NEWER CULTIVARS

- EARLY AMERICAN** 3W-YYO L 17" (Last Snow x Coral Light) TEH14/1. Pure white broadly ovate perianth complements the small, cup shaped yellow corona with a distinct narrow rim of deep pinkish orange at the crenate border. An exceptionally beautiful flower with strong breeding potential for Division 3 pinks. **03-403** \$9.00 each.
- LASER** 2W-R L 17" ((Precedent x Accent) x Spaceship) 2K32/10. Although one of the first red-pinks to be named some years back, a severe climatic condition caused losses, preventing its introduction at that time; it has now recovered. Large broad white perianth with very intense red (near Magician's color) bowl shaped corona edged with even deeper red. Very striking. **02-949** \$17.00 each.
- POSTLUDE** 3W-YYO L 15" (Impala x Evans seedling) 2T44/1. Startling bit of color at the end of the season, the pure white broad perianth accentuates the flat disc shaped cup of bright yellow, bordered with a 4 mm rim of brilliant red orange. The distinct delineation of colors brings attention to Postlude, in a sea of orange rimmed flowers in late season. A well formed symmetrical flower. **03-708** \$9.00 each.
- THRICE** 11aW-P LM 14" 14" (Decoy x Mission Impossible) 2T4/2. One of the most interesting split coronas, this one is a beautiful shade of rosy pink. It was first noticed when the corona split into three definite petal-like square structures, each lying flat against the front of the inner perianth segments - rather like Tricollet does, hence the name Thrice. However, some years, it does not split as cleanly, making it a more traditional split corona. Entire flower is of heavy substance and the rosy pink corona with a pure white perianth is lovely for the garden and for arrangements. **11-383** \$9.00 each.

PINK SEEDLING COLLECTION

After an excellent response last year, we would like to offer this collection again.

TT10 – Precedent x Magician

Most of the seedlings selected from this cross are deep red pink; three of those below are deeply colored, and one is clear mid pink. All are excellent flowers for the garden.

TT10/1 Tall flower with white perianth and expanded deep red pink corona.

TT10/10 Large broad white perianth with brilliant showy corona of deep apricot color, expanded and frilled at the margin.

TT10/12 Beautiful light pink corona with rather informal white perianth; tall and vigorous.

TT10/20 Quite well formed, broad white perianth with deep red pink expanded corona.

99-206 One bulb each for \$25.00

WHITE SEEDLING MIXTURE

A great deal of hybridizing for white daffodils has been done in recent years and a number of selected lots have been carried on, some of which have been named. Others were too similar to those already on the market, and are now being offered as a mixture. Some are similar to each other, but there is a fair amount of diversity: there are siblings to Blue Star and Phoenician as well as seedlings from Clearwater included, and a possibility of a large white double. Some duplication may occur in dozen lots ordered. We think these will make an excellent showing in the garden, along with including very refined flowers.

99-220 \$14.50 per dozen
