

HERMITAGE GARDENS
DAFFODILS

1938

EDWIN C. POWELL

ROCKVILLE, R. F. D. 2

MARYLAND

HERMITAGE GARDENS are located at Aspen, Md., 7 miles north of the Md.—D. C. line on the Brookville (Seventh Street) Pike, route 97 out of Washington; and from Baltimore through Ellicott City to Olney, then south on route 97 about 5½ miles.

An exhibit of the popular varieties is maintained during the flowering season, which begins in late March and continues to mid-May. Visitors are cordially invited to see it, as well as the gardens in which are growing more than 400 of the better varieties and thousands of seedlings.

The production of new varieties from controlled crosses of the best varieties and species has been an absorbing hobby since 1925. Among the thousands that bloom each year are many of the very highest quality. They must be seen to be appreciated. It is not possible to describe them in the limits of this catalog. The best are offered to appreciative daffodil lovers at very moderate prices.

Figures in parentheses following name indicate the relative season of bloom, 1 being earliest, and 6 latest.

Orders accepted subject to crop and previous sale. If any variety is sold out I will substitute a variety of similar character and value unless the purchaser instructs otherwise.

No orders accepted after October 1.
