The 2023 SWODS Daffodil show was at it's usual venue of the tent at Krohn Conservatory in Eden Park Cincinnati. The challenges were a morning temp of 47 degrees in a tent with 'no' sides. Frank was great in getting a nice space heater for those who needed protection from the cold during staging in the wee hours of the a.m. and he suggested the lunch provider which turned out fantastic. He also tended to the breakfast table and had it all ready with hot beverages for those that needed some warming up, and goodies for keeping the energy going. It ended up being a great time!
