**HOW THE BULB ROUNDUP WORKS****Bulb Roundup Details**

First, you do not need to bring any bulbs in order to participate! But if you have some, great! The Roundup is a terrific way to add fabulous daffodils to your collection!

Everyone with dues paid through 2015 draws a number. **Those who are (a) new members in 2015 or (b) have volunteered at least 4 hours during the past year get first pick.** (Hint, it's not too late to volunteer before this event - sign up to help sell bulbs at the "Last Chance" public sale - see the article above!) If you have some mesh bags, bring them so you can get your new bulbs home. Paper bags will also be available. If you have a "Show & Grow", bring it for reference.

If you can, bring some bulbs to share (**not** required to participate!)

If you can share some of your own bulbs at the Bulb Roundup, bring them along! Please bag your bloom-size bulbs separately with a name label. If you need mesh bags for this, please [send an email](#) and we'll try to get some to you.

Bags of the mixed "Surprise Package" bulbs will also be available for members to purchase at the August 29th Roundup, in advance of the final "last chance" public sale September 26-27. Prices are the same as to the public: \$5 per bag or "Buy Four Get One Free"(5 bags for \$20).

## **WATER - WATER - WATER**

**As the summer winds down, pay attention to how much water your daffodil plantings are getting!**

### **September - October - November**

As the soil temperature begins to cool, your daffodil bulbs are starting to wake up under ground. They **need water** as they come out of dormancy! You cannot see it, but they are actively growing. New roots are developing, and late in the fall they will chemically change so that they can survive our winters.

So, whether you are planting new daffodils or not, all of your daffodil plantings need lots of moisture *every fall*. If Mother Nature doesn't do it for us, drag those hoses around and give your daffodils sustained drinks through out the fall.
