**CHARLES H. MUELLER CO.  
AND  
BUNDLES OF BULBS, INC.  
215-862-2033**

Dear Bulb Enthusiasts:

Another odd Spring! Very like a Spring in Holland, cool and damp, better for the flowers than the customers. The daffodils were particularly happy this Spring. We have included some new pictures on the web site to emphasize this. The later tulips, that were decimated last year, came back in force this Spring.

We continue to limit the number of varieties stocked for the catalog but we have increased the number of pictures and detail available on the website. For a full look, nothing beats a visit to the garden in Spring.

We wish you a happy 2003 and a most colorful growing season. The weakness of the dollar is affecting prices, but we have kept prices as low as we can.

With Best Blooming Wishes,

Charles A. Fritz III

**Bulb Sizes:**

Charles H. Mueller Co. has made its reputation for selling the largest size bulbs available and by having these bulbs be true to variety. With our **DN#I daffodils** you have more flowers per bulb, plus the bulbs are much larger and have larger splits than those available elsewhere.

Generally the catalogs and especially the so-called "wholesale" catalogs sell only the smaller sizes, DNII and DNIII, naturalizing size bulbs.
