GROWER OF CHOICE DAFFODILS

P. O. BOX 977

SALEM, VIRGINIA

ROYAL HORTICULTURAL SOCIETY of LONDON

C L A S S I F I C A T I O N of D A F F O D I L S

DIVISION 1. Trumpet Narcissi : one flower to the stem, with the trumpet as long as, or longer than the perianth segments (petals).

Examples - Kingscourt, Preamble, Cantatrice.

- (a) Perianth colored (varying shades of yellow); trumpet colored also, - not paler than the perianth.
- (b) Perianth white; trumpet colored (usually some shade of yellow).
- (c) Perianth and trumpet white, - or nearly so.
- (d) Any other color combination, such as the trumpet being lighter in color than the perianth.

DIVISION 2. Large-Cupped Narcissi : one flower to the stem; crown MORE than one-third, to nearly the length of the perianth segments.

Examples - Galway, Green Island, Kilworth.

- (a), (b), (c), and (d) as in Division 1., - except that in (a) the colored crowns may be yellow, or orange, red, etc., and in (b) wholly or in part yellow, orange, red, pink, buff, apricot, salmon, etc., etc.

DIVISION 3. Small-Cupped Narcissi : one flower to the stem; cup Less than one-third the length of the perianth segments.

Examples - Mangosteen, Matapan, Chinese White.

- (a), (b), and (c) as in Division 2.

DIVISION 4. Double Varieties.

DIVISION 5. Triandrus Narcissi, of Garden origin : usually 3, (sometimes more, or less) white, creamy white, or pale yellow flowers per stem.

Examples - Tresamble, Stoke, Silver Chimes.

- (a) Cup, or Corona NOT less than two-thirds the length of the perianth segments.
- (b) Cup, or Corona LESS than  $\frac{2}{3}$  the length of the perianth segments.

DIVISION 6. Cyclamineus Narcissi, of Garden origin : medium sized or smaller flowers, usually with reflexed petals.

Examples - February Gold, Dove Wings, Beryl.

- (a) and (b) as in Division 5.

DIVISION 7. Jonquilla Narcissi, of Garden origin : usually golden yellow, more or less fragrant, and with one to three or more florets per stem.

Examples - Hathor, Golden Perfection, Cherie.

- (a) and (b) as in Divisions 5 and 6.

DIVISION 8. Tazetta Narcissi, of Garden origin : mostly Poetaz Hybrids, with 3 to 6 or more, more or less fragrant florets per stem.

Examples - Geranium, Martha Washington, Golden Dawn.

DIVISION 9. Poeticus Narcissi, of Garden origin : - the Poet's Narcissi, snow-white petals, and red-rimmed cups or eyes.

DIVISION 10. Species, and wild forms. Example - Jonquilla single.

DIVISION 11. Miscellaneous, - those not falling in any other group.

## C O N T E N T S

### DAFFODILS - pages 7 to 15

A superb selection of outstanding varieties is offered. A number of varieties listed last year are not now available, but other (mostly newer) varieties will be found in their place. My stocks of many of the newer and higher priced varieties are limited; therefore needed bulbs of these will be purchased from the originator, - or other leading and most reliable growers. Then, I find it impossible to keep up with all the fine new varieties coming out every year, - to grow them, or even to list them. However, I can still supply many of these wonderful varieties, - most of those originated and/or offered by Messrs. Dunlop, Jefferson-Brown, Richardson, and Wilson, as well as G. Mitsch, - bulbs of their own growing, in most instances, at their (Retail) catalogue prices, with no discount, - IF YOUR ORDER IS SENT IN TO ME EARLY THIS SPRING. Thus, it is possible to secure most of the Daffodils you will want, from these growers and others, together with desired Tulips, Hyacinths etc., all in one order, likely with less postage cost, and no need to bother with Import Permits.

ADS Members : if you have catalogues from the above mentioned growers, you will find on comparison, that my prices as given are somewhat higher than theirs. This is because of the fact that many of my orders are received thru Garden Clubs, to which generous discounts are given, - so my prices must be set so that I can afford these discounts.

You as individuals are also entitled to a discount, if your order is sent in prior to May 15th., - and the application of this discount, at least that on larger orders, will make my prices and theirs (Mitsch, Richardson, etc.) practically the same. (If you prefer, you may use the originator's prices instead of mine, - but with NO DISCOUNT.)

### DUTCH IRIS - page 17

These are about the latest of the Spring-flowering bulbs, coming after the late Tulips. Fine for cutting, or garden and yard decoration. The bulbs resemble Tulips somewhat, but are smaller. Varying shades of blue, and yellow, and whites, predominate.

### HYACINTHS - page 17

Blooming fairly early in the Season, with the Daffodils and early Tulips, Hyacinths are ideal for planting with them, especially as an edging for beds of these other flowers; and they are very effective in beds or borders by them-selves, either all one color, or in blending or contrasting colors. They are also splendid for indoor culture. Offered in a wide range of colors, - white, pale yellow, pink, all shades blue & purple.

### TULIPS - pages 18 to 22

An "out of this world" selection of these is offered, highly recommended varieties, in many types, and all colors of the rainbow; a number of fine new Fosterianas are included, and many Hybrid Darwins, including some of the new yellow ones. Many other varieties not herein listed can also be supplied (if you wish several dozen or more of a variety), if you will ask for quotations on these varieties, and send in your order this Spring.

Tulips, as well as Hyacinths and the other smaller bulbs, should be planted in quantity, for mass effect, - preferably several dozen or more of a variety. The Fosterianas, Single and Double Earlies, Mendels and HYBRID Darwins as a rule bloom at about the same time as the Daffodils, while the others mostly come later. Liberal use of these gorgeous flowers will enhance the beauty of your home-grounds thru the Spring-bulb Season, and add several weeks to the length of this enchanting time.

## C O N T E N T S (cont.)

### CROCUS - page 16

- endearing harbingers of Spring, in white, yellow, blue, purple, and blue and white striped.

### MUSCARI - page 16

- Grape Hyacinths, one of the most familiar and popular of the smaller bulbs; hardy and long-lasting. Splendid in rock gardens.

### SCILLAS - page 16

The Scilla, or Squills, are excellent in rock gardens, among shrubbery, under trees, etc., etc. The bulbs increase rapidly, are hardy, and will last for years. The 'Sibiricas' are early blooming, and quite small, - Spring Beauty is the larger, but still only around 6 inches. The 'Campanulatas', or wood hyacinths, are taller, up to 18 inches, and later blooming, usually with or after the late Tulips. Their slender spikes somewhat resemble Hyacinths, and they come in different shades of blue and pink, and white. They prefer partial shade, and so are right at home under shrubbery and trees, even Pines and Hemlocks, - but not too close to their roots.

\* \* \*

### ROYAL HORTICULTURAL SOCIETY CLASSIFICATION of DAFFODILS - page 2

- a listing of the different Divisions, and sub-divisions, with their characteristics, found and recognized in the Daffodil family, as established, and revised, by the Royal Horticultural Society, of London. (The R.H.S. Classified List of Daffodil Names, giving the Classification, and the originator, of most varieties now generally grown, - close to 10,000 of them, - is offered on page 6.)

## T E R M S, C O N D I T I O N S o f S A L E

MINIMUM ORDER - not less than \$3.50

EARLY ORDERING - every year I receive orders at planting time for items which I cannot at that time supply, whereas if I had received these orders in the Spring, I would have been able to get them for you, in case I did not have them myself. So, PLEASE place your order EARLY, - not later than May 15th., if at all possible. If necessary to send in your order much more than a month after that date, it would be well to list several second choices, in case some of the desired varieties cannot then be supplied, - or give permission for me to substitute similar, as good or better varieties.

DISCOUNTS - a generous discount, in cash, or extra bulbs (varieties of your choice) is allowed on these EARLY orders, received by May 15th., when accompanied by payment in full, including a sufficient amount for Postage (if shipment is to be by P.Post.) The size of the discount depends on the amount of the order; these figures will be found on the order-sheet which is enclosed, -(unless you have gotten this List thru a Garden Club which is getting up an order), - in which case the discount goes to the Club, to be used for some very worth-while project.

PRICES - those quoted are for highest quality bulbs, and in most cases top-size. 100 bulbs may be had for 7 times the dozen price, with no further discount, - as this 100 rate is in itself a 30% discount from the single bulb price (Daffodils). On Tulips and other bulbs which are priced per dozen, you will get more for your money on larger orders (30. up) by using the dozen price, and taking the discount. Also, concerning

PRICES (cont.) - tulip prices, if mine appear to be some higher than those in your local stores, the discount, especially if taken in extra bulbs (your choice of varieties), will bring mine down so that they compare very favorably with others.

PAYMENT - should be made in full with your order, - check or money-order, (excepting Garden Clubs), if you wish to take advantage of the discount allowed on early orders. Otherwise, 25% may be sent with the order, if you prefer, and the balance Sept. 1st., - or if you have established credit, on receipt of the bulbs.

Please add a sufficient amount for Postage, according to the following table, to the total of your order, - unless you wish it sent by Express, (P.Post usually costs less, except for larger shipments, going long distances). If too much is sent, - an appreciable amount, - extra bulbs will be sent for same.

QUANTITY*	ZONES 1 & 2 (to 150 mi.)	ZONES 3 & 4 (to 600 mi.)	ZONES 5 & 6 (to 1400 mi.)
$\frac{1}{2}$ dozen (or less)	.30	.35	.45
each addtl. half-doz.	.08	.12	.20

\*(these figures are for Daffodils and Hyacinths; for Tulips and the other smaller bulbs allow what one-third the same number of Daffodils would take, - minimum .35, if order is for these smaller bulbs only.)

If beyond the 6th. zone, please inquire at the P.O. as to the correct amount, allowing 3 lb. to the dozen for Daffodils and Hyacinths, 1 lb. per dozen for Tulips, and  $\frac{1}{2}$  lb. per dozen for the smaller bulbs.

DELIVERY - bulbs will be shipped at planting time, in September or October, with Northern orders going out first, in so far as possible. As noted elsewhere, many bulbs from England, Ireland, Holland, and the Pacific North-west, - beside my own, - are used in filling my orders, and those orders for which these bulbs are required cannot be sent out until I receive the bulbs. Sometimes this is not as early as I would like, and I am held up some in getting your orders out, but you will still receive them in good time.

GUARANTEE - I exercise every care and precaution in keeping stocks true to name, and buy bulbs only from other growers who do the same. However, mix-ups can occur during the rush of a busy digging or shipping season, and should this happen, and any variety prove untrue, same will be replaced; (but please remember that in a hot dry blooming season the coloring, substance, and even the form of many varieties is affected, so that they are hardly recognizable as the variety ordered.) This is especially applicable if the variety is of English or Irish origin, and you are going by the originator's description, - or if you have seen specimens of these varieties flown in from Ireland, where the Season is usually cool and moist, ideal for Daffodils.

Likewise, to the best of my knowledge, only sound healthy bulbs are sent out; my fields and harvested bulbs, and those of the growers from whom I buy bulbs, are regularly inspected by the proper authorities. Any bulbs failing to come up the first year will be replaced, - unless this failure should be the result of poor drainage, as evidenced by water standing for any time after a rain. No further responsibility can be accepted for their behaviour, as this is determined by circumstances beyond my control.

\* (This past season of 1963 was the worst I have ever known, in this respect. With no rain to amount to anything at any time during the blooming season, and temperatures in the upper 70's and 80's, most of the many 'red cups' I grow, especially the 2a's, were a complete failure, with no coloring at all. On the other hand, many Trumpets were better than usual.)

AMERICAN DAFFODIL SOCIETY - the 1964 Convention of the A.D.S. is to be held at the Battery Park Hotel, in Asheville, North Carolina, April 2nd. thru the 4th., - with the Judging School on the 5th. There will be an interesting program, featuring visits to outstanding gardens and homes, - the Biltmore estate, for one, - the Daffodil Show, lectures, discussions etc. on topics of interest, - and much more. After dinner speakers will be Mr. B. Y. Morrison, of Pass Christian, Miss., and Dr. Edgar Anderson, of the Missouri Botanical Gardens, at St. Louis.

If you are not a member of the A.D.S., but would like to be, just send your name and (complete) address to Mrs. Grover F. Roennfeldt, 7426 Lynn Ave., University City, 30, Mo., together with \$5. as annual dues, - 7.50 for husband and wife.)

GARDEN CLUB of VIRGINIA STATE DAFFODIL SHOW - this will be held at the Court House Country Club, in Fairfax, on April 14th. and 15th. This is one of the top Daffodil Shows in the country, as well as one of the first, - this will be the 30th. Annual Show.

ROYAL HORTICULTURAL SOCIETY 'Classified List of Daffodil Names' - the latest (1961) edition, - \$1.25 postpaid.

"THE DAFFODIL" - by Michael Jefferson-Brown; I have a few copies of this comprehensive and authoritative book on hand. The price is \$3.50

#### C U L T U R A L   N O T E S

Daffodils are among the easiest of flowers to grow. Given only a little care, and a few required conditions, they will reward the grower with an ever increasing wealth of beauty, year after year. They prefer a sandy loam, but will do well in any good WELL DRAINED garden soil. Planting should be done in time for the bulbs to make good root growth before winter, - early Sept. thru Oct., depending on where you live. I have planted bulbs here in Va., in mid-December, and had them do well, but this is not recommended. Large bulbs should be set from 5 - 7 inches deep, - to the base of the bulb, - or even deeper for Naturalized plantings. The distance between the bulbs may be anywhere from 6 inches, up.

If the soil is rich, no fertilizer is necessary, at planting time; if just average, bone-meal, pulverized cow-manure, compost, and the like are good, - (but do not use too much). These should be thoroly mixed thru the soil at, or before planting time. It is best to prepare the beds where the bulbs are to be planted several weeks or more ahead of time, so that the soil will have a chance to settle first. A light top-dressing of these, or other fertilizers, applied during the late Fall or winter before the second, - and subsequent blooming seasons, will be found beneficial. If you wish to use a chemical fertilizer, it should contain little or no nitrogen, but substantial quantities of phosphorus and potash. A mulch of peat-moss, spoiled hay, or other good mulching material, applied during the winter, will be helpful in many ways, not the least of which is preventing heavy rains from splashing and spoiling the flowers.

Daffodils should not be planted in lawns, or any place where the foliage will be cut off before it ripens, as this foliage is needed to mature the bulbs. One of the nice things about Daffodils is that they need not be dug and re-planted every year, - every 3 or 4 years is sufficient, or when they have increased to the point that they are too thick to bloom well. Naturalized plantings, if planted deeply, so that they increase slowly, may be left undisturbed for 10 or 15 years, or more, producing good crops of flowers each year. On the other hand, if blooms are desired for Exhibition purposes, better flowers will result if the bulbs are dug and re-planted (in a different location) every second year. (These blooms for Exhibition may be given at least partial protection from wind and storm, by planting on the lea-ward side of buildings, hedges etc., or by constructing temporary fences, and covering.)

## C U L T U R A L   N O T E S   (Cont.)

Digging may be done when the leaves have turned mostly yellow, six weeks or so after the end of the blooming season; it is not necessary to wait until the tops have died down completely, - in fact it is better not to do so, as it is then harder to find the bulbs, and in a rainy season some may already have started new root growth for the following season (especially Poeticus, and Poetaz varieties) by this time. The bulbs should not be left out in the sun, but placed immediately in a cool airy building, in flat boxes or mesh bags. The tops may be left on to dry up, or broken off, as you prefer. After curing a month or six weeks, the roots and outer skins will be dry enough to be removed; this may be done by hand, or by shaking gently in a mesh or burlap bag. Bulbs which pull apart easily should be separated, - otherwise not. Replanting, as described in the beginning of these notes, should then be done in September or October.

## D A F F O D I L S

Limited space allows only the briefest of descriptions, which are very inadequate, and which make many varieties appear to be very similar. However, if you have seen these varieties at Shows, or in your friend's (or other's) gardens, you can see that most are quite distinct, with characteristics of their own. If you have attended some of these Shows and/or visited gardens where they are featured, you likely have made lists of the varieties which you would like to have in your garden next Spring. If you have not been able to do this, there is still sufficient information given here to enable you to select the desired varieties to fill your needs.

The number and letter preceding the variety name denotes the Class, or Division to which that variety belongs, - whether it is a Yellow Trumpet, a Bi-color Large-cup, Triandrus, Poeticus, or whatever; (see the R.H.S. Classification of Daffodils, on page 2, - inside front cover.)

Varieties marked with an asterisk (\*) are especially recommended for landscape use, and cutting. They are strong growing and free-flowering, and priced so that they may be used in quantity. Varieties with (EX.) before the description are Exhibition varieties, those which if well grown, and given a little special care and protection, should win Blue Ribbons for you, at your Daffodil or Spring flower Shows. (Many other varieties, not so designated, are also often 'winners'.)

The (abbreviated) names in parentheses, following the variety name, are those of the originators. The letters following these give the relative approximate blooming season of the variety: EE - extra early; E - early; EM - early mid-season; M - mid-season; LM - late mid-season; L - late; LL - very late.

Prices are per single bulb, - with 12 for the price of 10, and 6 or 3 at this same rate (6 for the price of 5, and 3 for 2½ times the single bulb price.)

	EACH
9 *ACTAEA (Lubbe)(LM)(EX.) large outstanding Poeticus	.25
3b ACCOLADE (Rich.)(LM)(EX.) pure white and intense solid red	2.00
2a *ADVENTURE (Chapman)(EM) all yellow; large crown, long stem	.30
3b AIRCASTLE (Mitsch)(LM)(EX.) greenish beige; apricot-lemon crown	4.00
2a AIR MARSHALL (Rich.)(LM)(EX.) intense golden yellow & oran.-red	2.15
2a ALAMEIN (Rich.)(M)(EX.) golden yellow and deep orange-red	.45
2b ALDERGROVE (Dun.)(M)(EX.) outstanding Bi-color; fine form	4.50
3b ALEPPO (Brodie)(LM) white, with large almost flat red crown	.55
1b ALL GLORY (U.de Boog.)(M) fine Bi-color; pure white and yellow	.45
3c ALTYRE (Brodie)(LM)(EX.) broad perianth, frilled cup; pure white	1.00
3b AMATEUR (van Deur.) white, with large flat scarlet crown	.25
2a AMBERLY (Stern)(M)(EX.) smooth clear golden yellow	.45
1c ANDES (Rich.)(EM)(EX.) fine large pure white flower	2.15

	EACH
2b ANN ABBOTT (Johnstone)(LM) very attractive 'pink'	1.50
3a APRICOT DISTINCTION (van Deur.)(M) pale apricot; orange-red cup	.75
2b APRIL LOVE (Dutch) white; yellow crown, banded orange-yellow	.50
2a *ARANJUEZ (War.)(M) clear yellow, with orange-red banded crown	.30
2b ARBAR (Rich.)(LM)(EX.) pure white, with reddish orange crown	2.25
2c ARCTIC DORIC (G.L.Wil.)(EM)(EX.) purest icy white; exquisite form	8.50
2c ARDBANE (G.L.Wil.)(EM)(EX.) icy white, tinted green at base	6.75
3a ARDOUR (Mitsch)(EM)(EX.) rich yellow and intense deep orange-red	1.10
3b ARGUROS (U.de Boog.)(LL) creamy white, with partly green cup	.30
1a ARK ROYAL (Rich.)(M)(EX.) fine large golden yellow Trumpet	1.10
2a *ARMADA (G.L.Wil.)(E)(EX.) sturdy, early yellow and red	.60
2b *ARUBA (Grul.)(M) white; large, pale yellow crown, edged orange	.40
2c AVE (G.L.Wil.)(M)(EX.) pure white, smooth and symmetrical	2.10
2b AZALEA (O.B.F.)(L) a charming pink; smooth white perianth	.50
2a BACKHOUSE GIANT (Back.)(M) yellow, with trumpet-like orange crown	.60
3b BALLYCASTLE (Dun.)(LM)(EX.) lovely white flower; pinkish-orange rim	1.00
1b BALLYGARVEY (Dun.)(M)(EX.) pure white and deep golden yellow	1.75
3a BALLYSILLAN (G.L.Wil.)(E) clear yellow and vivid deep red	.65
1a BANBRIDGE (Rich.)(M)(EX.) smooth deep gold, of excellent form	2.00
1a BASTION (G.L.Wil.)(LM)(EX.) smooth gold.-yellow; late for a Trumpet	.75
1a BAYARD (Rich.)(LM)(EX.) superlative Show flower, of deepest gold	4.00
1c BEERSHEBA (Engle.)(E) still popular white Trumpet	.30
2b BELISANA (van Tub.)(M) white; yellow crown, frilled orange	.75
2b BELLEVUE (Dun.)(M) sparkling white and unusual bright orange	2.35
1a BELTANY (G.L.Wil.)(LM)(EX.) deep smooth gold; finest quality; late	2.65
2a *BERMUDA (War.)(EM) soft yellow and clear orange; large	.25
6b *BERYL (P.D.Will.)(EM) cream-yellow and gold; reflexed petals	.30
2c BESSBROOK (Dun.)(M) all white (crown opens cream); of fine quality	4.50
2a *BETTER TIMES (War.)(EM) yellow, with light orange crown	.35
2d BINKIE (Wolf.) sulfur-lemon; crown passes to near-white	.45
3b BITHYNIA (Mitsch)(LM) white; creamy crown, margined light apricot	2.00
2b BIZERTA (Rich.)(M) white, with apricot-chrome crown	.30
3b BLARNEY (Rich.)(LM)(EX.) creamy white; flat salmon-rimmed crown	.55
2b BLARNEYS DAUGHTER (Rich.)(LM) white and deep apricot-orange	1.10
2a BORDER CHIEF (Rich.)(LM)(EX.) golden yellow and orange-red	3.50
4 BRIDAL CROWN (Schoorl)(EM) quite similar to 'Cheerfulness'; earlier	.50
2c BROOKFIELD (Dun.)(EM)(EX.) lovely large flower, all white	4.50
2b *BROOKVILLE (Grul.)(M) white, with pale yellow ruffled crown	.30
1c BROUGHSHANE (G.L.Wil.)(M)(EX.) fine large tall white Trumpet	.65
1c BRUSSELS (Rich.)(M) large flower, purest white throughout	1.25
3c BRYHER (Favell)(L)(EX.) white, with small green-centered cup	1.00
2b BUNCRANA (Rich.)(LM) white, with rich peachy-orange crown	.40
1a *BURGEMEESTER GOUVERNEUR (van Deur.)(M) good yellow Trumpet	.35
2a *CAL. GOLD (Barr)(E) deep golden yellow and rich orange-red	.35
1c CANOPUS (Rich.)(LM)(EX.) purest white; fine form and substance	2.50
9 CANTABILE (G.L.Wil.)(L) frosty white; red rimmed, green centered cup	.65
1c CANTATRICE (G.L.Wil.)(M)(EX.) purest white; fine form	1.00
2a *CARBINEER (A.M.Wil.)(EM) yellow and orange-red	.25
2b CARITA (O.B.F.)(M)(EX.) giant coppery pink bowl-shaped crown	7.25
2a *CARLTON (P.D.Will.)(E) all yellow; excellent for borders etc.	.25
3b CARNMOON (G.L.Wil.)(L) white, with lemon-rimmed green eyed cup	1.65

\* \* \*

GIFT ORDERS - it would be hard to find a more appropriate, or more appreciated gift for a garden-loving friend, than a nice assortment of daffodil bulbs, for any amount you wish to spend, from \$5.00 up. The friends so remembered will be reminded of your thoughtfulness each Spring when the bulbs burst into bloom, year after year.

		EACH
2b	CASTLECOOLE (Dun.)(LM)(EX.) white, with creamy white crown	2.00
2c	CASTLE OF MEY (G.L.Wil.)(M)(EX.) ice-white, with tinge of green	7.00
5a	CATHEDRAL (O.B.F.)(LM)(EX.) two or three large pure white florets	2.50
2a	CEYLON (Rich.)(EM)(EX.) golden yellow and rich orange-red	.75
2b	*CHAMPAGNE (van Leeuw.)(M) white; large creamy salmon-pink crown	.35
6a	CHARITY MAY (Cole.)(M)(EX.) charming all yellow Cyclamineus	.60
4	*CHEERFULNESS (LL) 3 - 5 creamy white double florets per stem	.25
2a	*CHEERIO (Brodie)(EM) yellow, with frilled orange-red crown	.40
7b	CHERIE (Mitchell) 1 - 3 blooms; white, with pale pink crowns	.50
2b	CHINA MAID (Grul.)(M) creamy white; yellow crown, darker at edge	.60
2b	CHINA PINK (G.L.Wil.)(LM)(EX.) white, and bright rich pink	6.00
3c	CHINESE WHITE (G.L.Wil.)(LM)(EX.) white; still a favorite	1.10
2b	CHINOOK (Mitsch)(EM) creamy white; large salmon-orange-yellow crown	.65
3a	*CHUNGKING (G.L.Wil.)(M)(EX.) golden yellow and rich orange-red	.30
2b	CLACKAMAS (Mitsch)(M) white, with pale orange edged crown	.45
3b	CLOGHEEN (Rich.)(M)(EX.) white; flat pale yellow crown	5.50
3b	COLORATURA (Mitsch)(LM)(EX.) white; large crown, frilled apricot	4.75
2a	*CONFUOCO (U. de Boog.)(M) golden yellow and glowing orange-red	.35
1b	CONTENT (P.D.Wil.)(EM)(EX.) soft pale lemon, brim of trumpet darker	.75
2b	CORALIE (Clark)(M)(EX.) white, and exquisite soft rose pink	1.00
1c	CORINTH (Brodie)(M) white, with bold ivory trumpet	.85
3b	CORNCRAKE (G.L.Wil.)(L)(EX.) white, with frilled orange-red cup	1.00
1a	COUNSELLOR (G.L.Wil.)(LM) late golden yellow Trumpet	.55
2c	COURAGE (G.L.Wil.)(M)(EX.) purest white throughout	.60
2a	COURT MARTIAL (Rich.)(M)(EX.) bright yellow and rich orange-red	1.75
2a	CRAIGYWARREN (Dun.)(EM)(EX.) rich yellow and crimson; large	.75
2b	CREBILLY (Dun.)(EM) white; creamy crown, flushed greenish-lemon	.65
3b	CREPELLO (Rich.)(L)(EX.) white; small cup, frilled greenish-lemon	4.50
2a	CRESCENDO (J.C.Will.)(EM) yellow, with orange-scarlet banded crown	.30
2b	CROWN JEWEL (Dutch) Creamy white; large bright orange crown	.65
3c	CUSHENDALL (G.L.Wil.)(LL)(EX.) white; cream frilled, green center, cup	.75
3c	DALLAS (Brodie)(L)(EX.) white, with greenish centered cup	2.25
2b	DARING (O.B.F.)(M) white, with dainty pink crown	.45
2b	DAVIOT (Brodie)(M)(EX.) white; orange-coral cup, primrose at edge	1.00
2d	DAYDREAM (Mitsch)(M)(EX.) glowing lemon; crown fades to near-white	7.75

4 GOLDEN DUCAT (Speelman) symmetrical golden yellow Double (M)(EX)	.45

\* \* \*

HOLLAND GROWN DAFFODILS - as it is impossible for me to grow all the bulbs needed to fill my orders, many of these orders are filled in part with Dutch grown bulbs. They produce wonderful flowers the first season; in subsequent seasons they often produce a larger number of blooms, which sometimes are of less substance, and the stems not so sturdy as desired. By taking these bulbs up after the second season, dividing and re-planting them (all this at the proper time, - see Cultural Notes, on pages 6 and 7), they will again produce the same fine quality flowers, and will not again need replanting so soon.

	EACH
1a GOLDEN GODDESS (Rijnveld)(M) rich deep yellow	.40
1a *GOLDEN HARVEST (War.)(E) early large yellow Trumpet	.35

L I L I E S : I can supply the famous Jan de Graaff Hybrid Lilies; these lovely flowers, in dozens of different forms, and many colors, are just as thrilling and exciting in your Summer garden, -(a selection of varieties may be made so that you will have them in bloom from early June until October,)- as are the Daffodils in the Spring.

If interested please write for prices, and color folder, showing thirty some varieties in gorgeous color.

## D A F F O D I L     S H O W S
