following information on the back of the entry: name, address, phone number, class entered, level of expertise, i.e., amateur, professional or youth, and the name of the daffodil cultivar if known. 7. Each class will be open to color and monochrome entries, and classes will be subdivided accordingly. 8. Southwestern Ohio Daffodil Society is not responsible for lost or damaged photographs. 9. All entrants must pre-register with the Show Chairman, George McGowan, by March 31, (3003 Cornstalk Rd, Spring Valley, OH 45068-9601; 937-862-4461) CLASSES: 1. Portraits 2. Landscape or garden 3. Daffodils in their natural habitat People and daffodils Abstract or Special Effects 5. 6. Collection of 5 different photos that include one or more daffodils mounted on one board (see Rule 5).
