There were more than 1000 blooms at the show and a lively group they were. I thank Gabby Hall for inviting me to judge. It was a learning experience after three years off.

I went to CT to test my miniature hybrids that I crossed and breed myself, and there was competition. Graham Fleming has been my miniature mentor for about 20 years. I'm just now beginning to understand what he has been trying to tell me. It's all in the excellent article on 'Breeding Miniatures in the March 2022 Daffodil Journal written by Graham and Helen Fleming, I recommend reading it.
