

MINIATURE DAFFODILS  
from Alec Gray

Capen

The following list includes inexpensive varieties of proven performance, recommended for gardeners interested in adding variety to the spring picture. All are from Alec Gray, the world authority on miniature daffodils. Heights are quoted from Mr. Gray; they will vary with culture.

Terms: Early ordering is imperative. In fact, if you would prefer an equivalent substitute to a refund, we suggest you so indicate. Please send order with check to Mrs. John B. Capen, Springdale, Boonton, N. J. All orders of \$10 or over for east of the Mississippi will be sent post free. For those of \$5-\$10, we ask that you add 50¢ to help defray mailing costs. If you want but a sampling, do combine your order with a friend's to reach the minimum of \$5. 6 of 1 variety @ 5x price of 1 bulb; 12 of 1 variety @ 3x the price for 3.

Care: Bulbs will arrive in early fall. Do plant immediately - the little ones suffer in transit. Supplement good garden soil with peat moss; add superphosphate or bone meal; mulch.

BULBOCODIUM Species.

Monophyllus (clusii) foliosus 4". Milk white. Recommended \$ .35/3  
for a cold house.

Obesus 3"-4". Large yellow; recommended for a cold house. .35/3
