Our firm offering 3 generations of experience in bulb-growing has throughout the years grown many thousand varieties of Daffodils (Narcissi) and are offering herein many old and new which we consider the cream of the crop! These are all TOP-SIZED, DOUBLE-NOSED BULBS with the exception of those for NATURALIZING, which are blooming sized rounds (more suitable for this purpose) and the MINIATURES, which seldom make double-nosed bulbs.

Please come to visit our lovely naturalized Display Garden near Williamsburg. We are open from March 15 through April and September 15 through November 15. We will gladly send you a map.

PLEASE ORDER EARLY THIS SPRING FOR DELIVERY BETWEEN SEPT. 15 AND NOV. 1ST. Northern orders are

shipped first. (a 5% bonus in BULBS of our choice) on orders received before July 1, except on; pecks, bushels, mixtures, collections, already discounted.

MINIMUM ORDER: \$7.50

POSTAGE: Please be SURE to include 10% of your order to assist with handling and postage East of the Miss., 15% West. This does NOT apply to BUSHELS which are F.O.B., Gloucester, and which weigh approx. 50 lbs. Your P. O. will advise you the amount to send.*

*Whenever possible we ship United Parcel Service. Please give neighbor's or alternate address in case you are not at home to accept delivery.

PRICES: are per dozen and no less than 6 bulbs may be ordered of the varieties selling for **under \$5.00** per doz. 6 bulbs sell for the $\frac{1}{2}$ doz. price. One or more of the \$5.00 and over price may be purchased for 1/10 the dozen price.

QUANTITY ORDERS: please write us for quotations on same.

SYMBOLS: The letters and numbers following the variety name denote the classification of daffodils as designated by the Royal Horticultural Society.

BLOOMING PERIODS: (EE-extra early; E-early; EM—early mid-season; M-mid-season; LM-late mid-season; L-late).

VIRGINIA RESIDENTS: be sure to add 4% for State Sales tax.

DAFFODILS FOR NATURALIZING

Do plant your hillsides and woodland areas with a Host of Daffodils to gladden your Spring! DAFFODILS are amongst the most hardy of garden plants and lend themselves beautifully to naturalizing, that is, planting out in drifts to give the effect of Wildflowers.

After many years of experience and experiment, we have searched out the varieties most suited for naturalizing and are listing below by the bushel or peck those we especially recommend. These are blooming sized rounds and may be left undisturbed for many years if fertilized each winter.

NATURALIZING MIXTURE: Many varied types and colors, justly famous and not available elsewhere—**ORDER EARLY!**
