Nashville, Illinois 62263

- Ia -Frontier, Godolphin, The First, Winter Gold, Emperor, Winter Gold and The First both extremely early, Emperor good for naturalizing, holds its size for years.
- IIa yellow self-- Christian, tall deep yellow, Trenoon, tall deep gold, Lotahrio, \ very late orangy, all good growers.
- II- a colored Diolite, Harrogate, Wodan, Fra Angelico, near trumpet, gold and deep red frilled, Ultimus, very, very late near trumpet, creamy yellow and deep orange, Leprechaun, small plant and flower of great brilliance, good grower. Marionette, miniature with orange rim.
- II b Cream Cup- One of Mitsch's older ones, opens yellow, turns to a good white, and becomes a good garden IIc, large prolific and good grower. Cleena, John Evelyn, Ramona, Silver Standard, this last, extremely early opens cream and becomes white. Also Kilworth in red and Rubra, a beautiful Australian, in orange and deeper rim.
- II c White Weed, unregistered Beersheba seedling of mine, near trumpet, fair form and color, seems to like hot humid climes, prodigal of flowers and increase, good bulb that does not rot. Good Seeder.
- II d Frilled Beauty Oldest IIId, bred by Mrs. Backhouse, registered in 1929, different and quite good.
- III a Diana Kasner, old timer in cream and orange, none grows better of blooms more.
- III b Angeline, Kildrum, Reprieve, queen of the very lates, White lady, vigorous tall stem. Margaret Mitchell, once classed a poet, very fine tall flower.
- III c Silver Princess, Frigid, the latest in ice white, Alberni Beauty, here a tall very late light yellow. St. Olaf, unusual perianth form, Silver Salver, old but very worth while, not large, but unexcelled form, whiteness and flat cup of unique silvery tone, grows well. Mrs. ^{2c} Langtry, an ancient small one which will occasionally open a self yellow and turn to a good IIIId in this climate, maybe breeders have overlooked something here.
- IV Holland's Glory, Inglescombe, Romagna, Yellow Cheerfulness, all good yellows. Insulinde, Twink, both cream and orange, almost weatherproof, Mary Copeland, white and orange, sometimes sets seed, Texas, Moulin Rouge; both by Mrs. Backhouse, yellow and red, still good.
- V a? Alope, tall straw yellow, near trumpet, single bloom, sometimes fertile, Pearly Queen, very good bicolor, 2 or 3 florets. Thalia, Moonshine, white green eye, a little smaller. Short Silk, creamy stars.
- V b Dawn, miniature, poet-triandrus hybrid, almost unique, Rosedown, brilliant red and yellow, tall, up to 4 florets, only good red and yellow I know, enjoys heat and clay, Silver Fleece, tall icy white, 2 florets, one of the best.
- VI February Gold, Peeping Tom, not the same as Bartley here. Jack Snipe, small vigorous bicolor, Bushtit, I think Mitsch's best VI. Very beautiful in a clump, deep yellow, reflexes here, prolific.
- VII a Aurelia, Mountjoy, Sweetness, all shades of yellow, and large, usually 1 to a stem, Topaz, tall bicolor, White Wedgewood, tall bicolor, unusual placement of several florets, and a fragrance unlike any other.
- VII b Orange Queen, like an orange odorus, Lanarth, one of P. D. Williams best yellows, Trevithian, another of his which can be very large with 4 florets of vivid yellow, Kasote, Dr. Powell's unusual light yellow and orange, several florets, with saucer sup.

VIII Full Blood, Paper White

Poetaz -Laurens Koster, Elvira, Mrs. Alfred Pearson, Silver Chimes, all white and yellow. Elvira sometimes seeds.

Cragford, Early Splendour, Geranium, Orange Blossom, L'Innocense, all white and orange or red, Cragford earliest, all very good.

Canary Bird, all yellow. All the above take after the tazetta parent.

With taller stems, fewer florets and larger perianths, the following take after the poet side more: Allard Pierson, Kingcraft, Medusa, the first, white and yellow, the others white and orange.

IX Ace of Diamonds, Actea, Dulcimer, Horace, Hexamiter, the last 3 among the tallest and toughest, Narrabri, Sarchedon and Pentucket, Dr. Powell's little one, a good grower, the smallest I've seen. Does anyone know Black Prince, supposedly the smallest poet? I have never seen it.

X N. lobularis, extremely early bicolor, medium size, called the Lent Lilly in Europe, probably a form of N minor conspicuous

N. hispanicus, poeticus Ornatus, N poeticus recurvus, N poeticus flore pleno, which seems to be the same as N albus plenus odoratus, and has not missed bloom here in 20 years, N pseudonarcissus gaxi princeps, early yellow, widely naturalized around here, not the same as trumpet major, N canaliculatus which blooms well and increases well here when planted rather deep in clay loam.

Dear Mrs. Gryphon: I have a bulb of Marie Louise for you this year, and a number of the ones you wanted last year I dug again this year, also I have some others I didn't list but a few at least, you note I am heavy on the late ones, due to the blizzards here I was unable to mark but a few earlier and midseasons.

If there is something you need it may be I have it and could dig it next year, I have over 1100 cultivars some in all divisions and subdivisions.

I have the following kinds available till about the first week of October 1975, some in short supply. 45¢ each, postpaid.

- IIa colored Glenalbyn, ^{US} Antralian, Sumatra, Early Light, Zara, Leander, good Dutch garden flowers, Sacajawea, Merkara, Dunkeld, Rouge, California Gol, Indian Summer, Fra Angelico the last very showy, **Adament**, Ultimius, very very late, ih Cream and Orange, and a good grower.
- IIId Lemon Dori^e
- IIb pink, Mrs. R. O. Backhouse, and Louise de Coligny a good Dutch Pink, a fine grower, and has a most delicious fragrance, which is uncommon in IIbs
- IIb red or orange Rowena La Teagle, Dick Wellband, Rubra, another Australian, and Orange Lace a very frilly showy flower of Mitsch.
- IIb yellow or lighter Green Island, Lunar Rainbow, Castlecoole, Sea Urchin, and Prince Fushiimi, dated 1908, very good grower, very late, white tones of Orange Pink or buff yellow,, most unusual form. must be seen to be believed, no other like it.
- IIc White Weed Fair form and color, this Beersheba seedling continues to grow like a weed and never rots, loaded with flowers.
- IIIa Roman Star, Diana Kasner, **W** All, Jezebel, and Beguildy, this and Dinkie are the nearest to a yellow poet I've seen, hope to dig Dinkie next year, Beguildy is vigorous, quite late, has a good bulb.
- IIb St. Louis, a vigorous yellow, Snow Gem, Culpepper's early poet like beauty, Mahmoud and Masaka good reds. Mountain Pride, tall orange, After All, Mrs. Jinks, both orange, Louky, a near poet, Corncrake, Guy Wilson's very late, one of the best.
- IIc Distingue, Stardust, Foggy Dew, Alberni Beauty, one of the latest, tall, good grower, but here a really fine yellow IIb.
- IV yellow Golden Ducat, King Alfred, sport, Riotous, Hollandd's Glory, Inglesscombe, all good growers, Romagna, a beautiful rose form.
- IV All white Daphne and Sweet Music both fine when they bloom, which has not been too often, both mostly poet.
- IV yellow and orange, Valencia, Twink, Hollandia, this has unusual form which varies from year to year, is always good, reminds me of a cactus **5** Dahlia, a very good doer.
- IV White and colored White Lion, Mary Copeland, Insulinde, all attractive and good doers, Falaise, a noted parent.
- IV poetaz doubles, Yellow Cheerfulness, Bridal Crown, a fine all white. z

IIb yellow or lighter Green Island, Lunar Rainbow, Castlecoole, Sea Urchin, and Prince Fushiimi, dated 1908, very good grower, very late, white tones of Orange Pink or buff yellow, most unusual form, must be seen to be believed, no other like it.

Va. white, Thalia, Niveth, Tresamble, the last one of the largest and best, yellow; Treskewes, Kings Sutton, Stoke, yellow or cream with orange or yellow, very good, grows and blooms prodigally, Pearly Queen, white or cream with yellow or cream, never fails

Vb Dawn, Sidhee

VIa Jenny, Dove Wings

VIb Roger Beryl

VIIa Penpol, Topaz, Aurelia, Golden Incense, all very good, the last is later than most Jonquils.

VIIb Kiowa, Parcpat, Trevithian, Cheynne, Lanarth, all very good, Orange Queen, like an orange odorus.

VIII White perianth, ~~Elvira~~, Geranium, Silver Chimes, Winter Pride, St. Agnes, all good.

Yellow perianth, Orange Prince, quite early, Xenophon, Xerxes, both of these have 1 to 3 large florets of reddish flushed peria and orange red cups. Admiration, which is yellow, sometimes seeds.

IX Actaea, Horace, Cantabile, Dactyl, Socrates, Shanach, Knave of Diamonds, and Pentucket which apparently is not always as small as thought. However this past season here all grew to size and height I don't remember seeing before.

X Poeticus flore pleno, poeticus exertus ornatus, gracilis, a very late poet-jonquil hybrid, tall with several small fragrant yellow blossoms, N Jonquilla early form, jonquilla flore pleno, hispanicus, bicolor, gayi princeps, odorus maximus, odours carolia, poeticus exertus ornatus. Von Sion (telamonius plenus)

XII Kenellis, miniature white buldbocodiumx triandrus hybrid

I thank all who have bought from me before, best wishes for 1980, if a mistake or a rogue creeps in, let me know,. I'll do what I can. I am not a commercial grower, this is my way of disposing of my surplus, some kinds increase rapidly, others do not, some items in a short supply, if you think I have something you want, I will dig it next year if you let me know by March 1.

Hot and humid here, and wet. Best wishes
