CHINESE AZALEA

# AZALEAS

Import orders for Azaleas for early Fall delivery.

Four reasons why you should place your import order for Azaleas with us:

*First.* We have made a specialty of importing Azaleas for many years, and our continuously increasing trade in this line is positive proof that we are satisfying our customers.

*Second.* Our imports are all made in bulk; all stock is unpacked at our Nursery and orders filled here; badly budded plants as well as such that have suffered in transit are discarded and you receive nothing but perfect stock. This, many times over, makes up for the slight difference between our price and that at which plants of similar size are offered to you by the foreign agents or by such American houses who have their orders made up in Belgium, and who simply distribute the imported cases as received.

*Third.* We number among our customers many who formerly made their own importations, and who, after comparative trials, now place their full orders with us. If you have been in the habit of buying direct, let us have part of your order this season. We are convinced that after a trial you will in future also place your full order with us.

*Fourth.* We handle only varieties which are popular in the American market—we have no undesirable sorts to work off. You can, if you so wish, specify the exact varieties and quantities of each that you desire.

Remember, the prices are f. o. b., any Express, Freight or Steamship Line in Philadelphia. You have no Duty, Packing, Ocean Freight or brokers' expenses.

## Adiantum Croweanum.

This is not only the best and most profitable Maiden-hair to grow for cutting, but it is also the best variety to recommend to the retail buyers for house culture, it standing the dry atmosphere of the room better than any variety we have yet tried.

Strong 3-inch pots . \$2.00 per dozen; \$15.00 per 100; \$140.00 per 1000.

## Adiantum Hybridum.

Similar in general style to Croweanum and by some growers preferred. We consider it a good second.

## Nephrolepis Amerpohli.

### The Philadelphia Lace Fern.

This variety introduced last September has met with much favor during the past season and especially so as a cut frond for which purpose it is particularly well suited on account of the pinnae being so finely divided, reminding one of a fine piece of lace. The fronds are deep and broad which gives them a cushion-like appearance forming beautiful specimen plants.

2½ inch pots, \$1.50 per dozen; \$10.00 per 100; \$90.00 per 1000.  
 6 " " 75 cents each.

## Nephrolepis Todeaoides.

### Todea or Filmy Fern-like Nephrolepis.

This is an English introduction that has received a first class certificate both from the Royal Horticultural Society and from the Royal Botanic Society of London, and is likely to become a most important commercial variety. While in a general way it reminds one of an exceptionally well grown plant of N. Elegantissima it is entirely distinct from this and all others, in its strong yet compact growth and its bold heavy foliage which is distinctly tripinnate or three times divided.

2½-inch pots, \$1.50 per doz.: \$90.00 per 100.
