FOREWORD.

1972 - 73 SEASON

I have grown and exhibited Daffodils for many years. My consistent success in Blue Ribbon, single, multiple and seedling bloom competitions guarantees the high quality and health of the bulbs offered. Arising out of an article titled "News from Australia" that appeared in the Sept. 1970 issue of the American Daffodil Society Journal, many overseas requests for catalogues and subsequently orders were received. These clearly illustrated that overseas connoisseurs and hybridists of Daffodils were seeking Australasian bulbs for exhibiting and/or breeding purposes. To meet the needs of those not familiar with the characteristics of Daffodils from "Down Under", I have included in this year's catalogue, in the "Strongly Recommended" descriptive section, a greater number of the Australasian raised cultivars than usual with a view to assisting overseas enthusiasts in making a selection.

TERMS.

All bulbs on orders in excess of \$6.00 are forwarded POST FREE within Australia. Unless otherwise requested by customers, all bulbs will be consigned by air to New Zealand, United Kingdom and The United States of America. Experience has proved that they arrive in a better condition than when sent surface mail. Due to the current high postal charges, overseas customers are required to meet 50% of the postal cost of bulbs selected from this catalogue.

Prices quoted are in AUSTRALIAN Dollars.

Cheques should be made payable to L.P.DETTMAN or money or telegraphic transfers made out to: L.P. DETTMAN

Account No. 200765 Commonwealth Trading Bank,
GREENSBOROUGH, VICTORIA, AUSTRALIA. POSTCODE 3088

On all orders in excess of \$10.00 (Aust.) accompanied by cash or cheques (collections **excepted**), the following discounts will apply; mailed before (a) 1st. November - 15%
before (b) 1st. February - 10%

Discounts offered to Horticultural Societies and Garden Clubs except on collection.

All bulbs are offered subject to a satisfactory crop and being unsold on receipt of order.

Please specify the date if you desire your bulbs to reach you by a given time, and whether substitutes are acceptable.

Bulbs are despatched from late February through to end of March. Northern Hemisphere orders are despatched last because the bulbs can be held over until later in the year before planting.

PLEASE PRINT NAME AND ADDRESS CLEARLY.

GIFTS.

Bulbs make excellent gifts for birthday and anniversary presents. Advice sent to the recipient when you place your order.

CULTURAL NOTES.

Bulbs should be planted not later than the end of March in the Southern Hemispheres because their rate of increase and the quality and size of the blooms may be affected by late planting. Daffodils can be grown successfully in any sunny, well prepared, deeply worked garden soil but GOOD DRAINAGE IS ESSENTIAL.

To avoid risk of damage from exposure, the beds should be allowed to settle before planting. Plant the bulbs to a depth equal to their height. A position sheltered from strong or drying winds is desirable. It is an advantage to cultivate the beds during the growing season. Fresh natural manures should never be used. Whilst opinion on types of manure varies, it is generally agreed that potash is necessary. This should be applied early in the growing season. Use snail bait when the flower buds appear.

Always let the leaves die down naturally before lifting.

Open parcels on receipt; store the bulbs in a cool, dry and airy place until planting time.

Never divide bulbs unless the offsets come away freely and without tearing the base plate.

COST.

Cost is not necessarily an indication of quality of the bloom as an exhibition variety.

In many cases availability is the determining factor.

KEYS.

The small letters in front of a name of each variety indicate its recommended use:
e.g., d = decorative: e = exhibition: g = garden:
p = growing in pots or pans: r = growing in the rock garden.

The figure after the name of a variety indicates the relative time of flowering:
"0" - the earliest: "6" - the latest:

DESCRIPTIONS.

Most people now prefer to purchase varieties that have appealed to them at shows or in a friend's garden rather than accept the written descriptions which often lead to bitter disappointment.

It is therefore NOT my intention to describe my stock other than some of my own introductions and other outstanding varieties recently acquired. Most of these are still in short supply, hence bulbs will be sold on a "first come first served" bases.

As in previous years, descriptions of the varieties shown in the GENERAL list will be provided upon request.
