Hay Mound 1966

3/20
Closed all 3 blooms with renamed Pollin.
Looked good this year.
They are nice flowers.

Rhodo led

11/30/70
3/27/65 - After 3 days of downpour, sunshine. 16 crosses (duration) made about 12:30. Some blooms are fresh - others have been cut during all the rain. Quality of Datura looks real good this year. Measured at 3 3/4 blooms - wonderful to take. Crossed 11 more (duration) at about 6:30 p.m. The Datura pollen has been in refrigerator for about 2 weeks. Datura blooms had just opened since March. Bright & sunny.
3/30 — Good sunny day—made effort to get hand
early to fellmate remainder
of Juturn blooms with
Cellophane. 25 & 30. Used
very fresh Jutur — applied
with brush. Should have
done faster. Rain about
6 or 7 hrs. Later.
3/26
Crossed all blooms open with Gr. Island -
Cold, moist morning when
Cross made. Went
back in p.m. - sunny -
and remake all of them.

3/30
Crossed remainder
of blooms with Great
Island. Remade all
previous ones, too.

3/31
Looks like a bumper
crop of seeds coming up
from the Interim Gr. Isl.
Cross. Almost every one
looks as though it has
taken, and the seed pods
look full. Edna Beefield
"obligingly" picked one and
Interim 1967

Jezabel

3/7/65 Bloom opened this a.m. Fallen not ready, so made cross (self) at about 6:30 p.m.

3/12 1966

Jezabel x Rob. Rouge redly
5:00 p.m. hot day
5/16 - 17 seeds

3/15 1967

Jezabel x Pretender Bloom very poor because of the weather with strong wind.
Pastorale

3/27/65 Made cross on second Pastorale bulb (interlude) just opening at 6:30 p.m. Used last bit of interlude pollen which had been in refuge for 2 wks. - that which was left on paper and applied with brush.

4 blooms from this bulb.

1966

3/27/66 Pollinated the 3 blooms with jacintha pollen, 6:30 p.m. Cool, fair day. These blooms have been open about 2 days.
Caro Zone
Opened 3/24/65
Beautiful - medium open, white. Excellent quality throughout.
3/30 Caro n. x Jezabel
Caro n. x Viridiflora

3/20/66
First bloom opened this p.m.
3/22/66
Four blooms crossed with Interlude pollen. 500 p.m. Hot day.
Make crosses, again, 3 days later.
5/18/66 Riched peds
4, 7, 13, 21

1967
Caro Zone x Pretender
5/14 4, 3 7
Limeade
Open 3/28/65
Much better than I expected - good show. Brilliant, good texture & form.
3/30 Limeade x Cara 2.

Last to very well. Had 3 good blooms from the 1 bulb.

3/20/66 1966
Limeade x Cara Nome, fresh pollen. Limeade blossom open 2 days. Clear, warm day. Pollinated about 6:00 p.m.
5/14/66 - Harvest
#1 - Treated, #2 - 8
Pretender
open 3/20/65

- Extremely heavy substance. Crowded too large but should make an interesting breeder.
- Excellent general form of perianth.

3/1: Pretender x Caro N.

- People like this flower, even with its large, unusual crown.

3/22 1966
- First bloom crossed with Rd. Range sky yellow.
- 5:00 p.m.: Bloom just open.
- Two more to open.

3/15 1967
3 blooms x D. Zabel
(Pollen not good)
Attitude

First one to open this season. Good color. Stems holding well in some very bad weather. Used petrol on several blooms. Selfed it, but I don't think it is going to set.

1966

3/20/66

Will be opening tomorrow.

Six excellent plants, the picture of health and uniformity. I like its habits of growth.

3/22

Crossed all six blooms with Carlsana Bellin.

5:00 p.m. hot day. Showing good color for this weather.

Wonderful foliage.
Moonstruck

Very striking flower.
Good size & color.
Moonstr. x Intemide
	x Viridiflora

1966

3/17/66
Pollinated with
Jonquilla. Bloom had
been open for a week
or two; doubt if it

It didn't!

2/14
1967

Pollinated with
Tri-Color on
fresh bloom. 5:00 p.m.
60° temp.

Froze
Pelindra

Absolutely fine, as usual. Wonderful stem, even in freezing, windy, and very rainy weather. Should use, whenever possible, as a parent.

1966

3/20/66
First one opened today.
3/23
8 blooms x with
Greenland - 6:00 pm.
Hot day - 80°

1/2 - These blooms are still beautiful.
Mabel Taylor

Color holds up till perianth completely wilted.

M.T. x Introduce
M.T. x Pelinda

Some of the foliage 24" tall, this year, with no flopping. I'm sure that the potash has something to do with it. Applied ammune & potash last fall before planting.

3/20/66

Some opened today.

3/22

5:30 pm

13 Crosses with Carol Zone
2 more to open = Total X 3/23
5/14/66 - (Tm-T X Cara 2)  
First Pod - 25 seed 14, 15, 16, 17, 18
Green Island

Good as usual.

Gr. Ds. x Jezabel
Gr. Ds. x Vivistephan

3/26 1966
Some blooms now open, crossed with Passionale.

3/27
Crossed male with Inturida.
6:00 p.m. - Cold

1967

3/22 Gr. Dsl. x Tarago Pink
5/13 - 13, 13, 3 - 29
Gr. Dsl. x Andulon

5/15/67 - 12, 42, 10, 27, 26, 14 - (10)
Sr. Del x Open
5/21 - 4, 3, 16, 12 - 35
Coloratura
fine, as usual.

Col. x Vinita-flora
Col x Rob. #35

Col. x Southland
Out of 6 crosses made
1 seed!

3/4 Col. x Auburn
Picked 5/13 - 4, 3 - 2

1966
1967
Kilworth

3/26 1966

First blooms pollinated today. Many to go.
Good color this year.

5/1/66

Several of those beautiful seed pods are shriveling. Some feel solid, however.

5/15 - Picked pod with 4 immature seeds & planted them immediately. Seeds only about 1/8", dark, not shiny. Pod shrivelled-up. Kil x Rose Royk

Kil x Carol 71 - 10, 25, 78

Kil x Seminole - 10
Kil x Chablis - 17
Kil x Resemone - 16, 9, 12, 16, 11, 11
Kilworth x Mr. Daf.
5/14 - 9, 16, 24, 18, 21, 17,
6, 10, 10, 16, 23, 21, 15,
8, 17, 13, 7, 18 - 269
Kid x Chumawa
5/14 - 7
Kid x Research
5/18 - 9
Kid x Interior
5/16 - 7, 14 - 21
Rose of Throne

No bloom

4/8

2 blooms — used Air castle pollen

4/20

Dug up all of these, dirt and all, and disposed of them. Brown stains on some of the foliage, and it's just worth taking a chance with.
Tryst
No bloom

3/31 1966

Open
41/1 Crossed with Nemita.

As this flower mature
it should very nice
quality, pedals, etc.
Can see why this
produced something
like Easter Breez.

1967

Tryst x Nemage
Picked 5/13 - 11/13 - 24
Greenland
3/26 1966
Has been open (in bloom) for 2 or 3 days. Two grown
with care to-
5/15/66 Riched pot
8 seeds
5/10/66 - Greenland x Veneta
32 seeds
Zonita

Opened 4/7/65
Cared w/ parathane

3/30 1966
Cared all 3 blooms
With Easter Moon.
Used honey solution.
Pollin not too good, 2
bought 4 buds.
It didn't!

3/26 1967
Zonita x E. Moon
Picked 5/13 (6)
Leonaine
opened 4/7/65

Pollen not ready - will make cross myself.
Leonaine.Looks like good quality coming up.

3/30 1966
First cross today
Pollen good this year;
what a change from last year. Establishing obviously makes a big difference. (Pollen of Maywood not good, same as Leonaine last year)

1967

Leonaine x Rimmer
5/15-15, 2/8, 2/2 - 29
Chinese White
3/30 1966
First cross E. Brown
used honey solution to help.
Not good

1967
Beautiful
Ch. Wh. x E. Brown
5/11 - 4
Ch. Wh. xinterim
5/11 - 6, 11 - 17
Passionale
Opened 4/1/65
Crossed w/Caro home

3/26 1966
Open today - will wait for Coral Ribbon pollen which should be ready tomorrow.

3/27
Made cross with Coral R. - hope pollen was ready. Cold weather, but dry.

Pollen was patent on several things.

3/15 1967
P. x Caro home on 2 blms.
Allurement

Opened 4/7/65
Crown w/ Caro home.
Planted in a pot, I
doubt if it shows up
as well this year.

3/22
One Bloom X
with Caro home,
5:00 p.m.

To
Festivity 1966

3/26
Crossed first bloom with 'Erie Flame', looking
forward to the next generation
cross which should
give something impressive.
3/30 Crossed 2nd bloom
with 'Erie 71'.
Coral Ribbon 1966

3/26 (1st. bloom)
C.R. x Passionate
Looks interesting - can
see where it could be
very good in a couple of
years.

3/27 (2nd. bloom)
C.R. x Interlude

6:00 p.m. and cold.

3/15 1967
C.R. x Pretender
Magic Dawn
4/9 1866

Pollinated with Leonine jellen.

4/17

Pollinated other bloom (last day seed of season)

With DBM 1019 - a bloom E. Robertson gave me to use. Wonderful apricot color which I believe should have interesting breeding possibilities on many things. She is going to give me a bulb - don't know parentage, yet.
Day lilies Plant d about 7/1/64

2 Coral Bells 2 Coral Bells

2 Darfan 1 Playboy 1 Talquin 1 Always 1 Winn
**Viridiflorus**

1. **planted** 9/15/64
   - In bloom 10/21/64 (1st bloom)
   - 10/23/64 (2nd...)
   - 10/26/64 (3rd...)

Dug 4/3/65 - good looking bulb; foliage about ½ brown + almost 3½ long.

2. **planted in 12" pot**
   - 10/26/64
   - Dug 6 bulbs 5/6/65

---

All of above planted again 9/18/65 - 6 in 12" pot and 1 in ground with other bulbs. The one which bloomed 1964 put in center of pot this time.

- First one to show up 10/7/65 - in pot (not the center one)
- 10/15/65 - center one just showing up. None others yet.
Winter killed in pot. One in ground
liased.
5/14/66. Drag one which was in ground.
Seed 1965

Interim x Interlude

Harvested 5/15/65
Planted 6/6/65
(18 seeds)
Sterilized soil in oven.
Seed 1965

Intermediate x C. odorata

Harvested 5/18/65
Planted 7/24/65
(1/4 seeds)
Forcing

1. Put tulip bulbs into refrigerator 7/21/65
   Taken out mid-September about 1/4" top growth 10/5/65

10/10 - Very slow - still only about 3/4".

10/29 - Still very little growth, so I put it
   in the basement under fluorescent lights - 14 hrs.
   a day.

11/29/65 - Still very green all over. Want to try forcing
   this again for next fall.

5/10/66 - Took bulbs out of pot to dry
9/18/65
Also planted 6 wildflowers in a 12" pot. Weather too warm but wanted to get planting done.

10/16/65

11/24/65
Planted magic Dawn which Eric Robertson had saved for me. Will give it back since I already had one.
12/30/65

Brought in pot of seed which had been planted 8/4/65.
Put it under the fluorescent lights. Want to see if it is speeding germination, any.
Some of varieties (bulb) have come through the ground, outside.
Coloratura & Allegretto, maybe more.

1/2/65

Most varieties which I have grown here for a year or more are up, even Kitvedh. None of the new bulbs are up. Unreasonably warm weather far better than a week.
1/6/64

Tree seedlings already up in pot brought in on 12/30. Rachel Taylor x
Florinda x.
1/7/66

Brought in one pot of Interium x Care home (36 seeds). Will be able to compare with other pot of same cross which I left outside, 35 seeds.
1/12 - 12 seedlings up
2/12 - 31 up

Late April
Interesting to note that many of these started under lights now have their second leaf coming up. First leaf, though floppy, is 6 to 8 inches long. Those in the pot left outside showed a 3rd leaf. Foliage 3-4 inches long.
1/14/66
Brought in pot of seedlings which have grown 1 year. In full sun, outdoors.
Want to see if speeding them up will help any.
1/21 - 5 are up.
5/1/66 - 2nd 3rd leaf, yet, but the one or two leaves are vigorous.

1946

5/24/46

Tore these 2 yr.
old seedlings out of their
pot and immediately
transplanted them into
2 pots (Didn't have a
permanent place to put
them in the ground.)
7 seeds in each pot.
6/4/66

Dug most of the bulbs. They look good and clean.

Left Diturkale, Boiinder, Dittelmaat & Accraat, because they are still quite green.

11/11/66

First of two buds on Moonstruck opened today. (But in refug. on 7/16) Pollinated with Vivid pollen which did not seem too good.

11/14/66 - Pollinated 2nd. Bloom with Vivid.

12/9/66

Mabel Taylor in pot, open. Pollinated with Vivid. Rained several hours latter. It would be a miracle if this took.

No miracle?
1/31/67

Brought one pot of 66-1 in to see effect of 24 hr. lights

Fast action!
Grew much longer into the summer.

Jan. 1968

This pot of 66-1 (and all the others) brought in under lights this year, looks a year older than the others and a great number more in the pot. Light just prevents much better germination and growth.

Threw them outdoors 3/16—warm day with good rain.
2/26/67

Viewed effects of 8° weather night before last (with strong winds). Everything looks a bit like smoke - many green stalks ruined, foliage flat.

3/13/67

 Much of it turned out to be much!
 Ruined such things as Moonstruck, Pastoral (it did lesson, however), Limeade, Palindra, Jezbel... hurt most everything.
