

BEN SLOY FARM (“BEINN SLOIDH”)

2023 Fall Planting Season

5754 LaFayette Road, Granville, Ohio 43023

farm: 740.587.1150 ■ text: 740.973.3633 ■ fax: 740.587.3433 ■ email: JD@McFarlandUS.com

Horace. 9 W-GOR, 1894, Engleheart, England.
<https://daffseek.org/detail-page/?cultivar=Horace>
\$4.00 each.

Argent, 4 W-Y, 1902, Engleheart, England
<https://daffseek.org/detail-page/?cultivar=Argent>
\$5.00 each. Exceptionally nice bulbs.

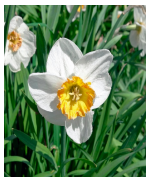

Jetfire. 6 Y-O, 1966, Mitsch, Oregon .
<https://daffseek.org/detail-page/?cultivar=Jetfire>
Two for \$3.50. Not historic of course, but a “Classic”. At one time this dwarf was grown by “everyone” but now less common in commerce. Wonderful coloring.

Pitt's Diamond. 3 W-GWW, 1986, Scamp, England.
<https://daffseek.org/detail-page/?cultivar=Pitt%27s%20Diamond>
\$5.00 each. Another non-historic but rare and rarely in commerce. Showy and grand.

Rip Van Winkle. 4 Y-Y, 1884, unknown source, Ireland.
<https://daffseek.org/detail-page/?cultivar=Rip%20van%20Winkle>
\$2.00

Spencer Tracy, 2 W-O, 1943, Lefeber, Holland
<https://daffseek.org/detail-page/?cultivar=Spencer+Tracy>
\$8.00 each. A hard-to-find “Classic”. Only a few on hand from a test dig this year.

Hospodar, 2 Y-O, 1914, Williams, England
<https://daffseek.org/detail-page/?cultivar=Hospodar>
\$8.00 each. As above, only a few on hand from a test dig this year.

Smaller bulbs special:

Many times we end up digging bulbs too small to sell to our wholesale buyers (typically different cultivars than sold here), and have excess of what's needed for replanting. These are not minuscule bulbets, but are smaller bulbs which may take a year or two to bloom. A great value for the patient.

Van Sion/Telamonius Plenus. 4 Y-Y, 1690, unknown source, Europe/England.
<https://daffseek.org/> then search either name. Direct link misdirecting when copied here.
Ten smaller bulbs for \$10.00.

Twin Sisters/N. x medioluteus. 13 Species Hybrid, described 1768, unknown source, Europe.
<https://daffseek.org/detail-page/?cultivar=N.%20x%20medioluteus>
Twelve smaller bulbs for \$10.00

Twink. 4 Y-O, 1925, de Graaff Bros., Holland.
<https://daffseek.org/detail-page/?cultivar=Twink>
Six only slightly small bulbs for \$12.00

Special Bulbs:

These are all single bulb/lot offerings. Only one available. These rare cultivars have been dug for doantion to the next ADS auction, but we have some extras from digging. No offense taken if you want to wait for the auction, but here or there, there are probably few other sources for these premium types.

Rose Garden. 4 W-R, 1993, Mitsch, Oregon.
<https://daffseek.org/detail-page/?cultivar=Rose%20Garden>
One for \$30.00 **SOLD**

Wheal Rose. 4 W-P, 2003, Scamp, England.
<https://daffseek.org/detail-page/?cultivar=Wheal+Rose>
These bulbs naturally tend smaller. You will get two medium sized bulbs and one smaller bulb for \$25.00 **SOLD**

Wampum. 4 W-P, 1988, Jackson, Tasmania.
<https://daffseek.org/detail-page/?cultivar=Wampum>
One for \$55.00 **SOLD**

How to Order:

In an email or on a sheet of paper, please list what you would like to purchase, by name and quantity. Please then email or mail that list to us with your name, **shipping address**, email address, and, if you wish, your phone number. (None of your information will go anywhere beyond use for your orders with us).

All our stocks are limited. Sales will be handled on a first come/first serve basis.

You need not calculate the price; we will prepare an invoice to return to you for approval and payment. The invoice will include shipping (via U.S.P.S.) at the rates of \$8.00 (up to and including 12 bulbs); \$10.00 for 13-24 bulbs; \$16.00 for 24-36 bulbs. Orders larger than 36 bulbs we'll calculate and quote the rate to you. If the ultimate size of your shipment results in a rate which seems proportionally high, we will modify and reduce the cost.

Payment should be to J. D. McFarland, the farm is not incorporated. Check or Money Order preferred, however we've just set up a Square account and should be able to accept credit card payments as well as some other payment forms.

Sales are limited to the United States.

About our bulbs:

The photos in this flyer are of flowers here at the farm. What you get will be from that same stock source.

We include a link here for each cultivar to DaffSeek—an amazing resource for daffodils. Please also consider joining the American Daffodil Society. A membership is a true bargain for what all is provided, and a youth membership is a great way to encourage a youngster's interest in daffodils.

All bulbs are field grown on our farm in Central Ohio, nothing is imported or from other sources. All have been grown and allowed to divide naturally for at least several years in hardiness zone 6b, very close to a patch of 5a. (Elevation around 1150 feet). They have survived temperatures as low as -12° F and as high as the upper 90s. We “field grow” in former crop fields and pastures with no chemicals or fertilizers added beyond what nature provides. These are tough bulbs which should excel in pampered or rough conditions.

Anything we sell is believed to be true to name – the real named cultivar you are purchasing, and research is done to make sure of it. Our original source of the flower will be shared on request.

Bulb sizes vary with age and type. We will endeavor to give you as large bulbs as possible. Don't look for them to be giants since we don't use artificial fertilizers to pump them up for shelf appeal.

About our farm:

Although flower and bulb sales started much later, our farm dates to 1986 and “Beinn Sloidh” (something like “Ben Sloy” when Anglicized) is Scottish Gaelic for “Gathering Place Hill”. Growing daffodils for local charity events dates to about 1990 and flower sales to about 2007.
