SASSENHEIM, Season 1950

*Dear Flower-Lover,*

It is with pleasure that we are sending you herewith our new catalogue, from which, we sincerely hope you will be able to make your choice. The writer is a native of the bulb-district of Holland and he remembers all the old standard varieties of daffodils, tulips and hyacinths, while he has been able to witness the creation of so many novelties that have arisen the past decennias. He also had the satisfaction to raise himself several of the new daffodils that have found their way all over the world. He still considers flowers as „the finest gifts from Heaven” and it is therefore that he is full-heartedly doing his utmost to supply only the best quality of well grown and well cured bulbs. Thus he makes sure his customer will get such bulbs as are capable to produce the best and strongest flowers.

We have been sending our catalogues more than 30 years and every year the number of our customers is vastly increasing. Our prices are for the best quality only and for delivery *all cost prepaid to destination*. (See our terms on opposite page).

If we may have your early order we can make sure that all the varieties you wish to order are being reserved for you until shipping time.

We do not ship the bulbs earlier than necessary, as the high temperature (e.g. at the end of August) during transit might be detrimental to the bulbs.

Respectfully inviting your commands we are

Very truly yours,

In case you are not ordering this season, please render this catalogue to a friend.
