### THE DAFFODILS

*I wandered lonely as a cloud  
That floats on high o'er vales and hills,  
When all at once I saw a crowd,  
A host of golden daffodils,  
Beside the lake, beneath the trees,  
Fluttering and dancing in the breeze.*

*Continuous as the stars that shine  
And twinkle on the milky way,  
They stretched in never ending line  
Along the margin of a bay;  
Ten thousand saw I at a glance,  
Tossing their heads in sprightly dance.*

*The waves beside them danced, but they  
Outdid the sparkling waves in glee:  
A poet could not but be gay  
In such jocund company!  
I gazed—and gazed—but little thought  
What wealth to me the show had brought.*

*For oft, when on my couch I lie  
In vacant or in pensive mood,  
They flash upon that inward eye  
Which is the bliss of solitude;  
And then my heart with pleasure fills,  
And dances with the daffodils.*

—W. Wordsworth.

### Greetings

Another year has passed since we have had a chance to send our personal greetings to the many friends who have helped make last season a pleasant one. We do appreciate the orders which you customers sent us in 1938. It has helped materially in increasing our business.

The many fine letters received from you have been a continued source of pleasure. I assure you we shall continue to do our very best to see that you always get "value received", and something extra for good luck.

An apology—Due to a serious illness, the "boss" was unable to take care of the numerous details connected with grading, packing, shipping and planting operations last fall. This work was taken over by Mrs. Kanouse and she did a very good job of it. As we conduct our business as a family enterprise, each one having his special line of work, this meant that she was forced to take over the entire management. If your order for bulbs did not arrive on the date specified, it was because it was not possible on account of the rush of orders, and we try to make it a practice to fill all orders as received. We hope you were not inconvenienced too much if your order was delayed. This year we hope our health will be such that we can be on the job again.

It is our wish that 1939 will be the healthiest, happiest year you have ever experienced and that your flowers will be the best you ever grew.

A. N. and MAUDE S. KANOUSE,  
CAROLE and KATHRYN.

## PLEASE READ CAREFULLY BEFORE ORDERING

**ORDER EARLY**—This has its advantages as you are sure to get what you order. As the season advances we run short of certain varieties and while we live in one of the largest bulb growing areas in America, it is almost impossible to obtain additional stocks from other growers after mid-season. We fill orders in the order received, so the earlier your order is in the more certain you are of getting it filled completely.

**GUARANTEE**—All bulbs are guaranteed true to name, free from disease or pests, and to arrive in good condition. We guarantee to do our utmost to please our customers and will personally see that full value is given in every order. If the bulbs do not give complete satisfaction, advise us at once, and your money will be refunded, upon return of the bulbs at our expense. Although we cannot govern the conditions under which these bulbs will be planted and grown we want it understood that it is our desire that our customers be absolutely satisfied with results obtained. If for any reason they do not perform satisfactorily, please write us about it and if it is proven to be the fault of the bulbs, we will gladly replace them or refund your money.

**PREPAID**—All prices quoted include delivery charges prepaid by parcel post or express, unless otherwise noted. Always remember that 6 bulbs of a variety can be purchased at the dozen rate; 25 bulbs at the 100 rate. Unless the rate per 100 is quoted, all bulbs listed herein may be purchased by the 100 at 7 times the dozen rate.

**SHIPMENTS**—Orders will be shipped beginning September 1st or as soon as the Horticultural inspectors issue us our shipping permits. If it would be more convenient for you to have your order sent at a certain date, be sure to notify us far enough in advance so that we can do this. NO ORDERS ACCEPTED AFTER NOVEMBER 1st.

**SUBSTITUTIONS**—We do not substitute without your consent. In ordering late in the season it is advisable to name substitutes, which will greatly assist us in filling your order completely.

**TERMS**—Customers often lose cash sent in the mails unregistered, so you do this at your own risk. Remittances may be made by check or money order. Stamps will be accepted in payment for small orders. The day your order is received we mail to you a card or letter of acknowledgment; if it does not arrive promptly please let us know so that we may be able to trace it.

**EXTRAS AND SPECIAL DISCOUNTS**—It has always been our custom to add extras to each order. The amount and variety varies with the size of the order. Sometimes the extras consist of additional bulbs of the varieties ordered, at other times they are something different. Rather than send extras of something you already have, we will let you select your own from our retail list. On orders from \$2.50 to \$5.00 you can select 10% extra in stock; from \$5.00 to \$25.00 select 15% extra in stock; from \$25.00 to \$50.00 select 20% extra in stock; and over \$50.00 select 25% extra in stock. This offer does not apply to our bulbs listed under the heading of "Planting Stock" or "Collections".

## NARCISSUS — DAFFODILS — JONQUILS

The terms "Narcissus" and "Daffodils" are interchangeable; there exists a tendency to apply the name "Daffodil" to the varieties in which the trumpet or crown is as large or larger than the petals (perianth); while the name "Narcissus" is usually used for the varieties having small cups or crowns. Jonquils are also a type of Narcissus; they usually bear their flowers in clusters and have rush-like foliage. Many of the Jonquil Hybrids have only the single flower and ordinary foliage. The name "Narcissus" is correct for any or all of the different types.

### *A Few Suggestions for Growing Daffodils*

They will thrive in any well drained garden soil. Prepare the soil deeply, 12 inches or more is best. Plant at least 6 inches deep, extra large bulbs are better planted 7 or 8 inches deep. (Some varieties make larger bulbs than others.) No manure should come in contact with the bulb. If the soil needs fertility, use bone meal at the rate of one-fifth pound to the square yard. This should be thoroughly mixed with the soil under the bulb.

A mulch of straw or leaves will be beneficial in very severe climates. If the mulch is applied after the first freeze, it will prevent thawing and heaving.

"I was very much pleased with the bulbs I bought from you last year. . . . I enjoyed reading the first page of your catalog and I am sure with your honesty and uprightness and love of flowers you have a future of success." Mrs. D. E. T., Tennessee.

CLEOPATRA

## YELLOW TRUMPET DAFFODILS

Letters following varieties represent the time of blooming. E—early, M—medium, L—late.

**AEROLITE.** E. The large flower is beautifully proportioned, giving the impression of gracefulness, despite its size; perianth deep primrose, with a pure yellow trumpet which is left in bold relief by the broad pointed star formed by the flat opening outer petals, an inch and a half wide. A splendid keeper either in the garden or after being cut. **Each 15c; doz. \$1.25.**

**CLEOPATRA.** L. A splendid flower with large light yellow trumpet; lemon yellow perianth with overlapping petals. Very late and a splendid keeper. **Each 15c; doz. \$1.25.**

**DIOTIMA.** E. Considered by many to be the best of the new super-giant yellow trumpets. The flower is beautifully proportioned and is carried gracefully on flattened tapering stems, two feet tall. ## POLYANTHUS NARCISSUS

Producing clusters of fragrant flowers; not recommended for outside planting, except in mild climates.

Bulbs of these varieties, grown in pebbles, can be had in bloom from Christmas until Easter. Upon arrival, plant immediately, if wanted early, and put in a cool place, free from frost. When well rooted they can be taken into heat, the milder the temperature the finer the flowers. For a succession of bloom, plant at intervals of two weeks, keeping unplanted

bulbs in a moderately cool temperature and dry. The water requires changing occasionally, a little powdered charcoal added to the water, helps to keep it fresh. The earlier the bulbs are planted, the longer the time required for rooting; December plantings root very quickly. Soleil d'Or will give best results if not brought into heat until the buds start to show.

**GRAND SOLEIL D'OR.** Yellow with bright orange cup. Very fragrant and colorful. Top size bulbs. Each 10c; doz. \$1.00.

## PLANTING STOCK

Planting stock is rarely found listed in bulb catalogs as growers prefer to plant their offsets or slabs. In the course of a year or two these slabs grow into the round and double nose bulbs of commerce. A large percentage of these bloom the first season and all should bloom the second year. Anyone wishing to work into the cut flower trade or commercial bulb business would find it to his advantage to acquire stocks in this way. **THIS OFFER EXPIRES AFTER THE 15th OF SEPTEMBER**, when I begin my fall planting. In some cases stocks are limited, so it would be advisable to give second choice. No substitutions will be made unless requested. All prices quoted sent **EXPRESS COLLECT**. NOT LESS THAN 25 BULBS OF ONE VARIETY sold at these prices.
