

**A GREETING** from **OAKWOOD**:

**July 2013**

. Welcome (at last!) to Oakwood Daffodils 29<sup>th</sup> annual listing of Midwestern grown, bred and acclimatized daffodil bulbs. It is appropriate that my new 2W-R **AT LAST** is in this list. Contributing to the lateness of this list is a total left knee replacement done late this winter. It was very successful but recuperation time was long. We have a new puppy, Rusty, a Goldendoodle, replacing our wonderful Cocker Spaniel and Scottish Terrier that finally lost their battles with cancer.

The annual Oakwood Bulb Dig was very successful with 20 rows now open for new seedling selections. I have tried to include more useful show flowers that have not been listed for some time now. These include scarce varieties from American breeders: Roese, Wheatly, Dietsch and Bender. Of special note this year is my first selection from LaPaloma x My Sweetheart, appropriately named for Oakwood's new sweetheart, Macilynn, Chrissy Wagoner's baby daughter.

TO HELP MAKE UP for my lateness, I will offer all purchases before July 15<sup>th</sup> at 10% off. We will continue to take orders up to shipping time but may not be able to supply all bulbs ordered after August 1<sup>st</sup>.

*Best Wishes,  
John Reed, D.O.*

### **INSTRUCTIONS FOR ORDERING**

1. All orders must be received by **August 1, 2013** to be assured that bulbs will be available. **AFTER THAT DATE**, up until shipping has started, orders will be accepted and filled according to availability. You will receive an acknowledgment of your order as they are processed this year, either by e-mail or phone call, if we have your e-mail address or phone number.
  2. Please make checks payable to: **OAKWOOD DAFFODILS**. If you sent money for your catalog, it will be credited to your account when you place an order. We are sorry that we had to do this, but due to rising costs of using them, we are unable to take any credit cards.
  3. Bulbs will be shipped via USPS, unless otherwise specified, so please include your **COMPLETE** shipping address. We are basing our shipping charges on the cost of the USPS medium flat rate box. This has been our most common box size over the last few years. As usual, we always give gratis bulbs with your orders. For those smaller orders, we will give additional free bulbs to compensate for the additional shipping charge. If you have any concerns or problems with this please let us know. This is being done to simplify the shipping expenses to you. Overseas shipping will be billed at cost, plus the phytosanitary certificate and inspection costs.
  4. Bulb shipments will hopefully be finished by the third week of September, sooner, if possible. Please specify if you require a particular shipping date.
  5. Visitors are welcome, but please make arrangements ahead of time to avoid disappointment due to variation in bloom time or unfavorable weather.
- TELEPHONE *and* FAX: (269) 684-3327                      E-Mail: [\*\*oakwooddaff@hughes.net\*\*](mailto:oakwooddaff@hughes.net)
6. You will receive information about planting and care for your bulbs with your order. Please note that they should be in a location that receives natural rainfall and that does not puddle up!
  7. The format used in this catalog lists the Registered Daffodil name first. This is followed by the classification and color code, then the hybridizer and country of origin. After the description, the seed parent and the pollen parent are listed, then it's flowering time, and then the price for each bulb.

## NEW INTRODUCTIONS for OAKWOOD DAFFODILS 2013

### AT LAST 2W-R (Dr. John Reed, USA)

This was the best selection from the crosses made from Fragrant Rose x Culmination. It was also the latest flowering and the slowest to increase here, hence the name. Bright red open cups show well against very white, wide, smooth, overlapping petals and the flowers face upwards. Fertile. A must for late shows. Was Reed 90-95-2.

**Fragrant Rose x Culmination** **Late Season** **\$ 55.00**

### CAPTAIN AMERICA 2W-R (Dr. John Reed, USA)

Appropriately named for a super hero. Tall stems and wide petals are a foil for an amazing large deep red cup. It can be shown. Striking in the garden. Pollen is fertile and occasionally sets seed, too. See DaffSeek photos. Wind protection gives smoother, taller blooms the red color fades with time, especially in the sun. Was Reed 95-5-1.

**Cordial x Magician** **Midseason** **\$ 60.00**

### CHICAGO GOLD COAST 1Y-Y

Named for the ritzy area of Lakeshore Drive in Chicago with very high priced apartments and homes. This flower is similar to Chicago Gold but slightly deeper in color and the petals are not as wide. Stock has increased enough to finally offer it. An excellent show flower of medium size. Was Reed 93-1-7.,

**Celtic Gold x Dream Prince** **Early Midseason** **\$ 20.00**

### COPPER MINE 2O-O (Dr. John Reed, USA)

When initially seen I was hard-pressed to code the petal color. Not a yellow but not a true red either. The flower has become bigger, stronger and brighter as the stock as grown. Still scarce but very desirable for show and breeding. Tall stems and large flowers guide your eyes to it! Was Reed 97-104-1. Very few to go.

**Cowboy x Burning Bush** **Midseason** **\$ 90.00**

### EDIE 2W-P (Dr. John Reed, USA)

Named for our wonderful daffodil helper, Edie Godfrey. She has been there to help, especially with sending out orders. Edie actually was at my bedside to help when I had a pulmonary embolism. This is my first very pure pink cup named from Lavender Hope. The stems are long, supporting pure pink cups against white overlapping petals. It is showable and fertile. This is the flower you want if you desire REAL, in this climate, pink color. Stock is still small. Was Reed 97-76-1.

**Lawless x Lavender Hope** **Midseason** **\$ 45.00**

### HELEN'S MEMORY 3W-Y (Dr. John Reed, USA)

A beautiful flower with intense colors. It is hard to believe this came from Grace Note! Smooth flat, overlapping perianth segments display the brilliant yellow crinkled cup. Blooms can be quite large and all have strong stems with good necks. Was Reed 90-69-11.

**Grace Note x Dunkley Hall** **Late Season** **\$ 24.00**

### HEAVEN'S GATE 2W-P (Dr. John Reed, USA)

This daffodil is all about color. Flamboyant looking rose-red, narrow corona with an expanding circular edge giving it the appearance of a trumpet. See picture on DaffSeek. The petals are well formed and overlapping with strong stems supporting large blooms with good poise. Was Reed 95-115-1. Stock still small. Unique.

**Magician x Rosewood** **Midseason** **\$ 55.00**

### JASPER MILLS 2Y-ORR (Donna Dietsch, USA)

Donna was nice enough to give me this variety quite a few years ago. It is a strong grower. Very sun-resistant too. For show and garden. Photo is in DaffSeek. Small stock.

**Flaming Spring x Caracas** **Early Midseason** **\$ 15.00**

### KOOP 1Y-O (Dr. John Reed, USA)

This small orange trumpet had a flag next to it after the 2008 ADS National Show bus trip visited after the 2008 Show. The flag said Koop because Dr. Koopowitz liked it and put his abbreviated name to it! The name stayed with it and was registered "Koop" in his honor. The flower is apparently an intermediate and vigorous. Quite smooth with over-lapping petals. May be a useful breeder? Stock is small yet. Was Reed 97-47-1.

**Trumpet Call x Bailey** **Midseason** **\$ 30.00**

**LAKE SUPERIOR** 1W-Y (Dr. John Reed, USA)

This is the most consistent show quality flower 1W-Y that I have named so far. Shown twice, it has been a Rose Ribbon winner and a Best in Show. Lake Superior is the largest of the Great Lakes and this daffodil is so named! Alas, it has been a slow increaser but always smooth. Great colors, substance, smoothness, poise. See Tom Stettner's photo on DaffSeek. Fertile both ways. Price is high, reflecting its scarceness and desirability. Only 3 to go this year. Was Reed 98-26-16.

**(Irish Mist x Flash Affair) x Three Oaks** **Early Midseason** **\$ 90.00**

**LEMON DREAM** 1Y-Y (Dr. John Reed, USA) Name pending registration.

A beautifully smooth show bloom. Medium sized. Healthy. Increase slower than the average, overlapping petals with lovely form. Its color is a "Lemon Dream". 1993 cross.

**Dream Prince x ?** **Early Midseason** **\$ 38.00**

**MACILYNN** 3W-YYR (Dr. John Reed, USA)

It seemed logical to cross the vigorous and colorful My Sweetheart with LaPaloma. This is possibly the best all-around show flower of the seven selections kept. It is named for Oakwood's own sweetheart Chrissy Wagoner's little baby. This is a vigorous grower and increaser! Was Reed 95-34-2.

**LaPaloma x My Sweetheart** **Midseason** **\$ 30.00**

**MEMORIAL DAY** 2W-P (Dr. John Reed, USA)

Named in honor of the Memorial Day daffodil dig that has become a tradition here, sharing our unwanted bulbs with the daffodil clubs in exchange for digging them. A late smooth, large, pink with excellent vigor increase and show quality. Blooms held on strong stems. Was Reed 90-75-3.

**Everpink x Kerstin** **Late Midseason** **\$ 15.00**

**MIGHTY MITE** 1YYG-Y (Dr. John Reed, USA)

Many hundreds of seedlings were raised from this cross giving standard sized blooms and smaller intermediate ones. This has been the best show intermediate yellow trumpet I have raised, albeits increase has been slow. The plants have been healthy and fertile both ways. See the photo on DaffSeek. Very limited stock, only 3 to go. Was Reed 2010 selection #5.

**Celtic Gold x Dream Prince** **Early Midseason** **\$ 90.00**

**PEACEFUL HOLLOW** 6Y-O (Dr. John Reed, USA) Name pending registration.

A sibling to Wayne's World. It has drawn praise from several ADS judges. Smooth and well-formed but slightly larger than Wayne's World. Also slow growing! Well swept-back petals sport an orange, medium length corona. Stock is small. Was Reed 84-49-2.

**Monal x N. cyclamineus** **Early Season** **\$ 24.00**

**PINK SUN** 2Y-P (Charles, Wheatly, USA)

Rarely seen, I now have enough of this distinctive show flower to offer it. The best yellow-pink from Charles. It has excellent petals, smooth, overlapping and almost touching showing off a deep pink trumpet shaped, large cup. Stems are strong and poise is excellent. Colors vary with the prevailing weather, especially moisture. An excellent breeder for me. Was Wheatly 87-150-2.

**Troupial x Dailmanich ??** **Midseason** **\$ 24.00**

**RAMALLAH** 1Y-Y (Dr. John Reed, USA)

Every bloom is fit to show. The blooms show just above the leaf tips with lasting power on the stem. Chosen to honor a fellow physician, Dr. Salous from Palestine. This is the name of his home town. Well balanced, pleasant show blooms. See photo on Daffnet from the Chicago 2013 show. Was Reed 93-1-23.

**Celtic Gold x Dream Prince** **Early Midseason** **\$ 24.00**

**SMOOTH TRUMPET** 1W-Y (Charles, Wheatly, USA)

Its name says it all. The wide, white, overlapping petals are very smooth. The light-yellow trumpet is long and elegantly shaped. Poise, stem and neck are excellent. It is still very rare. I have been building up my stock for over 10 years. A show flower of the highest caliber. Small stock.

**Breeding not known** **Midseason** **\$ 24.00**

**OAKWOOD's GENERAL LISTING**

**AL LAUREYS** 3Y-R (Dr. John Reed, USA)

This is the finest deeply colored small cupped 3Y-R I have flowered. Of smaller size, the smooth flat perianth segments are positioned in the same plane with excellent poise. Named for Al Laurey's a friend that helped me so much with the daffodils for 10 years. Al was always there when I needed him. Though of slight build his heart was huge and the best! Was Reed 92-106-1. Stock is still small but growing well.

**Sabine Silk x ?** **Late Midseason** **\$ 29.00**

**AMAZING GRACE** 2W-P (B S Duncan, N IRE)

One of Brian's better large pinks. A consistent show flower.

**Naivasha x Tyrian Rose** **Midseason** **\$ 8.00**

**AMERICAN GOLD** 1Y-Y (Dr. John Reed, USA)

A tall, robust, smooth yellow trumpet that shouts out that it is the best. Named for the Gold Medals won by American athletes in the last Olympics. Outstanding poise, overlap, smoothness, color and size make it easy to identify in the field. Was Reed 93-1-23.

**Celtic Gold x Dream Prince** **Early Season** **\$ 20.00**

**AMERICAN HERO** 2W-R (Dr. John Reed, USA)

9-11 and since has shown us the patriotism that our fire, police, medics and military give to our country and us on a daily basis. This flower is a bold statement of appreciation for their sacrifices. A truly unique daffodil with tall stems, large flowers with a long corona of dramatic coloring and poise. It is marvelous to view in a well-grown clump. For show and Garden. (I wish it could flower on the Fourth of July, too). Simply breath-taking! Was Reed 89-50-1.

**Culmination x Ruby Red** **Late Midseason** **\$ 9.00**

**AMERICAN IDOL** 2W-R (Dr. John Reed, USA)

This is that most vigorous selection from the cross of Quasar and Culmination. It is very healthy, free flowering with large flowers are displayed on tall strong stems. With its wide smooth flat perianth, it can be shown and is marvelous in the garden too. Was Reed 93-10-4.

**Quasar x Culmination** **Early Midseason** **\$ 13.00**

**AMERICAN REVOLUTION** 2Y-R (Bill Pannill, USA)

Dave Sheppard and I formed a close friendship when we met at my first ADS Convention in 1977. After visiting Oakwood he offered me a Bill Pannill seedling that he felt would be of value in my breeding program. I was shocked to see the intense red color in its trumpet-shaped corona. I wondered if I could stretch that red corona to a full trumpet with breeding and I did. The color of the first seedlings were amazing including one with a copper-tone perianth and a deep red trumpet. This Pannill seedling started an American Revolution in my breeding of orange trumpets. A striking flower for garden and breeding. Named with the permission of Bill Pannill. Was Pannill XX351

**Uncle Remis x Javelin** **Midseason** **\$ 5.00**

**AMERICAN SHOWGIRL** 2W-P (Dr. John Reed, USA)

A well-poised, tall, very smooth show flower. Considered my best show pink by many ADS Judges. Very healthy and a strong grower. Was Reed seedling 90-95-1.

**Fragrant Rose x Culmination** **Late Midseason** **\$ 12.00**

**ARLEY KINGS** 2W-GWW (J S B Lea, UK)

An excellent tall white show flower with smooth, chalky white petals and corona. It is vigorous and dependable here.

**Misty Glen x Croila** **Midseason** **\$ 4.00**

**ASHTON WOLD** 2W-W (AJR Pearson, UK)

Many show awards in the UK. Beautiful flowers.

**Stoke Charity x Panache** **Midseason** **\$ 8.00**

**BACK FLASH** 2W-YYO (Dr. John Reed, USA)

An excellent flower for show and garden. Vigorous. It may exhibit an orange rim at times. Was Reed 81-21-1.

**Green Island x Flash Affair** **Midseason** **\$ 9.00**

**BARNESGOLD** 1Y-Y (B S Duncan, N IRE)

I prefer this of all of Brian's yellow trumpets. It is the parent of my best dark gold trumpet to date. Tall stems support rounded flowers with excellent poise.

**Golden Jewel x Midas Touch** **Late Midseason** **\$ 7.00**

**BERCEUSE** 2W-P (G. Mitsch, USA)

For show and a fine garden plant. A strong grower and floriferous.

**Melody Lane x Rose Caprice) x (Carita x Accent)**  
**Midseason** **\$ 5.00**

**BERTRAND GOLD** 2Y-Y (Dr. John Reed, USA)

Three selections from this cross were kept and the others given away. The first selection was Pacific Gold and the slowest increaser. This one is the best increaser and was admired by several judges when visiting Oakwood. "Gorgeous" was written on its flag by one of them. Tall, strong stems with flowers of great show form that are very smooth and looks up at you. Was Reed 84-5-5. It is interesting to note that Peter Ramsey's best 2Y-Y to date is from the reciprocal cross! And Eddy Jarmon's RHS award winner Happy Valley 2Y-Y is from the same cross, too.

**Golden Jewel x Gold Convention** **Early Midseason** **\$ 6.00**

**BIG MO** 1Y-Y (Dr. John Reed, USA)

The finest flower from a prolific small cross. Very smooth, large blooms verging on a subtle shade of orange as the flowers age. It has had good reviews from Ohio and New Zealand, too. Named for my father, M.O. Reed (Mo) and the greatest United States battleship, The USS Missouri. A top quality show bloom. A slower increaser than its sibling Dr. David Hough. Stock is still small. Was Reed 83-40-1.

**Gold Bullion x Gold Convention** **Midseason** **Withdrawn for Increase**

**BRIER GLASS** 2W-GWW (John Lea, UK)

A very white round early show flower. Parent of David Adams for Charles Wheatley.

**Ashmore x Croila** **Early Midseason** **\$ 4.00**

**BUCHANAN** 6W-GWW (Dr. John Reed, USA)

A lovely early all-white for show and garden. While it changes colors, it usually can be shown as an all-white. Named for the Michigan town that I first practiced in. Stock is still small, a slow increaser, but healthy. Was Reed 84-101-2

**Broomhill x N. cyclamineus** **Early Season** **\$ 10.00**

**BURNING BUSH** 3Y-R (Brian Duncan, No IRE)

A truly outstanding daffodil for the garden and show. Intense colors and long stems make it a standout. Proving to be a good parent and an excellent show flower. Makes smaller bulbs. My favorite Brian Duncan daffodil.

**(Richhill x Bunclody) x (Altruist x Ulster Bank)** **Late Midseason** **\$ 4.00**

**BUTLER UNIVERSITY** 3Y-R (Dr. John Reed, USA)

Considered one of my best 3Y-Rs. It has **tall, strong** stems with excellent large show flowers. They are smooth with heavy substance and excellent poise. Was Reed 92-80-2.

**Kinsman x Suntory** **Midseason** **\$ 16.00**

**BUTTER SILK** 2Y-Y (Dr. John Reed, USA)

I was taken by this flower's bright yellow color and extreme petal smoothness when I first saw it, hence the name. It has excellent petal overlap and a strong medium length stem. Admired by Larry Weir last year at his place. It is giving excellent seedlings including my best ever pale 1Y-Y for show. Was seedling 92-22-1.

**Camelot x Dream Prince** **Early Midseason** **\$ 17.00**

**CABERNET** 2W-GPP (Brian S Duncan, No IRE)

A seldom seen show flower with an unusual deeper shade of pink. It is breeding orange-pinks for me.

**Fragrant Rose x Pol Dornie** **Late Midseason** **\$ 7.00**

**CAMEO GOSSIP** 2Y-R (ME [Spud] Brogden, NZ)

Tall vigorous colorful. Can be shown at times. Limited Stock.

**Red Cameo x Kiwi Gossip** **Midseason** **\$ 6.00**

**CAMEO KING 2W-W** (Peter Ramsey, New Zealand)

One of Peter's finest whites for show with great vigor and tall stems. See DaffSeek photo. Small stock.

**Cool Crystal x Immaculate** **Late Season** **\$ 8.00**

**CANTICLE 9W-GYR** (Ballydorn Bulb Farm, No IRE)

Excellent poet for show and garden. Very smooth and consistent.

**Cantabile x ?** **Late Midseason** **\$ 8.00**

**CANDY BAR 2W-YOO** (Colin Crotty, NZ)

One of Colin Crotty's most vigorous seedlings growing here. I love it! The stems are strong and support very smooth, out-facing blooms with bowl-shaped corona.

**??** **Very Late Midseason Here** **\$ 5.00**

**CANDY MAN 2W-R** (Dr. John Reed, USA)

From the cross that gave American Hero, this daffodil is not formal enough for show but it beckons you with its intense color and tall stems, attracting people like a candy man does. Breeding intense color! Was Reed 89-50-2. Stock is still small.

**Culmination x Ruby Red** **Late Season** **\$ 10.00**

**CARROT JUICE 10-O** (Dr. John Reed, USA)

I could not take my eyes off this when it first flowered. While smaller than average its petals were a uniform shade of light orange. I could see no yellow in the petals with my eyes. This is not a suffusion or a sheen. While this is not a top show flower, it is showable at its best. It is a real color break and its color is being passed on to its seedlings which are of a higher quality, too! Was seedling 96-18-1.

**78-17-3N (Trumpet Call x Orange Way) x 82-108-4 (Zuni x Glenfarclas)**  
**Early Midseason** **\$30.00**

**CARROT TOP 2W-O** (Dr. John Reed, USA)

This zany name was chosen by Gerard Knehans who was impressed with it in his Missouri garden. The long corona has a moderate orange color that intensifies as it ages hence the name. The petals overlap well but are a bit rough and the stems arch as it ages. Healthy and a good grower/seeder. Breeding 1W-Os. Smaller blooms will measure division one. Was Reed 80-129-1.

**Preamble x Johann Strauss** **Early Midseason** **\$ 5.00**

**CASSOPOLIS 2Y-R** (Dr. John Reed, USA)

Probably my best 2Y-R, this is a well-engineered daffodil with an exemplary smooth very flat wide perianth supported by a strong stem and neck. A row of blooms is almost military-like in their bearing. Alas, the deep colored cylinder-like cup burns easily and needs protection for show. It can flush the petals with red at times. Named for a local Michigan town where I have purchased my Ford trucks. Was Reed seedling 82-200-3.

**(Air Marshall x Caracas) x Creagh Dubh** **Early Midseason** **\$ 6.00**

**CEDAR HILLS 3W-GYY** (Mitsch & Havens, USA)

This sets the standard for beauty and quality in the late division threes. A show and garden flower of the highest caliber. Tall stems support the large flowers with excellent poise.

**Impala x Green Hills** **Very Late Season** **\$ 5.00**

**CELESTIAL FLAME 2W-GRR** (Dr. John Reed, USA)

When this first flowered it looked like a gift from heaven with its smooth, pure, white, overlapping, perianth segments, in a perfect plane, and a cup of intense, bright red that develops its color over a day or two. Its form and vigor are inherited from Quasar and the refinement from Refrain. This was my best show quality 2W-R until I flowered seedlings from it. It is now producing most of my best show 2W-Rs, including Red Passion.

**Quasar x Refrain** **Midseason** **\$ 7.00**

**CELTIC PRINCE 1Y-Y** (Dr. John Reed, USA)

This smaller 1Y-Y, possibly an intermediate has consistently given superb well-formed yellow flowers while being down for 8 years. It has freely open pollinated every year! Perhaps because the bees like it so well, too? This is from the reciprocal cross of Millennium Perfection. Stock is still small. Was Seedling 87-40-2.

**Dream Prince x Celtic Gold** **Early Midseason** **\$19.00**

**CHANGING DAY** 1Y-R Dr. John Reed, USA

An outstanding advance in yellow-red show quality trumpets. When it first flowered I knew it was a "Changing Day" in my breeding of red trumpets. Its perianth form is always superb and the colors are usually excellent. Bred from 2 seedlings chosen for color and form. See photo on DaffSeek. Was seedling 98-105-1. Few to go this year.

**Turk x 89-122-5 [(Glenfarclas x 81-7-1) x (Vulcan x Sutton Court)]**

**Early Midseason \$ 65.00**

**CHARLIE CONNOR** 1Y-O (John Pearson, UK)

A very smooth show bloom. Its color has been variable here but great in the UK! Scarce. Fertile both ways.

**Glenfarclas x Uncle Duncan**

**Early Midseason \$ 6.00**

**CHICAGO GOLD** 1Y-Y (Dr. John Reed, USA)

The original label states Ultra Smooth and Deep Gold. It has consistently done this since its first flowering here. Of the highest quality for exhibition, and also for the garden and breeding. The flowers are smaller than average. I find myself staring at it when I walk by it, even when the flowers are gone! Named in honor of the helpful members of the Chicago Daffodil Society. Stock is still small. Was Reed 93-1-2.

**Celtic Gold x Dream Prince**

**Early Season \$ 12.00**

**CHICAGO HOPE** 1Y-GYY (Dr. John Reed, USA)

The name says it all. Besides using the famous TV show's title, I had hoped that it would win the Rose Ribbon when shown some years ago in Chicago. But that honor went to a sibling of Haunting. It is a well-balanced, medium sized, smooth yellow trumpet capable of giving superb blooms. The smooth overlapping wide petals were inherited from Dream Prince and the vigor imparted from Golden Jewel. Proving to be a very good breeder, too. Was Reed 85-7-2. Few available.

**Golden Jewel x Dream Prince**

**Early Midseason \$ 9.00**

**CHILOQUIN** 1Y-W (Grant Mitsch, USA)

A vigorous show bloom that does well in the garden. Floriferous.

**Bethany or Limeade o.p.**

**Midseason \$ 4.00**

**CHINA DOLL** 2W-WWP (Clive Postles, UK)

A rarely offered show flower.

**Lea Seedling x Dailmanach**

**Late Midseason \$ 5.00**

**CHIQUITA** 2W-GPP (Murray Evans, USA)

Almost a division 3. This has given me many fine flowers and interesting colors. A great breeder for color. DaffSeek. ADS Classic.

**(Interim x Green Island) x Caro Nome**

**Late Season \$ 4.00**

**COCKATIEL** 2W-WPW (Grant Mitsch, USA)

A most startling flower when first seen in Grant's flower garage. Nothing else like it. Can be shown. Scarce.

**Precedent x (Caro Nome x Carita)**

**Midseason \$ 5.00**

**COLOMA** 1Y-P (Dr. John Reed, USA)

Dave Karnstedt made this cross for me while visiting in 1993 using my entire stock of Memento. I was stuck working in the emergency room that weekend. By using Memento as the seed parent, its stem stayed longer. This is the most consistent of all the clones saved. It has large flowers with tall stems, excellent poise, and smooth overlapping petals. The colors are medium in most season, but can be intense occasionally. It is taller and earlier here than American Dream. Was seedling 93-9-4. Named for the small Michigan town north of us where our tax accountant lives.

**Memento x Magician**

**Early Midseason \$20.00**

**COMMODORE PERRY** 1W-GPP (Dr. John Reed, USA)

Such a perfect flower had to be near the highest level in the chain-of-command. An American hero with a great American daffodil named for him. While of smaller size it is almost perfect, with a flat smooth overlapping perianth and a light pink evenly expanded trumpet. One of the down under breeders, after seeing the photo (shown in our ADS ad) said that it must be the most perfect 1W-P in the world. Bred from a flower John Lea was using in his pink trumpet program, crossed with the best of Jackson's pinks at the time. A marriage made in daffodil heaven and a flower either breeder would be proud to claim. Thank you John and David! Was Reed 87-70-1.

**Lea 1-19-66 x Obsession**

**Early Midseason \$ 20.00**

**COPPER HARBOR** 20-O (Dr. John Reed, USA)

Nothing shines as bright nor as intense as this beauty. On first flowering it reminded me of the color of copper ore from Northern Michigan where my wife Sandy went to school at Michigan Technological University. It can be very smooth but requires protection to do that. Has bred more intensely self-colored flowers including division 1 and 2. A unique treasure. DaffSeek photos do not justice to this flower. Was Reed 94-105-1.

**Rory's Glen x Stylish** **Midseason** **\$ 14.00**

**COPPER QUEEN** 30-R (Brian Duncan, N IRE)

A tall strong vigorous flower. Colors can be intense in moist seasons. Small stock. D1147.

**Altruist x Sabine Hay** **Late Midseason** **\$ 5.00**

**CREATION** 1W-W (G E Mitsch, USA)

This is the most vigorous non-rotting early show quality white trumpet here. The trumpet is flanged and the flower is fertile.

**(Trousseau x Paradise) x (Seedling A39/1 x Panache)** **Early Season** **\$ 6.00**

**CROWN GOLD** 2W-O (R & E Havens, USA)

Sun proof for garden, show and breeding. It has given me white-orange and white-yellow trumpets.

**Gold Crown x Paricutin** **Midseason** **\$ 4.00**

**DAILMYSTIC** 2W-P (Brian Duncan, N IRE)

Smooth show flower with a pale lavender cup color.

**Dailmanach x Cryptic** **Midseason** **\$ 8.00**

**DAVE'S FAVORITE** 2Y-O (Dr. John Reed, USA)

Dave Karnstedt was very fussy about the daffodils that he liked. They needed to point high and be aesthetically beautiful. In other words, approaching perfection! This late 2Y-O is one such flower that Dave seemed to really admire during one of his visits to Oakwood, hence the name. I wish it was more highly colored and have bred it with Burning Bush in hopes of that end. A very high quality show flower. Was Reed 84-142-1.

**Safari x Bunclody** **Late Midseason** **\$ 5.00**

**DAYTON LAKE** 2W-Y (Dr. John Reed, USA)

From an early cross to improve Festivity, this selection was kept. Almost every bloom can go to show. The strong stem has a short neck with upward poise that displays a white perianth, which is very flat and smooth with no incurving. The pleasing mid-yellow cup does not stain the perianth. Fertile both ways. Can be unbelievably good in some years. Was Reed 79-165-1.

**Festivity x Easter Moon** **Midseason** **\$ 4.00**

**DINGUS DAY** 2W-P (Red) (Dr. John Reed, USA)

After flowering the original cross made in 1988, it was repeated with even better results in 1994. This flower has better form and is more consistent in its intense cup color, ranging from deep pink to red-pink. A most imposing flower supported with **tall** stems here. It has been in bloom on Dingus Day (the Monday after Easter Sunday), a Polish holiday celebrated in South Bend, Indiana annually by politicians with beer, Polish sausage, and speeches. Was 94-14-1.

**Dear Me x Culmination** **Early Midseason** **\$27.00**

**DOCTOR HUGH** 3W-GOO (Brian Duncan, N IRE)

Many awards. Tall and the color usually is lighter here. Limited stock of saleable-sized bulbs.

**Mahmoud x Don Carlos** **Late Midseason** **\$ 4.50**

**DOWNLANDS** 3W-Y (Graham Phillips, NZ)

Good show flower. Clean stock. Very limited amount of bulbs. DaffSeek.

**Modulox x Flash Affair** **Late Midseason** **\$ 8.00**

**DYNASTY** 2Y-R (GWE Brogden, NZ)

One of Spuds best show flowers.

**T42 (Air Marshall x Orator) x Loch Hope** **Midseason** **\$ 7.00**

**ENERGIZER 2O-R (Dr. John Reed, USA)**

Early in my breeding I was determined to improve the all orange-red daffodils by breeding and selecting for more color intensity and color "fastness" as they flower here. My early seedlings and those of Brian Duncan's from Altruist would only show a deep perianth color in the best of seasons and none ever showed the intensity that Gypsy or Fiery Flame did in Oregon. Only two selections were kept from this intensely "hot" cross and this one has demonstrated the best combination of form and color resistance here. Hopefully its name says it all. Like the little pink bunny with its beating drums it will energize your spring garden, show table and breeding program. Increase has been slow. Was Reed Seedling 87-6-2.

**Sabine Hay x Stylish** **Early Midseason** **\$ 22.00**

**EVESHAM 3W-GYY (John Lea, England)**

A sibling to Dunley Hall, its stem is taller and the cup a lighter yellow. Many times it has won Best in Show, but seldom seen nor offered now. See photos on DaffSeek. Makes small bulbs. Excellent breeder, too.

**Loch Assynt x Seedling** **Late Midseason** **\$ 5.00**

**EXCALIBUR 2Y-O (John Hunter, NZ)**

A fine show flower and breeder from New Zealand. Limited stock.

**Swordsman x Air Marshall** **Midseason** **\$ 10.00**

**FIRST STEP 6W-O (Dr. John Reed, USA)**

My first 6W-O. Short cupped and color variable but good in recent years. Was seedling 81-23-1.

**Kilworth x Ballydorn 6W-Y seedling** **Late Season** **\$ 4.00**

**FLAMING JEWEL 3W-R (David Bell, NZ)**

Very consistent with lovely blooms. Healthy. One of David's best grown here. Very limited stock.

**Masquarade x Arbar** **Late Midseason** **\$ 9.00**

**FLAMING SILK 1W-R (Dr. John Reed, USA)**

It seemed logical to cross Pink Silk and Magician to get a 1W-R. This is the only one in two cross attempts that measured division 1. The cross was made both ways, too. Magician gave the best flowers as a seed parent. Its color is not the ultimate nor is it consistent, but it is a very good starting point. Strong tall stems support large flowers of show quality with an excellent poise. The bulbs are healthy and it is fertile both ways. Only a few bulbs to go this year because of using it in my breeding program. Was seedling 94-8-1.

**Magician x Pink Silk** **Midseason** **\$ 70.00**

**FLINT ARROW 6Y-O (Richard and Elise Havens, USA)**

Vigorous grower for garden and show. Limited stock.

**Jetfire x Gypsy** **Early Midseason** **\$ 9.00**

**FLINTLOCK 2W-Y (David Jackson, TAS, AU)**

Jackson's best bicolor here. Variable. Capable of Best in Show. Limited Stock.

**Seedling x Seedling** **Midseason** **\$ 16.00**

**FLUSHER 2O-R (Dr. John Reed, USA)**

From my first cross to get an orange-petaled orange trumpet. Two of 120 flowers showed some color in the petals. Alas, the slowest growing one was the best colored one! Of trumpet character and form, it usually has some degree of petal flush. The stems are tall but not as strong as I would like. The corona measures 30 mm and petals 36 mm (Note: most of my daffodils will grow bigger in a protected watered area. All the flowers measured here are grown in the fields). The petals have good overlap and excellent poise. I did not breed with it until I actually flowered a 1O-O. Was Reed 84-79-2.

**Glenfarclas x Creag Dubh** **Early Midseason** **\$14.00**

**FORT MITCHELL 1W-Y (Dr. John Reed, USA)**

Named in honor of the site of the 2002 ADS National Show where it beat many well-known flowers in its single bloom class. Its perfection and smoothness cried out for being exhibited so it was removed from our trade stand to win the single bloom award. It was cut from the open windswept field of 10 acres. It was beautiful with its chaste smooth flat perianth and its mid-yellow trumpet. Every bloom was identical. Very consistent! Was Reed 81-107-1.

**Cool Contrast x ? (possibly Flash Affair)** **Early Midseason** **\$ 6.00**

**FRANZ JACKSON** 2W-O Dr. John Reed, USA

Sibling to Tangerine Delight. It is slightly earlier and a couple millimeters short of a trumpet measurement. Excellent carriage and reasonable form. Named for a Jazz Musician, the father of one of Sandy's friends. Was Reed 98-32-1. Very small stock. Only 3 to go.

**Orange Tint x Lutana** **Early Midseason** **\$ 75.00**

**GALIEN** 2W-Y (Dr. John Reed, USA)

When this cross flowered I was hard pressed to decide which ones to keep. This is the only one of about 200 seedlings that was retained. Its perianth is very smooth with perfectly flat petals in the same plane. The tall flowers support a deep-yellow cup with strong stems and excellent poise, but petals are not wide. Much admired by Mike Berrigan. Growth was slow initially but seems to be improving now. Just cut for show or admire it in the garden. Named for the small local Michigan town near Dayton Lake. Was Reed 79-21-1. Very few to go yet. Being used in breeding now.

**Easter Moon x Chapeau** **Midseason** **\$ 14.00**

**GARBO** 11aY-P (Dr. John Reed, USA)

The second of my yellow-pink split coronas "painted ladies" to be named. Similar to Bacall but smoother with better color. For show and garden. Very attractive. Was Reed 87-63-6.

**Dear Love x Kabonova** **Midseason** **\$ 12.00**

**GARDEN GATE** 3W-YYP (Dr. John Reed, USA)

Excellent, smooth show flower. Yellow fades with time. Was Seedling 86-62-1.

**Fragrant Rose x Kerstin** **Midseason** **\$ 12.00**

**GEOMETRICS** 2W-Y (Sid DuBose, USA)

A beautifully formed show glower. Perhaps Sid's best. Before passing away Sid stated that it had given his best ever 2W-W! Scarce.

**Precedent x Camelot** **Midseason** **\$ 9.00**

**GEORGE GERSHWIN** 2W-O (Dr. John Reed, USA)

In my quest for a 1W-O, this cross was made. One selection actually was a division one but it was terribly weak and discarded. This flower has the best traits and actually did produce a well-formed 1W-O in its offspring. While the perianth is of average quality, the stem, neck, poise, and color are very good. The cup is about 30 mm long and the perianth 35 mm. In the tradition of its pollen parent, a composer's name was chose. This time an American. Formerly Reed 80-129-5.

**Preamble x Johann Strauss** **Midseason** **\$ 5.00**

**GOLD CONVENTION** 2Y-Y (John Lea, UK)

An imposing larger show flower. Still good for show, breeding and garden.

**Seedling x Seedling** **Midseason** **\$ 5.00**

**GOLDEN BIRTHDAY** 2Y-Y (Dr. John Reed, USA)

A lovely, well balanced smooth yellow medium-sized trumpet of the highest show quality. Wide overlapping petals greet the eyes and help to focus on the rest of its outstanding features. Named in honor of the American Daffodil Society's fiftieth anniversary in 2004. See DaffSeek photo. Was Reed 85-7-7.

**Golden Jewel x Dream Prince** **Midseason** **\$ 14.00**

**GOLDEN RICHES** 1Y-Y (David S Bell, NZ)

Almost a self-orange in favorable seasons. For garden and breeding but can be shown.

**(Red Conquest x Golden Fortune) x Salome** **Early Season** **\$ 4.00**

**GREAT JOY** 2W-P Dr. John Reed, USA (Name pending registration)

This flower resulted from my first efforts to bred a 1W-R. Even though it is not a full trumpet, nor red, the plant is vigorous and smooth with tall stems. Cup color can almost be red in some seasons. Very good. Named for Joy Haeffner who has been a great help and Joy for Oakwood. Was Reed 96-3-1. Shown in Kirby Fong's winning collection in 2013. See DaffSeek for a well colored picture.

**Pink Silk x Magician** **Early Midseason** **\$ 30.00**

**GREEN ENVY** 3W-GWW (Dr. John Reed, USA)

Combining the better qualities of its parents, we have a tall, well-formed late white that consistently has a deep, green eye to the small spreading slightly frilled cup. A strong plant that multiplies very well and is later than the much smaller Jade. The really deep, mossy green center when seen can make one green with envy. Was Reed 91-73-2.

**Limey Circle x Dunley Hall** **Very Late Season** **\$12.00**

**GULL** 2W-GWW (Grant Mitsch, USA)

This is the most sought after American bred division 2W-W for show. Very smooth blooms and tall stems. I finally have enough to offer it again. Pannill Award 1997.

**Easter Moon x (Broughshane x seedling)** **Late Midseason** **\$ 5.00**

**HALF MAGIC** 3Y-GYY (Dr. John Reed, USA)

Magical flowers do appear in the beds of daffodil breeders. A number of "toned" all-yellow and reverses came from this cross. The large, smooth, over-lapping blooms are carried on tall stems. It changes from white to a pale-yellow as it ages. In a sense it is only half-magical as it does not become an intensely golden yellow. Still a lovely show flower. Named for a wonderful book from my early childhood. Stock is small. Was Reed 85-26-6.

**Angel x Misty Glen** **Late Midseason** **\$ 21.00**

**HANKY PANKY** 11aY-Y (Dr. John Reed, USA)

Named for a rock 'n roll song by Tommy James originally from Niles. A great improvement over King Size. Has won its class in the National Show. Good breeder. Was seedling 90-29-1

**King Size x Dream Prince** **Midseason** **\$ 10.00**

**HAROLD'S CROSS** 3W-P (Dr. John Reed, USA)

**This sets my standard for size.** Roundness and stem height in division 3 W-Ps. Named to honor Harold Cross of Tasmania, Australia who pioneered much of the initial breeding efforts in 3W-Ps. His "Possum 3 W-P" is the reciprocal breeding of my American Possum. The pollen parent of this 3W-P. Vigorous but slower growing. Excellent overlapping petals, poise with light pink cup color. Requires wind protection and water to give the best blooms. Was Reed 95-125-1.

**Strawberry Shortcake x American Possum** **Midseason** **\$ 45.00**

**HAUNTING** 3Y-Y (Dr. John Reed, USA)

The name says it all! I marked Haunting on the plastic label I staked it with when I first saw it in bloom that warm breezy late spring day. It appeared hauntingly beautiful then and it continues to be the best 3Y-Y that I have grown for show. Pictured in the March 2003 ADS advertisement for Oakwood Daffodils. Perfect balance, form, stem, neck, poise and petals. Almost a perfect uniform shade of yellow. Was Reed 84-41-2.

**Emily x Minster Lodge** **Late Season** **\$15.00**

**HAWLEY GIFT** 2Y-R (J M Radcliff, TAS, AUS / Registered by Dr. John Reed, USA)

Sent here under seedling number from the Radcliff's, this is a very special high quality addition to Oakwood. Highly admired by many ADS members here, it is now demonstrating its value as a breeder. It looks like a red trumpet. The blooms are well colored and have a well overlapping, very smooth perianth. Poise and stems are excellent. Was Radcliff 9/84.

**?** **Midseason** **\$12.00**

**HOLY COW!** 2W-O Dr. John Reed, USA

This flower's cup is hard to believe with its pleats and crinkles. Colors are more orange than yellow in most years. The perianth is well formed with excellent poise and strong straight stems. As it was bred from Great Scott, this exclamation of the Chicago Cubs sports announcer, Harry Cary, seemed an appropriate name. Photo is in DaffSeek. A unique flower for garden and breeding. Was Reed 95-220-4.

**Great Scott x Arwon** **Midseason** **\$ 25.00**

**IRISH AFFAIR** 2W-Y (Dr. John Reed, USA)

This is by far the best 2W-Y I have raised and **named and released** so far. After opening the petals and cup expand and take on a more notable appearance. Heavy substance, bright crisp colors, large size with an excellent stem and neck characterize this flower. Fertile, but seed shy. Named for the romance between my stepdaughter, Michele and her boyfriend, John, when she spent a year in Belfast going to the University of Ulster. (Irish Wedding celebrated their marriage in Northern Ireland). Also, a combining of the names of both daffodils. This is a great flower that needs to be seen to be appreciated. Was Reed 84-34-1. Great in the garden and shows, too.

**Irish Mist x Flash Affair** **Midseason** **\$ 7.00**

**IRISH MINT** 3W-GGW (Dr. John Reed, USA)

A smaller show flower of great smoothness and roundness. Fertile and transmitting that smoothness to its offspring. The green eye will be smaller in dryer seasons. Was seedling 85-99-1.

**Angel x Achnasheen** **Midseason** **\$ 12.00**

**IROQUOIS** 2YYW-O Richard & Elise Havens, USA)

A very unique show flower. Beautiful.

**(Paricutin x Daydream) x (Redmarly x Brier Fox)**  
**Midseason** **\$ 8.00**

**IVORY GOLD** 1W-O (gold) (Dr. John Reed, USA)

The cross that gave Kamms and Aunt Betty also gave this beauty with a golden-orange tinted trumpet against an ivory colored perianth. It reminded me of the photo of a similar Backhouse seedling that Eric Longford had sent me years before. I kept it to cross for better formed 1W-Os. Using my first generation seedling crosses for 1W-Os, that were 2W-Os, it has proved itself. Freddie Silcock suggested that these ivory petalled flowers were a backdoor or a short cut to 1W-Os. He was right! Was Reed Seedling 78-19-8.

**Trumpet Call x Lea 1-6-60** **Early Midseason** **\$ 8.00**

**IVORY ORANGE** 1W-O (Dr. John Reed, USA)

This came from a cross that gave me more intensely colored 1Y-Rs, This ivory petalled selection has a trumpet that is more deeply colored than Ivory Gold. Sent out for trials around the Midwest, it has given reports of better corona color intensity than demonstrated here. Not only excellent in the garden, it is producing show quality 1W-Os with solid orange coronas. Was Reed Seedling 87-19-8.

**Trumpet Call x Glenfarclas** **Midseason** **\$ 8.00**

**JACKWOOD** 11aY-YYO (Ron Scamp, UK)

Good size, poise and stem with a pale-orangish split corona. For show and garden.

**Saint Keverne x Tiritomba** **Midseason** **\$ 7.00**

**JUMP-UP** 1Y-O (M G Temple-Smith, TAS, AUS)

This is a very smooth vigorous show flower that usually takes time to color-up here to a light orange. Strong grower. Never offered in the Northern Hemisphere. Scarce. Limited bulbs.

**[Trumpet Call x (Burnished Gold) x Janz hybrid]**  
**Early Midseason** **\$ 9.00**

**KAREKA** 2W-Y (GWE Brogden, NZ)

An excellent show flower.

**Late Midseason** **\$ 4.00**

**KEN'S FAVORITE** 2W-P (Murray Evans, USA)

This is the first really pink daffodil that I saw in Oregon. It was behind Grant Mitsch's house under seedling number. What a sight! For garden and breeding.

**Cordial x Caro Nome** **Midseason** **\$ 4.00**

**KILLEARNAN** 3W-GYR (Navarro/Lea, UK)

This was introduced as a poet and then changed to division 3. A perfect show flower with Best in Show awards.

**Andrew Marvel x Greenfinch** **Late Midseason** **\$ 4.00**

**KIMMERIDGE** 3W-YYO (D & J Blanchard, UK)

Many times winning show flower, including Best in Show. Needs shading for better color.

**Port Rush x Pretty Polly** **Midseason** **\$ 3.00**

**LADY DIANA** 2W-W (D. Broadfield, TAS, AUS)

An Early Outstanding top shelf show flower. Don's Best! Excellent breeder.

**Lady Slim x Gwyn** **Early Midseason** **\$ 7.00**

**LADY KILPA** 2W-Y (Broadfield Daffodils, TAS, AU)

Large strong growing show flower. Scarce.

**Kilpa x Lady Slim** **Midseason** **\$ 7.00**

**LaPALOMA 3W-GYR** (William Roese, USA)

Simply the most sought after American small cup show daffodil. Perfect in all respects with many Best in Show awards. Very circular form with smooth overlapping petals. I have enough to finally list it again.

**Estrella x Merlin** **Late Midseason** **\$ 14.00**

**LAWLESS 2W-P** (D. Jackson, TAS, AUS)

Very light almost lavender-pink.

**Accent x Verran** **Early Midseason** **\$ 4.00**

**LEMON DESIRE 1Y-W** (Dr. John Reed, USA)

This early reverse is very elegant and show worthy. Strong stems and excellent poise display it well in the garden. It has been free of rot and is a strong floriferous grower. Reversing is slow but worth the wait! Petal overlap is excellent and very smooth too. See the nice photo on DaffSeek. Was Seedling 93-97-3.

**Chicken Hill x Dream Prince** **Early Season** **\$22.00**

**LIKELY LAD 1Y-Y** (M. J. Brown, UK)

Similar to its parent *N. asteriensis* but larger. Very slow grower here with the original bulb from MJB obtained over 30 years ago. An ADS miniature.

**N. asteriensis x ?** **Early, Early Season** **\$ 8.00**

**LIMEY CIRCLE 3W-WWY** (Eve Robinson, USA)

A beautiful show flower. Vigorous. In some seasons it may have a limey green color to its rim.

**Carnmoon x Green Island** **Late Season** **\$ 3.00**

**LITTLE CUDA 6Y-Y** (Dr. John Reed, USA)

This is the last of the Heidi o.p. seedlings that I have selected. It is very easy to recognize because of its very long corona with dentate-like edges that remind me of teeth like a barracuda. Showable, healthy and fertile. A true miniature. Stock is small.

**Heidi o.p. #3** **Early Season** **\$ 22.00**

**LITTLE SHEBA 6Y-Y** (Dr. John Reed, USA)

An obvious miniature, it is slightly smaller than its sibling Heidi's Sister. The medium length corona is displayed on a symmetrically swept back perianth with narrow segments. Very dainty with short strong stems and a good doer in our sandy loam. Was Seedling Heidi o.p. #2.

**Heidi o.p.** **Early Season** **\$20.00**

**LIVING COLOR 2W-GRR** (C Crotty, NZ)

Deeply colored but has short stems. Has proved itself in breeding here.

**(Rainbow x Cherry Rim) x Eclat** **Midseason** **\$ 5.00**

**LONESOME DOVE 2W-W** (William G Pannill, USA)

A tall vigorous show flower. Scarce. DaffSeek.

**Starmont x Panache** **Midseason** **\$ 12.00**

**LOUISE RANDALL 2 W-W** (Dr. John Reed, USA)

This is a beautiful daffodil named for a very special lady who loved daffodils. For many years Louise and her son, Bob, would help me plant daffodils especially when I got behind. She even helped in the snowy November weather when she was in her 80s. This is the most consistent early midseason white for show that I have named so far. It is also great in the garden. By combining the best attributes of its parents, it never lets you down. Neither did Louise! Was Reed 89-9-1.

**Misty Glen x Rhapsody** **Early Midseason** **\$ 8.00**

**LYDICK 2W-R** (Dr. John Reed, USA)

Offered for breeding and garden use. The original stock clumped up very fast and bulbs were dug six years ago to fatten them up again. It has been a good breeder for deep pink/red flowers. A great improvement over Spaceship. Very healthy, excellent stem, neck and wide petals. Named for a small local Indiana town.

**Spaceship x Culmination** **Early Midseason** **\$ 7.00**

**MAGIC CHARM 2W-R** (Grant Mitsch, USA)

Intense color for the garden and breeding. Seed sterile here.

**Decoy x Magician** **Late Midseason** **\$ 8.00**

**MAGICIAN** 2W-R (Grant Mitsch, USA)

This was hard to believe when first seen! An eye opener. A true shade of brilliant orange-red to the slightly oversized cup. Stems are strong and short. A significant breeder and a great flower in the garden. Has a tendency to rot in storage, therefore, it is better to replant it immediately..

**(Accent x Rose Caprice) x Cool Flame** **Midseason** **\$ 7.00**

**MAGIC STEP** 2W-P (R & E Havens, USA)

Tall stems display single blooms of nicely formed pink cups resembling its jonquilla heritage.

**Quick Step x Magician** **Late Midseason** **\$ 9.00**

**MEMORIAL GOLD** 1Y-Y (Dr. John Reed, USA)

From a cross of intense quality comes a flower that can be shown without any grooming. Named for the hospital I was born in and work for now. A deep yellow shade with excellent poise, stem and neck, overlapping smoothness, etc!

Was Reed 91-54-1.

**Gold Convention x Goldfinger** **Early Midseason** **\$18.00**

**MILLENNIUM ORANGE** 1W-O Dr. John Reed, USA

This is the finest white-orange trumpet that I have named to date. The corona shades from deep to light orange down the corona. The stem, neck, poise and petal overlap are outstanding. Much admired by Peter Ramsay when he visited here. Very fertile. Photo is in DaffSeek. Only 3 offered for the most ardent daffodil-phile. Was Seedling 96-125-2.

**81-125-2 (Preamble x Poets Dream) x Lutana**

**Early Midseason** **Withdrawn for Increase**

**MODULOX** 2W-Y (P & G Phillips, NZ)

The most vigorous free blooming show daffodil I grow. A clump has bloomed here for over 20 years and was loaded with blooms.

**?** **Midseason** **\$ 4.00**

**NEW PARIS** 2W-P (Dr. John Reed, USA)

Very white and very pink with a show quality perianth inherited from Obsession and a ruffled corona that does not catch the petals that incurve slightly. For show and breeding. Very healthy. Named for a local town in Indiana. See photo on DaffSeek. Has not been offered for some time. Was 85-34-2.

**Kens Favorite x Obsession** **Midseason** **\$ 7.00**

**NEW PENNY** 3Y-Y (William G Pannill, USA)

Perhaps the most popular show bloom in its class in the USA. Vigorous

**Lemonade x Lemnos** **Midseason** **\$ 4.00**

**NEWPORT** 2W-YOY (William Pannill, USA)

Rarely offered. A pristine bloom was Best in Show at the 1983 ADS National Show. DaffSeek.

**(Limerick x Broughshane) x Avenger** **Midseason** **\$ 6.00**

**NOTEWORTHY** 3W-YYO (William Pannill, USA)

Tall, vigorous for show and garden. Scarce. Very good. Impressive looking to me.

**(Lough Arcema x Rose Caprice) x Jewel Song** **Late Season** **\$ 6.00**

**NOTRE DAME** 2W-GYP (Brian Duncan, No. IRE)

Many awards for this excellent show flower with very tall stems and very smooth perianth segments. Corona is tubular.

**Raspberry Ring x Fragrant Rose** **Late Season** **Withdrawn for Increase**

**NOWRA** 2W-R (David Jackson, TAS, AU)

One of David's best in its class. The color has been variable here.

**Potent x Hartz** **Midseason** **\$ 7.00**

**NYNJA** 2Y-Y (David Jackson, TAS, AU)

A smooth all-yeallow show flower with many awards and is a good breeder also.

**Scipio x11/78** **Midseason** **\$ 7.00**

**OAKWOOD STIMULUS (old name STIMULUS) 2YO-R (Dr. John Reed, USA)**

Just short of a trumpet and intensely colored. The perianth can flush orangish-red in a favorable season. Not of the highest show caliber, but stands out (shouts at you!) in the garden due to its coloration. Offered for breeding and garden. As President Obama has offered us a stimulus to get our economy going, I offer you a stimulus for further breeding toward the ultimate 1O-R! Was Reed 89-122-2.

**Glenfarclas x 81-7-1 (Vulcan x Sutton Court)**

**Early Midseason \$ 9.00**

**OREGON TRAIL 1Y-R (William F Tribe, USA)**

A well colored but smaller red trumpet for show and garden. Scarce. I have a very good strong-growing stock.

**[(Arctic Gold x Brer Fox) x o.p.] x Javelin**

**Early Season \$12.00**

**PEGGY MACNEALE 2W-W (Dr. John Reed, USA)**

Peggy was an outstanding and long-time member of the ADS that she loved. Her enthusiasm brought many new daffodil lovers to join the ADS and the SWODS group. Her trips to Oakwood were only at bulb digging time because of her ADS duties. She liked to point out particular bird calls to us novices while she hiked the wooded hills of Oakwood. Oakwood loved Peggy. This is a superb smooth show flower. Was 84-122-3.

**Inverpolly x Kindee**

**Midseason \$ 20.00**

**PIERCE ARROW 1Y-O (Dr. John Reed, USA)**

Show quality 1Y-Os are still scarce, especially those that flower late. This vigorous daffodil blooms in late midseason here. It is of excellent size and height. And is of show quality with good poise, overlapping petals and non-fading color. Named for the classic American cars made in Albany, New York. A twelve cylinder version of the Pierce-Arrow set a world land speed record in the early 1930s driven on the Bonneville Salt Flats. If shaded and given water, it is **great**. Was Reed Seedling 89-83-17.

**Trumpet Call x Glenfarclas**

**Late Midseason \$ 5.00**

**PIKE LAKE 2W-Y (Dr. John Reed, USA)**

The newest of the Lake Series to be named. Admired by several ADS judges and myself. Its strong stem, neck, poise and the late midseason flowering make this flat perianth beauty a good show flower. It was the only W-Y in a cross that gave many lovely W-Ws. Named for a small fishing lake just east of Dayton Lake. This is very vigorous and giving nice seedlings. Was Reed 88-82-1.

**Misty Glen x Immaculate**

**Late Midseason \$ 7.00**

**PINHOOK LAGOON 1W-Y (Dr. John Reed, USA)**

A fine show quality trumpet, named for the local lake where I caught my first fish as a child. Was 97-31-3. See DaffSeek photo.

**Dayton Lake x Irish Affair**

**Early Midseason \$ 16.00**

**PINK CLIMAX 2Y-P (Dr. John Reed, USA)**

This was the name that came to me when I first saw it in bloom. The flower colors are pastel and very pure. Almost a lavender pink in the trumpet shaped corona. Definitely not garish. I can only hope that David Bell has been looking down from Daffodil Heaven to see it in bloom. Vigorous and floriferous. Was Reed Seedling 92-169-1. See DaffSeek photo.

**Quantasia x Fidelity**

**Midseason \$ 7.00**

**PINK FLUSH 2P-P (Dr. John Reed, USA)**

Simply the most consistent show quality pink flushed perianth I have raised or seen here. Every year it has shown a warm pink glow in its smooth flat, overlapping perianth. It is also giving that color and quality to its offspring. Was Reed 90-100-2.

**Music x Culmination**

**Late Midseason \$ 20.00**

**PIN-UP GIRL (old name COVER GIRL) 2W-P (Dr. John Reed, USA)**

A combination of a superb show quality perianth with well overlapping smooth segments. The corona is a lovely shade of pink.. Very consistent and vigorous grower here. Was Reed Seedling 90-75-1.

**Everpink x Kerstin.**

**Midseason \$ 9.00**

**POLAR GLOW 2W-PPW (John Hunter, NZ)**

A healthy grower here. Excellent show record in New Zealand.

**Seedling x Verran**

**Midseason \$ 10.00**

**POLAR SKY** 2W-WWP (John Hunter, NZ)

A vigorous show bloom. Rarely offered. Needs WATER & WIND protections for best blooms here. DaffSeek.

**Leonaine x Seedling** **Midseason** **\$ 10.00**

**POWERSTOCK**2W-O (John Blanchard, UK)

A robust show flower. The color can be intense in wet, warm weather. Corona is very circular.

**71/22A x Smington** **Midseason** **\$ 7.00**

**QANTASIA** 2Y-W (David Bell, NZ)

Seldom seen. Opens light pink. Breeds yellow-pinks, too. DaffSeek.

**(White Sentinal x Seraglio) hybrid** **Midseason** **\$ 7.00**

**QUANTUM LEEP** 1O-R (Dr. John Reed, USA)

When this first flowered I was amazed to see its Altruist-like coppery petals. While I have never seen that copper color again the petals do show a reasonable light orange flushing and the big trumpet has intensified in color. Jason Delany has insisted that I should code it as red, not orange. This change has been registered this year. It has tall stems that show some arching. It is fertile both ways and has been retained for breeding. It has given orange seedlings with Flusher. Was Seedling 94-15-2.

**American Revolution x Corbiere** **Early Midseason** **\$22.00**

**QUEENS GUARD** 1W-Y (B S Duncan, N IRE)

Brian's best 1W-Y for show with many awards. Limited stock available.

**Pontes o.p.** **Early Midseason** **\$12.00**

**QUICKFIRE** 2Y-YOO (John Hunter, NZ)

A fine show flower and breeder for John Hunter.

**Swordsman x Air Marshall** **Midseason** **\$ 8.00**

**RANSOM** 4YYW-P ( Jackson's Daffodils, TAS, AUS)

The first of David's well-formed Y-P doubles. Fertile with stigma too. Very nice.

**Tavelle x Daydream** **Early Late Season** **\$ 9.00**

**RED ENVY** 2W-R (Dr. John Reed, USA)

Because of Culmination's tall stem I used it almost exclusively in my early 2W-R crosses. After seeing Catalyst, I started using Magician more. Red Envy is the best from this cross from me. Much like Catalyst, it too is seed sterile here. The flower is a little brighter red. The flower usually lasts 5-6 days longer than Catalyst and is more rot resistant so far! It can be shown and has a strong, short neck with bright color that is non-fading. Was Seedling 95-14-1.

**Decoy x Magician** **Early Midseason** **\$19.00**

**RIVER CROSSING** 3W-Y (Dr. John Reed, USA)

From a cross to develop a 3W-P comes a vigorous high quality 3W-Y. Greatly admired by Cynthia Haeffner. Stock is ample and every bloom can be shown. Parentage is similar to the pollen parent of Brooke Ager. Named for a new foot bridge at my alma mater that crosses the St. Joseph River between the school and its first ever student housing. Was Reed 81-123-1.

**Coral Light x My Word** **Late Midseason** **\$ 7.00**

**RED PASSION** 2W-R (Dr. John Reed, USA)

These flowers stand tall on strong stems with excellent poise. The overlapping petals give a round appearance and the bowl shaped cup is a nice shade of bright red. This is my best show quality early red-pink to date. On seeing it one can understand how it got its name! Was Reed 98-179-1. Listed again as it has increased well.

**88-93-5 (Evan's W2 x Magician) x Celestial Flame** **Midseason** **\$ 40.00**

**RHAPSODY** 2W-W (W Jackson, Jr, TAS, AUS)

Older show flower and an excellent breeder.

**Green Valley x Filia** **Midseason** **\$ 6.00**

**RHEBAN RED** 2Y-O (James Radcliff, TAS, AUS)

A large, vigorous, early, show flower. One of the best in Australia with many show awards and a good breeder. Usually paler here. Never offered in the Northern Hemisphere until released by Oakwood.

**?** **Early Midseason** **\$ 7.00**

**ROCKNE 2 Y-Y (Dr. John Reed, USA)**

Knute Rockne was the most outstanding football coach that the University of Notre Dame ever had. I grew up in the shadow of the school's Golden Dome. I have had the pleasure to work with one of his nieces, Josephine Copeland and this flower has been named to honor her and her family. A very imposing late all yellow of the highest show quality. The massive, overlapping major petals make this a division 2 instead of a 1. One of the finest late midseason all yellow daffodils for show (and garden). Was Reed 85-7-3.

**Golden Jewel x Dream Prince** **Late Midseason** **\$ 12.00**

**RORY'S GLEN 2O-O (Carcairen Daffodils, No IRE)**

Really brightly colored all orange show flower with tall stems and flat perianth. Excellent breeder. Can be susceptible to rot.

**Bunclody x Fireraiser** **Midseason** **\$ 6.00**

**ROSE LAKE 2W-P (G E Mitsch, USA)**

For show and garden. Vigorous.

**(Easter Moon x Cool Flame) x Pink Silk** **Midseason** **\$ 6.00**

**ROSE VINE 3Y-WPP (A J R Pearson, UK)**

Best available show quality 3Y-P. Good breeder and healthy.

**Eastermoon x Seedling** **Late Midseason** **\$ 8.00**

**ROYAL MARINE 2W-YOO (J. Lea, UK)**

Outstanding for show and garden. Tall stems. Vigorous.

**Colly Gate x Ibberton** **Midseason** **\$ 4.00**

**RUBY RED 2W-R (Dr. John Reed, USA)**

The name says it all. Inspired by Dorothy's slippers in the Wizard of Oz and the intense color that is easily visible at a distance, a brilliant ruby-red. Vigorous, rot resistant and somewhat rough, it is passing this color on to its seedlings. Some of these with Culmination have a warm pink perianth. Good stock due to retention for breeding, giving 2 Y-Ps, too. Far better stem and poise than Spaceship. Was Reed seedling 81-176-1.

**Spaceship x Duncan seedling** **Late Midseason** **\$ 4.00**

**SABINE HAY 3O-O (D Milne, UK)**

The most fantastically self-colored exhibition flower available. The tall stems support a well-rounded perianth of orange and a deeper colored cup. Protect from the sun!

**Seedling x Seedling** **Late Midseason** **\$ 4.00 or 3/\$ 10.00**

**SAMSARA 3Y-YRR (Clive Postles, UK)**

A very smooth but usually paler show flower here. It breeds very smooth show blooms.

**Achduart x Stanway** **Late Midseason** **\$ 6.00**

**SANDY COVE 2Y-GWP (Brian Duncan, No. IRE)**

A vigorous show flower and breeder. The perianth opens white and quickly transitions to yellow. Excellent breeder.

**Pismo Beach x High Society** **Late Season** **\$ 5.00**

**SHEELAGH ROWAN 2W-W (ARJ Pearson, UK)**

Many show awards in the United Kingdom.

**Stoke Charity x Panache** **Late Season** **\$ 10.00**

**SMOKEY BEAR 4Y-O (Brian Duncan, No. IRE)**

Vigorous well-colored show flower. My favorite double in the garden.

**Papa x Vagabond** **Midseason** **\$ 4.00**

**SOPRANO 2W-GPP (Brian Duncan, NO IRE)**

The cup has a beautifully formed circle of strong color. Not as vigorous as other pinks from Brian but healthy.

**High Society x Valinor** **Early Late Season** **\$ 4.00**

**STRAWBERRY SHORTCAKE** 3W-P (Dr. John Reed, USA)

My first division 3W-P of good quality and breeds well too. For show and garden. Fertile. Was 84-171-1.

**Pismo Beach x Everpink** **Late Midseason** **\$ 8.00**

**SUPER HERO** 2W-R (Dr. John Reed, USA)

A proven parent and good **garden** flower with strong tall stems that consistently hold well-colored large blooms. In 2006 its offspring gave me the largest and best formed strong red colored division 2 seedling of trumpet character that I have seen. That seedling is truly from a Super Hero. Was Reed 92-170-1.

**Kens Favorite x Magician** **Late Midseason** **\$ 8.00**

**TABOR HILL** 2W-P(O) Dr. John Reed, USA

Displaying outstanding show form and it has a unique orangish-pink cup color. This attractive corona has a slightly rolled lip. It has been very healthy and is increasing well. Fertile both ways. Other pinks with orange hues are coming on here and are being bred with it, including a full trumpet from red-pink breeding. In the tradition of its seed parent, it is named for a local southwestern Michigan winery. See the photo in DaffSeek.

**Cabernet x Verran Rose** **Midseason** **\$ 32.00**

**TANGERINE DELIGHT** 1W-O Dr. John Reed, USA

First flowering in 2004, it was an eagerly awaited outcome from my 25 year effort to breed strong vigorous show quality white orange trumpets in my climate. This cross gave many nice flowers in division 1 and 2 but Tangerine Delight is the best. It is well-formed, has large flowers that are held on strong tall stems with excellent poise. The overlapping flat perianth segments are very white and its flared trumpet is a delightful shade of tangerine orange. Jason Delany's photos taken in 80 degree heat says it all. Great!! Fertile both ways. Stock is still small with only 3 or 4 to go this year. Was 98-32-2.

**Orange Tint x Lutana** **Early Midseason** **Withdrawn for Increase**

**TANZEY GIRL** 2W-OOY (MD [Spud] Brogdan, NZ)

One of the most outstanding daffodils grown at Oakwood with vigor, health, tall stems and color. An excellent breeder.

**(Motif x Avenger) x Crimpeline** **Late Midseason** **\$ 9.00**

**TARNISHED GOLD** 2Y-Y (Dr. John Reed, USA)

Until I first saw this daffodil in flower in 1990 the word golden daffodils could only conger up an intense yellow bloom. But this flower truly is a golden color hence its name. Planted adjacent to Goldfinger for a few years it made that flower seem pale! Would be a trumpet except for its huge perianth inherited from Gold Convention. Can be shown. Formerly Reed 83-36-1.

**Temple Gold x Gold Convention** **Midseason** **\$ 8.00**

**THREE OAKS** 1W-Y (Dr. John Reed, USA)

A very consistent show flower and breeder of the highest quality. with a smooth overlapping perianth that has a light yellow corona. Was Seedling 89-21-1.

**Bravoure x Pops Legacy** **Midseason** **\$ 11.00**

**TROPICAL HEAT** 2Y-R (B S Duncan, N IRE)

An outstanding well-colored smooth show flower. Scarce.

**Garden News x (Bunclody x Barnesdale Wood)** **Late Season** **\$ 11.00**

**TRUMPET WARRIOR** 1YYW-WWY (Grant Mitsch, USA)

For garden and show with tall stems.

**Chiloquin x Arctic Gold** **Midseason** **\$ 4.00**

**TURK** 1Y-O (Dr. John Reed, USA)

Very scarce, slow grower. Very smooth and its color can be strong. Great breeder. Was Seedling 81-30-7.

**Larch Mountain x Sutton Court** **Early Midseason** **\$ 15.00**

**TUSCORORA** 1Y-Y (Dr. William Bender, USA)

A highly sought after show bloom. Scarce. Rarely offered.

**Seedling x Gold Convention** **Early Midseason** **\$ 10.00**

**VALEDICTION** 3W-GWW (Helen Richardson, IRE)

Older show flower. Still very good.

**Verona x Benediction****Late Midseason****\$ 6.00****VERA ROBBINS** 3W-GWW (Dr. John Reed, USA)

Named for my wonderful mother-in-law. This is my best show 3W-W. Very round blooms are held high on tall stems. A healthy plant.

**Verona x Achnasheen****Early Late Season****\$ 13.00****VERNAL PRINCE** 3W-GYY (Tom Bloomer, N IRE)

Brilliantly colored with tall stems and excellent poise. Great for show and garden.

**Shantallow x Woodland Prince****Late Midseason****\$ 3.00****WARM DAY** 2O-O (Carncairn Daffodils, N IRE)

An intensely colored intermediate with strong, tall stems.

**Stylish x Rory's Glen****Midseason****\$ 6.00****WAYNE'S WORLD** 6Y-O (Dr. John Reed, USA)

In 1984 some of the *N. cyclamineus* pollen was applied to Monal. Only a few seeds were collected and 3 seedlings germinated. They have been very slow growing but healthy. And worth the wait. Its wide, overlapping, smooth reflexing perianth is the perfect foil for the symmetrical glowing medium sized cup. It has won a number of awards under seedling number. The blooms are of medium size. The late Wayne Steel of California liked Monal (Its seed parent) enough that I had to dig a lot of bulbs of it for him to pot up and pre-cool to give to potential new ADS members. When the bulb of 84-49-1 first flowered for him, he was excited enough to send an e-mail photo to us. In the same e-mail files downloaded that day we learned we were going to be grandparents. As Monal and this offspring were a small but exciting part of his world, it seemed appropriate to register it as Wayne's World. Also with the thought of the recent pop movie by the same name. Was Reed 84-49-1. Few to go.

**Monal x N. cyclamineus****Early Season****\$16.00****WEBER'S ELECTRIC** 2Y-R (Dr. John Reed, USA)

This electrifying bloom really stands out in the garden. The trumpet-shaped corona usually is a blazing red-orange that shouts out even at a distance. The stem is strong and holds the bloom up-facing with the overlapping perianth serving as an excellent foil for the corona. It seemed appropriate to name it for the business of our friendly electrician Mike Weber who has contributed so much to Oakwood. Was Reed 84-144-2. For show and garden. DaffSeek photos do not do it justice.

**Bunclody x Wildfire****Midseason****\$ 8.00****WYONG** 2W-Y (D Jackson, TAS, AUS)

One of the Jacksons' finest.

**Jackson 36/83 x 43/86****Early Midseason****\$ 38.00****YELLOW SATIN** 2Y-Y (Dr. John Reed, USA)

A tall, large outstanding show flower with a name that says it all. The petals overlap but not massive. A refined, slower growing but healthy cultivar. Small stock yet. Was Reed 83-6-1.

**Meldrum x Gold Convention****Midseason****\$ 10.00**

## ROYAL HORTICULTURAL SOCIETY'S SYSTEM OF DAFFODIL CLASSIFICATION

The classification of daffodils has changed many times over the years. The present system combines the RHS classification of thirteen divisions based on form and species heritage with Dr. Throckmorton's color coding from the American Daffodil Society. This combined system gives us a very useful tool for describing daffodils quickly. A single letter denotes a color and its appropriate location as found in the flower, first in the perianth and then in the corona. W=White Y=Yellow G=Green O=Orange R=Red P=Pink For example: Arctic Gold is classified as a 1Y-Y. It is a trumpet daffodil with yellow petals and a yellow corona. Misty Glen is classified as a 2W-GWW. It is a large-cupped daffodil with white petals and a green-eyed white cup. First Born is a cyclamineus hybrid with swept-back, yellow petals and the corona has a greenish eye with a small transition of light yellow going to a deep pink color extending to the edge of the cup. In other words, it is a 6Y-GYP.

- |              |  |
|--------------|--|
| Division 1   | Trumpet Daffodils: The trumpet (corona) is equal to, or longer than, the petal (perianth) segments.                              |
| Division 2   | Large Cup: The cup (corona) is less than the length of the petals (perianth) but more than a third.                              |
| Division 3   | Small Cup: The cup (corona) is equal to, or less than a third, of the petal (perianth) length.                                   |
| Division 4   | Double Daffodils: This division is for all forms of double flowers.  |
| Division 5   | Hybrid Daffodils that predominate with <i>N. triandrus</i> characteristics.  |
| Division 6   | Hybrid Daffodils that predominate with <i>N. cyclamineus</i> characteristics.  |
| Division 7   | Hybrid Daffodils that predominate with <i>N. jonquilla</i> characteristics.  |
| Division 8   | Hybrid Daffodils that predominate with <i>N. tazetta</i> characteristics. The stems usually will have multiple flowers.          |
| Division 9   | Hybrid Daffodils that predominate with <i>N. poeticus</i> characteristics.   |
| Division 10  | All Species and Wild forms.  |
| Division 11  | Daffodils with the cup (corona) that is split for more than a half of its length. This division has two subdivisions:            |
| Division 11a | Collar Daffodils have the corona segments parallel to the perianth segments.   |
| Division 11b | Papillion Daffodils have the corona segments project outwards from the perianth segments, usually in a whorl-shaped arrangement. |
| Division 12  | Daffodils that cannot be classified within the preceding divisions.  |
| Division 13  | Daffodils distinguished solely by botanical name.  |

## LARRY WIER'S DAFFODILS

My daffodil friend Larry Wier who has been breeding and selecting seedlings for 20 years offers the following introductions. His standards are very high and you can be sure that his flowers are superior, distinctive and healthy. He has acquired some of Charles Wheatley's stocks and is introducing them. **THE BULBS LISTED ARE POST PAID FROM LARRY. ORDERS FOR THEM AND PAYMENT BY CHECK SHOULD GO TO LARRY WIER, 13469 NORTH MAIN ROAD, BUCHANAN, MI 49107-9149, USA. Larry's phone is: 269-695-6486.**

### LARRY'S RECENT INTRODUCTIONS

#### **ANIMAL CRACKERS 2YYW-WWY (Larry Wier, USA)**

This name was chosen from the Marx Brothers as only they would mix sweets and liquor, the parents of this beautiful bloom. The perianth segments are very round and large. The medium sized cup expands slightly to the mouth where it is flanged. As with most reverses, it opens all yellow and takes time to mature with the small yellow rim. A show flower. Was seedling 88-2. Resists rot well so far.

**Lemon Candy x Gin and Lime** **Midseason** **post paid \$10.00**

#### **ELEGANT TOUCH 2W-W (Larry Wier, USA)**

A beautiful, rounded and true white perianth are the best characteristics of this medium to large flower. Inner petals are spade shaped and smooth. Corona tends to be short and flaring with a crinkled edge. Tends to be a good early white. Was seedling # 89-4.

**Brierglass x Rhapsody** **Early Season** **post paid \$10.00**

#### **FLASHPOINT 1W-P (Larry Wier, USA)**

The white perianth with ovate segments of good substance are the background for a trumpet that tapers gradually making for a more massive corona. This trumpet is darker pink inside and has a fairly heavy frill at the mouth. A climate milder than Michigan's will result in bigger and better colored flowers. A vigorous grower here (This was the "flash point" that Larry needed to start registering his daffodils. Almost a red-pink in the best of years—JR)

**Magician x Melancholy** **Midseason** **post paid \$ 10.00**

#### **ICICLE 5W-W (Blanchard, UK)**

(See the article in the March 2009 ADS Journal.) A rare beauty that I obtained in the 70s and Larry has been able to increase it well! Very, very, limited stock.

**N. dubius x N. tri. Loiseleurii** **Late Midseason** **post paid \$ 50.00**

#### **MAKERS MARK 1Y-O (Larry Wier, USA)**

This is Larry's most successful cross so far to get a better colored show flower here in the orange trumpets. The strong yellow color of the overlapping perianth is a good foil to the cylindrical shaped corona with little expansion of the trumpet. The perianth is not starry nor widely overlapping but very pleasing. The stems are tall and strong with bulbs having good increase. Breeding both 1 and 2 Y-Os. A well-grown specimen won the Single Bloom 1 Y-O class at the National ADS Show in St. Louis, beating Magic Lantern. Was Wier 87-1. Proving to be a good parent for Peter Ramsay.

**Glenfarclas x Trumpet Call** **Midseason** **post paid \$ 7.00 or 3 for \$15.00**

#### **MERLIN'S PAL 3W-YYO (Charles Wheatly, USA)**

This flower is another tribute to Charlie's breeding skill. Blossoms are quite large, bigger than both parents. Tall flower stems in the field makes these bright showy blossoms easy to find. This division 3 small cup has size and beauty to spare. Was seedling 89-98-1.

**Merlin x Palmyra** **Midseason** **post paid \$ 12.00**

#### **MINERAL WELLS (offered before as WINTER MOON, now registered as MINERAL WELLS)**

1W-Y (Larry Wier, USA)

This white perianth is quite rounded with spade-shaped segments (no double triangles here). The medium bright lemon trumpet has length to spare making for a good bicolor blossom. The corona is more narrow than average with a frill at the mouth. Color has been good in Michigan's climate. Was Seedling # 89-3

**Tudor Dance x Helsal** **Midseason** **post paid \$ 9.00**

#### **PINK SUNDAY 2W-P (Charles Wheatly, USA)**

The red-pink color of this bowl-shaped cup against the rounded and wide petaled perianth of this flower is its major attraction. Refrain as the seed parent has provided form. Artful as the pollen parent has added to a beautiful cup color. (Was Seedling # 91-82-13).

**Refrain x Artful** **Midseason** **post paid \$ 10.00**
