Hello All The IDS show was was held in it's newer venue of the Hamilton Ice Arena and Community Center. That sounds rather different but it works quite well. As with most shows this season (except for the KDABS show in Kentucky), it seemed to be a smaller show, but the quality was great. There are a few photos of flowers not often shown in shows that I captured for Daffseek. Photos below. I have 4 more shows to post. It's been a challenging springtime. Enjoy...
