INTRODUCTION

Welcome to my eighth catalogue. I would like to thank my customers for their support in 2011 and hope your bulbs will provide delight at flowering time.

Our bulbs were represented in all the winning major trophy classes at the RHS and The Daffodil Society Shows with many champion blooms as well. The tulips did equally as well with wins at the RHS, Harrogate and The Wakefield Old English Florist Tulip Show. Our export business to the USA grew in 2011 and we hope it will continue to do so.

This year we are releasing four new cultivars, all them we think have great show potential, three of Clive Postles seedlings and Katie Millar 2W-P from Ken Bowser. We are also releasing four new varieties bred by Peter Ramsay and adding some more to our list of the current best exhibition varieties from the UK, USA and Australia. Also due to good stock increases we are offering some varieties at discounted multi-buy options.

For miniature enthusiasts I have added a few more varieties to my already extensive range with one or two of the rarer varieties.

Most of the cultivars on offer are readily available but the most sought-after varieties are in short supply. To assist you I have indicated against these varieties the approximate number available and these will be distributed on a first-come first-served basis.

Bramcote Bulbs is a predominant supplier of narcissus bulbs and over the years have provided other specialist bulbs to exhibitors and gardeners alike. If you are a Daffodil Society, Gardening Club or Horticultural Society we also sell bulbs of one variety in bulk subject to availability.

We acquire many other types of bulbs not listed in the catalogue for sale in bulk to the Trade, Gardening Clubs or Horticultural Societies either for landscaping or for resale. These can be spring or autumn plantings so give us a call to see what is available and to receive a quote.

Best of luck for the coming year
