1995 FALL PLANTING

Features for fall '95

The most popular varieties, chosen by our customers, are featured on pages 3 to 5

A Giant Dutch Iris 'Blue Ribbon'

'Blue Ribbon' is considered the world's best variety of Iris! The beauty of the purple-blue robust flowers is timeless. Very attractive in the border and an excellent cut flower too. Thanks to an abundant crop we can offer these at a reduced price!

↓ 16-18", ☼ June, topline bulbs: 9 cm. up circ., zone 5-9, ↔ 3", ☼ ☼ ✂
1 25 for \$ 4.75 / # 2 50 for \$ 8.75 / # 3 100 for \$ 15.75

B Trumpet Narcissus 'Golden Harvest' (Improved King Alfred)

Years of hybridizing have resulted in this variety having even better characteristics than the famous 'King Alfred' Narcissus. This variety combines all the good qualities of a Narcissus, like good naturalizing qualities and a long 'vase-life'. To get acquainted with this 'winner', we offer it at a special, discounted price!

↓ 16-18", ☼ early spring, bulbsize No. 2: DN III, zone 3-9, ↔ 6", ☼ ☼ • ✂

- height: 4-6" ☀️ 🌱 •
- spacing: 2"
- very early spring flowering

J. Dwarf Iris Mixture

J Dwarf Iris Mixture
The most beautiful and best performing Dwarf Irises brought together in one mixture. A mixture that provides lots of color for your 'awakening' garden! Zones 5-9.
241 25 for \$ 4.75

F Iris reticulata 'Harmony' (Dwarf Iris)
Uniquely, brilliant blue colored variety for the very early spring. Iris reticulata is native to the mountains of the Caucasus and therefore one of the best species for rock gardens. Zones 4-9.

238 15 for \$ 3.25
239 50 for \$ 9.75

K Iris danfordiae (Dwarf Iris)
Well-known herald of new life in your garden. These Irises carry their yellow flowers on tiny, but sturdy stems. Look best when planted amongst groundcovers or rocks. Zones 5-9.

240 15 for \$ 3.25

K. Iris danfordiae

Steps to successful container planting!

STEP 1

Use a 6-8" deep terracotta container with a diameter of approximately 12 inches. A larger container might be too heavy to lift once filled with soil and bulbs. Put some crocks on the bottom of this container in order to provide additional drainage.

STEP 2

As you can see from the pictures on this page, the secret of a nice full looking container is the planting in layers. This way you will have more flowers over a longer period in the spring. The secret is to plant the larger bulbs such as tulips and daffodils in the first layer of soil.

STEP 3

Now you cover this layer with soil and plant smaller bulbs such as Crocus, Anemone blanda, Puschkinia libanotica, etc. in the following layer. Many of these bulbs bloom very early in the spring and while you enjoy your colorful terrace, the lower layer of bulbs will pop through the upper layer.

STEP 4

Cover the second layer of bulbs with soil and water the container thoroughly so that you will encourage the bulbs to start growing their roots. In severe frost we recommend that you move the container into the garage to prevent the bulbs from freezing, but in milder climates you can leave the container outside. Do not forget to water your container regularly if the bulbs do not get enough rain.

JANUARY STAGE

See the surprising results illustrated in the following pictures! In January you will see the leaves of the bulbs popping through the soil.

FEBRUARY STAGE

You will enjoy the snowcrocuses so early in the spring. Just after the cold winter months you are anxious for some color in your garden. These snow crocuses announce the coming of spring!

MARCH STAGE

Also the larger crocuses are in full bloom as well as the Tête à Tête Narcissi. A very attractive color combination!

APRIL STAGE

Finally the Emperor tulips burst into full bloom and form a lovely combination with the Puschkinia and the dwarf narcissi. Such a planting will provide you with flowers all spring long. When the last flowers have faded, you can plant Begonias, Geraniums or Impatiens in this terrace container.

Terrace Container Collection
Dutch Gardens has selected the following fine flower bulbs for the pictured collection:

- 5 Fosteriana Tulips 'Red Emperor'
- 10 Narcissi 'Tête à Tête'
- 10 Giant Crocus 'Flower Record'
- 10 Snow Crocus 'Blue Pearl'
- 15 Puschkinia libanotica

Zone 4-8, ☀️ 🌧️
