

Esker Farm Daffodils

2016 bulb list

Greetings from Northern Ireland!

June 2016

We, at Esker Farm Daffodils would like to welcome you to our first bulb list. We have been growing and exhibiting for a number of years both here in Northern Ireland and also in England. Our interest in daffodils stems from going along to one of the 'Northern Ireland Daffodil Group's' annual lectures as a representative for our local gardening society and from there our curiosity was piqued, realising a daffodil is anything but 'just a daffodil'. Since then we have been very fortunate to have had guidance and encouragement from some amazing and very knowledgeable growers and exhibitors across the UK and Ireland.

As teachers by trade, we are fortunate to have summers relatively free and so for the last five years we have spent them at Brian and Betty Duncan's, helping in the field and learning from the 'best'. Three years ago Brian asked if we would be willing to grow on some of his seedlings for him. Brian and our selves have spent a lot of time selecting and assessing these and now we are at a point where we can make a small amount of these available for your purchasing delight. Over the coming years, as stocks increase, we will be able to bring more of these amazing varieties to the market.

We have been inspected by the Department of Agriculture and Rural Development (DARD) plant health inspectors who regularly test samples of our soil and bulbs in their laboratories to ensure we are free of pests and diseases. We have been given the all-clear and therefore the go-ahead to export bulbs anywhere around the world. All our bulbs can come supplied with a Phyto-sanitary certificate issued by DARD, if required.

Our European Community Quality Passport Number is UK/NI 8401.

All varieties offered for sale are grown here at Esker Farm. We also have a compact selection of previously registered varieties available this year; however this will be increasing significantly next year so watch this space...

Dispatching of bulbs is September/October unless you specifically request otherwise.
