NEW and CHOICE DAFFODILS

WE specialise in Daffodils and have over 500 different stocks of flowering Daffodil Bulbs including most of the new and rare varieties and a large collection of new seedling Daffodils raised by the most famous and expert hybridists in England, Scotland and Ireland. These stocks which have been chosen with a view to their market possibilities are now growing under the best possible conditions in Cornwall.

A well-known authority on Daffodils when reporting on these bulbs said :—

“The Proprietor of the CARNSULAN NURSERIES in Cornwall is one of the largest, if not the largest grower of the newest and rarest varieties of Daffodils in Great Britain comparing size, weight and condition

THESE CORNISH BULBS

ARE PROBABLY

THE BEST BULBS IN BRITAIN.”

Of the new and choice Daffodils listed and described we hold the entire stocks of many of the varieties which are now offered for the first time, and, owing to our large stocks of new seedling Daffodils, many of which have already received Gold and Silver Medals and Awards, we shall, as they increase, be able to include further new varieties in the Catalogues we issue from time to time.

OUR Cornish Bulbs are the earliest in Great Britain and we consider it important to impress on our customers the advisability of sending their orders early—before the end of July if possible—as all unsold bulbs are replanted early and many persons, not realising this, have been sending their orders too late to enable us to execute them.

In the execution of orders, it is our invariable practice to despatch only the very best double-nosed bulbs, with the gratifying result that, up to the present time, we have never had a complaint in regard to any bulbs we have sent out. On the other hand we have received many letters from customers not only in Great Britain but in Holland, Africa, America, Australia and New Zealand expressing entire satisfaction with the bulbs supplied.
