NARCISSUS		
BD = bred by Brian Duncan * Will be available on ebay AW = bred by Anne Wright		
NEW FOR 2019		
Narcissus AW 3119-1-16 £10 20 available	AW (Papa Snoz x KB/M/1/98) 6 W-Y I won't be registering this, as the long corona opens rather wrinkled – hence its pet name of 'Nora Batty' (a TV character with wrinkly stockings). It is rather charming though – very short stemmed, opening with a pale lemon corona, which as it matures loses its wrinkles and turns white.	
Narcissus AW 3279-1-14* £10 6 available	AW (Englander x KB/M/1/98) 6 Y-Y Similar to its seed parent, but shorter, the perianth less reflexed, and the corona more flared and frilled. Ok, not that similar... Intermediate size flower on 15cm stems.	
Narcissus Citron Baby* £15 43 available Max two per customer.	AW (<i>N. rupicola</i> x Candlepower) 2 Y-Y AW 2991-2-15 A favourite with visitors at our open day. 3.5cm wide fresh, pale lemon flowers on 15cm stems, Beautifully scented.	
Narcissus Columba* £10 4 available Max two per customer.	AW (<i>N. cantabricus</i> subsp. <i>tananicus</i> open pollinated) 10 Y-Y The wide open flowers are a cool, very pale greenish lemon. Free flowering. Increases well.

ANEMONES

Anemone nemorosa Evelyn Meadows £5 2 available	Pink semi-double flowers from carmine buds and dark foliage at flowering	
Anemone nemorosa Explosion £20 1 available	An amazing variety found in Norway after the Chernobyl disaster. The double flowers are very variable from season to season and flower to flower on the same plant. Flowers usually contain a mixture of white, green and crimson.	
Anemone nemorosa Flash £6 1 available	A sport of 'Virescens' found in my garden. The usually plain green petaloids are splashed or wholly white, usually with deep blue bases. I would have said this was a cross between Virescens and Blue Eyes, but the former is completely sterile.	
Anemone nemorosa Salt'n'pepper £10 3 available	Odd anemone centred variety with brownish-olive ring of petaloids surrounding the white centre boss.	
Anemone nemorosa Tups £6 2 available	Lovely rounded semi-double, often with some petals partly green (bracteate)	
Anemone ranunculoides Aureus £15 3 available	Very full double, small green centre.	
Anemone ranunculoides Golden Dream * £20 1 available	The most amazing of the Estonian yellows - flowers can vary from season to season, and within the same plant in one season. The flower usually has striking green petaloids emerging from the centre of the flower, but some flowers will be almost normal or with a condensed, dark green centre.	
Anemone ranunculoides Hiiumaa £6 7 available	Anemone-centred double with spiky inner petals, and a ring of stamens between the inners and outers. One of the first to be discovered.
