THIS CATALOGUE CANCELS ALL PREVIOUS ISSUES

All bulbs are offered subject to being unsold on receipt of order and to a satisfactory crop. No complaints as to quality of bulbs, health, size or number will be entertained unless made immediately on receipt of bulbs.

I will not be responsible for results of planting or forcing but guarantee varieties true to name. Orders cannot be cancelled except by mutual consent.

Not less than six bulbs supplied at the dozen rate or fifty at the hundred rate.

All prices are for nett cash within two months from date of Invoice. One half per cent per month interest charged on overdue accounts.

New customers are requested to send cash with order or satisfactory references.

Customers in Great Britain and Northern Ireland can have their parcels sent under the C.O.D. scheme and pay the postman if desired. I reserve the right to send in this manner to unknown customers who have not sent remittance with order.

Orders are dispatched as far as possible during August and any customer in the British Isles who has not received bulbs on order by the 10th September is requested to notify me immediately.

**PACKING CHARGE.** Owing to increasing cost of boxes and packing materials I am compelled to charge for this at the rate of 2/- or 28 cents for the first dozen bulbs ordered and 1/- or 14 cents for each subsequent dozen. This applies to all orders both from Home and Overseas.

**CARRIAGE OR POSTAGE** is charged on all Overseas Orders irrespective of value and on orders under £3 in value in British Isles.

Overseas orders should be received as early as possible and should be accompanied by a remittance sufficient to cover cost of postage, packing, etc.

Overseas orders will be insured at customers' expense.

Small lots of valuable bulbs can be sent by letter post or air mail if desired.

All bulbs travel at customers' risk and expense.

**CURRENCY RESTRICTIONS.** Customers in Australia and New Zealand are advised to consult their bankers before placing orders. Otherwise they may be unable to obtain sterling to remit payment owing to present currency restrictions.

### NOTICE TO U.S.A. CUSTOMERS

Dollar prices in this catalogue are based on an exchange rate of U.S.A. \$2.81 to £1 sterling and are subject to market fluctuations.

**PAYMENT.** The best method of payment is by a personal dollar cheque or by banker's draft in U.S.A. dollars.

**PERMITS.** Customers who wish to import Narcissus bulbs from me must first apply for a permit to do so to :—

**U.S. Department of Agriculture,  
Bureau of Entomology and Plant Quarantine,  
Inspection House,  
Hoboken, N.J.**

giving my name and address, together with the number of bulbs you wish to import, or preferably a slightly larger number. When supplying your permit, the U.S. Department of Agriculture will also send you special green and yellow mailing tags, which you must forward at once to me to attach to your parcel or parcels of bulbs. These tags, which will bear your permit number, will take the bulbs first to the Inspection House at Hoboken, N.J., where they will be inspected, repacked and forwarded to your address.

Customers are requested to send their orders as early as possible as I commence to replant all unsold bulbs early in September.

## Cultural Notes

A well drained sunny plot which has been manured for a previous crop such as potatoes is ideal for growing first-class Daffodils. Planting should be completed as early as possible in August or early September. Beds about four feet wide are convenient, planting in rows about 10 inches apart across the beds, putting six to eight bulbs in each row according to the size and vigour of the variety. The bulbs should be covered with from three to five inches of soil according to size. It is advisable to place a small handful of sand below each bulb to ensure sharp drainage which is vitally important.

As soon as the foliage appears in Spring the beds should be forked or hoed to keep weeds in check. Exhibition flowers may require protection from rough weather and six feet high hop screening is useful as a wind break. Small lots of choice flowers can also be protected with overhead covers placed about eighteen inches above the flowers. White calico covers are suitable for self yellow, bicour and white varieties but red cups require two thicknesses of hessian to prevent burning by sunlight. The covers should not be allowed to remain in position any longer than necessary as they tend to weaken the plants.

Flowers should be put in water for twenty-four hours before packing for a show using light wooden boxes lined with paper. Pack with each row of flowers resting on a roll of tissue paper and the petals overlapping. After every third row has been packed the stems should be secured to the bottom of the box with tape and drawing pins.

On arrival at the show, place the flowers in water immediately after cutting about half an inch from the bottom of the stem to allow them to recover from the journey. The flowers can then be selected and staged in the usual way. Generally three flowers are required in each vase arranged with a few clean daffodil leaves and firmed into position with moss.

Many varieties are excellent pot plants for the cool greenhouse. Pot as early as possible using good loam with a little peat and sharp sand and a slight dusting of bonemeal. Crock the pots well and just cover the noses of the bulbs with soil. After potting plunge the pots in a sheltered plot in the garden, putting slates under the pots to prevent the entry of worms; filling in between and covering the pots with about two inches of soil. Before plunging cover the pots with a little moss to prevent the soil of the plunging bed becoming mixed with the potting compost.

The pots can be lifted in batches as required from early January onward. As the days lengthen growth will be rapid. The secret of successful pot cultivation is ample ventilation and plenty of water both in the pots and on the benches and floor to ensure a moist atmosphere.

The following are a few of the best for pots :—

Amongst trumpets, Ardclinis, Ballygarvey, Cantatrice, Cromarty, Golden Miller, Kanchenjunga, Kingscourt, Pretotia, Rathkenny and Trousseau are suitable.

Large-cupped varieties include Ballymarlow, Bellevue, Craigywarren, Crebilly, Dunfane, Dunkeld, Glenocum, Golden Torch, Irish Charm, Kilworth, Ludlow, Mexico, Ormeau, Parkmore, Polindra, Red Ranger, Rubra, Rustom Pasha, Saltash and the double Texas.

Angeline, Ballycastle, Blarney, Chinese White, Glenwherry and Mahmoud are splendid small-cupped flowers indoors.

## Notes

For easy reference this catalogue is arranged in alphabetical order. After each name the division in the R.H.S. Classification of Daffodils to which the variety belongs is given, followed by a number to indicate the approximate time of flowering, No. 1 being the earliest and No. 6 the latest. This is followed by the name of the raiser in brackets.
