9 - 5 Monday - Friday

2814 GREENVALE BLVD.
FALLS CHURCH, VIRGINIA 22042

Our firm offering 3 generations of experience of bulb-growing has throughout the years grown many thousand varieties of Daffodils and are offering herein many old and new which we consider the cream of the crop! These are all LARGE, DOUBLE-NOSED BULBS with the exception of those for NATURALIZING, which are blooming sized rounds (more suitable for this purpose) and the MINIATURES, which seldom make double-nosed bulbs.

Please come to visit our lovely naturalized Display Garden near Williamsburg. We are open from March 15 through April 15 and will gladly send you a map. Our Display Garden is still located in Gloucester, but please address all correspondence and orders to The Daffodil Mart, Box 112, North, Virginia, 23128.

PLEASE ORDER EARLY THIS SPRING FOR DELIVERY BETWEEN SEPT. 15 AND NOV. 1ST.

MINIMUM ORDER: \$10.00.

POSTAGE: Please be SURE to include 10% of your order to assist with handling and postage East of the Miss.; 20% West. Pecks and collections to West Coast 25%. We ship United Parcel Service when available so please include street address or route number.

PRICES: are per dozen and no less than 6 bulbs may be ordered of the varieties selling for under \$5.00 per doz. 6 bulbs sell for the 1/2 doz. price. One or more of the \$5.00 and over price may be purchased for 1/10 the doz. price.

GARDEN CLUB DISCOUNTS: 5% on \$50 orders; 10% on \$100; 15% on \$200; 20% on \$500; 25% on \$1,000. These discounts apply only to orders compiled by and shipped to one member. Discounts do NOT apply to pecks and collections which are already discounted.

CLASSIFICATION: The letters and numbers following the variety name denotes the classification of daffodils as designated by the Royal Horticultural Society.

BLOOMING PERIOD: EE-extra early; E-early; EM-early mid-season; M-mid-season; LM-late mid-season; L-late.

HEIGHT: The number succeeding the blooming period is the approximate height of the daffodil.

VIRGINIA RESIDENTS: be SURE to add 4% for State sales tax.

DAFFODILS FOR NATURALIZING

DAFFODILS are amongst the most hardy of garden plants and lend themselves beautifully to naturalizing; that is, planting out in drifts to give the effect of Wildflowers.

After many years of experience and experiments, we have searched out the varieties most suited for naturalizing and are listing below by the peck those we especially recommend. These are blooming sized rounds and may be left undisturbed for many years if fertilized each winter.

NATURALIZING MIXTURE: Our own mixture of many varied types, colors and blooming dates—**ORDER EARLY!** \$15.00 per Peck

Most of the following varieties are included in the Naturalizing Mixture and may be bought by the peck. Each peck contains approximately 75 to 100 bulbs.

Cat. No.

17 BIFLORUS —VL	\$15.00
28 CARLTON —E	15.00
